THE NEW LIQUOR LAW.

As the first of October, the day on which the Act to restrain the sale of intoxicating liquors goes into effect, has passed, the community would like to know something of the matter, and the oft-repeated inquiry, "Will the law be enforced?" And coupled with that, also, the query, "Will the liquor sellers obey it, and close their houses?"

It is easier to ask than answer these interrogatories. We safely predict, however, that something will be done both ways. There are antagonistic forces in the field, both determined upon their course, and when Greek meets Greek, then comes the tug of war. The Temperance League has been formed for the express purpose of enforcing the law, and preventing its repeal while the Intemperance League a secret association, was organized with a view to resist the law, and support for the Legislature only such men as are pledged to vote for the repeal of the so-called "dry law."

We learn from our exchanges throughout the State, that most of the prominent retailers have expressed their determination to continue the sale of liquor as usual after the 1st of October and in case they are prosecuted, then to test the law by the ordeal of the Courts.

There are three laws now in force, constituting our present liquor license system. 1. The Backslap Law, the Sunday Law, and the Act of April last. By the provisions of these various acts, the following results are arrived at: 1. Entire prohibition on Sunday. 2. The abolition of all drinking houses and sales by small quantities. 3. Entire prohibition of sale to all persons, except temperate habitues. 4. The transfer of liquor selling from hotels and eating houses, to stores and other places of business. 5. No liquor to be sold by unincorporated citizens. 6. The declaration by the State, that "intoxicating liquors is no part of entertainment for man and horse," and the holding of persons legally responsible for the damages resulting from the sale of such liquors. 7. For the information of our readers, we have taken the trouble to make an abstract of the Act which goes into effect on the first inst.

1. All drinking houses prohibited, and a fine not exceeding \$50, with imprisonment not exceeding one month, for selling, and affording a place, inducement, or any other convenience, where intoxicating liquors are sold or drunk. For the second offence \$100 and not exceeding three months imprisonment. The same penalties when two or more persons combine, the one to sell, and the other to furnish a place for drinking, or for aiding or abetting.

2. All sales in less measures than a quart are prohibited. Courts of Quarter Sessions may not shall grant licenses to citizens of the 17 States, provided they be of temperate habits, and give bond, with two good securities, in the sum of \$1000, conditional for the faithful observance of all laws relating to the sale of said liquors, to be filed in Court, on which bond fines and costs may be collected, upon the conviction of the principal. The applicant for license must present this petition, have it lawfully advertised, and the Court shall fix a time when objections may be heard.

3. No hotel, tavern, eating house, oyster house or theatre, nor any other place of refreshment or amusement, can receive license to sell by any measure whatever, and no unincorporated person under any circumstances.

4. Druggists are prohibited from selling intoxicating liquors, except when mixed with other medicines.

5. Clerks of Quarter Sessions cannot issue a license until the bond has been filed, fees paid and the certificate furnished. Fees for license, three times the present amount; but no license granted for less than \$30.

6. Persons licensed to sell by the quart and greater measures, must have their licenses, and place it conspicuously in their chief place of business, or forfeit it; and all sales contrary to this act punished, according to the second section.

7. Constables, for willfully failing to return places kept in violation of this act, fined not exceeding \$50, and imprisoned from one to three months.

8. Importers may sell in the original package without appraisement and license; domestic producers, brewers and distillers, may sell liquors made by them, in quantities not less than five gallons.

9. Appraisers of licenses, under this act, appointed according to former laws, except in Philadelphia, where these requirements exist, in no way connected with, nor interested in, the liquor business, shall be appointed annually by the Court of Quarter Sessions.

Fair Play—No Grogging. The last issue of the Huntingdon Globe contains an article which we think is not entirely correct. It is the one in which is embodied the allegation that we refused publishing the communication of the 43 anxious inquirers of Petersburg. This is a mistake. Why we did not publish the article, has already been stated. We did not refuse. The communication we received and published from some of our towns men, contained almost precisely the same matter as the Petersburg affair and was evidently the concoction of the same individual. We stated that the "43" were answered in the comments on the liquor communication we published. Come now, Lewis, fair play.

