HOOVER Still at His Post!

THE undersigned, now engaged in putting up Armitage's Electro Magnetic Lightning Rods in this and adjoining counties, would respectfully call the attention of the intelligent public to the great superiority of this Patent, at a season like this, when accidents to property and life almost daily occur, it is the dictate of humanity, as well as interest, to make use of the best means of security in our power, for though the lightning be in the hands of Him who rules the storm, His protection and blessing are always connected with our own efforts.

BALTIMORE LOCK HOSPITAL.

Where may be obtained the most speedy remedy for

SECRET DISEASES.—Gleets Strictures, Seminal Weakness, Pain in the Loins, Affections of the Kidneys, and all those peculiar affections arising from a secret habit, particularly the youth of both sexes, which if not cured, produces constitutional debility, rendering marriage impossible, and in the end destroys both Mind and Body.

Young Men,

especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

Married Persons,

or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Dr. Johnston,

office No. 7 South Fredrick St., seven doors from Baltimore Street, east side up the steps. ☞ Be particular in obtaining the name and number, or you will mistake the place.

A cure warranted, or no charge made, in from one to two days.

TAKE NOTICE.—Dr. Johnston's office is in his dwelling, up the steps. His very extensive practice is a sufficient guarantee, that he is the only proper physician to apply to.

Dr. Johston, member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing attended sometimes with derangement of mind, were cured immediately.

A CERTAIN DISEASE.—It is a melancholy fact that thousands fall victims to this horrid disease owing to the unskilfulness of ignorant pretenders who by the use of that deadly poison Mercury, ruin the Constitun, causing the most serious symptoms of that dreadful disease to make their appearance, such as affections of the head, nose, throat, skin, etc., progressing with frightful rapidity till death puts a period to their dreadful suffering, by sending them io that Bourne whence no traveler returns.

TAKE PARTICULAR NOTICE.—Young men who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school—the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body.

What a pity that a young man, the hope of his country, and the darling of his parents should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons before contemplating Marriage, should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection, that the happiness of another becomes blighted with our own.

CONSTITUTIONAL DEBILITY.—Dr. J. addresses young men, and all who have injured themselves by private and improper indulgence.

IMPUISSANA.—These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the head, Dimness of Sight, Loss of Muscular power, Palpitation of the Heart Dyspepsia, Nervous Irritability, Detangements of the Digestive Functions, General Debility Symptoms of Consumption, &c.

MENTALLY—The fearful effects on the mind are much to be dreaded; Loss of memory, Confusion of ideas, Depression of Spirit, Evil Forbodings; Aversion to Society, Self Distrust, Love of Solitude, &c., are some of the evils produced.

Thousands of persons of all ages, can now judge what is the cause of their declining health. Losing their vigor, becoming weak, pale and emaciated, have singular appearance about the eyes, cough and symtoms of consumption.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J. and be restored to perfect health. Office, No. 7, South Frederick-St., Baltimore, Md.

ALL SURGICAL OPERATIONS PERFORMED.—N. B. Let no false delicacy prevent you, but apply immediately either personally or by letter.

Skin Diseases Speedily Cured,

To STRANGERS.—The many thousands cured at this Institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers, and many other persons, notices of which have appeared again and again before the public, is a sufficient guarantee that the afflicted will find a skillful and honorable physician.

As there are so many ignorant and worthless quacks advertising themselves as Physicians, ruining the health of the afflicted Dr. Johnston would say to those unacquainted with his reputation that his Credentials or Diplomas always hang in his office.

Weakness of the organs immediately cured, and full vigor restored

Mechanics, Inventors and Manufacturers.
$570. IN CASH PRIZES. $570.

VOMUME TEN OF THE "SCIENTIFIC AMERICAN" commences on the 16th of September. It is chiefly devoted to the advancement of the interests of *Mechanics, Inventors, Manufacturers and Farmers*, and is edited by men practically skilled in the arts and sciences. Probably no other journal of the same character is so extensively circulated, or so generally esteemed for its practical ability. Nearly all the *Valuable Patents* which issue weekly from the PATENT OFFICE are *illustrated with Engravings*, and the claims of all the Patents are published regularly in its columns as they are issued, thus making it a perfect SCIENTIFIC AND MECHANICAL ENCYCLOPEDIA of information upon the subjects of *Mechanical Improvements, Chemistry, Engineering* and the *Sciences* generally. It is published weekly in quarto form suitable for binding, and each volume contains FOUR HUNDRED AND SIXTEEN PAGES of Reading Matter, SEVERAL HUNDRED ENGRAVINGS, with a full and complete Index.—Its circulation on the last Volume exceeded 23,000 copies per week, and the practical receipts in one volume are worth to any family much more than the subscription price.

