

Humorous Poetry.

A SUNNIT TO THE BIG OX.

Composed while standing within 2 feet of him, and a tuckin' of him now and then.

All haled thou mighty animal—all hale! You are 4 thousand pounds, and am party well Perphorand, thou trowenjos been suggest? I wonder how big you was w'en you Wos little, and if yure mother wad no you moat!

Which kint' wa' far from phorty pounds, Wud mark nigh unto a barrel of ox tail soap, And eudn't a heap of stakes be cut o'p' yu,

Valuable Recipes.

To Wash a RIGOLETTE.—A rigollette

is a hood netted or knitted of fine white woolen or zephyr yarn, and ornamented with little fringe-bills of the same. Ladies wear them as a covering for their heads when going to plays or concerts.

DELICIOUS CULLET.—First take your cutlet and beat it well with the flat side of the cleaver, or with a rolling-pin; beat it for at least five minutes; then, having thrown a quantity of butter, eggs, and flour, into a frying pan, when the mixture is hissing hot, fling your cutlet in, and there let it stew.

KEEPING APPLES.—The most effectual method of preserving both apples and pears at this season, is this—Having selected the best fruit, wipe it perfectly clean and dry with a fine cloth; then take a jar of suitable size, the inside of which is thoroughly coated with cement, and, having placed a layer of fine sand, perfectly dry, at the bottom, place thereon a layer of fruit, and then a layer of sand.

COMFOTE OF APPLES.—Pare six large apples, cut them in half, and put them in a pan, with a little water and lemon juice. Next, clarify half a pound of sugar, skin it, and put the apples into it, adding the juice of a lemon.

CORN BREAD.—As made at Green's, in Chambers street, N. Y.—Take seven pints of yellow corn meal, three pints of wheat flour, and mix them well together. Then six well-beaten eggs, two cups of melted butter, of about the consistency or stiffness of paste, prepared for drop cake; then dissolve three teaspoonfuls of cream of tartar and the same of soda; pour it upon the mass, stir it thoroughly, and dip it at once into pans, and bake it in a hot oven.

To Make Lard and Tallow Candles.

The following method of making the above named candles is described in the New England Farmer by a correspondent:—"I keep both tallow and lard candles standing the last summer, the lard candles stand the best, and burning quite as well, and giving as good light as tallow ones. Directions for making good candles from lard: For 12 lbs. of lard take 1 lb. of saltpeter and 1 lb. of alum; mix and pulverize them; dissolve the saltpeter and alum in a gill of boiling water; pour the compound into the lard before it is quite all melted; stir the whole until it boils, and skim off what rises; let it simmer until the water is all boiled out, or till it ceases to throw off steam; pour off the lard as soon as it is done, and clean the boiler while it is hot. If the candles are to be run, you may commence immediately; if to be dipped let lard cool first to a cake, and then treat it as you would tallow."

To REMOVE STAINS FROM THE HANDS.—Damp the hands first in water, then rub them with tartaric acid, or salt of lemons, as you would with soap; rinse them, and rub them dry. Tartaric acid, or salt of lemons will quickly remove stains from white muslin or linens. Put less than half a teaspoonful of the salt or acid into a tablespoonful of water; wet the stain with it, and lay it in the sun for an hour; wet it, once or twice, with cold water during the time. If this does not quite remove it, repeat the acid water, and lay it in the sun.

GINGERBREAD LOAF.—One pound of flour, one pound of treacle, quarter of a pound of butter, one egg, one ounce of ginger, some candied peel, and a few caraway seeds, ground, a teaspoonful of soda. To be baked in a slow oven. The flour to be mixed in gradually; the butter and treacle to be milk warm; the soda to be put in last. Let it stand half an hour to rise.

CHRISTMAS TEA CAKE.—Take three eggs, and beat them well; and add one pint of milk, and of butter the size of an egg. Then flour sufficiently to make it the thickness of cream. Take three good apples, and, after cutting them very fine, stir in and bake. When done, score the cake on the top, and pour over it melted butter and sugar, and it is ready to eat.

BUTTER-MILK CAKE.—Take one pound of flour, one pound of sugar, half a pound of butter, five eggs, and half a pint of butter-milk. Beat the eggs well, then add the sugar, then the milk, then the flour, and the butter, which must be washed and creamed. Add a tea-spoonful of soda, and flavor with lemon, and bake slowly in a pan.

