

HYGEANA.

Brought Home to the Door of the Million. A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma, and all diseases of the Lung. We refer to "Dr. Curtis' Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which he has numerous certificates. Speaking of the treatment, a physician remarks: "It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the arial cavity of the lungs, and thus escape the many varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country."

New York, September 14, 1854. The Inhaler is worn on the breast under the linen without the least inconvenience—the heat of the body being sufficient to evaporate the fluid. Hundreds of CASES of CURES like the following might be given. One Patient of Hygeana has cured me of the ASTHMA of six years standing. Jas. F. Kiesberry, P. M. of Duncannon, Pa. I am cured of the ASTHMA of 10 years standing by Dr. Curtis' Hygeana. Mrs. Elizabeth B. B. of N. Y. Price three Dollars a Package—Sold by CURTIS & PERKINS and BOYD & PAUL, No. 149 Chambers St., N. Y.—a package sent free by express to any part of the United States for Ten Dollars.

N. B.—Dr. Curtis' Hygeana is the ORIGINAL and ONLY GENUINE ARTICLES, all others are base imitations or vile and INJURIOUS counterfeits. Shun them as you would poison. Sold by RUSSELL & SCOTT, No. 132 Market Street, Philadelphia, who will sell by the dozen at Proprietors rates. Sept. 20, 1854—1y.

TO THE PUBLIC.

DR. A. P. FIELDS, RESPECTFULLY informs his citizens of Stonerstown, Coal Mont, Hopewell, and the County adjacent, that he has located a Medical Office in the house formerly occupied by Lemuel Evans, Esq., and is now ready to attend to all calls, and by strict attention to business, hopes to receive a good portion of public favor. September 9, 1854—1y.

BALTIMORE LOCK HOSPITAL.

Where may be obtained the most speedy remedy for SECRET DISEASES.—Gleets, Strictures, Gonorrhoea, Syphilis, Pains in the Legs, Affections of the Kidneys, and all those peculiar affections arising from a secret habit, particularly the youth of both sexes, which if not cured, produces constitutional debility, rendering marriage impossible, and in the end, ruins both Mind and Body.

YOUNG MEN, especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of the youth of the most exalted talents and brilliant intellects, who might otherwise have entered listening senses with the thunders of eloquence, or waked to ecstasy the living lyre, may call with full confidence.

MARRIED PERSONS, or those contemplating marriage, who are aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health. Dr. Johnston, office No. 7, South Frederick St., seven doors from Baltimore Street, in the City of Baltimore. Be particular in obtaining the name and number, or you will mistake the place. A cure warranted, or no charge made, in from one to two days.

NOTICE.—Dr. Johnston's office is in his dwelling, up the steps. His very anxious desire is a sufficient guarantee, that he is the only proper physician to apply to. Dr. Johnston, member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many true and reliable testimonials, and has attended some of the most distinguished and distinguished gentlemen of the world, who have been cured of their diseases.

What a pity that a young man, the hope of his country, and the darling of his parents, should be snatched from all prospects and enjoyments of life, and be reduced to a certain and inevitable death, by a secret habit, which if not cured, produces constitutional debility, rendering marriage impossible, and in the end, ruins both Mind and Body.

The Celebrated Price Cure for Fever and Ague, by

B. P. MASTIN, THIS Remedy is purely vegetable, without any portion of foreign matter, and is composed of the most valuable ingredients of nature. It is so simple, that it is a single bottle is sufficient to cure the most obstinate case in a single day. It strengthens the stomach, invigorates the fluids, and restores the system to its usually healthy state—in fact, it entirely prevents that languor and prostration of strength which always attends this disease, and is confidently recommended to all who have tried, in vain, other preparations.

Money making is the order of the day, and it is with this object that medicines are prepared for the cure of diseases to which mankind are subject. It is the same with the baker and brewer, who, in the pursuit of gain, will use any means to produce a good article. It is with this view that the thoughtful and skillful to devise and prepare in convenient form, suitable remedies for the afflicted. An individual, under a distressing and torturing attack of Fever, is not in a right condition to study the means of relief, and it is more sensible and natural that he should look to others, than to depend upon his own prostrated energies for the antidote. For an appropriate and valuable remedy, therefore, it is fully to be expected, that the thoughtful and skillful to devise and prepare in convenient form, suitable remedies for the afflicted.

The invalid should inquire into the testimony presented to establish its value; the testimony being given by a large number of persons, and credit given to it, and no more, it is desirable, if of a personal character, we should look to the respectability of the witnesses, and the opportunity which they have had for an observation of the facts, and the probability of their being true and reliable. It is not only the best that I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is not only the best that I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles.

ARMITAGES Electro-Magnet Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting buildings, dwellings and property from the destructive influence of Lightning. The calamities that every City, Town, Village and Colony falls victim to annually, through the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in Armitage's Patent Magnetic Lightning Rods, and in this Rod. This Rod has been examined by the most scientific gentlemen in the world—Professors M. Murtrie, Johnson, Waller and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property. One advantage is to drive and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

Philadelphia, where all orders are respectfully invited to call and examine for themselves. For sale Wholesale and Retail, by THOS. ARMITAGE. Orders promptly attended to. Terms cash.

It is not only the best that I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles.

Recommendations. PHILADELPHIA, Aug. 13, 1847. I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, at the residence of Mr. Gloucester, and have no hesitation in saying that it is not only the best that I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. PROCLAMATION TO THE INVALIDS OF HUNTINGDON.

\$1,000 REWARD! POLVERMACHERS' Hydro-Electric Voltaic Chains. ARE for the first time introduced to the people of Huntingdon and vicinity, as the most convenient, efficient, and strictly scientific mode of instantly relieving and permanently curing all NERVOUS DISEASES.

Now we know that an announcement similar to the above meets the eye of the reader almost daily, and perhaps this may be closed with many others. But listen to you do us injustice. It is claimed that Polvermacher's Electric Chain, is the only magnetic remedial agent that is secured by patent, granted by this government, on the ground that it was a strictly scientific and scientific article. The Chains are now on exhibition at the Crystal Palace, and attract much attention from the thousands who daily visit it.

MODE OF USE. The manner of using the chain is very simple. The chain is first made to rest on the ground, and then one end of the chain is applied to the part where the pain is located, and the other end applied to the first. The ends of the chain should never touch each other. At the moment of application, the most painful part is instantly relieved, wherever it is located, by the passing through the part a constant current of unintermittent electro-magnetism. In the following diseases, no other remedy has ever given such complete and perfect relief, as the patient as Polvermacher's Electric Chain: Rheumatism, Neuralgia, Pains in the Back, Deafness, Blindness, Paralysis, Neuritis, in the Face, Long standing Neuralgia, Headache, Palpitation of the Heart, General Debility, Dyspepsia, Puerile Diseases, Asthma, Contracted Neck, &c.

1,000 DOLLARS will be given to any person who will produce so many well authenticated certificates of cure from intelligent patients and scientific physicians, of the above diseases, as has been performed by the use of the Electric Chain during the past year.

ANOTHER FACT. It is truly a fact that wherever the electric chains have been introduced, the most violent and common lard have greatly diminished in sale, people having become disgusted with the practice of
