

VALCABLE MILL PROPERTY
At Private Sale.
This property is situated on Stone Creek about 12 miles north of Huntingdon, Pa. It is in good order, has 3 run of burrs, &c. Also, a good Saw Mill and Lath Mill; a good dwelling house for the miller. Also, about 120 Acres of Land, and a good state of cultivation; the balance is well covered with good timber. The farm buildings consist of a large Frame House, a large Frame Barn, and a large Store House, in a good stand for a store, but now unoccupied. Also, a large orchard of choice fruit.
The property is under a lease for four years from the 1st of next April, at \$835 a year.
For further information call on the subscriber to Huntingdon.
GEORGE COUCH,
Sept. 27, 1854.—

Rebecca Furnace
AT PRIVATE SALE.
This property is situated on Stone Creek about 12 miles north of Huntingdon, Pa. It is in good order, and plenty of ore within 2 miles—in a fine wood country where coal can be got readily, and about 400 ACRES OF LAND. This property is now idle, and possession can be given at any time.
Any further information can be had by calling with George Couch, Huntingdon, or Mary Couch, Altoona.
Sept. 27, 1854.—

TO THE PUBLIC.
DR. A. P. FIELDS,
Respectfully informs the citizens of Stoneboro, Coal Mont, Hopewell, and the country adjacent, that he has located a Medical Office in the house formerly occupied by Lemuel Evans, Esq., and is now ready to attend to all calls, and by strict attention to business, hopes to receive a good portion of public favor.
September 6, 1854.—

Land For Sale.
The undersigned desiring of removing to the West offers for sale his lands, consisting of 255 Acres of improved land, the improvements consist of a good Stone House, a double Log Barn, Carpenter Shop, and Blacksmith Shop; a great variety of fruit on one end of the farm, and on the other end a two story Log House, and good stone barn, and some young fruit trees planted. There are about 160 or 170 acres cleared, and in a good state of cultivation, the remainder is well timbered, and within 1 mile of a good saw-mill; there are several never failing springs of water on the premises. This property is so situated as to divide into two farms if desired. The property is situated about 34 miles east of this town August 24, 1854. JOHN PORTER.

Town Property for Sale.
The subscriber offers some valuable property for sale in the Borough of Alexandria, consisting of Two Houses and Lots. The houses are large and comfortable, with every requisite outbuilding. One of the houses has been occupied as a store. One lot is a great variety of fruit trees. Possession can be obtained in the fall, if desired.
July 5, 1854. SAMUEL SPYKER.

GEO. GWIN.

BALTIMORE LOCK HOSPITAL.
Where may be obtained the most speedy remedy for
SECRET DISEASES—Gleets, Strictures, Seminal Weakness, Pain in the Loin, Affections of the Kidneys, and all those peculiar affections arising from a secret habit, particularly the youth of both sexes, which no other product of constitutional liability, rendering marriage impossible, and in the end destroys both Mind and Body.
Young Men, especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have embraced listening senates with the thunders of eloquence, or walked to ecstasy the living lyre, may call with full confidence.
Married Persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.
Office No. 7 South Frederick St., seven doors from Baltimore Street, east side up the steps. Be particular in obtaining the name and number, or you will mistake the place.
A cure warranted, or no charge made, in from one to two days.
TAKE NOTICE.—Dr. Johnston's office is in his dwelling, on the steps. His very extensive practice is a sufficient guarantee, that he is the only proper physician to apply to.
Dr. Johnston, member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the study of the human mind, and the treatment of all diseases, has effected some of the most successful cures that have ever been known, many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and other peculiarities, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.
A CERTAIN DISEASE.—It is a melancholy fact that thousands fall victims to this horrid disease owing to the unskillfulness of ignorant pretenders who use the most deadly poisons, Mercury, ruin the Constitution, causing the most serious symptoms of that dreadful disease to make their appearance, such as affections of the head, nose, throat, skin, etc., progressing with frightful rapidity till death results, to cause dreadful suffering, by sending them to that Bourne whence no traveler returns.
TAKE PARTICULAR NOTICE.—Young men who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil example at school—the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body.
What a pity that a young man, the hope of his country, the support of his parents, should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons before contemplating Marriage, should reflect that a sound mind and a healthy body are the most necessary requisites to promote conjugal happiness. Indeed without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the body is weak and shrunken, the mind is filled with the melancholy reflections that the happiness of another becomes lighted with his own.
CONSTITUTIONAL DEBILITY.—Dr. J. addresses young men, and all who have injured themselves by private and impudic indulgence.
IMPERFECT VISION.—Some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular power, Palpitation of the Heart, Dyspepsia, Nervous Colic, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.
MENTALLY.—The fearful effects on the mind are to be dreaded: Loss of memory, Confusion of Ideas, Derangement of the Senses, Aversion to Society, Self Distrust, Love of Solitude, &c., are some of the evils produced.
Thousands of persons of all ages, can now judge what is the cause of their declining health. Loss of vision, and other persons, who have had singular appearance about the eyes, cough and symptoms of consumption.
Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. Johnston, to perfect their health. Office, No. 7, South Frederick-St., Baltimore, Md.
ALL SURGICAL OPERATIONS PERFORMED.—No fee will be taken for any operation, but apply immediately to the Doctor, personally or by letter.
Skin Diseases Specially Cured.
TO STRANGERS.—The many thousands cured at this Institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers, and by other persons, who have appeared again and again before the public, is a sufficient guarantee that the afflicted will find a skillful and honorable physician.
As there are so many ignorant and worthless quacks advertising themselves as Physicians, and seeking the health of the afflicted Dr. Johnston would say to those unacquainted with his reputation that his Credentials or Diplomas always hang in his office.
Weakness of the organs immediately cured, and full vigor restored.
All letters post paid—remedies sent by mail.
May 22, 1854.—17.