The following CASH PRIZES are offered by the Publishers for the fourteen largest lists of subscribers sent in by the 1st of January, 1855:—$100 will be given for the largest list; $75 for the 2nd; $65 for the 3rd; $55 for the 4th; $50 for the 5th; $45 for the 6th; $40 for the 7th; $35 for the 8th; $30 for the 9th; $25 for the 10th; $20 for the 11th; $15 for the 12th; $10 for the 13th; and $5 for the 14th. The cash will be paid to the order of the successful competitor immediately after the 1st of January, 1855.

TERMS:—One copy, one year, $2; one copy, six months, $1; five copies, six months, $4; ten copies, six months, $8; ten copies, twelve months, $15; fifteen copies, twelve months, $22, twenty copies, twelve months, $28 in advance.

No number of subscriptions above twenty can be taken at less than $1,40 each. Names can be sent in at different times and from different Post Offices.

Southern and Western money taken for subscriptions.

The Celebrated Prize Cure for Fever and Ague, by
E. P. MASTIN.

THIS Remedy is purely vegetable, without any portion of foreign, deleterious, or mercurial ingredient whatever in its composition. The contents of a single Bottle is sufficient to cure the most obstinate case in a single day.

It strengthens the stomach, invigorates the frame, and restores the system to its usually healthy state—in fact, it entirely prevents that languor and prostration of strength which always attends this disease, and is confidently recommended to all who have tried, in vain, other preparations.

Money making is the order of the day, and it is with this object that medicines are prepared for the cure of diseases to which mankind are subject. It is the same with the baker and butcher, the manufacturer, mechanic, &c., and it is well that there is this stimulus to induce the thoughtful and skilful to devise and prepare in convenient form, suitable remedies for the afflicted. An individual, under a distressing and torturing fit of *Chills and Fever*, is not in a right condition to study out the means of relief; and it is more sensible and natural that he should look to others, than to depend upon his own prostrated energies for the antidote. For an appropriate and valuable remedy, therefore, it is folly to object, because it is another's interest to dispose of it. To the invalid the important consideration is simply this, "Will I be benefited by the purchase of the article offered?"

The invalid should inquire into the testimony presented to establish its value; the testimony should be carefully investigated, and just so much credit given to it, and no more, than it deserves. If of a personal character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the probable impartiality, and consequent truthfulness, of their statements. Corroborating statements of a number of respectable witnesses to the truth of any fact, may amount to irresistible evidence.

We might enter into a detailed account of the study and labor incident to its preparation—of the scientific principles upon which it is based—of the necessity which exists, in the very nature of the compound, for effecting immediate cures in almost every instance—and of the character and respectability of the witnesses who have testified to the astonishing cures which it has invariably performed. We might enumerate other cases, and cite the testimony of others, and indeed weary our reader with repetitions of cases. This we deem unnecessary, and shall therefore confine ourselves to a selection of a few of those whose characters and standing in the community are well known, and whose positions gave them the opportunity of testing the value of the *Prize Cure.*

The gentlemen whose Certificates are given, are well known to the citizens of Lancaster and York Counties, in Pennsylvania, besides other portions of that State; also to the citizens of Maryland who reside in the neighborhood of the Susquehanna and Tide-water Canal. One of the gentlemen named JAMES MCCONKEY, Esq., represented York County in the Senate of Pennsylvania for many years. These gentlemen were all Contractors on the *Susquehanna and Tidewater Canals*, which terminate at Havre-de-Grace, at the mouth of the Chesapeake Bay.—The officers of the Companies were, of course, acquainted with the Contractors; and should there be any doubt, application may be made to them for the truth of the representation made in regard to the characters of those whose certificates are appended.

