

VALUABLE MILL PROPERTY
At Private Sale.
This property is situated on Stone Creek, about 9 miles north of Huntington, Pa. The mill is in a good state of repair, has 3 run of burrs, &c. Also, a good Saw Mill and Lath Mill; a good dwelling house for the miller. Also, 280 Acres of Land, about 195 acres of which is cleared and in a good state of cultivation; the balance is well covered with good timber. The farm buildings consist of a large Frame House, a large Frame Barn, and a large Store House, in a good state of repair, but now unoccupied. Also, a large orchard of choice fruit.
The property is under a lease for four years from the 1st of next April, at \$635 a year.
For further information call on the subscriber in Huntington.
GEORGE COUCH,
Sept. 27, '84.-11.

Rebecca Furnace
AT PRIVATE SALE.
This property is situated on Stone Creek, about 12 miles north of Huntington, Pa. It is in a good state of repair, and plenty of ore within 2 miles—in a fine wood country where coal can be got readily, and about 400 ACRES of LAND. This property is now idle, and possession can be given at any time.
Any further information can be had by calling with George Couch, Huntington, or Mary Couch, Altoona.
Sept. 27, 1854.-11.

TO THE PUBLIC.
DR. A. P. FIELDS,
RESPECTFULLY informs the citizens of Stoneboro, Coal Mont, Hopewell, and the country adjacent, that he has located a Medical Office in the house formerly occupied by Lemuel Evans, Esq., and is now ready to attend to all calls, and by strict attention to his patients, hopes to receive a good portion of public favor.
September 6, 1854.-11.

Land For Sale.
The undersigned desiring of removing to the West offers for sale his lands, consisting of 255 acres of improved land, the improvements consist of a good Stone House, double Log Barn, Carpenter Shop, and Blacksmith Shop, a great variety of fruit on one end of the farm, and on the other end a two story Log House, and good frame barn, and some young fruit trees planted. There are about 160 or 170 acres cleared, and in a good state of cultivation, the remainder is well timbered, and within 1/2 mile of a good saw-mill, there are several never failing springs of water on the premises. This property is so situated as to admit of two farms if desired. The property is situated about 31 miles east of this town.
August 24, 1854. JOHN PORTER.

Town Property for Sale.
The subscriber offers some valuable property for sale in the Borough of Alexandria, consisting of Two Houses and Lots. The houses are large and comfortable, with every requisite outbuilding. One of the houses has been occupied as a store, &c. On the lot are a great variety of fruit trees. Possession can be obtained in the fall, if desired.
July 5, 1854. SAMUEL SPYKER.

BANKING HOUSE
BELL, GARRETTSON & CO.,
On North Second Corner of Hill and Montmorency Streets, in the Borough of Huntington.
A building a general banking business is commenced in this place.
July 5, 1854.

GOLD CHAINS—A fine variety for sale, very low, at EDM. SNARE'S.

JUST RECEIVED and for sale Fish, Salt and Pasteby J. & W. SAXTON.

BALTIMORE LOCK HOSPITAL.
Where may be obtained the most speedily remedial
SECRET DISEASES.—Gleets, Strictures, Seminal Weakness, Pain in the Loins, Affections of the Kidneys, and all those peculiar affections arising from a secret habit, particularly the youth of both sexes, which, if not cured, produces constitutional debility, rendering marriage impossible, and in the end destroys both Mind and Body.
Young Men, especially, who have become the victims of Solitary Vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men, the most excellent talents and brilliant intellects, who might otherwise have enriched listening senates with the thunders of eloquence, or waked to ecstasy the living lyre, may call with full confidence.
For further information call on the subscriber in Huntington.
GEORGE COUCH,
Sept. 27, '84.-11.

