

CAMPAIGN JOURNAL.

Forever float that standard sheet, Where breathes the foe but falls before us, With Freedom's soil beneath our feet, And Freedom's banner streaming o'er us!

We have concluded to issue a "Campaign Journal" from the 1st of July to the 21st of October. We do this through the solicitation of numerous friends. The terms will be ten copies to one address, five dollars, payable in advance.

Come friends to humanity, come freemen and bear a hand in the righteous cause of freedom, in spreading the great principles of liberty. The Journal is the only paper in the county which is not sold to the interests of the slave-driver.

Local Affairs.

RECOVERED.—Capt. Doris has recovered his horse.

THE FOURTH.—The only demonstration in this place on the 4th of July, will be by the Sabbath Schools. If we're in town we hope to be able to "make a note on" the proceedings.

HARVESTING.—We understand that some farmers in the northern part of our county commenced cutting their grass last week. This week all our farmers will wheel into line, and commence active operations in the fields.

CORN.—Many of our farmers have had to plant their corn over two and three times this season. The weather has been very unfavorable, for corn, and it by no means looks well. We hope it may turn out all right in the end, and gladden the heart of the husbandman.

POLITICAL.—The political fraternity in this section has been in a state of fermentation since the nomination of Col. Fremont by the American Republican National Convention. The Democracy tremble at the name, and well they may, for Huntingdon County is safe for five hundred majority for Fremont. We have the most flattering news from all parts of the county, and are assured by intelligent and influential men that the feeling is spreading, and the masses are wheeling into the Fremont phalanx. Old mother Huntingdon will never endorse pro-slavery fanaticism, and as a fixed fact will give John C. Fremont a good old fashioned majority. So a woe to those who put on a strain.

A PUBLIC BATH HOUSE.—We have noticed with some degree of pride how attentive and how ready the proprietors of our ice cream saloons are to tickle the palates of a warm, tired and dusty customer, with a dose of their cold and sparkling refreshments, but we have often wondered why no person had been energetic enough to fit up a public bath house to accommodate that portion of humanity who are sweltering under the summer's heat, and to whom a bath would be more refreshing than a water-die. There are a great many who feel an inclination to take a daily bath, for the double purpose of cleanliness and refreshment.—With the inclination, unfortunately, there are no means of gratifying it. While many citizens have bath houses attached to their dwellings, and are enabled to indulge in ablutions at their pleasure, there are still hundreds who are not so fortunately situated in this respect, and who would if it were started in the Borough, liberally patronize a well kept bathing establishment. It is certainly singular that some enterprising individual has not ere this, opened a bath house here. That it would be a profitable investment, we can entertain no doubt. The question then is, shall those who now feel the absence of it, soon have the opportunity of patronizing such an establishment? We hope so.

WEATHER GOSSIP.—With the mercury hovering lovingly over its memories of '93, like an Irishman who reveres the name of Emmett—with the sun pouring a flood of molten brass over the arch of the sky—with an imminent danger in prospect of being baked alive, as if we were pent in a regular kiln, with eternal snapping of icees that boil ere they reach their abdominal destination, with a shirt collar in ruins and a handkerchief like a wash rag—the individual who could be gay deserves a niche beside the indomitable Fremont, who could study Blackstone on the Rocky Mountains, with "snow forty-feet deep around him. We are not heroic, but very mortal, and as we feel ourselves gradually oozing away, we earnestly beg of our friends to remember our particular grease spot upon the sidewalk, when that will be all that remains. Oh! Jack Falstaff, now, indeed, wouldst thou "hard the lean earth," and send forth many a plaintive call for sack. Spare men should fall upon their knees. But even they have comfort now, along in their lean ribs, in the contemplation of the Fat Woman, and in reading of Daniel Lambert. In such weather as this we are irresistibly driven to consider our finality, when we shall not "gather the dappery of our couch about us and lie down to pleasant dreams," but taking unto ourselves the example of the mud, shall gently ooze away.

