Small Fox.

The Small Fox has made its appearance in Huntingdon. We understand from the Register that it has spread through carelessness beyond the limits to which it might have been confined.

The Ohio Election.

The Ohio State Journal contains the full official returns of the late election. The total stands as follows:

Table with 2 columns: Candidate Name and Votes. Includes Chase (146,611), Medill (131,031), Trimble (21,310), and Chase's minority on the whole vote (8,750).

The Vote in Kansas.

The following is the result of the election lately held in Kansas, according to the papers of that territory: Total number of votes cast for Reeder, 2864. Total number do. Whitfield, 2462.

Impeachment of Judge Kane.

We see it stated that petitions are in circulation in Maine, Illinois and other States, to Congress, praying that Judge Kane of Philadelphia may be impeached at the bar of the United States Senate, for misconduct in office.

The British Naval Movement.

We learn from the Pittsburg Journal that an English gentleman residing in that City has received by the last steamer from England a letter from a distinguished admiral in the British Navy, which, under date of October 18, says:

Postal Mismanagement.

We cite the following, as one among many of the sad effects of post office mismanagement, under the present Jesuitical rule of J. Campbell, whose only standard of fitness he has for measuring a man for office, is—Is he a good Catholic?

The Plan of the Allies.

From the latest intelligence from the seat of war, it is evident that the Allies intend on the side of Eupatoria to threaten the rear of the Russians and cut off their communications, while they menace their left at Aidodar.

Think before Acting.

The worst thing a man can do is to act without reflection. Your hasty person is generally a fool. He is always in hot water himself, or plunging his friends in for him; he cannot be trusted; with the best intentions often he nevertheless does wrong.

A Battle with Pirates in China.

We neglected to notice last week that an engagement had taken place on the 4th of August between divisions of boats from the United States steam-frigate Powhatan and her British Majesty's steam-ship Rattler, and a large fleet of piratical junk which had for some time previously infested the neighboring waters and committed extensive depredations on commerce.

Post Office Depredations.

For some time past, says the Cincinnati Times, there have been complaints made by the Post Office Department at Washington, of the large number of letters, with money in them, that are said to exceed that of any other State.

STARTLING NEWS OF THE CUBA QUESTION.—We have received by the Baltic today the N. Y. Herald a letter from a reliable source in Paris, commenting on the important fact that the old Cuban intelligentsia has been very recently received in a most belligerent shape, between Mr. Buchanan, our Minister at London, and Lord Palmerston, the British Premier.

This information from Paris we find substantially corroborated by the following extract from the Hants (Eng.) Telegraph, Oct. 10.

"The Powerful St. Captain Massey, is ordered to Jamaica; and the Cornwallis, 60, Capt. Wellesley; Pembroke, 60, Captain Seymour, (screw) and Rosanand, 60, paddle, Commander Crofton, are to go to Bermuda. It is rumored that this movement is in consequence of some communication made to them by the British government on the subject of Cuba in a tone insulting to this country in the highest possible degree. The American government bids the English government to beware what they say about it; and that England has its hands full already; and that in defiance of England's interferences with them they will do what they please to Cuba. The Powerful goes first for Lisbon before starting for Jamaica. The Powerful takes superannuated for the Neptune and the St. George, three deckers, at Lisbon, and also for the squadron in the West Indies. The Neptune has been named this week, now that the Neapolitan business is settled, and also expected to go to the North American station so that a force will be assembled that will be more than sufficient to defend the honor of England and the interests of her colonies.

DEPLORABLE ACCIDENT.—We learn from the Columbus (Ohio) Journal that a sad accident occurred a few days ago in this town of Altoon, that country. It appears that Charles Higgins, a boy about fifteen years of age, took his gun out into the yard for the purpose of killing a chicken. Not observing his mother, who was on the other side of the fence hanging up clothes on a line, he fired the ball-killed the chicken, and glancing upwards, it struck on the head and killed her almost instantly.

The boy, totally unaware of the dreadful calamity, picked up the chicken and carried it into the house, when one of other children happened to see Mrs. Higgins laying upon the ground, with blood upon her head, screamed for assistance. The unfortunate woman was carried into the house, a physician was sent for, and upon making examination the cause of her death was ascertained. Mrs. Higgins was a widow lady about 45 years of age, and leaves a family of seven children.