Dr. Johnston.
office No. 75, seven doors from Baltimore Street, east side up the steps. Be particular in obtaining the name and number, or you will mistake the place.
A cure warranted, or no charge made, in from one to two weeks, and is confidently recommended to all who have tried, in vain, other preparations.
Money making is the order of the day, and it is with this object that medicines are prepared for the cure of diseases to which mankind are so generally liable. It is the same with the maker and purveyor, the manufacturer, mechanic, &c., and it is well that there is this stimulus to induce the thoughtful and skillful to devise and prepare in the most judicious manner, suitable remedies for the afflictions of mankind. An individual, under a distressing and torturing fit of *Chills and Fever*, is not in a right condition to study out the means of relief; and it is more sensible and natural that he should look to others, than to depend upon his own prostrated faculties, to find a remedy for his affliction. A valuable remedy, therefore, it is fully to be expected, because it is another's interest to dispose of it. To the invalid the important consideration is simply this: Will I be benefited by the purchase of the article offered?
The invalid should inquire into the testimony presented to establish its value; the testimony should be carefully investigated, and just so much credit given to it, and no more, than it deserves. If of a personal character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the thorough impartiality, and consequent truthfulness, of their statements. Corroborating statements of a number of respectable witnesses to the value of any medicine, may amount to irrefragable evidence.
We might enter into a detailed account of the study and labor incident to its preparation—the scientific principles upon which it is based—the nature of the compound, for effective ingredients, in almost every instance—and of the character and respectability of the witnesses who have testified to the astonishing cures which it has invariably performed. We might enumerate other cases, and cite the names of others, and indeed weary our reader with repetitions of cases. This we deem unnecessary, and shall therefore confine ourselves to a selection of a few of those whose characters and standing in the community are well known, and whose positions gave them the opportunity of testing the value of the *Pilae Curae*.
The gentlemen whose Certificates are given, are well known to the citizens of Lancaster and York Counties, in Pennsylvania, besides other members of that State, and of the neighboring States who reside in the neighborhood of the Susquehanna and Tides-water Canal. One of the gentlemen named JAMES M'CONKEY, Esq., represented York County in the Senate of Pennsylvania in 1848. These gentlemen were all Contractors on the Susquehanna and Tides-water Canal, at the mouth of the Chesapeake Bay.—The officers of the Companies were, of course, well acquainted with the Contractors; and should there be any doubt, application may be made to them for the truth of the representation made in regard to the characters of those whose certificates are appended.

TO THE PUBLIC:
The undersigned, believing that great benefit will result to the public from a knowledge of the efficacy of the *Pilae Curae*, and desiring to do most cheerfully certify that we have, individually, witnessed its successful operation in the number of cases annexed to our respective names, and that we are in possession of the contents of a single bottle. Daniel Lancaster, September 4, 1853. Signed—
R. MILLSON, Sec. 1 and 2 S. C. cases.
W. H. JAMES, " " " " " " " "
H. F. PATRICK, " " " " " " " "
J. FISHER, " " " " " " " "
L. COOPER, Lock No. 1 and 2, " " " "
M. PHELAN, " " " " " " " "
B. M'GILLAN, " " " " " " " "
In corroboration of the certificates of the highly respectable Contractors above named, whose humane feelings prompted them to give publicity to the facts therein stated, the following certificate from Major James M'Conkey, at that time a member of the Senate of Pennsylvania, and now of that State, will be read with interest by all who are afflicted with Fever and Ague:
"Peach Bottom, York Co., Pa., Nov. 16, '78. Having witnessed TWENTY-TWO cases of Fever and Ague cured by the celebrated *PILAE CURAE*, I make it known to the public, and certify that all those distressed with that troublesome disease—*Fever and Ague*. JAS. M'CONKEY."

Prize Cure for Fever and Ague.
Directions for using.—Take three table-spoonfuls (one-third of the contents of the bottle) in the morning, one-third at noon, and the balance in the evening, before meals, on the patient's well being, and on the least return of the fever, previously taking a dose of purgative medicine to cleanse the bowels. The bottle to be well shaken. Children to take it in smaller doses, proportioned to age.
Persons wishing to become Agents for the celebrated *Pilae Curae for Fever and Ague*, will learn the prices and terms (for each only) on personal application, or by letter (post paid) to B. P. MANNING, 125 Henry Street, New-York, where it may be had for the lowest and best price, \$1 per single bottle; \$5 per dozen; \$54 per gross. Also for sale, wholesale, by SHEFFELIN, BROTHERS & Co., Druggists, 179 William Street, corner of Reekman, New-York, and others throughout the Union. Aug. 9, 1854.-11.

