White Sulphur and Chalybeate Springs, AT DOUBLING GAP.

THESE Springs are now open for the reception of visitors. They are situated in Cumberland county, Penn'a., 30 miles west of Harrisburg, and are accessible by the Cumberland Valley Railroad to Newville; from thence in good coaches and over easy roads eight miles to the springs. Many improvements have been made since the last year, and the recent discovery of the Chalybeate Spring adds greatly to the inducements presented for the present season. The accommodations for bathing in all the usual modes—water Hot and cold, fresh or mineral—Persons visiting us will find a happy retreat and a pleasant home. Below you have the analysis of our Sulphur and Chalybeate Springs.
SCOTT COYLE, Proprietor.

ANALYSIS OF THE WHITE SULPHUR AND CHALYBEATE SPRINGS.

The odor of Sulphuretted Hydrogen, perceived at some distance from the Spring, imparts to the water the peculiar properties of Sulphur Springs. Besides this ingredient, I find that the water contains Carbonate of Soda, and of Magnesia, Glauber's Salt, Epsom Salt, and Common Salt, ingredients which give it an increased value. After removing the excess of Carbonic Acid which it contains, it gives an alkaline reaction. The Chalybeate water readily yields a precipitate, after ebullition or continued exposure has expelled the excess of Carbonic Acid. Besides the Bicarbonate of Iron, which is its chief characteristic, it also contains Epsom Salt, Common Salt, and Carbonate of Magnesia.

Respectfully yours, JAS. C. BOOTH.

CERTIFICATE OF PHYSICIANS.

Having examined the elements that enter into the composition of the White Sulphur and Chalybeate Springs, of Doubling Gap, as exhibited in their analysis by Professor Booth, of the Mint, a practised and competent chemist, are authorized to say, that they possess all the sanative properties of similar medicinal waters, in the various diseases for which their use has been recommended by Physicians.

ARMITAGE'S

Electro-Magnet Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentes takes pleasure in informing the public that he has arrived at the true principles of protecting families, dwellings and property from the destructive influence of Lightning. The calamities that every City, Town, Village and Country falls victim to annually, through the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in Armitage's Patent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors J. M. H. Johnson, Waller and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a storm this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of the laws of the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in Vine St. 3 doors above Twelfth, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For Wholesale and Retail, by THOS. ARMITAGE. Orders promptly attended to. Terms cash.

Recommendations.

PHILADA., Aug. 13, 1847.
I have this day carefully inspected a conductor of Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is not only the best that I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend this conductor to the attention of owners of buildings.
H. MCURTRE.
I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the rods of which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive sales in all parts of the country, is ample commendation of their utility and superiority.

TRACY E. WALLER, M. D.

Rising Sun, Philad., ca., April 10, 1852.

The following extract is taken from an editorial in the *Germanian Telegraph*, edited by Major

"The bogus rod placed upon our dwelling we have taken down; and another erected by Mr. ARMITAGE, to which we would call the attention of our farmers and readers generally. It is put up on true scientific principles, and it is not only approved by the highest authorities, and will bear the most thorough examination. Those who have been deceived, as we have been, should no time in having a proper protection against lightning, substituted. The cost is a mere bagatelle when compared with the destruction of our houses and barns against this destructive element. Mr. ARMITAGE's advertisement will be found in the columns of this paper; and we feel as though we were performing an important duty to the community, by thus inviting to its general attention."

PHILADELPHIA, Dec. 4, 1852.

Mr. T. ARMITAGE, Vine Street, west of Twelfth Street, Philadelphia.

MY DEAR SIR: As a trial of many weeks, it affords me great pleasure to inform you that I am highly delighted with the lightning rod you placed upon my house at Bustleton. As far as my chemical knowledge enables me to perform an opinion, I am satisfied you have developed the correct principle in the adoption of this rod to protect property from destruction by lightning; as soon as the advantages of your arrangements are understood, I am convinced that few persons will be found so reckless as to fail to avail themselves of the protection afforded by your rods. Wishing you all success in your enterprise.
I am yours truly,
JAMES MCCLINTOCK, M. D.,
No. 1, North Eleventh Street,
Professor of Anatomy, Philadelphia College of Medicine.

A Valuable Gift for Every Ticket.

Each \$1 Ticket entitles the holder to One Year's subscription to the Illustrated and Family Literary and Commercial Journal, called "THE WHOLE WORLD," and to Four Admissions to the Exhibition of the Whole World, and also to one of the 300,000 Gifts, thus insuring every person, investing in this stupendous enterprise the full worth of his or her money, and a rare chance to realize a fortune besides. Ticket buyers will also receive, engraved on their ticket, when purchased, an elegant Portrait of Professor Hart, and a correct and elaborate drawing of his splendid Country Seat, one of the Gifts, to which a Grand Free Excursion will be given.

