

The Election in Iowa.
The returns of the recent election in this State held on the 2nd inst. are coming in but slowly, yet enough is at hand to show the complete success of the American and Whig ticket. The 8th Judicial District has been carried by the K. N. by 1,843 majority, electing Wm. H. Tull, Esq., as Judge of the District Court. The Davenport municipal election occurred on the 8th, and Sam's ticket prevailed by a majority of 11 electing an American mayor and securing a majority of aldermen of the right stripe. The county contains one-sixth of the entire foreign population of the State, and yet in this election Sam had a majority of 238. The majority for the Prohibitory Liquor law will be in the neighborhood of 10,000.

Dreadful Case of Hydrophobia in Cincinnati.
The Cincinnati Gazette of Monday says: On Thursday morning last Mrs. Rodgers, who resides in the 17th ward near the Catholic Church, sent her son, Milton, a small boy, to the bakery after a loaf of bread. On the way the boy was bitten by a dog. Milton returned home and dressed the wound. On Friday night, about 2 o'clock the mother was awakened by the boy tearing the bed clothes and scratching his face. The mother endeavored to pacify him, but the boy groaned the harder and became more and more furious. A light was struck, when the mother discovered her boy frothing at the mouth. In these agonies he died about 3 o'clock. His leg, after death, was found to be black, from his knee down, and very much swollen.

Explosion of a Powder Mill.
On Wednesday morning last, about eight o'clock, the chimney of the drying house attached to the extensive powder mills of Stoneback & Deschamps, in the township of Oak fire and burnt out furiously at the top. Only two or three persons were in the mill at the time. They heard the roar of the fire and ran out of the building, intending to procure buckets and ascend to the roof with water to prevent the shingles from taking fire. After a moment's reflection they thought the undertaking a hazardous one, and very prudently abandoned it. They made their escape as fast as was possible. In a few moments the roof was on fire in several places, and it is said to have been about three minutes before a spark fell through the shingles into the main part of the building, where there were about four tons of powder, which of course was instantly ignited, and the whole mill was blown sky high, a part of which has not since been recovered. The explosion was terrible, and shook the country for miles around. The most fortunate circumstance connected with the terrible catastrophe is that no one was killed.—*Douglas, (Pa.) Democrat.*

Is the Canal Board to be Abolished?
The session of the Legislature is drawing to a close, and the bill that was reported for the abolition of the Canal Board has passed nearly all its stages. It is not to be expected that the bill will pass, for we see that much has been done in the way of the Canal Board, and the representatives of the People that this is a subject in which they feel a deep interest. The Canal Board has been for years the head of a great running sore of corruption—a monster engine of fraud and wickedness—a prolific fountain of speculation that has sent its demoralizing influence to the remotest corners of the Commonwealth. The Canal Board has sent its people and almost inextricably in debt by it. It has driven to the verge of bankruptcy by its corrupt officers; and is only saved from disgraceful repudiation by heavy taxation.—Forty-two millions of debt stand as the mighty monument of infamy reared by the Canal Board, besides more than forty millions more that have been taken from the pockets of the people and expended, independent of the revenue received from the Public Works. An insatiable horde of plunderers have sapped the very vitals of the Commonwealth, while they have filled their own coffers. Is this state of things to be continued? Will not the Legislature put a stop to it, when now in its power?—*Reading Journal.*

Sword for General John E. Wool.
By a resolution of Congress approved January 24th, 1854, provision was made to present to Major General John E. Wool, a token of the appreciation of his country of the services rendered by him in the memorable battle of Buena Vista, in which he so signally distinguished himself. The work of manufacturing the beautiful present was given to Mr. Samuel Jackson, of No. 194 Baltimore street, and it is now completed, being one of the most beautiful things of the kind in the country. The blade is thirty-one and a quarter inches long, of the finest cast steel, and embellished with national devices. The hilt is of gold, and is a specimen of rare beauty. The design is an ear of corn, half encircled by the leaves of the sheaf surrounding it. The upper part is a shield bearing the words "Buena Vista, Feb. 22 and 23, 1847." The eyes of the eagle are diamonds. The cross of the hilt is the Mexican coat of arms, the serpent and cactus very heavily wrought in silver, thickly plated with gold, and ornamented with solid gold bands and rings. The end of the scabbard is of solid gold and unique design. The sword was made after a design from Lieutenant Benton, and cost \$1,500. It is a token of respect worthy a gallant soldier, and should the cause of his country demand it, there is no doubt but his blade would do good service in the protection of the honor of the nation, while wielded by the hero of Buena Vista.

