

Farmer's Column.

To make Pure Wine of Apples. Being aware that much wine sold for genuine champagne was manufactured from cider, we informed a correspondent a short time since of this fact in answer to his inquiry.

Meas Editors.—I am well aware that imitation of wines are now extensively made in the State of New Jersey from the juice of the apple, and more from the Harrison apple than from any other variety, and the most of it made at Newark.

It is gratifying to me to think when you come to taste and to test my wine—which I send you accompanying this letter—you will find a wine, pure article, free from all drugs, and not an imitation.

Take pure cider from sound ripe apples as it runs from the press. Put sixty pounds of common brown sugar into fifteen gallons of cider and let it dissolve, then put the mixture into a clean barrel, and fill the barrel up to within two gallons of being full with clean cider; put the cask in a cool place, leaving the bung open forty eight hours; then put in the bung, with a small vent; until fermentation wholly ceases, and bung up tight, and in one year the wine will be fit for use.

Butter—its Improper Use. There is a conventional propriety in all the habits of life and domestic economy, and a general rule and understanding, even in the details of the material and period of each meal of the day, the result of long experience.

No house keeper of any pretensions to consistency or gentility, would ever think of having roast goose, or boiled pot luck for breakfast or tea, toast and preserves for dinner. Is it not a gross departure from propriety and good housekeeping and pandering to a depraved taste, to put butter on the dinner table with roast, or boiled meats, swimming in luscious gravies?

The indiscriminate use of butter is a habit that should be exploded, for if no ill effects are incurred, it is a most "wasteful and ridiculous excess," improper and extravagant. These are the views of a wandering observer of men and things, who has seen a good deal of life—high and low above and below stairs, in the shanty of the squatter, the wigwag of the Pawnee and Sioux, and in the dining rooms of the proud and wealthy—with all kinds of fare, from chicken bixins; common dog-days--down, down to no doings at all.

About Luck. Henry Ward Beecher, in a recent lecture says: "I may here, as well as anywhere impart the secret of what is called good luck. There are men who, supposing providence to have an implacable spite against them, bemoan in poverty to a wretched old age the misfortune of their lives. Luck forever ran against them and for others.

One with a good profession, lost his luck in the river, where he idled away his time fishing when he should have been in the office. Another, with a good trade, perpetually burnt up his luck by his temper, which provoked all his employers to leave him. Another with a lucrative business, lost his luck by amazing diligence at everything but his business. Another who steadily followed his trade as steadily followed the bottle. Another, who was honest and constant at his work, erred by perpetual misjudgements; he lacked discretion. Hundreds lose their luck by endorsing and by sanguine speculations; by trusting fraudulent men—and by dishonest gains. A man never has good luck who has a bad wife. I never knew an early rising, hard working man, careful of his earnings, and strictly honest, who complained of bad luck. Good character, good habits and iron industry, are impregnable to the assaults of all the ill-luck that fools ever dreamed of. But when I see a tatterdened creeping out of a grocery late in the afternoon, with his hands stuck in his pockets, the rim of his hat turned up, and the crown knocked in, I know he has had bad luck—for the worst of all luck is to be a sluggard, a knave or a dippler."

Greatest Medical Discovery of the Age. Dr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR, from the worst scrofula down to a common pimple.

He has tried it in over 1000 cases, and never failed except in two cases. (Both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth. One to three bottles will cure the worst kind of Pimples on the face.

Two or three bottles will cure the system of Bile.

Two bottles are warranted to cure the worst case of Erysipelas. One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers. One bottle will cure scaly corruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm. Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the most obstinate case of Gonorrhoea.

Five to eight bottles will cure the worst case of scrofula. A benefit it always experienced from the first bottle, and a perfect cure is warranted when the quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I knew the effect of it in every case. So sure was water-will extinguish fire, so sure will this cure humor—I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first it grows in our pastures in some places quite plentiful and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1857, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like this. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humor—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy it will prove effectual in all cases of that cruel malady—there are but few who have more of it than I have.

I know of several cases of Dropsy, all of whom aged people cured by the various diseases of the Liver, Sick Head, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years deerspoonful—Children from five to eight years one half table spoonful—The directions are applicable to all constitutions, take sufficient to operate on the bowels twice a day.

CUSTOM HOUSE AND THOSE \$100 00! A FEW days ago this question was put by one of the Sunday Papers; it attracted much attention, was upon the lips of Politicians who used it for their (pocket) advantage.

What is it that takes the cured tooth-ache, and ear-ache of many Philadelphians and vicinity?

What is it that cures Rheumatism without leaving any bad effects?

What is it that makes the palsied limb alive again?

What is it that cures the Croup, that dreaded complaint which sweeps thousands of this land into their graves?

What is it that soothes and takes away inflammation?

What is it that heals wounds and relieves all pain?

It is Prof. Charles DeGrath's, Original Genule Electric Oil.