FEVER AND AGUE.
DR. EDWARD BLEEKER'S STAMPEDE MIXTURE, for the Fever and Ague, Chagres Fever, Dyspepsia, and all Bilious Affections.—The proprietor of this Medicine will state, without hesitation or fear of contradiction, that the *Stam pede Mixture*, since its introduction, has been introduced, than any other medicine in use for the above diseases. This Medicine has neither arsenic nor quinine in its composition; all of the ingredients are of a perfectly healthy character, and are perfectly innocuous in their tendency. Persons who use this Medicine will not be affected by exposure to water or a damp atmosphere any more than when in their usual health. Planters in sections of the country where the malarial fever prevails, will adopt this Medicine, as the patient is not obliged to lay by while under treatment, and they may be assured of a SPEEDY CURE. The proprietor could introduce thousands of certificates from those of the highest respectability, who are willing to say to the sick: Buy one bottle, and you will have the infallible power in yourself. Full directions for its use accompany each bottle.
Certificates can be seen at the office, showing where this Medicine has cured when all others have failed.
For Dyspepsia and all other Bilious Complaints, there is not a better Medicine in market. It has also been taken with the most astonishing success in the most cases of Rheumatism and Gout; for these complaints take a table-spoonful twice a day.
One bottle of this Medicine very often has the desired effect.
This Medicine is for sale by Druggists in all parts of the United States and Canada.
All Wholesale Orders must be addressed to MEAD & BLEEKER, Sole Proprietors, 69 Broadway, New York.
Agent, HONORABLE W. SERRI, Huntington, Pa., September 6, 1854.-11.

ZINC PAINTS.
ONE THIRD CHEAPER THAN WHITE LEAD, AND FREE FROM ALL POISONOUS QUALITIES.
The New Jersey Zinc Company HAVING GREATLY ENLARGED THEIR WORKS, and improved the quality of their products, are prepared to execute orders for their
SUPERIOR PAINTS.
DRY, and GROUND IN OIL, in assorted packages of from 25 to 500 pounds each.
DRY, in barrels, of 200 pounds each.
Their *White Zinc*, which is sold dry and ground in oil, warranted PURE and unsurpassed for BODY and uniform whiteness.
A method of preparation has recently been discovered, which enables the Company to warrant their paints to keep fresh and soft in the tins for any reasonable time. In this respect their paints will be superior to any other in the market.
Their *Brown Zinc Paint*, which is sold at a low price, and can only be made from the Zinc ore of New Jersey, is now well known for its protective qualities when applied to iron or other metallic surfaces.
Their *Stone Color Paint* possesses all the properties of the *White*, and is of an agreeable color for painting Cottages, Depots, Out-buildings, Bridges, &c.
Dealers supplied on liberal terms by their Agents, **FRENCH & RICHARDS,** 101 N. W. cor. 10th & Market Sts., Phila., April 19, 1854.-6m.

YACHTS—Molekin No. 1 and 2, of the latest styles—Kossuth Hats of various styles and qualities—will be sold at the cheap store of GEO. GWIN.

A fine lot of Pistols at Edm. Snare's.

