

Wednesday Morning, October 31, 1855.

WILLIAM BREWSTER, EDITORS. SAM'L G. WHITTAKER.

Thanksgiving Day. Governor Pollock has appointed Thursday, the 22d day of November as a day of Thanksgiving, Prayer and Praise to Almighty God by the people of the Commonwealth.

SHOWED HIS COLORS.—That exquisite sheet the Blair County Whip, has strong tendencies towards Locofocoism. We dislike renegades.

ITALY REVOLUTIONIZING.—A letter from GAVAZZI to the New York Crusader, states that the people of Italy are on the point of a revolution, and intimations are also thrown out that the people of Sicily are moving for a union with Sardinia.

OFFICIAL VOTE OF GEORGIA.—The whole vote in the State for Governor is 104,598—an increase of 9832 over the vote in the gubernatorial election of 1853. Johnson, Dem., has received 54,842, Andrews, K. N., 43,512, and Overby, Temperance, 6,244 votes. Johnson's majority over Andrews is 11,350, over Overby 6086.

Col. Kinney it is stated, has come to an understanding with the opposing claimants to the Musquitto lands, and the united forces of these parties will be brought to bear upon the government to induce it to ratify the title under which they jointly claim.

Riot.—An election riot in Baltimore City, between the Americans and Democrats on last Thursday, resulted in the death of one man and the dangerously wounding of some six or eight more. The fight lasted two or three hours, and a large number of citizens were prevented from voting, in consequence. The K. Nothing candidate was elected by 75 majority.

FENNY.—The Register of Hollidaysburg, is rather snappish over our article alluding to the County Fair. We peened the article in question, through the solicitation of a number of our citizens, but we deny that old Huntingdon ever did or ever will solicit the co-operation of Blair. But, if it becomes necessary, we will send some of our products up, to show how far we surpass our tender "daughter."

INDEPENDENT PROTECTIVE.—The Dauphin and Susquehanna Railroad has introduced on the line a very simple and inexpensive device for preventing the intrusion of cattle along the track. A platform of triangular wooden rods, a few inches apart, is placed lengthwise between the rails—the ground below having previously been excavated to the depth of six or seven inches, so as to make it necessary to cross the platform to gain entrance to the railway.—It appears that cows will have nothing to do with the arrangement; they turn away from the platform and the railway with perfect content, although they would very readily cross it if they had the courage and disposition.

BROAD TOP IRONS.—A workman engaged on the Road, near Stonerstown, made a miraculous escape on Monday, the 22d inst. He was engaged in putting in braces, on the trestle work, at the distance of seventy-five feet from the ground. His foot slipping he fell some distance, when he providentially caught hold of a projecting piece of timber, and succeeded in maintaining his hold until rescued from his perilous situation. Another workman was severely injured by a spike which was driving into the wood. It broke, and striking him in the face knocked out several teeth and injured his face considerably.

A number of coal cars for the Company have been completed, but are not used upon the road. We understand that the Stonerstown Bridge has been crossed by the locomotive. The road may be said to be completed.

REDUCING THE PRICE OF FLOUR.—The people East are getting their flour at a much reduced price, by means of association. A number of the citizens of Concord, N. H., (where flour is selling at \$12.50 per bbl.) recently got up a subscription and sent an agent to the West to purchase 300 bbls. He returned a few days ago and delivered it to subscribers at \$8.75 per bbl. This plan has been adopted in several towns in the East. The citizens of Thompsonville, Conn., recently united in purchasing two hundred and fifty-two barrels of flour from the manufacturers at Rochester, and it was delivered at their doors at \$9.36 per barrel. This was a saving of two dollars and a half or three dollars on a barrel. The "Broad Leauge" in Charlestown, Mass., has been organized, and five hundred barrels of flour have been subscribed for. Why cannot something of this kind be done in Huntingdon? Certainly the necessity exists to as great an extent here as elsewhere.

GRAHAM'S MAGAZINE FOR 1856.—The new volume of this excellent monthly magazine, commencing with the January No., 1856, will contain over twelve hundred pages of choicest reading matter, steel and wood engravings and music. Each number will contain a splendid Steel engraving; a plate of the Paris Fashions on Steel, elegantly colored; or one or more articles richly illustrated with wood engravings; miscellaneous Prose and Poetry, &c. The Novels and Romances of Graham are universally acknowledged to excel in beauty and interest any others published in America. All the departments have at their head persons of well established reputation for literary acquirements. The terms are exceedingly moderate for so valuable a work. One copy, one year in advance, \$3; two copies, \$5; five copies, (and one to Agent or getter up of Club), \$10; 11 copies, and one to Agent, \$20; for \$6, one copy will be sent 3 years. Additions to clubs at the same rate as club sent. Specimen copies sent gratis to those desiring to get up clubs.—All communications to be addressed to Abraham H. See, No. 106 Chestnut St., Phila.