The Slavery Excitement in Missouri.
The news of the destruction of the Parkerville Luminary, which we publish in another column, and the resolutions which were passed at the same time by the citizens of that county who participated in the service, in the protection of the honor of the nation, while wielded by the hero of Buena Vista.

GREAT MEDICAL DISCOVERY OF THE AGE.
Dr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy which cures EVERY KIND OF HUMOR, the worst scrofulous down to a common pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thander humors). He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.
Two bottles are warranted to cure a nursing sore most popularly of the discovery. I will send one to three bottles will cure the worst kind of Pimples on the face.
Two or three bottles will clear the system of Biles.
Two bottles are warranted to cure the worst case of Erysipelas.
One to two bottles are warranted to cure all humors in the Eyes.
Two bottles are warranted to cure running of the ears and blotches around the hair.
Four to six bottles warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruption of the skin.
Two to three bottles are warranted to cure the worst case of ingrown hair.
Two to three bottles are warranted to cure the most desperate case of rheumatism.
Three to four bottles are warranted to cure the worst case of scrofulous humors.
Two to eight bottles will cure the worst case of scrofulous humors.
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.
Reader, I peddled over a thousand bottles of this in the vicinity of Boston, and I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising: first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds of humors.
In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand per day of it.
Some of the wholesale Druggists who have been in business twenty or thirty years, say that nothing in the annual of patent medicines was ever like it. There is a universal praise of it from all quarters.
In my own practice I always kept it strictly for humors—since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.
Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O what a mercy if it will prove beneficial in cases of that disease, and finally—there are but few who have more of it than I have.
I know of several cases of Dropsy, all of whom aged people cured by it. For the various diseases of the Liver, Spleen, Gallbladder, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.
No change of diet necessary—eat the best you can get and enough of it.
DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years send spoonful—Children from five to eight years teaspoonful.—No directions can be applicable to all constitutions, but the sufficient to operate on the weakest twice a day.
Manufactured by DONALD KENNEDY, No. 120 Warren St., Roxbury, Mass. Price \$1.00.

STARTLING, BUT TRUE!
WHAT EVERY WOMAN SHOULD KNOW
How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health.
THE BLOOMING BRIDE, But a few years ago in the flush of health and youth, and buoyancy of spirit, rapidly, and apparently inexplicably, becomes a feeble, sickly, and debilitated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance marked by the appearance of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as sanctioned with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often heretofore complaints upon their children.

The remedy is by knowing the cause and avoiding them, and knowing the remedies, and bestowing by them. These are the objects of the following:

MISCELLANEOUS.
HYGEANA.
Brought Home to the Door of the Million.
A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the Lung. We refer to "Dr. Curtis' Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which he has innumerable certificates. Speaking of the treatment, a physician remarks: "It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists' throughout the country."
New York Dutchman of Jan. 14.
The Inhaler is worn on the breast under the linen without the least inconvenience—the heat of the body being sufficient to evaporate the fluid.
Hundreds of CASES of CURES like the following might be named. One Package of Hygeana has cured me of the ASTHMA of six years standing.

VERY IMPORTANT INFORMATION.
DR. JOHNS, one of the most celebrated Physicians in New York, writes as follows:—
Dr. CURTIS—Dear Sir—Having witnessed the excellent effects of your HYGEANA OR INHALING HYGEAN VAPOR AND CHERRY SYRUP, in a case of chronic Bronchitis, and being much in favor of counter-irritation in affections of the throat, bronchial tubes and lungs, I can therefore cheerfully recommend your Medicated apparatus as being the most convenient and effectual mode of applying anything of the kind I have ever seen. No doubt thousands of persons may be relieved, and many cured by using your remedies.
I have the liberty to use this in any way you may think proper.
Respectfully yours, &c.
