Magnitude of Russia.

Magnitude of Russia. Russia is the greatest unbroken empire for extent that ever existed, occupying vast regions of Europe and Asia, and nearly one-sixth of the habitable globe. It is forty-one tines the size of France, and on-shundred and thirty-eight times that of England. Yet it was too small for the ambition of Alexander, who is re-ported to have said, "I insist upon having the Baltic to skate upon, the Caspian for a bahling place, the Black Sea as a wash-hand basin, and the North Pacific Ocean as a fish-pond." He "eneroached on Tartary for a pasture, on Finland and Lapland as a hunting ground, and took part of North America as a place of banish-ment for offenders." PottotAMT.--A lady in Utah, a wife of one of the Mormon leaders, writes to her sister in New Hampshire, a long letter, defending poly-gander, is reported Abraham, Isaac and Jacob, and the holy me mentioned in the Bi-ble. She says her hubband, who is a member of the Legislative council, has seven other wires, wilde is a moder the number for a lender of the faith, as Rigdon, the high priest of Mor-moniam, it is reported, has furtysik. The children of these eight wives number twenty-tive.

children of these eight wires number twenty-five. A REMEAT OF ANCHART SUPERSTITION.—A Gormen, known as Dutch Charlie, was recent-ty murdered in Colorade contry, Texas. As the body was surrounded by people, an Irish-man proposed that those present should suc-cessively place their hands upon the body of the decenace—believing that, whenever the murderer tonched it, the wounds would com-mence bleeding anow. The suggestion was acted upon, and, says a correspondent of the Richmond (Texas) Inquirier, as soon as a man named Hiltebrant applied his hand, the blood heart to flow. Hiltebrant was nerested, and horty afterwards committed suited by hang-ing hinselt. Rail Rood Hours.