Mechanics, Inventors and Manufacturers.
\$570. IN CASH PRIZES, \$570.
VOLUME TEN OF THE "SCIENTIFIC AMERICAN" commences on the 16th of September. It is chiefly devoted to the advancement of the Mechanical, Agricultural, Manufacturing and Commercial Arts, and is edited by persons well skilled in the arts and sciences. Probably no other journal of the same character is so extensively circulated, or so generally esteemed for its practical and valuable information. The illustrations which issue weekly from the Lithographic Press are published regularly in its columns as they are issued, thus making it a perfect SCIENTIFIC and MECHANICAL ENCYCLOPEDIA of information upon the subjects of Mechanical Improvements, Chemistry, Engineering and the Sciences generally. It is published weekly in quarto form suitable for binding, and each volume contains FOUR HUNDRED AND SIXTYEIGHT pages of Reading Matter, containing the most valuable ENGRAVINGS, with a full and complete INDEX. Its circulation on the last volume exceeded 23,000 copies per week, and the practical receipts in one volume are worth to any family much more than the subscription for the year.
The following CASH PRIZES are offered by the Publishers for the fourteen largest lists of subscribers sent in by the 1st of January, 1855:—\$100 will be given for the largest list; \$75 for the 2nd; \$50 for the 3rd; \$25 for the 4th; \$20 for the 5th; \$15 for the 6th; \$10 for the 7th; \$5 for the 8th; \$3 for the 9th; \$2 for the 10th; \$2 for the 11th; \$1 for the 12th; \$1 for the 13th; and \$1 for the 14th. The cash will be paid to the order of the successful competitor immediately after the 1st of January, 1855.
TERMS.—One copy, one year, \$2; one copy, six months, \$1; five copies, six months, \$4; ten copies, six months, \$8; ten copies, twelve months, \$15; fifteen copies, twelve months, \$22; twenty copies, twelve months, \$28 in advance.
No number of subscriptions above twenty can be taken at less than \$1.40 each. Names can be sent in at different times and from different Post Offices.
Southern and Western money taken for subscriptions.
Letters should be directed, post-paid, to Messrs & Co., 128 Fulton Street, N. Y.

HOOPER Still at His Post!
The undersigned, now engaged in putting up Armitage's Electro Magnetic Lightning Rods in this and adjoining counties, would respectfully call the attention of the intelligent public to the great superiority of this Patent, and season like this, when accidents to property and life most daily occur, it is the dictate of humanity, as well as interest, to make use of the best means of security in our power, for though the Lightning be in the hands of God, it is in our power, by His protection and blessing, always connected with our own efforts.