OYSTER TOAST.—Bruise one anchovy fine in a mortar; take twenty oysters, cut off their heads, and chop them small.—Mix the anchovy and oysters in a saucypan, with as much cream as will make them of a good consistency. Add a little cayenne pepper; spread them, when quite hot, on a round of hot, well-buttered toast; cut as for anchovy toast.

HOW TO DRESS A HAM.—Boil it in hock a quarter of an hour to each pound; then put it in an oven, and bake it another quarter of an hour to the same weight; and I will venture to say the epicures will acknowledge that nothing can be more delicious.

FIG PUDDING.—Half pound of figs, half pound of flour, two eggs, half pound of suet, a little sugar, and little wine, salt, and various spices. To be boiled in a tin shape for four hours.

USEFUL RECIPE.—Wounds in cattle are quickly cured by washing several times a day with a mixture of the yolk of eggs and spirits of turpentine.—Phila. Ledger.

Prayer. Prayer was not invented; it was born with the first sigh, the first joy, the first sorrow of the human heart; or rather man was born to pray; to glorify God, or to implore him as his only mission here below; all else perishes before him or with him; but the cry of glory or admiration, or love which he raises towards the Creator, does not perish on his passing from the earth; it re-ascends, it resounds from age to age, in the ear of the Almighty, like the reflection of his own magnificence. It is the only thing in man which is wholly divine; and which he can exhale with joy and pride; in an homage to Him to whom homage alone is due—the infinite and eternal Being.—Lamartine.

A good newspaper is like a sensible and sound-hearted friend, whose appearance on one's threshold gladdens the mind with the promise of a pleasant and profitable hour.

MISCELLANEOUS ADVERTISEMENTS.

FIVE PER CENT SAVING FUND, OF THE NATIONAL SAFETY COMPANY. Walnut Street, South West Corner Third Street, PHILADELPHIA.

INCORPORATED BY THE STATE OF PENNSYLVANIA IN 1841. FIVE PER CENT SAVING FUND is given and the money is always paid back whenever it is called for, without the necessity of giving notice for its withdrawal.

People who have large sums put in their money in this Safety Fund, on account of the superior safety and convenience it affords, but any sum, large or small, is received.

THE OFFICE is open to receive and pay money every day, from 9 o'clock in the morning till 7 o'clock in the evening, and on Monday and Thursday evenings, till 9 o'clock.

People who have money to put in are invited to call at the office for further information. HENRY L. BENSER, President. ROBERT SELEFRIDGE, Vice Pres't. Wm. J. REED, Secretary. Nov. 1, 1854.

MOUNTAIN FEMALE SEMINARY, Birmingham, Huntingdon county, Pa. This Institute is situated on the Pennsylvania Railroad, and occupies one of the most desirable localities in the state. It is so easy of access, retired, healthful, and surrounded with such romantic mountain scenery, that no one who wishes to learn, could find an institution more favorably situated.

Boarding, Tuition and furnished rooms per term \$60 00 Latin, German, French, Painting, Drawing and Instrumental Music, Extra. Rev. I. W. WARD, Principal. March 27, 1855-56.

HUNTINGDON FOUNDRY. R. C. McGILL returns his thanks to his friends and the public for their liberal patronage, and expresses his hopes for strict attention to business, and to merit a continuance of the same, in all kinds of Castings, Cooking Stoves, Air-Tight, Zapor, Ten Plate Wood and Coal Stoves, of various sizes, and all kinds of Ploughs, and the Lancaster and the Plank Barless patterns, and Keystone No. 4 Self-sharpening and Hill Side Ploughs, and Shears to suit all kinds of Ploughs in the country; Rolling-mill and Forge Castings, Grist and Sawing Castings, Lewistown Threshing Machine Patterns, and the four horse and two horse power of Chambersburg patterns; and all other kinds of castings too numerous to mention, all of which will be sold cheaper than ever for cash and all kinds of country produce. Also, old metal taken in exchange for castings. Huntingdon, November 9, 1853.

ROBBED, BUT NOT DISHEARTENED. Brilliant Display of Jewelry. THE public generally, and the residents who, I some time since, entered my store and removed valuable to the amount of \$1100, without my permission, are informed that I have just opened a more general and better assortment of articles in my line of business than was ever brought to Huntingdon, consisting of Watches, Jewelry, Clocks, Fine Knives, Patent Cut-throat Razors, and all kinds of Articles, &c., &c. My Old friends and customers, and the public in general throughout the county, are requested to call and examine my assortment. EDWARD SNARE, Huntingdon, March 29, 1854.