The Celebrated Prize Cure for Fever and Ague, by B. P. MANNING.
This Remedy is purely vegetable, without any portion of foreign, deleterious, or mercurial ingredients whatever in its composition. The contents of a single Bottle is sufficient to cure the most obstinate case in a single day.
It strengthens the stomach, invigorates the frame, and restores the system to its usually healthy state—in fact, it entirely prevents that languor and prostration of strength which always attends this disease, and is confidently recommended to all who have tried, in vain, other preparations.
Money making is the order of the day, and it is with this object that medicines are prepared for the cure of diseases to which mankind are so generally liable. It is the same with the maker and purveyor, the manufacturer, mechanic, &c., and it is well that there is this stimulus to induce the thoughtful and skillful to devise and prepare in the most judicious manner, suitable remedies for the afflictions of mankind. An individual, under a distressing and torturing fit of *Chills and Fever*, is not in a right condition to study out the means of relief; and it is more sensible and natural that he should look to others, than to depend upon his own prostrated faculties, to find a remedy for his affliction. A valuable remedy, therefore, it is fully to be expected, because it is another's interest to dispose of it. To the invalid the important consideration is simply this: Will I be benefited by the purchase of the article offered?
The invalid should inquire into the testimony presented to establish its value; the testimony should be carefully investigated, and just so much credit given to it, and no more, than it deserves. If of a personal character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the thorough impartiality, and consequent truthfulness, of their statements. Corroborating statements of a number of respectable witnesses to the value of any medicine, may amount to irrefragable evidence.
We might enter into a detailed account of the study and labor incident to its preparation—the scientific principles upon which it is based—the nature of the compound, for effective ingredients, in almost every instance—and of the character and respectability of the witnesses who have testified to the astonishing cures which it has invariably performed. We might enumerate other cases, and cite the names of others, and indeed weary our reader with repetitions of cases. This we deem unnecessary, and shall therefore confine ourselves to a selection of a few of those whose characters and standing in the community are well known, and whose positions gave them the opportunity of testing the value of the *Pilae Curae*.
The gentlemen whose Certificates are given, are well known to the citizens of Lancaster and York Counties, in Pennsylvania, besides other members of that State, and of the neighboring States who reside in the neighborhood of the Susquehanna and Tides-water Canal. Recommendations.
PHILADELPHIA, Dec. 13, 1847.
I have this day carefully inspected a conductor or Lightning Rod, with vane and insulator, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is the best that I have ever seen. It is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend this conductor to the attention of owners of buildings.
I am well satisfied that the Magnetic Lightning Rod, manufactured by Mr. Thomas Armitage, of Philadelphia, is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying that these Rods are constructed upon the only principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, supposing the level of electric action, for a building to be injured by a stroke of lightning when protected by one of these Rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these Rods I examined the principle upon which they are constructed, and am satisfied that their adoption would be attended with complete success. The increasing demand for these Rods, and the extensive sales in all parts of the country, is ample commendation of their utility and superiority.
TRACY E. WALLER, M. D., Rising Sun, Md., Oct. 10, 1852.
The following extract is taken from an editorial in the *Germania Telegraph*, edited by Major Farnes:
"The bugon rod placed upon our dwelling, we have had taken down; and another erected by Mr. Armitage, to which we would call the attention of our farmers and readers generally. It is put up on true scientific principles, and is a rod that has been approved by the highest authorities, and will bear the most thorough examination. Those who have been deceived, as we have been, should lose no time in having a proper protection against lightning, substituted. The cost is a mere bagatelle when compared with the same safety of our houses and barns against this destructive element. Mr. Armitage's advertisement will be found in the columns of this paper; and we feel as though we were performing an imperious duty to our community, by thus inviting to its general attention."
PHILADELPHIA, Dec. 4, 1852.
Mr. T. ARMITAGE, Vine Street, west of Twelfth Street, Philadelphia.
MY DEAR SIR: After a trial of many weeks, I am glad to say that I have had a very high degree of delight with the lightning rod you placed upon my house at Basleton. As far as my chemical knowledge enables me to perform any service in the way of lightning rods, I am satisfied that the correct principles in the adaptation of your rod to protect property from destruction by lightning; as soon as the advantages of your arrangements are understood, I am convinced that few persons will be so slow to avail themselves of the benefits of the protection afforded by your rods, wishing you all success in your enterprise.
I am yours truly,
JAMES MCINTOCK, M. D., No. 1 North Seventh Street, Professor of Anatomy, Philadelphia College of Medicine.

AMMUTACH.
Electro-Magnetic Lightning Rods.
AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principles of protecting families, dwellings and property from the destructive influence of **LIGHTNING.** The calamities which every City, Town, Village and Country falls victim to annually, through the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in **Armitage's Patent Magnetic Lightning Rods**, and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Waller and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property. One advantage is to divert and throw back a part of the electric fluid harmless to the building, in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacture is in this alone. *These Rods are sold above the Tenth, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For Sale Wholesale and Retail, by THOS. ARMITAGE.*
Orders promptly attended to. Terms cash.