DR. EDWARD BLEEKER'S STAMPER MIXTURE, for the Fever and Ague, Chagres Fever, Dyspepsia, and all Bilious Affections.—The proprietor of this Medicine will state, without hesitation or fear of contradiction, that the Stamper Mixture has cured far more persons where it has been introduced, than any other medicine in use for the above diseases. This Medicine has neither arsenic nor quinine in its composition; all of the ingredients are of a perfectly healthy character, and highly stimulating and invigorating in their tendency. Persons while using this Medicine will not be affected by exposure to water or a damp atmosphere any more than when in their usual health. Planters in sections of the country where the Ague prevails, will do well to adopt this Medicine, as the patient is not obliged to lay by while under treatment, and they may be assured of a SPEEDY CURE. The proprietor could introduce thousands of certificates from those of the highest respectability, but prefers saying to the sick—buy one bottle, and you will have the infallible proof in yourself. Full directions for its use accompany each bottle.
Certificates can be seen at the office, showing where this Medicine has cured many all others have failed.
For Dyspepsia and all other Bilious Complaints, there is no better Medicine in market. It is highly recommended in several cases of Rheumatism and Gout; for these complaints take a tablespoonful twice a day.
One bottle of this Medicine very often has the desired effect.
For sale by Druggists in all parts of the United States and Canada.
All Wholesale Orders must be addressed to MEAD & BLEEKER, Sole Proprietors,
98 Broadway, New York.
Agent, HORACE W. SMITH, Huntingdon, Pa. September 6, 1854.—17

HOOPER Still at His Post!
A fresh supply of Garden Seeds from Risley's Garden, just received, and for sale by
A. GARDENS, just received, and for sale by
J. & W. SAXTON.

10 DOZEN Ames' No. 2 Shot, just received and for sale by J. & W. SAXTON.

The Celebrated Prize Cure for Fever and Ague.
By
E. P. ARMITAGE.
THIS Remedy is purely vegetable, without any portion of foreign, deleterious, or mercurial ingredients, whatever in its composition. The contents of a single Bottle is sufficient to cure the most obstinate case in a single day.
It strengthens the stomach, invigorates the frame, and restores the system to its usually healthy state—in fact, it entirely prevents that languor and prostration of strength which always attends this disease, and is confidently recommended to all who have tried, in vain, other preparations.
Money making is the order of the day, and it is with this object that medicines are prepared for the cure of diseases to which mankind are subject. It is the same with the baker and butcher, the manufacturer, mechanic, &c., and it is well that there is this stimulus to induce the thoughtful and skillful to invent and prepare in convenient form, suitable remedies for the afflicted. An individual, under a distressing and torturing fit of Chills and Fever, is not in a right condition to study the means of relief; it is more sensible and prudent that he should look to others, than to depend upon his own prostrated energies for the antidote. For an appropriate and valuable remedy, therefore, it is fully to be expected, because it is another's interest to dispose of it, that the invalid should be made to know, simply this, "Will be benefited by the purchase of the article offered?"
The invalid should inquire into the testimony presented to establish its value; the testimony should be carefully investigated, and just so much credit given to it, and no more, than prepared. If of a personal character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the probable impartiality, and consequent truthfulness, of the statements. If of a corroborating character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the probable impartiality, and consequent truthfulness, of the statements. If of a corroborating character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the probable impartiality, and consequent truthfulness, of the statements.

Recommendations.
PHILADELPHIA, Aug. 13, 1847.
I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, at the residence of Mr. Gloucester, and no hesitation in saying that it is not only the best that I have ever seen, but that it is the only one I have ever examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend this rod to the attention of Farmers of buildings.
H. MCURTRE.
I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made in this country, and that it is the only one that is constructed on strictly scientific principles. It is with much pleasure that I recommend this rod to the attention of Farmers of buildings.

PHILADELPHIA, Aug. 13, 1847.
I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, at the residence of Mr. Gloucester, and no hesitation in saying that it is not only the best that I have ever seen, but that it is the only one I have ever examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend this rod to the attention of Farmers of buildings.
H. MCURTRE.

Recommendations.

ARMITAGE'S
Electro-Magnetic Lightning Rods.
AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principles of protecting families, dwellings and property from the destructive influence of Lightning. The calamities that every City, Town, Village and Country falls victim to annually, through the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in Armitage's Patent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors McMurtrie, Johnson, Waller and many others, who have examined them, recommended and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the inhabitant in any danger, and it is superior to others, than to depend upon his own prostrated energies for the antidote. For an appropriate and valuable remedy, therefore, it is fully to be expected, because it is another's interest to dispose of it, that the invalid should be made to know, simply this, "Will be benefited by the purchase of the article offered?"
The invalid should inquire into the testimony presented to establish its value; the testimony should be carefully investigated, and just so much credit given to it, and no more, than prepared. If of a personal character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the probable impartiality, and consequent truthfulness, of the statements. If of a corroborating character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the probable impartiality, and consequent truthfulness, of the statements.
