

**BALTIMORE LOCK HOSPITAL.**  
Where may be obtained the most speedy relief for  
**SECRET DISEASES.**—Gleets, Strictures,  
Seminal Weakness, Pain in the Loins, Affections  
of the Kidneys, and all those peculiar affections  
arising from a secret habit, particularly the youth  
of both sexes, which if not cured, produces con-  
stitutional debility, rendering marriage impossi-  
ble, and in the end destroys both Mind and Body.  
**Young Men,**  
especially, who have become the victims of Soli-  
tary Vice, that dreadful and destructive habit  
which usually sweeps to untimely graves thou-  
sands of young men of the most exalted talents  
and brilliant intellect, who might otherwise have  
entranced listening senses with the thunders of  
eloquence, or waked to ecstasy the living lyre,  
may call with full confidence.

**Married Persons,**  
or those contemplating marriage, being aware of  
physical weakness, should immediately consult  
Dr. J., and be restored to perfect health.

**Dr. Johnston's Office** is in his  
dwelling, up the steps. His very extensive prac-  
tice is a sufficient guarantee, that he is the only  
physician who applies the  
Dr. Johnston, member of the Royal College of  
Surgeons, London, graduate from one of the  
most eminent Colleges of the United States, and  
the greater part of whose life has been spent in  
the Hospitals of Europe, Paris, Philadelphia, and  
elsewhere, has effected some of the most aston-  
ishing cures that were ever known, many trou-  
bled with ringing in the ears and head when  
asleep, great nervousness, being alarmed at sud-  
den sounds, and faintness, with frequent blush-  
ing, attended sometimes with derangement of  
mind, were cured immediately.

**A CERTAIN DISEASE.**—It is a melancholy fact  
that thousands fall victims to this horrid disease  
owing to the unskillful ignorance of pretenders  
to the use of the deadly poison Mercury, ruin  
the Constitution, causing the most serious  
symptoms of that dreadful disease to make their  
appearance, such as affections of the head, nose,  
throat, skin, etc., progressing with frightful rap-  
idity till death puts an end to their sufferings,  
suffering, by sending them to that Bourne  
no traveler returns.

**TAKE PARTICULAR NOTICE.**—Young men who  
have injured themselves by a certain practice in-  
dulged in when alone—often frequently learned  
from evil companions or at evening parties, the  
effects of which are nightly felt, even when asleep,  
and if not cured renders marriage impossible, and de-  
troys both mind and body.

What a pity that a young man, the hope of his  
country, and the pride of his parents, should be  
snatched from all prospects and enjoyments of life  
by the consequence of deviating from the path  
of nature and indulging in a certain secret habit.  
Such persons before contemplating marriage, should  
reflect that the health of their bodies is the most  
necessary requisite to promote domestic hap-  
piness. Indeed without these, the journey  
through life becomes a weary pilgrimage, the  
prospect hourly darkens to the view; the mind  
becomes shattered with deadly poisons Mercury,  
ruin the Constitution, causing the most serious  
symptoms of that dreadful disease to make their  
appearance, such as affections of the head, nose,  
throat, skin, etc., progressing with frightful rap-  
idity till death puts an end to their sufferings,  
suffering, by sending them to that Bourne  
no traveler returns.

**MENTALLY.**—The fearful effects on the mind are  
much to be dreaded. Loss of memory, Confusion  
of ideas, Depression of Spirit, Evil imaginations,  
Aversion to Society, Self-Distrust, Love of Soli-  
tude, &c., are some of the evils produced.

Thousands of persons of all ages can now judge  
what is the cause of their declining health. Losing  
their vigor, becoming weak, pale, emaciated,  
and suffering from a singular appearance about the  
eyes, cough and symptoms of consumption.

Married persons, or those contemplating mar-  
riage, being aware of physical weakness, should  
immediately consult Dr. J., and be restored to per-  
fect health. Office, No. 7, South Frederick St.,  
Baltimore, Md.

the numerous importations Surgical Operations  
performed by Dr. J., witnessed by the Reporters of  
the papers, and many other persons, notices of  
which have appeared in all the newspapers, and  
the public is a sufficient guarantee that the afflicted  
will find a skillful and honorable physician.