A SPLENDID ARRIVAL OF FALL AND WINTER CLOTHING, AT THE HUNTINGDON CLOTHING STORE. A. WILLOUGHBY, HAS just returned from the east with a large and splendid assortment of Fall and Winter Clothing, for men and boys, made in the latest fashion and in the most durable manner. The goods will be dressed better and cheaper than anywhere else in town, let him call at WILLOUGHBY'S CHEAP CLOTHING STORE, one door west of T. Read & Son's drug store, Huntingdon. Call and see for yourselves. Oct. 18, 1854.

REMOVAL. THE undersigned wishes to inform his friends and the public generally that he has moved his place to the building of And. Harrison, formerly occupied by him as Collector's office, Hill St. Where he intends carrying on the Tailoring business on such terms as will not fail to give satisfaction to all that may favor him with their custom. He wishes to return thanks for the liberal patronage heretofore received and hopes by strict attention to business to merit a continuance of the same. ENOS H. KULP. April 10, 1855-56.

INDUSTRY MUST PROSPER. J. N. BALL respectfully solicits the attention of the farming community to a quality of Ploughs which is in new manufacturing, and will be ready for sale in a few days, he is also prepared to make harrows, wagons, carts, wheelbarrows, &c., &c., and to do all kind of repairing at the shortest notice, and in the most substantial manner. Shepley N. W. corner of Montgomery and Washington Sts. March 27 1855-56.

DISSOLUTION. THE partnership heretofore existing between Myton and Mosser is by mutual consent dissolved, and the persons knowing themselves indebted to the said firm, will please call and settle their accounts without delay. MYTON & MOSSER. Salesburg, April 9, 1855-56.

PHILADELPHIA ADVERTISEMENTS.

\$1000.—SOLD IN TWO DAYS.—Triumph over the disease which has afflicted the Governor of Maryland, also the President of the Bank of Frederick City, by the Doctors there to procure it? Why has a large cash order this week come from such men as Messrs. Peol & Stevens, wholesale Druggists of Alexandria, Va., and the President of the Bank of Frederick City, and from Messrs. Cook & Co., of same place, and by the very same mail a fourth order from Messrs. Hopper & Witmer of Centerville, Md., (where a short time since such an excitement sprung up from some remarkable cures made there by Prof. C. DeGrath's (genuine) Electric Oil, from 39 South Eighth Street, Philadelphia, a few doors south of Chesnut street? How is it that the editor of Erie Observer was cured two days of the disease in the back of three years' duration; and Mr. Brady, of Harrisburg of Paralysis? Why and how was it that the other day Mr. George Weis, 227 Eager street Baltimore, two doors from St. James' church, was cured of spinal and neuralgic suffering, also his wife, by the use of Prof. DeGrath's (genuine) Electric Oil, and of spinal curvature, and another of Protoplasmic Uteri, a complete radical cure? Ask them. Why do such men as Messrs. G. N. & W. H. Williams, wholesale Druggists, of Syracuse, N. Y., write, August 30th, that—"your Electric Oil proves more beneficial than any other preparation we have ever heard of." &c.

Yours, G. N. & W. H. WILLIAMS. Why has Joseph Osborn, Esq. of Auburn, written, "I have tried the long standing Prof. DeGrath's Electric Oil, and it is selling very fast, and making great cures never before accomplished here? Why did John Rux, Esq., send, the 21st inst., a gold dollar in a letter from Double Bridge, Va., for a bottle, on the recommendation of the Hon. J. M. Caldwell, who got a short time since for the Gout, and was cured? Why is it that every one speaks of it as "a wonderful curative," and is not the real cause of more selling at retail, in Philadelphia, than of any other medicine, and of five or six others? Why legit, that a Physician of large practice used it of the paralyzed limbs of his boy, after using everything else? Simply because the genuine "Electric Oil," from the office of Prof. DeGrath, is actually cures paralysis. Why and how is it that over \$500 has been sold in Washington, D. C. during about six weeks, and over \$1000 worth in Baltimore in the same time? Why do Messrs. Morris & Co., of York, Pa., order the finest Druggists houses in the State and John W. Wyeth Esq. of Harrisburg, Pa., sell so much, when they have any quantity of all sorts of other medicines right by the side of the "Electric Oil?" Simply because nothing else will answer the purpose, but this Oil does. Let the medical and the numerous cases of almost hopeless patients, if anything could be more agreeable in use, or more effectual in its results—some after having expended hundreds of dollars on various other treatments, with nothing but discouragement and despair for their trouble. Why is it that other medicines have advertisements piled up column high, in all the papers while Professor DeGrath's "Electric Oil" is only noticed in a single expense not to exceed \$15 to \$20 a day? Why is it that two physicians actually employed in the office, applying the (genuine) "Electric Oil" to patients afflicted with Tetter, Palsy (and it is warranted for this)—Rheumatism, Neuralgic Pain, Old Sores and Bruires, Wounds, Cuts, Strains, Sprains, Stomach and side; and all kinds of painful complaints. Although a cure is warranted, yet not more than one bottle has ever been returned; and that was a case of total deafness of 16 years, and of course, of course, cure could not restore such a case, with whatever help.