SENTENCE FOR ILLEGAL ENLISTMENT.—In the United States District Court, in New York, Jos. Wagner, convicted of enlisting men for the British service, was brought up for sentence. The Judge (Hugrass) said he would give an example of him in order to deter others with a similar course, which might embolden us with the present belligerent powers of Europe. The Court then sentenced the prisoner to be imprisoned two years, and pay a fine of \$100. Wagner was arrested in Boston but was sent to New York, the offence having been committed there.

MEM.—The Globe asserted that no one had applied for that forged circular. We published a letter from Mr. Read, since which time it has been known. Surely the Globe man is not "the spirit of a just man made perfect."

THE OPENING.—The excursion over the road on Thursday last, was a very pleasant one, and everything passed off well, especially the original packages brought from Phila., or rather we should say the contents of the same.

Interesting News of the Week.

Railroad Conspirators Arrested.

Our readers will remember that on the 9th of June last, a serious accident occurred by the placing of obstructions on the railroad track, near Slough, Governor Barstow was very rightfully offered a reward of \$500, to which the Superintendent of the road added \$1000 more, for the arrest of the conspirators.

"At Davenport, recently, when some lots were to be sold at auction to pay the taxes, the sale was by the direction of the authorities, opened with prayer.

"Punch says a man who goes to church to chew tobacco and spit on the floor, ought to be taken by the head and heels and scrubbed upon the soiled spot until it is made clean.

"We have at length a full report of the dead and wounded by the late and disaster on the St. Louis Pacific Railway; and the totals are, dead 30, wounded 70, or 100 in all.

"Widowly.—Wm. Otter, a lad 16 years of age, recently climbed a flagstaff, in Nantucket, 127 feet in height, 'shining' the last 29 feet while the pole swayed to and fro. He went up for the purpose of reefing the halcyons.

"Camin might be divided into two counties. Look at some of her returns:

"The N. E. Spiritist had a 'communication,' last June, stating that Dr. Kane had recently passed from earth, his ships had been broken to pieces, &c. They may have been 'spiritic' of just men, but they are not made 'spiritic'.

"Mount Vernon.—It will be recollected by our readers that some months ago an effort was started by an association of patriotic ladies for raising funds to purchase the property of Mount Vernon. The Inquirer states that between \$60,000 and \$70,000 of the purchase money has already been collected.

"On the 17th inst., a public celebration took place in New Orleans for the fall of Sebastopol. A Te Deum was chanted at the Cathedral, and a salute of three hundred guns fired. The celebration was, however, confined to the French part of the town, all the rest refusing to participate, and the shipping in port refusing to hoist their flags.

"A Smart Old Lady.—Mrs. Lydia Bowley, widow of the late Joseph Bowley, who was one of the first settlers in the town of Hartland, Me., celebrated her 70th birthday, by spinning nine skeins of yarn, and would have finished the tenth had not her wheel broken. Six skeins we believe is a common day's work. She is as smart and active as she was fifty years ago.

"Some unknown individual, having been bantered to produce a rhyme to the word 'month,' a result declared impossible, perpetrated the following:

"They caught the soldier in Broadway— (December was the month)— He saw his pistol thrown away, And also saw his gun thrown away."

"Not so Rich as Supposed.—A statement in the papers makes the Rothschilds worth \$700,000,000 in money capital and \$200,000,000 in real estate. The National Intelligencer says this is absurd; that their aggregate wealth is only 200,000,000, of francs, or about \$40,000,000. Some difference, it is true, but still leaving enough to make them feel in comfortable circumstances.

"An encounter took place on the 16th inst. near Wallerboro', Colleton District, S. C., in which Job Benton was instantly killed by Pinckney White, the weapon used being a gun. White has been committed to jail to await his trial. White's mother and two sisters have also been arrested—one of the sisters, a little girl, as witness, the others as accessories.—The cause of the crime is alleged to have been slander of White and his mother by Benton.

It is very voluminous, and chiefly devoted to State matters; and earnestly that the Legislature provide for calling a State Convention in case Congress rejects the application of Kansas for admission into the Union, on the ground of its being a slave holding State in which case the Governor advises a dissolution of the Union, but earnestly hopes that the patriotism of the North will avoid such a calamity.
