DOLCY JONES. Oh! Ladies don't you wonder, When I again appear, I've just been over yonder To see Miss Dolee dear. For Miss Dolee steps so lightly Amongst the bricks and stones, Her eyes they shine so brightly, Oh, riddle me, Dolee Jones, Chorus—By, by my darling, Farwell Dolee Jones, Slumber on till morning, Riddle me, Dolee Jones.

The Sale of the Main Line. The proposed bill for the sale of the main line of the Public Works of Pennsylvania, or the main line from Philadelphia to Pittsburgh including the tax on tonnage passing over the Pennsylvania Railroad Company. The sum of seven millions five hundred thousand dollars, the whole amount to be secured by a first mortgage to the State, on the whole line of the Road of the said Company, extending from Sunbury to the Harbor of Erie, with interest at the rate of 6 per cent. per annum. The said Company, or their assigns, to execute simultaneously a mortgage for \$7,500,000 upon the line of the Public Works transferred, \$4,000,000 of the bonds secured by this last mortgage to be held by the State Treasurer, as additional security for the purchase money, until the same shall be sufficient, secured by the progress of the work of the Company. When the Company shall have expended in the further construction of their work the sum of three millions five hundred thousand dollars, in addition to the \$4,000,000 already expended or provided, and shall also have raised another million of dollars by private subscription, (making their whole investment in their said work \$8,000,000,) the State Treasurer shall surrender to them one million of dollars of the bonds so held by him as additional security; and for each subsequent addition to their capital of \$1,000,000 by the said Company, the State Treasurer shall surrender to them an additional \$1,000,000 of the said bonds so held as additional security—the last \$2,000,000 of said bonds not to be so surrendered until authorized by a joint resolution of the Legislature, who must then be satisfied of the security; so that the last \$2,000,000 are subject to the future action of the Legislature, and the State will at all times be secured by an investment on the part of the Company to double the amount of bonds secured upon their works. The tonnage tax to be collected and paid into the State Treasury as heretofore, until the completion of the Sunbury and Erie Railroad to the Harbor of Erie, and credited semi-annually on account of interest on the purchase money of said works. Ten per cent. of the purchase money to be due and payable in ten years, and ten per cent. of the balance annually thereafter, until the whole amount is paid. In default of payment of interest, or of any installment of the principal for ninety days after maturity, the State may sue out the mortgage and sell all the property of the Company as in other cases of mortgage of real estate.

The Democratic Nominations.

The Democratic State Convention which met here on Tuesday last, was largely attended—full inside and a heavy pressure out side interest of the various candidates for nominations. The Custom House force was also an object to get Pierce in position to get the vote of Pennsylvania as a second choice; but the Convention decided that their delegates should not be Buchanan first, last and all the time. The proceedings were harmonious and spirited. More than the usual number of able politicians were here as delegates, and upon the whole, the Convention was alike creditable in ability and harmony. The platform issued that South Carolina and the foreign allies of the Democracy could desire—but that we shall have more to say when we see it with the official proceedings. The ticket nominated is only of moderate strength, if even that. It is woefully deficient in local symmetry—the best two nominations being in Columbia and Montgomery, while the only other nomination goes North. The West is entirely overlooked, probably owing to the general distrust felt in the Democracy of that rural district. Of Mr. Scott, the candidate for Canal Commissioner, we know nothing more than that he is Mr. Scott. It is not for the office it is time to give it to him, and if he is well qualified he cannot be too useful in getting the people to know him.—He was the candidate of the free and easy wing of the Convention in opposition to Judge Strickland, of Chester, who is unfortunately widely known as a man of the highest order of integrity. When we learn more of Mr. Scott we shall have more to say of him. Jacob Fry, Jr., the nominee for Auditor General, is essentially a toy of the old school. He has been in Congress, where he served with creditable silence; and has been a legislator, where he demonstrated how easily a man might succeed in doing nothing. He enjoys a fair reputation as a man and a consistent partisan; but the position for which he is a candidate is one of all others that requires a clear head and a brave heart to protect the treasury from the comorants which habitually beset it. That he is such a man, we have little reason to hope. With Timothy Lves, the nominee for Surveyor-General, the people of the State are pretty well acquainted by reputation. Politics and public speculation are his trade, and he is quite a master of it. He has been Judge, Member, we think, and Senator, and has profited in all positions. He was one of the ring-leaders in Potter county who conceived and carried out the villainy that turned John C. McGehe out of the Legislature, to put in a man whom the people had twice refused to have as a Representative, and who even county and district would be anything but flattering for Mr. Gehehe to fall. Had the Convention really wanted a good officer instead of an unscrupulous politician they would have taken Mr. Rehrer, of this county, who has been Surveyor General for many years, while pensioned politicians pocketed the honor and pay. We but reflect the sentiments of all parties when we say the State ticket is not a strong one, and if the coming Union Convention unconditionally against the Democracy, and profits by the blunders of their Convention, the success of the Union ticket cannot be a matter of doubt. Pennsylvania is clearly in the hands of the opposition of the Democracy, and they have but to wield the power they possess to give victory to their efforts. Will they do so?—Harrisburg Telegraph.

PHILADELPHIA ADVERTISEMENTS.

