PULVERMACHER'S

PULVERMACHER'S

Hydro-Electric Voltaic Chains,
A RE for the first time introduced to the people
A of Huntingdon and vicinity, as the most conreceived, gletcald, and strictly scientific mode of
instantly relieving and permanently curing all
NERVOUS DISEASES.

Now we know that an announcement similar to
the above meets the eye of the reader almost daitly, and perhaps this may be classed with many
others. But listen or you do us injustice. It is
claimed that Pulvermacher's Electric Chain, is
the only magnetic remedical agent that is secured
by patent, granted by this government, on the
ground that it was a strictly useful and scientific
article. The Chains are now on exhibition at
the Crystal Palace, and attract much attention
from the thousands who daily visit it.
MODE OF USE.

The manner of using the chains is very simple.

from the thousands who daily visit it.

MODE OF USE.

The manner of using the chains is very simple. The chain is first moistened with common vineagr, and then one end of the chain is applied to the part where the pain is located, and the other end opposate to the first. The ends of the chain should never touch each other. At the moment of application, the most caute pain is instandly relieved, wherever it is located, by the passing through the part a constant current of nuniterrupted electro magnetism. In the following diseases, no other remedy has ever given such complete and perfect satisfaction to the patient as Pulvermacher's chains: Rheumatism, Painfu and welled Joints, Pains in the Back, Deatness, Blindness, Parnly-sis, Neuralgia in the Face, Long standing Nervous Headache, Papitation of the Heart, General Debility, Dyspepais, Female Diseases, Ashtma, Contracted Joints, &c.

1000 DOLLARS

will be given to any person who will produce so many well authenticated certificates of cure from intelligent patients and scientific physicians, of the above diseases, as has been performed by the use of the Electric Chain during the past year.

ANOTHIER FACT.

ANOTHER FAUT.

It is truly the fact that wherever the electric hains have been introduced, bottled nostrums and ommon lard have greatly diminished in sale cople having become disgusted with the practice.

The Electric Chains are highly recommended by Professors Mott, Van Buren, Post and Carnocian, of New York; are also in daily use in every Hospinal in that city. The chains will last for years, are always ready for use, and produce nyears, are always ready for use, and produce no such as the control of the

years, are always ready for use, and produce no injurious results, when used as directed.

FEMALE DISEASES.

The introduction of the Electric Chain into this country is the dawn of a new era in medicine.—During the last twenty years, it can safely be estimated that ten thousand females have died yearly from this one disease.

PROLAPSUS UTERI.

It is well known to medical men that this common disease is beyond the reach of medicine, and that in proportion to the amount of medicine given, the more the patient is doomed to suffer, and sooner will death close the scene.

During the last 2 years more than one thousand cases of Prodepuss Uteri (falling of the womb) have been permanently cured in England and France. Most of those cases were ladies of high standing, who had previously tried all other kinds of treatment with no benefit. Among the distinguished ladies that have been cared in Paris is the present Queen of France. In this country, during the last year, one hundred cases have been cured in the city of New York, many who have allowed their names to be published for the benefit of those suffering with similar complaints.—The mode of use is simply to apply one end of a 30 link chain to the spine just above the links, and the other end upon the abdomen, and allow the chain to remain for one hour. This to be repeated four times during the twenty-four hours.

CHRONIC REHEUMATISM.

CHRONIC RHEUMATISM. The E The Electric Chains never fail to relieve the secence pains and swelling incident to this disease. The worst forms of this disease readily yield to a few applications of a chain, and in no single instance have they failed to give instant relief, if they did not effect a permanent cure. All persons who are victims of this usual wince complaint, are kindly invited to call and obtain a pamphia or IIORACE W. SMITE, Agent for Huntingdon county, who will also explain their mode of use.

tingdon county, who will also explain their most of nsc.

The electric chains can be sent by mail to any part of the United States, by addressing (post paid) any of the agents in the principal cities, or Joseph Steinert, 558, Broadway New York.

Mountain Female Seminary.

Mountain Female Seminary.

THE Mountain Female Seminary at Birmingham, Huntingdon country, Pa., on the Pennsylvania Railroad, occupies one of the most healthy and desirable locations in the State.—Strangers visiting the Institution have unhesitatingly expressed the opinion, that its oe asy of access, retired, healthful, and surrounded with such romantic mountain seenery, that no one who wishes to learn, could find an institution more favorably situated. Past success and future prospects have induced us to greatly enlarge our plans, and enabled us to give such compensation to teachers as will command those possessing the highest qualifications.

Cost, per term of 22 weeks, varies from \$5.5 to, for which good accommodations will be given. Music, French, Latin, Painting, &c., extra. Pupils from abroad are expected to beard in the Seminary building with the Principal, who gives hisentic attention to the interest of the Institution.

"This is without exception, the most comprehensive and intelligible work published on the
class of diseases of which it treats. Avoiding all
technical terms, it addresses itself to the readers;
it is free from all objectionable matter, and no
parent, however fusticious, can object to plecing
it in the hands of his sons. The author has devoted many years to the treatment of the various
complaints treated of, and 'with too little breath
to puff,' and 'too little presumption to impose,' he
has offered to the world at the merely nominal
price of 25 cents, the fruits of some twenty years
most successful practice."—Headd.