The Rio Grande Indian War.

Although we are not much disposed to favor any of the Texan incursions into the territorial domain of Mexico, we must confess to something like sympathy with the Texans in their present war with the border Indians.—Our readers are not ignorant of the causes which led to this invasion of Mexico, as every fresh mail from the South has brought us lamentable accounts of the robberies and murder committed upon the frontier settlers by roving bands of Indians, whom it seemed impossible to catch or identify. So general was the terror caused by these repeated visitations, that in some sections the settlers were forced to abandon their habitations, and seek shelter in less exposed positions. Had the filibusters who lately crossed the Rio Grande to conquer Northern Mexico, and establish the new republic of Northern Mexico, devoted their attention to the stoppage of Indian depredations, it would have been far more creditable to their good sense than the extravagant enterprise they went upon. While they were thus busily engaged in paying attention to the affairs of the neighboring republic, the merciless savage was spreading havoc and desolation among their own people. They were somewhat slow to profit by the lesson, but having met with a mortifying disappointment in Mexico, and been cast off by the leader upon whom they based all their hopes, they were at last driven, through sheer lack of any other excitement, to make an effort to take care of their own suffering people. From the liberation of Northern Mexico they have been forced to turn to the liberation of Texas.

A number of expeditions have been sent against the Indians, but all have utterly failed except the one headed by Captain Callahan.—Some of them recaptured a few horses, but none could get within fighting distance of the Indians, the plain reason being that the marauders came from the other side of the Rio Grande, and retreated thither as soon as pursued. United States troops did the best they could to protect the settlements, but as long as the marauders found a safe refuge so near the settlements which they attacked, it is not possible to stop them. Large parties of savages appeared simultaneously in sections of the state widely distant from each other, and mounted upon fleet horses, for the dexterous management of which they are famous, they bade defiance to all pursuers. It was well known that the Lipans occupied a position on the Mexican side of the river, but at length it was ascertained that they were not only culprits—that, in fact, there was a collection of remnants of various desperate and savage tribes from the United States engaged in these outrages. It is also alleged that among the marauders were many Mexicans, disguised as Indians, but of this we have seen no evidence. An editorial article in the New Orleans Picayune thus states the fact which led to Captain Callahan's invasion:—

"It seems that, a short time since, a band of mingled Seminoles, Lipans and Mexicans, after committing several murders, were watched and seen to cross with a large quantity of stolen mules, horses, cattle, &c., nearly opposite Eagle Pass. This information was communicated to Captain Callahan, and led him to the and inflict signal vengeance upon them. The chief seat of the Seminoles is near the town of San Fernando, about thirty-five miles from the river; it was well known that here Wild Cat and his band were encouraged and supported by the Mexican authorities, and that he had held out inducements for the Lipans, Mesqueros and other tribes to join him. This whole section of Mexico has long been noted as a nest of thieves and murderers. Large numbers of runaway slaves had congregated there, protected from pursuit and capture by the laws of Mexico and it was shrewdly expected that they were also in league with the Indians, and participated in their marauding expeditions. Several attempts have from time to time been made by the owners some of these slaves to recover them, which have always been frustrated by the Mexicans, and particularly the authorities of the town of Piedras Negras, opposite Eagle Pass where Capt. Callahan crossed, and where he was at last accosted. The duplicity with which these authorities and people acted towards Capt. C. and his command, and their endeavors to entrap him, by their false and treacherous offers of assistance, into a place where, as they deemed, certain destruction awaited the whole party fully justified the opinions which the people of Texas have long entertained, and have freely expressed regarding them."

"The Globe's Pyramid.—Let us look at the glorious Democratic pyramid that has been erected in a few weeks, by the indomitable masses of the Democracy, aroused to action by the attempted usurpations of feusion combinations:—

MAINE:—
TEXAS:—
GEORGIA:—
ALABAMA:—
VIRGINIA:—
INDIANA:—
TENNESSEE:—
MARYLAND:—
NORTH CAROLINA:—
PENNSYLVANIA:—
AND A Gain of 50,000 in OHIO!!!

How could Know Nothingism help but fall from such a giddy height?—Globe.