VOLUME TEN of the "SCIENTIFIC AMERICAN"  
commences on the 16th of September.  
It is a highly interesting and valuable work,  
and is published by the Scientific American  
Company, and is edited by men practically  
skilled in the arts and sciences. Probably no  
other journal of the same character is so exten-  
sively circulated, or so generally esteemed for its  
practical utility. It contains all the latest  
discoveries in the arts and sciences. Its  
contents which issue weekly from the PATENT OFFICE  
are illustrated with Engravings, and the claims of  
all the Patents are published regularly in its  
columns as they are issued, thus making it a per-  
fect SCIENTIFIC AND MECHANICAL ENCYCLO-  
PEDIA of information upon the subjects of  
Mechanical Improvements, Chemistry, Engineering  
and the Sciences generally. It is published week-  
ly in quarto form suitable for binding, and each  
volume contains FOUR HUNDRED AND SIXTY-  
SEVEN PAGES of Reading Matter, SEVERAL HUNDRED  
ENGRAVINGS, with a full and complete Index.  
Its circulation over the last Volume exceeded 25,  
000 copies per week, and the practical receipts in  
one volume are worth to a family much more  
than the subscription price.

**ARMITAGE'S**  
**Electro-Magnet Lighting Rods.**  
AFTER many years' close investigation and  
numerous experiments, the Patentee takes  
pleasure in informing the public that he has ar-  
rived at the true principle of protecting families,  
dwellings and property from the destructive in-  
fluence of Lightning. The calamities that every  
City, Town, Village and Country falls vic-  
tims to annually, through the gross negligence of  
its inhabitants, is beyond calculation, especially  
when the remedy is so easy to obtain—this is  
found in **Armitage's Patent Magnetic  
Lighting Rods,** and in this alone. This  
Rod has been examined by the most scientific  
gentlemen in the world—Professors M. Murrie,  
Johnson, Waller and many others who have ex-  
amined them, and recommended them in the  
highest terms of approbation, and have pro-  
nounced them the only safe rods in use in this  
or any other country, for the protection of Lives and  
Property. One advantage is to divide and throw  
back a part of the electric fluid harmless to the  
clouds; in time of a stroke this enables the rod  
to conduct that portion of fluid that belongs to  
the earth without the slightest danger of leaving  
the conductor. This rod has many other advan-  
tages over the old one. The only place of man-  
ufacturing is in  
*Vine St. 3 doors above Testif, Philadelphia,*  
where all persons are respectfully invited to call  
and examine for themselves. For a full and  
complete detail, by **ARMITAGE'S**  
Orders promptly attended to. Terms cash.

**Recommendations.**  
PHILADELPHIA, Aug. 13, 1847.  
I have this day carefully inspected a conductor  
or Lighting Rod, with vane and index, erected  
by Thomas Armitage, on Bellevue House,  
Gloaceter, and have no hesitation in saying that  
it is not only the best that I have ever seen, but  
that it is the only one I have yet examined that  
is constructed on strictly scientific principles. It  
is with much pleasure that I recommend this  
conductor to the attention of owners of buildings.  
H. McMURRIE.

I am well satisfied that the Magnetic Lighting  
Rod, manufactured by Mr. Thomas Armitage,  
Philadelphia, is the best that has ever been made.  
I have spent several years in the study of the laws  
of electricity and magnetism, and have no hesi-  
tation in saying that these Rods are constructed  
upon the only principle of safety. The electric  
shock is received and dispersed by the magnet at  
the top of the rod, and is directed downwards,  
according to the laws of attraction and repulsion,  
for a building to be injured by a stroke of light-  
ning when protected by one of these rods. I  
have been acquainted with Mr. Armitage for sev-  
eral years, and before he commenced the man-  
ufacture of these rods I examined the principle on  
which they are constructed, and felt convinced  
that their adoption would be attended with com-  
plete success. The increasing demand for these  
Rods, and the extensive sale of all parts of the  
country, is ample commendation of their utility  
and superiority.

**TRACY E. WALLER, M. D.**  
Rising Sun, Philad., Oct. 10, 1852.  
The following extract is taken from an editorial  
in the *Germanian Telegraph*, edited by Major  
FRENK:

"The hocus rod placed upon our dwelling we  
had taken down; and another erected by Mr.  
ARMITAGE, to which we would call the attention  
of our farmers and country dwellers. It is not  
upon true scientific principles, and is a rod that  
has been approved by the highest authority, and  
will bear the most thorough examination. Those  
who have been deceived, as we have been, should  
not lose in any line of business that may be ex-  
posed to lightning, substituted. The cost is a mere bag-  
atelle when compared with the entire safety of  
our houses and barns against this destructive ele-  
ment. Mr. ARMITAGE'S advertisement will be  
found in the columns of this paper; and we feel  
as though we were performing a meritorious duty  
to the community, by thus inviting to its general  
attention."