TO THE PUBLIC:

The undersigned, believing that great benefit will result to the public from a knowledge of the efficacy of the PRIZE CURE for FEVER and AGUE, do most cheerfully certify that we have, individually, witnessed its successful operation in the number of cases annexed to our respective names, and that, in no instance within our knowledge, has it failed to cure in *a single day*, by the use of the contents of a *single bottle*. In corroboration of the certificates of the highly respectable Contractors above named, whose humane feelings prompted them to give publicity to the facts therein stated, the following certificate from Major James McConkey, at that time a member of the Senate of the Commonwealth of Pennsylvania, will be read with interest by all who are afflicted with Fever and Ague:

"PEACH BOTTOM, *York co., Pa. Nov.* 16, '38. Having witnessed TWENTY-TWO cases of Fever and Ague cured by the celebrated PRIZE CURE, I make this known for the benefit and comfort of all those distressed with that troublesome disease —*Fever and Ague.* JAS. M'CONKEY."

Prize Cure for Fever and Ague.

Directions for using.—Take three table-spoonsful (one-third of the contents of the bottle) in the morning, one-third at noon, and the balance in the evening, before meals, on the patient's well day, or when the chills and fever have subsided—previously taking a dose of purgative medicine to cleanse the bowels. The bottle to be well shaken. ☞ Children to take it in smaller doses, proportioned to age.

☞ Persons wishing to become Agents for the celebrated *Prize Cure for Fever and Ague*, will learn the prices and terms (*for cash only*) on personal application, or by letter (post paid) to B. P. MASTIN, 125 Henry Street, New-York, where it may be had, *wholesale* and *retail*. Price, $1 per single bottle; $8 per dozen; $84 per gross.

ARMITAGE'S
Electro-Magnet Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principles of protecting families, dwellings and property from the destructive influence of **Lightning.** The calamities that every City, Town, Village and Country falls victim to annually, through the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in **Armitage's Patent Magnetic Lightning Rods,** and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds: in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

Vine St., 3 doors above Twelfth, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For sale Wholesale and Retail, by THOS. ARMITAGE.

Recommendations.

PHILADA., Aug. 13, 1847.

I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is not only the best that I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend this conductor to the attention of owners of buildings.

H. MCMURTRIE.

I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principles of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt convinced that their adoption would be attended with complete success. The increasing demand for these rods, and the extensive sales in all parts of the country, is ample commendation of their utility and superiority.

TRACY E. WALLER, M. D.
Rising Sun, Philad. co., April 10, 1852.

The following extract is taken from an editorial in the *Germantown Telegraph*, edited by Major FREAS:—

"The bogus rod placed upon our dwelling we have had taken down; and another erected by Mr. ARMITAGE, to which we would call the attention of our farmers and readers generally. It is put up on true scientific principles, and is a rod that has been approved by the highest authority, and will bear the most thorough examination. Those who have been deceived, as we have been, should lose no time in having a proper protection against lightning, substituted. The cost is a mere bagatelle when compared with the entire safety of our houses and barns against this destructive element. Mr. ARMITAGE'S advertisement will be found in the columns of this paper; and we feel as though we were performing an imperious duty to the community, by thus inviting to it general attention."

PHILADELPHIA, Dec. 4, 1852.

Mr. T. ARMITAGE, Vine Street, west of Twelfth Street, Philadelphia.

MY DEAR SIR: After a trial of many weeks, it affords me great pleasure to inform you that I am highly delighted with the lightning rod you placed upon my house at Bustleton. As far as my chemical knowledge enables me to perform an opinion, I am satisfied you have developed the correct principles in the adaptation of rods to protect property from destruction by lightning; as soon as the advantages of your arrangements are understood, I am convinced that few persons will be found so reckless as to fail to avail themselves of the protection afforded by your rods. Wishing you all success in your enterprise,

I am yours truly,

Professor of Anatomy, Philadelphia College of Medicine.

Is Agent for Huntingdon, and adjoining counties, and will furnish the Rods on the same manner as the Proprietor. Any person desiring to be supplied with the Rods can leave their order with the Editor of the Journal, or with Gaffius Miller, o the Rail Road Hotel. April 12, '54.–2m.

Mountain Female Seminary.

THE Mountain Female Seminary at Birmingham, Huntingdon county, Pa., on the Pennsylvania Railroad, occupies one of the most healthy and desirable locations in the State.—Strangers visiting the Institution have unhesitatingly expressed the opinion, that it so easy of access, retired, healthful, and surrounded with such romantic mountain scenery, that no one who wishes to learn, could find an institution more favorably situated. Past success and future prospects have induced us to greatly enlarge our plans, and enabled us to give such compensation to teachers as will command those possessing the highest qualifications.