That might possibly be a magnificent pyramid for Democracy, were you not, as a cotemporary says, under the necessity of stealing the timber. Maine is not Democratic.—Texas for the first time in its history, is not wholly Democratic.—Tennessee is half and half.—in Maryland the election is yet to come off, and what you get of it you can put in the pyramid, or the corner of your eye. Pennsylvania is not Democratic, you have a minority Canal Commissioner, and do not reach your vote of last year by many thousands, when you were beaten by about 40,000. In Ohio, you are like the boy at school, who exultingly boasted to his friends that he was next to head, but had to admit that the class consisted of him and another boy.—Great pyramid that, stands out in bold relief in the Globe's imagination, and nowhere else; but suppose it was a reality, what then? We believe the Globe constructed one about three times as high, two years since, and if Sam'l's family fell from that, they didn't complain very much.—somebody else did though,—said they were ground to powder, and blamed the bloody Cayennes,—and somebody also will have occasion for blame again in 1856. We pity them but can't help it. The editor of the Globe can sit beneath the shade of that pyramid, if he is enough of it to cast a shadow—but if it does, which it finds itself buried beneath the wreck, it will please remember with gratitude, that it is indebted to you for a timely warning and friendly admonition.

PENNSYLVANIA LEGISLATURE. Session 1855.

The new Legislature will stand as follows.—The newly elected Senators are marked with an asterisk:—

Democratic majority on joint ballot 31.

It will be seen by the names of the members elect to the Legislature that the Senate contains but 17 Pierce-ites, instead of 18 as we gave them credit last week, thus reducing their majority in the Senate to one. The anti-National Administration strength in the house, it will be seen, is 32.

The End of Arctic Exploration.

It has been reserved for two officers of the American Navy, remarks the Philadelphia Sun, to reach the greatest northern and southern latitudes of any polar explorers. Wilkes, having almost touched the southern point of the earth's axis, and Kane having come even nearer to the northern extremity; Wilkes discovered the Antarctic continent, and Kane found the great Arctic Sea, which was only supposed to exist, and perhaps an Arctic continent. Now, unless we feel inclined to send our marble tablets with engraved superscriptions, commemorative of these achievements, to be hung on the ends of the poles, we must consider that nothing more can be gained to science, and nothing achieved for humanity from further polar exploration.—God in his wisdom, has fixed icy barriers to human progress and has thrown the pall of night for six consecutive months over the eye of man. We know that a north-west passage actually exists; but that it is impracticable for purposes of commerce, the world's heart has been set at rest from its sad bearing for the fate of Sir John Franklin.

The location of the magnetic pole is accurately enough defined to adjust the variations of the compass, and the mystery of the Aurora Borealis may never be solved, and yet the world goes on. For all practical purposes we know enough, and therefore we may presume that the Kane expedition is the last that will be fitted out. All that daring and perseverance could effect has been accomplished, and it matters now but little, what capes, headlands, seas or mountains are among the eternal glaciers and great icebergs of those regions! We cannot afford to sacrifice more for the little good that may result; we cannot permit valuable lives in the hope to penetrate the illimitable solitudes which "seem lengthening as they go."

Kane has achieved the crowning glory in polar adventure, and when he has contributed to the scientific world, the result of his observations, he must seek new fields in more genial climes, for his spirit of chivalrous research.—We should like to have an expedition raised at the government's expense to include Fremont, Kane, Bayard Taylor, Wilkes, and other experienced travellers, with liberty assigned them to shape their course wherever they thought adventure would be most romantic and the fields of exploration most untrodden. But let the north, with the bear and the walrus, its stunted Esquimaux and all its darkness and solitude, remain the sealed book which the Deity seemed to have intended.

Look Out for Fun.

"Some of the signers of the 'Circular' called upon the editor of the Globe last week, and desired him to give up the paper, which he refused doing."—Huntingdon Journal, 17th Oct.

"Was it a dream you had Mr. Editor of the Journal—or have you determined to lie yourself out of your unpopularity position. Not a single signer of the 'Circular' has ever desired you to give up the paper." Neither do we believe that any one of them, ever stated to you that we had been called upon and the paper demanded. Give us the names of "some of the signers" who, you say, called upon us. We are afraid you are getting no better fast—the Professor said put you through a second time."—Huntingdon Globe, 24th October.

Mr. Editor of the Huntingdon Journal:—I have just been shown a copy of the Huntingdon Globe published in your borough, in which I find an editorial article, calculated to deny the truth of an allegation you made, relative to a certain 'Circular' which was published in that paper, previous to the election. Now as I am one of the persons whose names are attached to the 'Circular,' and one of the number who informed you that application had been made for the paper which I did sign, I deem it but a mere act of justice on my part towards you, to make the following statement: Previous to the late election, a paper was extensively circulated in this township, by a prominent Democrat, containing merely the query, addressed to you:—'Will you support the fusion ticket?' Now being published in your borough, in which I find an editorial article, calculated to deny the truth of an allegation you made, relative to a certain 'Circular' which was published in that paper, previous to the election. Now as I am one of the persons whose names are attached to the 'Circular,' and one of the number who informed you that application had been made for the paper which I did sign, I deem it but a mere act of justice on my part towards you, to make the following statement: Previous to the late election, a paper was extensively circulated in this township, by a prominent Democrat, containing merely the query, addressed to you:—'Will you support the fusion ticket?'
