We are exporting all we recieve from California, and more. This export of coin is rendered necessary by the excess of imports over exports for the last year of more than fifty mil-tions of dollars! Yet it is gravely proposed to reduce the duties with a view to diminish the national revenue! The consequence of which must necessarily be a greatly augmen-ted importation, and a still greater drain of our precious mettals.

Teachers Institute.

A meeting of the Huntingdon county Teacher's Institute was held in this place last week, commencing on Thursday, the 21st inst., and continued in session till Saturday. A synopsis of the proceedings has been reported for publication, and will appear hereafter.

The weather has been very unpleasant for two or three days.

From Washington.

In the Senate on the 19th the Fresheen sent on the official correspondence of the U. S. Min-ster at Constantinople, relative to the impris-ment of the Rev. Mr. King in Greece. Mr. onment of the Rev. Mr. King in Greece. Mr. Cass gave notice of his intention, at a future day, to move the adoption of Mr. Underwood's resolutions relative to religious liberty abroad, and he eulogized the Emperor Napoleon for his sentiments in favor of religious liberty.—Mr. Brodhead's resolution authorizing the out-oft of a steamer and transport to convey relief to Commander Kane's expedition in the Arrotic Seas, was adopted. A bill was passed respecting certain U. The Indian and west Point Academy Appropriation bills were recieved from the House and referred. The Invalid pension bill was first passed, then reconsidered and postponed. In the House, the bill making appropriations for the Navy and for fortifications were reported from the Committee of Ways and Means and referred to the Committee of the whole. Several bills, important in character, were considered in committee and laid aside to be reported to the House. Mr. McMullen presented a remonstrance headed by R. W. Latham, against the passage of the Senate bill to suppress the circulation of small notes in the District of Colombia and west Point Academy Appropriations of the Senate bill to suppress the first section.

Section 3 provides that the present regiment of dragoons and mounted rifles shall be styled treamsts shall be added to each regiments of infury and cavalry. Section 4 adds to the corps of engineers, as exigences may require, one brigadier general, one colonel, four majors, eight captains eight accompany of engineer soldiers, organized as provided by law, and discontinues the corps of the Senate bill to suppress the circulation of small notes in the District of monstrance neaded by R. Trial and Conviction of Arrison.

CINSINATI, Dec. 20

On the trial of William Arrisdn, for the murder of Isaac Allison and wife, at this place, wincesses have not only identified the prisoner who had the box (called the 'infernal machine') made, but one of the witnesses identifies him as the man, who, after the box was made, called to have it altered; the witness picked out the very piece of the box in court, which Arrison himself tried to fix, but not succeeding, and 'I'D—n the thing, I wish you would fix it,' and in answer to the question at the time by the witness, as to what the box was for, Arrison replied "Ask me no questions and I'll tell you no lies. An expert pronounced document known to have been written by Arrison, and the letter received at the Cincimnal post-office from Iowa which led to Arrison's detection, as the writing of the same man. A young man also swears that Arrison is the one who got witness to write the name of "Mr. Allison," (the murdered man), "Marine Hospital, corner of Western Row and Longworth," on a card, which card was produced in court, and was attached to the fatal box.

The case was given to the jury this evening at 5 o clock, and at 8 o'clock they returned into Court with a verdict of guilty of murder in the first degree.

Trouble Ferrer is the M. E. Church—
Another breach is expected in the Methodist Church. Rev. Dr. Bond, editor of the New York Christian Advocate, in noticing the opposition to the appropriations of missionary money to the preachers laboring in their slaveholding conferences, says:

"We have seen strange things in the lapse of three score years and ten, but this caps the climax of the marvellous; and though we are no prophet, nor the son of a prophet, we venture to predict that mischief is now browing in our church—agitations, convulsions, and disruptions, such as we have never witnessed before."

IN SEARCH OF EMPLOYMENT.—The New York Sun: "An unusual number of country girls and young men are coming into the city in search of emplyment. Applications of a very respectable number are made each night at the different station houses for lodgings, a large proportion of which are by individuals from the country. Of course, but few of them get work. Many of the young men, however manage to find situations in the army. The recruiting officers are doing a better business now than they have done for years. Hundreds are daily enlisting."

Hydrophoma Curre.—The Secretary of the

Hydrophiolising."

Hydrophiolis (Curd)—The Secretary of the Interior has ordered to be published the particulars of a case of hydrophobia at Athens in Greece, in which, under the adrice of Dr. H. Chairctes, common asparagus was used with great success. It is believed that the man would have been cured had it not been that, after he seemed to be perfectly recovered, a clamor that he was mad rose against him among the populace. He was seized by the soldiers and maltreated by them, which caused him to imagine that they intended to poison him. In consequence of these events he became crazy, and died raving of poison, having manifested none of the usual symptoms of hydrophobic madness. Dr. Chairetes avers that he had used asparagus in three cesses of hydrophobia previously, and in each instance effected a perfect cure. The subject is one of great importance, and the matter is worthy of medical investigation.

He claims to have discovered by this means the commencement of the bombardment of Sevastopol, as also the battles of Alma and Inkermann, in a few hours after they took place.—The Barometer has hitherto been used mainly as a kind of weather gage.

FIRE.

Our old county Jail made a narrow escape from destruction by fire on Monday morning last. An insane prisoner, named Cunning, and in the Asylum at Harrisburg, and from whose person he had just taken the irons, during the momentary absence of the guard, upset the stove in the room, and his bedding taking fire, the whole appartment was soon in a blaze.—Cunningham became excessively frightened, and bellowed most fustily to be released—this was done as soon as possible, but before it was effected, he was almost suffocated and his hair and clothing considerably singed. He was not however in the least injured. The fire was got under in a short time, the damage being principally confined to one room and roof of the building. The Sheriff suffered most, as the house was completely delnged with water, and his furniture, of course, much injured.

Great Fire in New York.

One of the most destructive fires that has occurred in New York for months, broke out early in the morning of the 20th, and before the flames could be arrested, completely laid waste a very valuable block of buildings on the east side of Broadway, between Grand and Howard streets, extending through 10 Crosby street.

The origin of the fire is not known, but as a ball was in progress at the City Assembly Rooms, it probably originated there. The alarm and confusion among the persons at the ball was very great, quite a panic having taken

alarm and confusion among the persons at the ball was very great, quite a panic having taken place.

The morning was intensely cold, and although the fireman were early on the ground, their labors were very much impeded by the severity of the weather.

The flames spread with fearful rapidity, and in a short time the whole block was involved in destruction. The property destroyed was as follows:

The City 'Assembly Rooms—a substantial brick building much used for balls and other entertainments.

Geo. Christy & Wood's Minstrels' Hall, No. 444 Broadway; a valuable property, hand-somely fitted up for Ethiopian eutertainments.

Emanuel Lyon's Magnetic Powder Depot, No. 424 Broadway, for the sale of vermin exterminating powder.

icket, (who were themselves Whigs in 1840;) but the "Old Line Whigs" are in favor of raising their own banner, which they say is good enough and broad enough for all patriotic voters.—News.

Ben Here is a Dutchman's description of a rainy night: "Vell lasht Friday night wash de vorst ash never vash. I tought to go down de hill to mine house, but de faster I valk, do faster I stand still, for de darkness vash so tick dat I could not stir, naine boots—and de rain, under and blixem, in more dan tree minnets mine skin vas vet troo to mine clo's. But after one leetle vile it stoped quitten to rain someding; so I kept feelin' vor myself all the vay long—and ven' I comes to mine own house to valk-in, vat you tink! Mine stars! it pelonged to somepody else!"