Yes! it has cured more cases than there are noses in the world.

Do you say it is all false? Don't believe it! Ask those who have used it, they will tell you that my Oil gave relief after all remedies had failed.

When you ask for Electric Oil, be sure you ask for Prof. DeGrath's, as it is the only one.

Legitimate Electric Oil prepares take none other as all others are imitations, and I will not be responsible for any, except my name be in writing upon the wrapper and my name blown in the glass.

READ THIS! Mr. LIVINGSTON of New York, Editor of the Monthly Law Magazine, wrote me that he was cured of a swollen and stiff neck by one application. The Oil was recommended by a lady in the Girard House.

AND THIS. Mrs. Cramm, Coates St. above Ridge Road, called May 14th, and said the Oil cured her of Neuralgia, Chill, Croup.

Mothers supply yourselves, 25 cts. per bottle, and doubt no more.

Mr. CAMPBELL, of Montgomery co., Penna., used a bottle a few days ago, and said he had used it in his family for swollen glands and swellings which generally appear in persons after having the Scarlet Fever. He thinks it ahead of all other remedies—and so it is.

Persons are daily calling at my office, 39 Nth. St., and telling me of its wonderful curative effects.

Price 25 cts., 50 cts., and \$1 per bottle. Large bottles the cheapest. This valuable Oil is sold by Thomas Read & Son, Huntingdon, Hunt. Co., R. Barnwell, Montgomery, Blair co., W. G. Murray, Hollidaysburg, Blair co., Condon & McCoy, Frankstown, Blair co., J. H. Horner & Co., Westminster, Hunt. co., Wm. Moore, Alexandria, Hunt. co.

And druggists and dealers in the U. S. Use none other but DeGrath's. May 28, 1856. Sept. 26, 1855.

A HUMAN LIFE SAVED. Dovaigie, Mich., March 11, 1856.

J. A. Rhodes, Esq.: Dear Sir—As I took your medicine to use on consumption, "no cure no pay." I take pleasure in stating its effects as reported to me by three brothers who live in this place, and their testimony is a fair specimen of all I have received:

W. S. Conklin told me—"I had taken nine bottles of Charita's Ague Balsam, and continually run down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another night. The doctor told me that I could not live but thought I must die. Nothing did me good until I got Rhodes' Fever and Ague Cure, which at once relieved me of the distress and nausea at my stomach and pain in my head and bowels, and produced a permanent cure in a short time."

H. M. Conklin says: "I had taken medicine of as good a doctor as we have in our country, and taken any quantity of quinine and specifics without any good result on 25th August 17th December. But seeing how nicely it operated on my brother, I got a bottle of Rhodes' Fever and Ague Cure, which effected a permanent cure by using two thirds of a bottle."

S. M. Conklin was not here, but both other brothers say his case was the same as H. M.'s. I sold the medicine to both the same day, and the cure was as speedy from the same small quantity, and I might so specify. Yours with respect,

A. HUNTINGTON. It is above speaks for itself. Good proof as it is, is of no better tenor than the vast number of like certificates I have already published, and the still greater amount that is pouring in to me. One thing more. Last year I had occasion to caution the Public in these words: "Beware of cheap imitations of this medicine, which are sold by some of our general circulators, substituted the name of their nostrum for my medicine, and then with brazen impudence and their pamphlet with the exclamation, 'Let the proprietor of any other medicine say as much if he dares.'" &c.

Now I take pleasure in saying that the Caution referred to the same "Dr. Christie's Ague Balsam" that is mentioned in the above certificate.

There are several other industrious people who are applying to their poisonous trash all that I publish about my Fever and Ague Cure, or Antidote to Malaria, except the Certificates of cures and the Merit of the celebrated Chemist, Dr. James R. Clinton, of N. Y. in favor of its perfectly harmless character, which is attached to every bottle. These will always serve to distinguish my medicine from imitations. For sale by John Read, Huntingdon, and Druggists generally.

AYER'S PILLS. For the rapid cure of Coughs, Colds, Hoarseness, Bronchitis, Whooping-Cough, Asthma and Consumption, is universally known as the best remedy ever discovered for every variety of Pulmonary disease. So wide is the field of its usefulness, and so numerous the cases of its cure, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate cases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antibiotic to employ for the distressing and dangerous affections of the pulmonary organs which attend the winter season. It is especially so in many, many, almost all attacks of disease upon the Lungs or Throat, are arrested and thus saved many thousands every year from a premature grave. No family should be without it, and those who do not possess it should procure it at once, as a remedy which wards off this dangerous class of diseases will have caused to deplore it when it is too late. Proofs of the surprising efficacy of the Cherry Pectoral need not be given to the American people—they have heard of it in the Hospital of London, Paris, Philadelphia, and elsewhere, who have read the statements of those whose whole health has been restored and whose lives have been saved by its use, will find them in my American Almanac which the agent below named will be glad to furnish to every one.