When the 300,000 tickets are sold, the property will be placed at the disposal of a Committee appointed by the ticket holders of any place wherein the greatest number have been sold, to be distributed as shall be perfectly fair and satisfactory to all concerned; and judging from the increasing rapidity with which the tickets are being purchased, by all classes of people, in every part of the country, it is reasonable to conclude that the enterprise will soon terminate in the happiest style.

It will not be necessary for ticket holders to be present at the distribution of the Gifts, unless they wish to, as they will be sent by mail, in time and manner of the partition of the property, and all may safely rely upon the honorable fulfillment of the undertaking, and the perfectly fair and satisfactory disposition of the above named Gifts, which will be promptly notified as to what Gifts they will receive.

Any information relative to the Gifts may be obtained through the office of the World's Hall, where also may be had any responsible reference desired.

All orders by mail must be addressed, post-paid, money inclosed, to Prof. J. Woodman Hart, World's Hall, 377 and 379 Broadway, New York, and tickets, with a copy of the paper, will be promptly forwarded to any part of the world.

If any orders are received after the tickets have all been sold, the money will be promptly returned, post-paid, to the person sending it.

Correspondents will please write distinctly their name and residence, county and state, to prevent errors.

It is advisable for those desirous of securing a year's subscription to the unique Pictorial Journal called

"THE WHOLE WORLD,"

To remit the money immediately, in order to commence with the beginning of the volume.

Opinions of the Press.

The following notices of Prof. Hart's Whole World are cut from the principal Newspapers of New York:

Prof. Hart's Great Gift Enterprise is taking the city by storm. Almost everybody we meet has either purchased a ticket, or stands forth admiring the exhibition itself is one of the most interesting, instructive and ingenious ever exhibited in this country, and is worth fully one dollar to view it. The Professor will give a grand Free Excursion to every purchaser of his one dollar tickets to the City of New York, and also one of the gifts in his Great Enterprise, and a year's subscription to his valuable Journal, and also one of the 300,000 gifts.—Atlas.

Prof. Hart's Whole World.—This interesting and useful daily notice of the Whole World is at Nos. 377 and 379 Broadway. For one dollar four tickets may be procured for the exhibition, and one valuable gift, which may be an independent fortune for the receiver, and also one year's subscription to the Illustrated Journal called "The Whole World"—Herald.

PROF. HART'S WHOLE WORLD.—The success which this extraordinary, ingenious and comprehensive work of art is meeting, is commensurate with its merits; it is the first and only one of the kind ever conceived, and it stands forth as a monument of the unwearied patience and perseverance of man, and as a most wonderful development of mental fertility.—Tribune.

Shireburg Female Seminary,

Rev. JAMES CAMPBELL, A. M., Principal.

Junata Academy,

HUGH J. CAMPBELL, A. B., } Principals.
A. C. FENDALL, }

THE Summer Session of these Institutions

commenced on Wednesday, the 5th of May, and continues five months. They are situated in the retired Village of Shireburg, in the heart of one of the most lovely and fertile valleys of the Alleghenies.

In a rural district, among one of the plainest and simplest people of Pennsylvania, apart from the bustle and evils of a thoroughfare, or large town, convenient of access from all sides, with a community noted for its temperance and morality, and possessing a healing influence and unusually beautiful situation, this Village is a most desirable place for literary institutions, which strike the eye of every visitor. Each one possesses new and commodious buildings, and a full corps of teachers.—The are under entirely separate government and management, being starting to the same standard, a mile apart, and having nothing in common except that the use of the Academy Apparatus is given to the Seminary.

The course of instruction is thorough and extensive, embracing the branches usually taught in such institutions. These Schools offer two principal inducements; first, the most extensive and complete Philosophical and Chemical Apparatus in this section of the State, to which Prof. Hart has made the valuable addition of his choice collection of Astronomical and Mathematical Instruments, including a fine Astronomical Telescope second, the cheapness of the terms.

Wishing to render their Institutions, as far as possible, accessible to all, the Principals have reduced the price of boarding, washing, fuel, light, room rent, all very low, to \$15.00 to \$20.00 per session. The whole number of pupils at both schools, for the past year, was upwards of 100. Special Classes are formed for those wishing to qualify themselves for teaching.

A Key Department will be added to the Seminary, in which a course of lessons of 4 to 6 weeks will be given in Gilding and Bronzing, on wood and Stone, Embroidery on Satin, Crap, Lace, Muslin, and other cloths, Hair Rods, Hair Pins, &c. and in the manufacture of various articles, which will only require their attendance at the Seminary for the time of the course. Terms \$3.00.

Tuition payable in Advance. No pupils admitted for less than \$5.00 per session. Deduction for absence, except in cases of protracted sickness, or circulars and further information addressed (post paid) the Principals, Shireburg, March 29, 1854.—m.
