Whig Delegate Election.

The Whig Delegate election in this borough, resulted in the selection of A. Carmon, Esq., and Henry Cornprob, Esq., as the delegates to represent them in the County Convention.

The Broad Top Pic Nic.

This was decidedly a fine affair. Although business forbade us joining the party of merry lads and blooming lassies, our heart went with them. The beautiful spot selected by the managers, (Fountain Grove) is unrivaled for beauty. It is a "spirit-stealing nook," where many summer days might be charmingly spent; the mingling boughs of the surrounding luxuriant woods cover it with impervious shade, and near by is a cavernous hollow, made by the moss-grown rocks, down which a small stream with a noise like a cascade echoes refreshingly through the still forest scene.

The Late Elections.

The recent elections held in several of the southern states, have resulted generally, in the triumph of Pierce, and Slavery, as was reasonably expected would be the case, by every political man of experience.

The State Teachers' Association.

The State Teachers' Association held a meeting at Pittsburg during the present week, at which Professor W. V. Davis, of Lancaster, presided. From the proceedings we learn that the recent school law, establishing a certain standard of qualifications for teachers, has caused a general demand for places where teachers might be properly educated, and accordingly, normal schools have already been established in the counties of Lancaster, Berks, Allegheny, Somerset and Centre; and the success of these points to the necessity for a State institution. The Lancaster Normal School opened on the 17th of April, and during the session 117 teachers have attended for instruction, of whom 125 were from Lancaster, and the others from different portions of the State.

The Harmonious Democracy--Rich and Racy Scenes.

The Locofoco delegate election show which came off in this borough on last Saturday evening, presented some features worthy of notice, not given in the hand-bills. It was a perfect farce; not the free expression of opinion of an independent Democracy, but an inquisitorial convulsion of designing two penny demagogues, who took upon themselves the self assurance and presumption to proscribe every individual who would not subscribe to a pledge declaring his disconnection with the K. K. organization, and a positive agreement never to become a member of such an order.

The Public Lands.

We learn that the exposition of public lands sold within the past fiscal year presents some surprising results, and yet such are characteristic of the working of our Government. The following recapitulation of the table embraces the most important items:

Table with 2 columns: Description and Acres. Total quantity of lands for cash, 14,689,368. Total quantity sold in the Free States and Territories, 7,691,000. Total quantity sold in the Slave States and Territories, 7,267,000.

Heavy Defalcation.

This is manifestly the age of defaulcers. No sooner does the public mind become composed over one "bust up," than it is disturbed by another. There is a story told of an aged African woman who had been a slave in America, but on being liberated she went to Liberia.

The Only Way to "Fuse."

The Iron Democrat appears to consider our plan for the action of the Whig party, during the coming campaign, to be rather proscriptive, so far as relates to the party he upholds. Well, Mr. Democrat, we mean just what we say; a fusion with the Democracy, would, inevitably destroy the character of the great Whig Party.

The Only Way to "Fuse."

But this brings us to the query: How will we consent to fuse? On the single system; i. e. the Whig party will nominate a pure ticket, composed of loyal, republican men, who have the good of the whole country at heart, who are eminently patriotic, untarnished by the prejudicial principles of any corrupt private organization for the promotion of selfish ends.

OUR BOOK TABLE.

The UNITED STATES MAGAZINE for August was received last week, but too late to receive notice. This is, emphatically, a good magazine; well worthy the patronage of the public, the price being but \$1 per year. Send and get it.

OUR BOOK TABLE.

The SACRED CIRCLE, is the title of a neat little monthly, we have been receiving for some time past. It is devoted to the science of Spiritualism, and is edited by Judge Edmonds, Dr. Dexter, and others. The believers in the spiritual science would do well to subscribe for it, if they desire their faith strengthened.

OUR BOOK TABLE.

PETERSON'S MAGAZINE for August, is before us, a rich, interesting, beautiful and desirable work. It is a book which all lovers of literature should possess, and we heartily recommend it to the public favor.

OUR BOOK TABLE.