PROLAPSUS UTERI.
It is well known to medical men that this common disease is beyond the reach of medicine, and that in proportion to the amount of medicine given, the more it is given, the more it is given, and sooner will death close the scene.
During the last 2 years more than one thousand cases of *Prolapsus Uteri* (falling of the womb) have been permanently cured in England and France. Most of the cases have been cured in the city of New York, many who have allowed their names to be published for the benefit of those suffering with similar complaints.
The mode of cure is simply to apply one end of a chain to the pelvis, just above the hips, and the other end to remain on the abdomen, and allow the chain to remain for one hour. This to be repeated four times during the twenty-four hours.
CHRONIC RHEUMATISM.
The Electric Chains never fail to relieve the acute pain and swelling incident to this disease. The worst forms of it can be readily yielded to a few applications of a chain, and in no single instance have they failed to give instant relief, if they did not effect a permanent cure. All persons afflicted with this disease, who are unable to walk, are kindly invited to call and examine the patent of **HORACE W. SMITH**, Agent for Huntington county, who will also explain their mode of use.
The electric chains can be sent by mail to any part of the United States, by addressing (post paid) any of the agents in the principal cities, or Joseph Steiwer, 568, Broadway New York.
JOSEPH STEIWER,
Gen. Agent, 568 Broadway, N. Y.
January 18, 1854.-11.

HUNTINGDON FOUNDRY.
R. C. MCGILL returns his thanks to his friends and the public for their very liberal patronage, and for the numerous orders which have been sent to him to merit a continuance of his business. He has a large stock of Castings, Cooking Stoves, Air-Tight, Parlor, Ten Plate Wood and Coal Stoves, of various sizes, and all kinds of Ploughs; the Lancaster and Keystone No. 4 Self-sharpening Ploughs, and Shears to suit all kinds of Ploughs in the country. Rolling-mill and Forge Castings, Grist and Saw-mill Castings, Lewistown Threshing Machine Patterns, and the four horse and two horse power of Churns, and all other kinds of castings too numerous to mention, all of which will be sold cheaper than ever for cash and all kinds of country produce. Also, old mottel taken in exchange for castings.
Huntingdon, November 9, 1853.

NOTICE.
HENRY CORNFORST having just returned from Philadelphia with a large and well selected stock of **Dry Goods, Boots & Shoes, Hardware, Crockery-ware, &c.**, and extracting the variety of a country store, which has been enabled to purchase upon terms permitting him to compete successfully with any other store in the vicinity, would respectfully solicit the patronage of his friends and customers, and would endeavor to merit the approbation, as he is well satisfied of his ability to do so, to suit the tastes and accommodate the wishes of the public at large.
He is prepared to sell very low for CASH.—Country Produce taken in exchange at the most reasonable rates.
March 29, 1854.

ROBBD, BUT NOT DISHEARTENED.
Brilliant Display of Jewelry.
The public generally, and the retailers who, some time since, entered my store and removed valuable to the amount of about \$1100 without my permission, are informed that I have just opened a more general and better assortment of articles in my line of business than I ever brought to Huntington, consisting of Watches, Jewelry, Clocks, Fine Knives, Pistols, and all the most fashionable and useful articles, Silver Ware, and Fancy Goods, &c., &c. My old friends and customers, and the public in general throughout the county, are requested to call and examine my assortment.
EDMUND SNARE,
Huntingdon, March 29, 1854.

SCOTT & BROWN, Attorneys at Law, Huntington, Pa., Office same as that formerly occupied by John Scott, Esq., Oct. 19, 1853.

TO WOOL CARDERS.
The undersigned have for sale a second-hand Carding Machine, with all the necessary fixtures, which they offer for sale very low. Any one wishing to purchase will do well to call and see it. KESSLER & BRO., Mill Creek, April 12, 1854.-3m.

FRESH supply of Gunners, Check, and Shambray, just received and for sale by J. & W. SAXTON.

JUST RECEIVING, this week, Mackerel, Herring &c., and for sale by J. & W. SAXTON.

