A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption. Asthma and all diseases of the Lung. We refer to "Dr. Curtis' Hygeans, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which he has innumerable certificates. Speaking of the treatment, a physician remarks: It is evident that inhaling—constantly breathing an agreeable, healing vapor, the melticinal properties must come in direct contact with the whole of the arial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeman is for sale at all the druggits! In the sweet of the process of the body being sufficient to evaporate the thurb.

The most extraordinary discovery in the World is the Great Arabian Remedy for Man and Beast.

CELEBRATED ARABIAN LINIMENT.

H. G. FARRELL'S GENUINE ARABIAN
LINIMENT is a most extraordinary medicine, the truth of which is placed beyond doubt by the vast sales of the article and the many cures being duily performed by it, which previously had resisted all other medicines and the skill of the best physicians in the world. It is composed of balsams, extracts and gams peculiar to Arabia—possessing, in a concentrated form, all their situalating, anodyne, peneteating, unentured to the standard of the sta

Desert, with such miraculous success, in enring the diseases of both man and beast.

Real the following remarkable cure, which
should of itself place H. G. Farrell's
Arabian Liminent far begond
any similar remedy.

Mr. H. G. Farrell—Dear Sir: Actuated by
a sense of gratefulness, I submit the following
as an instance of the littly of your great medicine. My child, three years old, was suddenly attacked with a terrible disease, which in
less than six hours prostrated it to total helplessness. The limbs became so rigid that not
a joint could be bent; the flesh turned black
and cold and entirely deprived of feeling; the
eves fixed, partially closed and altogether blind,
following this was deafness to all sounds; the
spine became contracted and so curved that
when lving on its back the head and heels only touched. Indeed, the child presented every
appearance of being dead. Immediately on
the attack, the family physician was called in,
and for three weeks he labored to restore it to
feeling, but all in vain, although it was blistered a dozen times and various rubefacient Liniments applied. A consultation of physicians
was then held, but to no purpose, the case was
then brought before the Medical Society, but
nothing could be suggested which had not already been done, and the dector then told me
he could do nothing more. We then commenced applying your Liniment freely over the entire length of the spine, and you may imagine
a parent's joy, when, after a few applications,
returning animation was apparent, and it rapidly recovered with the exception of the sight,
which did not become perfect for near a month.
The child is now healthy and robust as can be.
Five other cases of the same kind occurred
previously in my neighborhood, all of which
died, when there is no doubt if your Liniment
had been used they would have recovered.