ATTEMPTED SUICIDE.—A young man of about eighteen years of age, living in the western part of this county, attempted to commit suicide on Friday last, by swallowing an ounce of laudanum. He went to bed, but it was discovered on him in time to prevent any serious consequences. Some loose affair was the cause of his foolish freak.

THE COUNTY FAIR.—All things are now ready," so far as regards the ground, &c. Next week we presume will be a brisk time, with the fair, encampment, &c.

THE POPE.—The health of the Pope is declining; he himself expresses doubts whether he will live to see another anniversary of his election, and speculation is already ready rife about his successor.

Who is Safe?

There seems to exist a strange apathy in the public mind with regard to the case of Passmore Williamson. He has been in prison now nearly ten weeks. His innocence of the charge of "contempt," on the pretense of which he was committed by Judge Kane, is as clear as the sun in the heavens. Judge Kane knows he is innocent. The State judges of Pennsylvania know he is innocent. The public know he is innocent. And yet he remains incarcerated, the victim of one man's obstinacy; and for any thing we know, he must stay in Moyamensing prison until it shall please Judge Kane to permit his release.

Dr. Johnson used to say, that the right of Habeas Corpus was the one advantage which freemen had over slaves. Precious a that right is, it exists not in this country while Kane is on the bench. Any one, may lose his liberty on any pretext. The most candid and respectful reply to a question from a judge may be styled contempt of court, and a man is a prisoner during the pleasure of that judge. Why this indifference to an abuse of power so monstrous and so unprecedented? Is this Europe, or is it America? Is Moyamensing prison to be another Bastille? Is the *lettre-de-cachet* system to be revived? While Kane is judge, no citizen is safe. While Williamson is in prison, America is not free. Let the next Congress be overwhelmed with demands for the impeachment of the tyrant.

SEBASTOPOL HAS FALLEN!—It will be seen by the foreign news in today's paper, that the allies have at length effected the destruction of Sebastopol. This, however, by no means decides the fate of Russia. It may be looked upon as an event of immense importance to the decaying fame of England, as a reprieve from the deep humiliation and disgrace which has rested upon her since her entrance upon the Crimean war, but it will not subject Russia or end the war. The same spirit now characterizes the Russ, as in the days of Napoleon the Great, and as willing hearts and ready hands may now be found to lay in ruins their homesteads to stay the progress of the invader, as at Moscow.

Great rejoicings were made in England on the receipt of the very agreeable information of the fall of this long-besieged city. Thirty thousand human beings were slaughtered.

Mexico.—Affairs in Mexico are getting more and more tangled. There are six candidates for the Presidency—Carrera, the acting President; Alvarez and Comonfort in the South; Degollado and others in Michoacan and the Central portion of Mexico; with Vidauri and Garza on the Northern frontier. Carrera has one advantage over all; he has actual possession and does not mean to surrender, if he can help it. He has the military to sustain him, and in Mexico the sword often settles political questions than the ballot box.

A GOOD TIME.—As last Saturday was the day fixed for the last grand "flare up" of the subjects of King Alcohol, they accordingly took advantage of it, and made night hedions with their jollifications. All day Saturday, there was a continual running to the liquor vendors with buckets, coffee-pots, tea pots, tea canisters, col-buckets, and other indescribable articles, for a supply of the "O be joyful!" We would refer those who indulged too freely on Saturday night, to the abstract of the new liquor law, published in another column, as a "tapering off" powder.

CANAL COMMISSIONER.—The fusionists of the State, Whigs, Americans and Republicans, have nominated a Thomas Nicholson, as candidate for Canal Commissioner. Mr. Martin, the Know Nothing candidate, has declared his intention to devote himself to efforts for the election of Mr. Nicholson.

THE STATE FAIR.—The State Fair at Harrisburg was very well attended, some 40,000 people were present it is estimated. President Pierce together with a few other officials were present. The articles on exhibition were not so numerous as last year.

BUCHANAN.—It is said by a Washington correspondent, that the Hon. James Buchanan, Minister to England, is about to lead to the altar the widow of the late President James K. Polk.

GRAHAM'S MAGAZINE.—We have received the October No. of the above named magazine, which contains its usual amount of interesting matter. A. H. Sec, Philadelphia, \$3 per year.