Cost, per term of 22 weeks, varies from $55 to $60, for which good accommodations will be given. Music, French, Latin, Painting, &c., extra.

Pupils from abroad are expected to board in the Seminary building with the Principal, who gives hisentire attention to the interest of the Institution. ISRAEL W. WARD,

PROCLAMATION
TO THE INVALIDS OF HUNTINGDON.
$1,000 Reward!
PULVERMACHER'S
Hydro-Electric Voltaic Chains,

ARE for the first time introduced to the people of Huntingdon and vicinity, as the most convenient, *effectual*, and strictly scientific mode of instantly relieving and permanently curing all

NERVOUS DISEASES.

Now we know that an announcement similar to the above meets the eye of the reader almost daily, and perhaps this may be classed with many others. But listen or you do us injustice. It is claimed that Pulvermacher's Electric Chain, is the only magnetic remedical agent that is secured by patent, granted by this government, on the ground that it was a strictly useful and scientific article. The Chains are now on exhibition at the Crystal Palace, and attract much attention from the thousands who daily visit it.

MODE OF USE.

The manner of using the chains is very simple. The chain is first *moistened* with *common vinegar*, and then one end of the chain is applied to the part where the pain is located, and the other end *opposite* to the first. The ends of the chain should never touch each other. At the moment of application, the most *acute pain* is *instantly* relieved, wherever it is located, by the passing through the part a constant current of uninterrupted electro magnetism. In the following diseases, no other remedy has ever given such complete and perfect satisfaction to the patient as Pulvermacher's Chains: Rheumatism, Painful and swelled Joints, Pains in the Back, Deafness, Blindness, Paralysis, Neuralgia in the Face, Long standing Nervous Headache, Palpitation of the Heart, General Debility, Dyspepsia, Female Diseases, Asthma, Contracted Joints, &c.

1000 DOLLARS

will be given to any person who will produce so many well authenticated certificates of cure from intelligent patients and scientific physicians, of the above diseases, as has been performed by the use of the Electric Chain during the past year.

ANOTHER FACT.

It is truly the fact that wherever the electric chains have been introduced, bottled nostrums and common lard have greatly diminished in sale, people having become disgusted with the practice of using their stomachs for drug shops.

RECOMMENDATIONS.

The Electric Chains are highly recommended by Professors Mott, Van Buren, Post and Carnochan, of New York; are also in daily use in every Hospital in that city. The chains will last for years, are always ready for use, and produce no injurious results, when used as directed.

FEMALE DISEASES.

The introduction of the Electric Chain into this country is the dawn of a new era in medicine.—During the last two years, it can safely be estimated that *ten thousand* females have died yearly from this one disease,

PROLAPSUS UTERI.

It is well known to medical men that this common disease is beyond the reach of medicine, and that in proportion to the amount of medicine given, the more the patient is doomed to suffer, and sooner will death close the scene.

During the last 2 years more than *one thousand* cases of *Prolapsus Uteri* (falling of the womb) have been *permanently* cured in England and France. Most of those cases were ladies of high standing, who had previously tried all other kinds of treatment with no benefit. Among the distinguished ladies that have been cured in Paris is the present Queen of France. In this country, during the last year, *one hundred* cases have been cured in the city of New York, many who have allowed their names to be published for the benefit of those suffering with similar complaints.—The mode of use is simply to apply one end of a 30 link chain to the spine just above the hips, and the other end upon the abdomen, and allow the chain to remain for one hour. This to be repeated four times during the twenty-four hours.

CHRONIC RHEUMATISM.

The Electric Chains never fail to relieve the *severe pains* and swelling incident to this disease. The worst forms of this disease readily yield to a few applications of a chain, and in no single instance have they failed to give instant relief, if they did not effect a permanent cure. All persons who are victims of this usuft winter complaint, are kindly invited to call and obtain a pamphlet of **HORACE W. SMITH,** Agent for Huntingdon county, who will also explain their mode of use.

The electric chains can be sent by mail to any part of the United States, by addressing (post paid) any of the agents in the principal cities, or Joseph Steinert, 568, Broadway New York.
