BROAD TOP MINERAL ENTERPRISE!
EXTRAORDINARY INDUCEMENT FOR INVESTMENT!
2300 Acres of Coal Land.
1500 Acres Iron Ore Land.

This large and very valuable Mineral Estate, lying in the Broad Top coal field, and the heavy iron ore deposits adjacent to it, along the line of the Huntington & Broad Top Railroad, is now thrown into market, so as to be accessible to all who desire to invest a small sum of money, in the safest, cheapest and the best way. The Broad Top coal is a pure, compact, easily ignited and durable fuel. It is admirable for domestic purposes, having but a trace of sulphur, giving a powerful, steady, and durable heat, and much cheaper than any other coal than Anthracite. It is an excellent coal for burning lime, for smelting, and for rolling mills, greatly superior even to Pittsburgh coal as a steam generator, and unequalled for the purity and strength of its coke.

Mining Certificates are now issuing which cover 1800 acres of land on the east and west sides of the Broad Top coal field in Huntington and Bedford counties, Pa., much of which has no superior for the quantity and quality of its coal. All the finest seams are embraced by these Certificates, the Riddle seam 3 1/2 to 7 feet thick, the Cook 4 to 6 feet, the Speer 5 to 7 feet, the Barnes 3 1/2 to 4. Each Certificate entitles the holder to mine and carry away ONE HUNDRED TONS OF COAL, and also to use undivided interest in 20 coal tracts of 20 acres each, on the east and west sides of the Mountain, and to one undivided interest in perpetual mining privileges covering 60 tracts of 25 acres each of iron ore lands. And the price of each Certificate is but THREE DOLLARS.

The coal mines close to the Huntington and Broad Top Railroad will be put in working order, and preparation made for sending coal to market during this winter and next spring. The sale of certificates will be closed, and the gift lands passed into the hands of the trustees for distribution at the earliest possible date. Each coal tract to be distributed is guaranteed to contain a seam of Semi-Anthracite coal, each tract of iron ore land is guaranteed to contain a seam of Fossil Iron Ore.

The coal and iron ore lands to be distributed are fortunes in themselves. The right to mine 100 tons of coal alone is worth \$25, at the price now charged at the mountain. These certificates give the same right on equally good coal land for *Three Dollars*, and adding two dollars for incidental expenses for work, their holders obtain coal of the best quality more than three times as cheap as it can be had in any coal-field which is developed in Pennsylvania. The mining lands on the west side are close to the Huntington & Broad Top Railroad, and on the east side they are at the very heart of the coal field. These Certificates cannot be depreciated. The cheapness and excellency of this coal insure an extensive and constantly increasing demand for it, which will put these certificates at a premium in a short time.

For the evidence that the Coal lands embraced in these certificates are among the best, the most accessible, and earliest in market in the whole of the coal field, the following facts are close to the line of the Huntington & Broad Top Railroad, I refer the public to the hands themselves, or to the map of them very carefully prepared by Mr. R. Volkmar, and to the Report of J. P. Lesley, Esq., the distinguished Geologist, which can be seen at my office, and a copy of which will be furnished to any one desiring it.

Full and satisfactory replies will be given to all inquiries relating to this enterprise, addressed to this office. W. H. IRVIN.