N. B.—An educated Doctor always in attendance and ladies may, if they desire it, consult with a lady by dropping a line to the office of Prof. C. DeGrath, 39 South Eighth Street, Philadelphia, 3 doors South of Chesnut St. Price, 50 cts, 75 cts., and \$1. P. S.—Five dollars reward will be paid for the arrest of a low scamp, a Jew peller, who copied, and is now circulating, a false and malicious article, and as the originals are copyrighted, he is liable to the law. Remember the No., 39 S. Eighth st., Philadelphia. Thomas Read & Son, Huntingdon, Hunt. Co. Pa. Agents for the State of Pa. Wm. Murray, Hollidaysburg, Blair co., Condon & McCoy, Frankstown, Blair co., J. H. Hooper & Co., Waterstreet, Hunt. co., Wm. Morse, Alexandria, Hunt. co. Sept. 26, 1855.

ALL SURGICAL OPERATIONS PERFORMED.—N. B. Let no false delicacy prevent you, but apply immediately either personally or by letter. Skin Diseases Speedily Cured. It is constantly checked the Agency of this Institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J. Rhoades, and the Reports of the papers, and many other persons, notices of the success of the Agency, and the relief of the public, is a sufficient guarantee that the afflicted will find a skillful and honorable physician. As there are so many ignorant and worthless quacks advertising themselves as Physicians, and as the unacquainted with their qualifications, let their Credentials or Diplomas always hang in his office. Weakness of the organs immediately cured, and all other restoratives—remedies sent by mail. May 22, 1855-56.

RHODES'S FEVER AND AGUE CURE. For the prevention and Cure of Intermitent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Malaria or Miasm. It is a natural antidote which will entirely protect any resident or traveller even in the most sickly or swampy localities, from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasm. It instantly checks the Ague in persons who have suffered for any length of time, from one day to twenty years, so that they need never to have another chill, by continuing in use according to directions. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected. One or two bottles will answer for ordinary cases; some may require more. Directions printed German, French and Spanish, accompany each bottle. Price one dollar. Liberal discounts made to the trade. JAMES A. RHODES, Providence, R. I.

EVIDENCE OF SAFETY. New York, June 11, 1855. "I have made a chemical examination of Rhodes's Fever and Ague Cure, or Antidote to Malaria, and have tested it for Arsenic, Mercury, Quinine, and Strichnine, but have not found a particle of either, nor have I found any substance in it in composition, that would prove injurious to the constitution. JAMES R. CHILTON, M. D., Chemist."

EVIDENCE OF MERIT. Lewistown, Pa., May 2, 1855. Mr. J. A. Rhoades—Dear Sir, The box of medicine you sent me was duly received on the 11th of April. I have sold about one half of it, and so for the people who have used it, and six of the best of long standing, my friends, who had it for five or six years, but could never get it stopped, except by Quinine, and that only as long as she would take, is now, I think, entirely cured by your remedy. C. R. MCGINGLY."

CAUTION TO AGUE SUFFERERS. Take no more Arsenic, Tonics, Mercury, Quinine, Febrifuges, Strichnine, or Anti-Periodics, of any kind. The well-known inefficiency of these noxious poisons proves them to be the only safe and harmless is. RHODES'S FEVER AND AGUE CURE. Agents in Huntingdon, Thomas Read & Son, and for sale by dealers generally. March 30, 1855-56.