\$1 000—SOLD IN TWO DAYS—Triumph Complete! Why is it that the Ex-Governor of Maryland, late President of one of our Banks at Frederick City, urged the Doctors there to procure it? Why has a large cash order this week come from such men as Messrs. Peel & Stevens, wholesale Druggists of Alexandria, Va., and by very next mail, an order (of the third time in two weeks) from Mr. Pierpont, and from Messrs. Cook & Co., of same place, and by the very same mail a fourth order from Messrs. Hopper & Wilmer of Centerville, Md., (where a short time since such an excitement sprung up from some remarkable cures effected there by Prof. C. DeGrath's (genuine) Electric Oil, a few doors south of Chesnut street? How is it that the editor of Erie Observer, was cured in two days of rheumatism in his leg, after three years' duration; and Mr. Brady, of Harrisburg of Paralysis? Why and how was it that the other day Mr. George Weis, 227 Eger street Baltimore, two doors from St. James' church, was cured of pained hands of long standing, and the head of a lady in Philadelphia, cured of spinal curvature, and another of Prolapsus Uteri, a complete radical cure? Ask them. Why do such men as Messrs. G. N. & W. H. Williams, wholesale Druggists, of Syracuse N. Y., write me that they have used your Electric Oil, and find it more beneficial than any other preparations we have ever heard of? &c.

Why has Joseph Osborn, Esq., of Auburn, written, now the third time, that Prof. DeGrath's Electric Oil is selling very fast, and making great cures never before accomplished here? Why did John Lux, Esq., send, the 21st inst., a gold dollar in a letter from Double Bridges, Va., for a bottle, on the recommendation of a friend, and after using it, writes, "I got some of your Oil, and it cured me of a cough, and it is the best I ever used? Why is it that every one speaks of it as a wonderful curative? and is this not the real cause of more selling at retail, in Philadelphia alone, than all the other medicinal oils or ointments? Why is it that a Physician of large practice used it on the paralyzed limbs of his boy, after using everything else? Simply because the genuine "Electric Oil" from the office of Prof. DeGrath, effectually cures paralysis, and is now in use, and over \$500 has been sold in Washington, D. C., during about six weeks, and over \$1000 worth in Baltimore in the same time? Why do Messrs. Morris & Co., of York Pa., (one of the finest Drug houses in the State) send you, Wm. H. Esq., of Harrisburg, Pa., sell so much, when they have any quantity of all sorts of other medicines right by the side of the "Electric Oil"? Simply because nothing else will answer the purpose that the Oil does. Let the skeptical and numerous cases of almost hopeless patients, if anything could be more agreeable in use, or more effectual in its results—some afflicting expended hundreds of dollars on various former treatments, with nothing but disappointment to the mind and body, and who are daily employed in the office, applying the (genuine) "Electric Oil" to patients afflicted with Tetters, Palsy (and it is warranted for this)—Rheumatism, Neuralgia, Headache, Old Sores and Ulcers, Woundings, Sprains, Cuts and Injuries, Sore Breast and side, also all kinds of painful complaints. Although a cure is warranted, yet not more than one bottle has ever been returned; and that was a case of total deafness, of 16 years standing. Of course nature could not restore such a case, with whatever help.

Young Men.

especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have been distinguished among the thinkers of eloquence, or waked to ecstasy the living lyre, may call with full confidence.

Married Persons.

TAKE NOTICE.—Dr. Johnston's office is in his dwelling on the steps.

his very extensive practice is a sufficient guarantee that he is the only physician to apply to.

Dr. Johnston, member of the Royal College of Surgeons.

London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in McHospitals of London, Paris, Philadelphia, &c., and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden noises, and all those peculiar affections attending the use of that deadly poison Mercury, ruin the Constitution, causing the most serious symptoms of that dreadful disease to make their appearance, such as affections of the head, nose, throat, skin, etc., progressing with frightful rapidity till death puts a period to their dreadful suffering, by sending them to that Bourne whence no traveler returns.

TAKE PARTICULAR NOTICE.—Young men who have injured themselves by a certain practice in their youth, and who have frequently learned from old companions, or at school—the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body.

What a pity that a young man, the hope of his country, and the darling of his parents should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons before contemplating marriage, should reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. Indeed without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind is harassed with despair, and afflicted with the melancholy reflection, that the happiness of another being blighted with our own.

CONSTITUTIONAL DEBILITY.—Dr. J. addresses young men, and all who have injured themselves by private and improper indulgence.

LAPTISANA.—These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Memory, Nervous Irritability, Derangement of the Digestive Functions, General Debility Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded.

Loss of memory, Confusion of ideas, Depression of Spirit, Evil Fancies, Aversion to Society, Self Distrust, Love of Solitude, &c., are some of the evils produced. Thousands of persons of all ages, can now judge for themselves, how much they have lost by their early habits of youth, becoming weak, pale and emaciated, having singular appearance about the eyes, tongue and systems of consumption.

Married persons, or those contemplating marriage.

being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health. Office, No. 7, South Frederick St., Baltimore, Md.

ALL SURGICAL OPERATIONS PERFORMED.—N. B. No disease delicacy prevent you, but apply immediately either personally or by letter.

Skin Diseases Speedily Cured.

To STRANGERS.—The many thousands cured at this Institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers, and many other persons, not only which have appeared again and again before the public, is a sufficient guarantee that the afflicted will find a skillful and honorable physician.

There are so many ignorant and worthless quacks advertising themselves as Physicians, ruining the health of the afflicted Dr. Johnston would say to those unacquainted with his reputation that his Credentials or Diplomas always hang in his office, and every person who consults him, will find the weakness of the organs immediately cured, and full vigor restored.

MEDICAL ADVERTISEMENTS.

GREATEST MEDICAL DISCOVERY OF THE AGE. VERY OF THE AGE. Dr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, the worst scrofula down to a common pimple.

He has tried it in over 1100 cases, and never failed except in two cases (both of humor). He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth. One to three bottles will cure the worst kind of Pimples on the face.

Two bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston, and I know the effect of it in every case. So sure was water will extinguish fire, so sure will this cure humor. I never sold a bottle of it that had not cured; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first that it grows in such quantities, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of natural medicine was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors, but since its introduction as a general family medicine, and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all all kinds of epilepsy, madly—there are but few who have more of it than I have.