The INVENTOR is the title of an excellent new scientific magazine, the first number of which is before us. It is a splendid work, and if we may judge of the future by the present number, it will certainly take the lead in the Scientific journal line. Published by Quimby, Haskell & Co., N. Y., at \$1 per annum.

OUR BOOK TABLE.

Billy Lewis, of Ohio, appears to take peculiar delight in attempting to make us appear as great a villain as himself. Poor soul; if we didn't pity him, we would tell a few plain facts relative to his life. But we won't. We would not like his dear, Democratic brethren know what a curmudgeon they have got to deal out their Democracy. We wish to keep such affairs as drunken rowdydom, conceit shows, police office scenes, &c., &c., profound secrets. We do.

OUR BOOK TABLE.

The rapid settlement of the Northwest, as evinced by the extraordinary emigration, and the vast quantities of public land sold or occupied on warrants, is one of the events of the day deserving of serious attention. The bulk of this migratory multitude has been generally composed of our native population, but what are its components at present we are unable to say.

OUR BOOK TABLE.

Foreign immigrants are not, as a body, passed off sufficient means to go far West. A number of them are engaged in various following mechanical or manual occupations. A minority go to the interior, but generally settle in the vicinity of some of their former friends or neighbors. The native immigration is composed of small farmers, who go West to become larger cultivators, or workmen who have accumulated money enough to start as owners of farms.

Fusion with the Democracy.

The Delaware County Republican—an old line Whig paper strongly opposed to the K. N. has the following hit at the proposed Whig fusion with the Democracy:

Fusion with the Democracy.

"Some of our political friends who have entertained the idea of a fusion with the democratic party, will find set forth in the resolutions adopted by the Democratic State Convention recently held at Harrisburg—a copy of which will be found elsewhere in this paper—the terms upon which that body will consent to see a single member of the party to which we are attached, who, for present service, will be willing to swallow Van Buren, Polk, Pierce, Kansas and Nebraska. For us the terms are entirely too severe. We have seriously and earnestly opposed Know Nothingism, with its secrecy and proscription, and we have also earnestly opposed many of the dogmas put forth by the Democracy, but when we see that party endorsing in a State Convention, all the principles and acts of the National Administration, and at the same time asking our aid to perpetrate its iniquities, we need only say that we feel more like opposing, with a still greater degree of earnestness, both these parties under the old Whig banner, as long as there is a single thread left. Defeat is just cause is far better than temporary success achieved by a sacrifice of principle."

Fusion with the Democracy.

The Reading Journal, in commenting upon the remarks of the Republican, very justly and truthfully says, that there are few Whigs in the State who will be willing to accept the invitation of the Locofoco leaders, for the reasons given by the Republican, and for the additional reason, that they cannot conscientiously ally themselves, politically, with the revilers and slanderers of the greatest and purest Whig that ever lived! Such an alliance would be an insult to the memory of HENRY CLAY of which no true-hearted friend of that Patriot and Statesman would be guilty.

Fusion with the Democracy.

When American CLAY Whigs forget their great leader, they are sure to be deceived. In 1844, when his associate on the Presidential ticket, was President of the American Bible Society, when they forget that the foreign Roman Catholic vote of the United States was rallied en masse against him at the ballot box—then, and not till then, can they be induced to "fuse" with Locofocoism to defeat and overthrow the great American Party, whose leader at this hour had God spared his life, would have been the Statesman and pure-hearted Patriot, Henry Clay!

Details of the Election Riot at Louisville.

The disturbances yesterday, commenced in the 1st ward, where an American named Burg, was stabbed and beaten, until he was nearly dead by a party of Irishmen. The parties making the assault were arrested. Afterwards, three Americans were fired upon while quietly passing a German brewery. A gentleman, riding in a carriage with his wife, was fired upon at the same time. Then a shower of shot and bullets was rained from some of the German houses, on the crowd below, and many wounded. Armed foreigners soon began to collect in the vicinity, when an indiscriminate slaughter of the Americans commenced. Other Americans crowded to the spot, when firing from the windows continuing, they set fire to the brewery, and sacked several houses in the vicinity from which shots had been fired. At 11 o'clock in the night, the rioters were dispersed by the police.