ACCIDENT.—A brakeman on the Pa-Railroad, was severely injured by being struck on the head whilst the train was passing under a bridge a short distance above this place.

BRIBERY.—A number of New York City Aldermen have been indicted for accepting bribes from certain individuals, for using their influence in procuring various offices, &c.

PHILADELPHIA MARKETS.

Flour meets with a moderate inquiry for export, but the want of stock, particularly of standard shipping brands, which are very scarce limits operations. About 1000 lbs mixed brands were disposed of at \$8, and 1200 lbs extra, mostly Western, at \$8.18 1/2 per bbl. The markets closing very firm at these rates.—The demand continues moderate at from \$8 to \$9 for common to extra and fancy family brands. Corn Meal and Rye Flour remain quiet, but very firm, with light stocks on sale; 1000 lbs of the former sold at \$4.50 for Penna. Meal, and some small lots of the latter at \$6, 6.25 per bbl. Grain.—The receipts of Wheat continue light, and the demand rather less active to-day. Sales reach some 60000/1000 bushels, mostly reds, at \$1.80 1/2 cents, and in quantity, including near 4000 bushels Tennessee at 1.80 1/2 cents, the latter for prime, and some small sales of Penna. white at 200c/205c, for fair to choice lots. Of Rye further sales of 1500 bushels are reported in lots at 112c. for Penna. Corn is in steady demand, with light receipts, and about 3200 bushels Penna. yellow have been disposed of at \$1.42, mostly at the former rate in store. Oats continue firm, and about 2500 bushels Southern brought 41, afloat.

MILWOOD ACADEMY.

The present session of this Institution will close on Wednesday, October 3d. The exhibition will take place in the evening. The exhibition of the week will be held on Wednesday the public generally are invited to attend. The next session will commence the last Wednesday of October. The institution is located at Shade Gap, a quiet and retired place, free from all temptations to vice, dissipation or distraction. The location is a healthy one, being situated among the mountains. It is entirely free from the nuisances so common along our rivers and so destructive to health.

The course of instruction is such as has been found by experience most suitable for expanding and developing the powers of the mind. The student is early taught to rely upon himself, to think, to reason, and investigate the different subjects which are brought him. The government is strict but mild, only requiring what is for the student's highest good. Around him is thrown, as far as practicable, the restraints and comforts of a well regulated Christian home.

Shade Gap, is situated 17 miles from the Mount Union station of the Pennsylvania Railroad, from which place there will be a line of stages.

TERMS.—\$50 per session of five months, this includes tuition, room, rent and board. Washing, light and fuel extra. For further particulars address

READ THIS.—From the Washington (D. C.) Star.—Prof. Chas. De Grath's "Electric Oil" from Philadelphia, is already spoken of in Washington as being all that is claimed for it. People hourly come into the Drug store of Scott & Co., with a cured hand, a cured foot, violent neuralgia stopped, a swelling reduced, &c., and they say it is wonderful. Messrs. Scott & Co. are daily witnesses to these facts, and as they have within a few days received \$300 worth, they have had frequent opportunities of learning the effects of this great remedy. They would not sell it if it were not good, for they are high minded men.

AYER'S PILLS.

The Greatest Medical Discovery of the Age is AYER'S CATHARTIC PILLS. They don't help complaints, but they cure them. One Box has cured Dyspepsia. Two Boxes have cured the worst cases of Scourful. Three Boxes are sure to clean the system from Bile—often less than one does it. Two Boxes later completely cured the worst of ulcers on the legs. Small doses seldom fail to cure the Piles. One dose enters the headache arising from a foul stomach.

Stomach boxes often repeated expel every worm from the body. They should be given by children, who are always more or less afflicted with this scourge. As a gentle Physic they have no equal. One Box cures derangement of the Liver. Half a Box cures Colds. They purify the blood, and thus strike at the foundation of every disease. As a Dinner Pill there is not their equal in the world.

They are purely vegetable, and can do no harm, but do accomplish an unaccountable amount of good. Prepared by DR. J. C. AYER, Lowell, Mass., and sold by every respectable Druggist in New England.