PROCLAMATION
TO THE INVALIDS OF HUNTINGDON.
\$1,000 Reward!
PULVERMACHER'S
Hydro-Electric Voltaic Chains.
ARE for the first time introduced to the people of Huntington and vicinity, as the most *effective, efficient, and strictly scientific mode of instantly relieving and permanently curing all NERVOUS DISEASES.*
Now we meet that an announcement similar to the above needs the eye of the reader almost daily, and perhaps this may be classed with many others. But listen or you do us injustice. It is claimed that Pulvermacher's Electric Chain is the only magnetic remedial agent that is secured by patent, granted by this government, on the ground that it was a strictly useful and scientific article. The Chains are now on exhibition at the Crystal Palace, and attract much attention from the thousands who daily visit it.
MODE OF USE.
The manner of using the chains is very simple. The chain is first moistened with common vinegar, and then one end of the chain is applied to the part where the pain is located, and the other end to the opposite part of the first. The ends of the chain should never touch each other. At the moment of application, the most acute pain is instantly relieved, whatever it is located, by the passing through the patient a constant current of uninterrupted electro-magnetism. In the following diseases, no other remedy has ever given such complete and perfect satisfaction to the patient as Pulvermacher's Chains: Rheumatism, Painful and Swollen Joints, Pains in the Back, Deafness, Blindness, Paralysis, Neuralgia in the Face, Long standing Sciatica, Headache, Palpitation of the Heart, General Debility, Dyspepsia, Female Diseases, Asthma, Contracted Joints, &c.
1000 DOLLARS
will be given to any person who will produce so many well authenticated certificates of cure from intelligent patients and scientific physicians, as to show the above diseases, as has been performed by the use of the Electric Chain during the past year.
ANOTHER FACT.
It is truly the fact that wherever the electric chains have been introduced, bottled nostrums and common hard-earned remedies, which in sale, people having been deceived, and the practice of using their stomachs for drug shops.
RECOMMENDATIONS.
The Electric Chains are highly recommended by Professors Mott, Van Buren, Post and Carnochan, in New York; also in daily use in every Hospital in the East; Long standing Sciatica, are always ready for use, and produce no injurious results, when used as directed.
FEMALE DISEASES.
The introduction of the Electric Chain into this country is the dawn of a new era in medicine. During the last twenty years, it can safely be estimated that ten thousand females have died yearly from this one disease.
PIROLAPSUS UTERI.
It is well known to medical men that this common disease is beyond the reach of medicine, and that in proportion to the amount of medicine given, the more it is given, the more it is given, and sooner will death close the scene.
During the last 2 years more than one thousand cases of *Prolapsus Uteri* (falling of the womb) have been permanently cured in England and France. Most of the cases have been cured in the city of New York, many who have allowed their names to be published for the benefit of those suffering with similar complaints.
The mode of cure is simply to apply one end of a chain to the pelvis, just above the hips, and the other end to remain on the abdomen, and allow the chain to remain for one hour. This to be repeated four times during the twenty-four hours.
CHRONIC RHEUMATISM.

Gen. Agent, 568 Broadway, N. Y.
January 18, 1854.-11.

Mountain Female Seminary.
The Mountain Female Seminary at Birmingham, Huntingdon county, Pa., is one of the most healthy and desirable locations in the State.—Strangers visiting the Institution have unhesitatingly expressed the opinion, that it is so easy of access, and so well adapted to the wants of all who wish to study, that no one who wishes to learn, could find an institution more favorably situated. Past success and future prospects have induced us to greatly enlarge our premises, and enable us to give such compensation to teachers as will command those possessing the highest qualifications.
Cost, per term of 22 weeks, varies from \$35 to \$60, for which good accommodations will be given. Pupils from abroad are expected to board in the Seminary building with the Principal, who gives his entire attention to the interest of the Institution.
Oct. 5, 1853. ISRAEL W. WARD, Principal.

THE NEW JERSEY ZINC COMPANY
HAVING GREATLY ENLARGED THEIR WORKS, and improved the quality of their products, are prepared to execute orders for their
SUPERIOR PAINTS.
DRY, and GROUND IN OIL, in assorted packages of from 25 to 500 pounds each.
DRY, in barrels, of 200 pounds each.
Their *White Zinc*, which is sold dry and ground in oil, warranted PURE and unsurpassed for BODY and uniform whiteness.
A method of preparation has recently been discovered, which enables the Company to warrant their paints to keep fresh and soft in the tins for any reasonable time. In this respect their paints will be superior to any other in the market.
Their *Brown Zinc Paint*, which is sold at a low price, and can only be made from the Zinc ore of New Jersey, is now well known for its protective qualities when applied to iron or other metallic surfaces.
Their *Stone Color Paint* possesses all the properties of the *White*, and is of an agreeable color for painting Cottages, Depots, Out-buildings, Bridges, &c.
Dealers supplied on liberal terms by their Agents, **FRENCH & RICHARDS,** 101 N. W. cor. 10th & Market Sts., Phila., April 19, 1854.-6m.