**PHILADELPHIA, Dec. 4, 1852.**  
Mr. T. ARMITAGE, Vine Street, west of Twelfth  
St. Philadelphia, Pa.  
MY DEAR SIR: After a trial of many weeks, it  
affords me great pleasure to inform you that I  
am highly delighted with the lightning rod you  
placed upon my house at Bustleton. As far as  
my chemical knowledge enables me to perform  
an opinion, I am satisfied you have developed the  
correct principles in the adaptation of rods to  
protect property from destruction by lightning; as  
soon as the advantages of your arrangements are  
understood, I am confident you will find your  
rod to be the only one that will perform the  
duty of protection afforded by your rods. Wishing  
you all success in your enterprise.

I am yours truly,

**Mountain Female Seminary.**  
The Mountain Female Seminary at Birm-  
ingham, Huntingdon county, Pa., on the Penn-  
sylvania Railroad, occupies one of the most  
healthy and desirable locations in the State.  
Strangers visiting the Institution have unhesi-  
tatingly expressed the opinion, that it is so easy  
of access, and so well adapted to the study of  
such romantic mountain scenery, that no one  
who wishes to learn, could find an institution  
more favorably situated. Past success and  
future prospects have induced us to greatly enlarge  
our plans, and enabled us to give such compen-  
sation to teachers as will command those possess-  
ing the highest qualifications.

Cost, per term of 22 weeks, varies from \$55 to  
\$60, for which good accommodations will be given.  
No number of scholars will be received who  
be taken at less than \$1.40 each. Names of  
scholars to be sent in at different times from different  
Post Offices.  
Southern and Western money taken for sub-  
scriptions.  
Letters should be directed, post-paid, to **MENX &**

**PULVERMACHER'S**  
**Hydro-Electric Voltaic Chains.**  
AFTER the first time introduced to our people  
of Huntingdon and vicinity, as the most  
efficient, effectual, and strictly scientific mode of  
instantly relieving and permanently curing all  
**NERVOUS DISEASES.**

Now we meet that an announcement similar to  
the above meets the eye of the reader almost daily,  
and perhaps this may be classed with many  
others. But listen or you do us injustice. It is  
claimed that Pulvermacher's Electric Chain, is the  
only magnetic remedial agent that is secured by  
patent, granted by this government, on the  
ground that it was strictly a scientific and scientific  
article. The Chains are now on exhibition at  
the Crystal Palace, and attract much attention  
from the thousands who daily visit it.

**MODE OF USE.**  
The manner of using the chains is very simple.  
The chain is first, made of iron, common wire,  
and then one end of the chain is applied to the  
part where the pain is located, and the other end  
opposite to the first. The ends of the chain should  
never touch each other. At the moment of ap-  
plication the patient is directed to breathe freely,  
whenever it is located, by the passing through the  
part a constant current of uninterrupted electric  
magnetism. In the following diseases, no other  
remedy has ever given such complete and perfect  
satisfaction as this chain during the last year.

**RECOMMENDATIONS.**  
The Electric Chains are highly recommended  
by Professors Mott, Van Buren, Post and Carno-  
cian, of New York; are also in daily use in every  
Hospital in that city. The chains will last for  
years, are always ready for use, and produce no  
injury to the system.

**ANOTHER FACT.**  
It is truly the fact that wherever the electric  
chains have been introduced, both to nostrums and  
common lard have greatly diminished in sale,  
people having become disgusted with the practice  
of using such nostrums for drug stores.

cian, of New York; are also in daily use in every

injury to the system.

**FEMALE DISEASES.**  
The introduction of the Electric Chain into this  
country is the dawn of a new era in medicine.  
During the last twenty years, it can safely be es-  
timated that ten thousand females have died yearly  
from the effects of the disease.

**PROLAPSUS UTERI.**  
It is well known to medical men that this com-  
mon disease is beyond the reach of medicine, and  
that in proportion to the amount of medicine given,  
the more the patient is doomed to suffer, and  
sooner will death close the scene.

During the last 2 years more than one thousand  
cases of *Prolapsus Uteri* (falling of the womb)  
have been permanently cured in England and  
France. Most of these cases were ladies of high  
standing, who had previously tried all other kinds  
of treatment, and had been directed to the dis-  
tinguished ladies that have been cured in Paris is  
the present Queen of France. In this country, dur-