THOS. READ, Jeweller. Consisting of Watches, Chains, Breast Pins, Finger Rings, Ear Rings, Pencils, Keys, Thimbles, Studs, Medallions, &c. Together with his celebrated and unexcelled GOLD PEN, Which is equal if not superior, to any now in use. Each Pen is Engraved with his own name, and every Pen Warranted. Oh did you ever, no I never! Mercy on us what a time! Get Read's Gold Pen, they're extra fine. A splendid Pen! Where did you get it? A Diamond Pointed, can't be beat; Yes, my friends, there's no humbugging in Read's Gold Pen, it's found at 35 North Third Street, below Arch Street. THOS. READ, Philadelphia, Jan. 8, 1852-53.

MEDICAL ADVERTISEMENTS.

BALTIMORE LOCK HOSPITAL. Where may be obtained the most speedy remedy for SECRET DISEASES—Gleets, Strictures, Seminal Weakness, Pain in the Loins, Affections of the Kidneys, and all those peculiar affections arising from a secret, but particularly the youth of both sexes, who, if not cured, prognosis constitutional debility, rendering marriage impossible, and in the end destroying both Mind and Body. Young Men, especially, who have become the victims of Soli, which annually sweeps an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entered listening senates with the thunders of eloquence, or walked to ecstasy the living lyre, may call with full confidence.

Married Persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health. Dr. Johnston, member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and faintness, with frequent blushing, and sometimes with frequent fainting of mind, were cured immediately.

A CERTAIN DISEASE.—It is a morbid disease which thousands fall victims to this horrid disease owing to the unskillfulness of ignorant pretenders by the use of that deadly poison Mercury. Several cases of this disease, which is attended with such fearful symptoms, as make their appearance, such as affections of the head, nose, throat, skin, &c., progressing with frightful rapidity till death puts a period to their dreadful sufferings, by some means than that of Bourne whence no traveler returns.

TAKE PARTICULAR NOTICE.—Young men who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from idle companions, or at school—the effects of which are highly injurious to their health, and if not cured render marriage impossible, and destroy both mind and body. What a pity that a young man, the hope of his country, and the darling of his parents should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons before contemplating Marriage, should reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. Induced without their knowledge through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with a melancholy reflection, that the happiness of another becomes blighted with their own.

CONSTITUTIONAL DEBILITY.—Dr. J. addresses young men, and all who have injured themselves by private and improper indulgence. IMPURITIES.—These are some of the sad and most necessary evils produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the head, Dimness of Sight, Loss of Muscular power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Detachments of the Eyelids, Eruptions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded; Loss of memory, Confusion of ideas, Depression of Spirit, Evil Forbodings, Aversion to Society, Sick Distractions, Love of Solitude, &c. are some of the evils which attend youth, viz: Weakness of the Back and Limbs, Pains in the head, Dimness of Sight, Loss of Muscular power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Detachments of the Eyelids, Eruptions, General Debility, Symptoms of Consumption, &c.

MEDICAL ADVERTISEMENTS.

GREATEST MEDICAL DISCOVERY OF THE AGE. Dr. Kennedy, of Roxbury, has discovered in one of our common pastures a remedy for the worst scrofula down to a common pimples.

He has tried it in over 11000 cases, and never failed except in two cases, (both in under humor). He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston. Two bottles are warranted to cure a nursing sore mouth. One to three bottles will cure the worst kind of Pimples on the face. One to three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst case of Erysipelas. One to two bottles are warranted to cure all humor in the Eyes. Two bottles are warranted to cure running of the ears and blotches among the hair. Four to six bottles are warranted to cure corns and running alicers. One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of itingworm. Two to three bottles are warranted to cure the most desperate case of rheumatism. One to four bottles are warranted to cure the salt rheum. Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantities are taken. Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure was water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are real things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds of humor. In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold about one thousand per day.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. It is a universal praise of it from all quarters. In my own practice I always kept it ready for humors—since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected. Several cases of scrofula, and all those which were always considered incurable, have been cured by a few bottles. O what a mercy if it will prove effectual in all cases of that dreadful ailment—there are but few who have more of it than I have.

I know several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Discharges of the Spine, and particularly in diseases of the Kidneys, and all those which have been cured by a few bottles. O what a mercy if it will prove effectual in all cases of that dreadful ailment—there are but few who have more of it than I have.