Schoolmaster Needed.—A sign over a shoemaker's door, not ten miles from town, bears the following inscription: "Buts and shoes repaired also leger rubber soles put on old butes and sh.ues. plantia and hoing done by the subscriber by the laing stur wal ditto."

The three "American" journals in N Hampshire—the Concord Reporter, the special organ of Governor Metcalf, the Manchester American, and the Portsmouth Ballot—have all declared for Fremont.

Pencil Notes.

Huzza for Fremont and "Young America." John C. Fremont's father was a French Huguenot. Gen. Persifer F. Smith has been ordered to Kansas.

We have received a fine engraving of the attack on Sumner by bully Brooks. Judge McLean was born in Morris co. New Jersey, in 1785. He is therefore seventy-one years of age.

Messrs. Orblson, Dorris & Co., shipped their first load of coal from their colliery on Monday last week. Thomas Johnston, of Hollidaysburg, formerly Sheriff of this county, died on Sunday of last week, aged 71 years.

"Going Down"—The Juniata.—Globe. Ditto—Lager Beer down the throat of the enmich's web-foot.

A member of Congress from Iowa has received the following letter from a constituent: "Balaam's Ass spoke once—can't you?"

It must be refreshing to the old Whigs of the county so hear their old principles condemned by the renegades of the "American."

"Lewis lays some claim to respectability."—Journal of 18th ult. But his claims are not noticed by the respectable portion of our community.

The Independent Democrat, Waukegan Mich., has taken down the name of Buchanan since he endorsed the Cincinnati Platform, and will support Fremont.

The Lancaster Independent Whig, and the Pottsville Journal, which have hitherto supported Fillmore, have now run up the Fremont and Dayton flag.

At a meeting of the Fillmore National American Club, of New York, held on Saturday evening, they resolved unanimously to join the Republican cause.

Strange Events.—An exchange records the marriage of John M. Strange and Elizabeth Strange, as a strange event. The next event will probably be a little stranger.

Attention Buchanan Men!—All of you who have any "Democratic blood in your veins," are hereby ordered to repair to the surgeon, and have it "let out." This order is imperative.

Our article of a week or so ago, appears to have been as disagreeable as a dose of arsenic to the Rat of the Globe. We are bound to drive him from his dishonest ways, or from the profession. We will that.

A tomahawk was found near Hopewell Bedford county, a few days since, by workmen on the Broad Top Railroad, at a depth of seventy feet from the surface, which, from its antiquated appearance, is considered quite a curiosity.

We learn from the Tyrone Democrat that Michael Dan Magellan has went over to the Democrats, to the Democracy. Well, let him want. If he chooses to tlyerise we see no reason to lament it, although Michael Dan is a "good egg."

Can the Journal support Fremont?—Hunt. Globe. The enmich of the Globe asks that. If Fremont is a Catholic, dare the enmich and his little duck oppose him? No sir, rec. It is the best evidence in the world that Fremont is not a Catholic that the Jesuits of the Globe do not support him.

We learn from the Milwaukee Sentinel that all the land offices in Wisconsin have been closed until the lands granted for railroad purposes shall have been selected. The land offices in Iowa have also been closed, so that the Territory of Kansas is the only spot where the tiller of the soil can turn his steps.

The exhibition of St. Francis Academy, Loretto, Cambria co., will take place in July. The public are invited by the Franciscan Brothers.—Hunt. Globe.

The enmich will appear there in the character of a monk-y, and discourse on the best inventions of torture for Protestant Americans. "No man, who will subscribe for the Globe, will ever be struck with thunder."—Globe.

But he would be struck with the idea that he had been taken in. Joro would never honor a man a "thunder" stroke who would subscribe to that little sheet. The thunder would come from the other side of the fence.

"Mum—Gabe on the perjurer question."—Hunt. Globe. Exactly so; and for three reasons: 1st, We prefer deciding that, in the next Quarter Sessions. 2d, We don't choose to handle words with a man (?) who owes his present freedom to executive clemency. 3d, A pardoned convict is not worth our notice. So, Mr. Enmich, we expect you to fill Betsey's room next Court.

They are getting excited in Pittsburg about a Catholic abduction case. Mrs. Chambers, formerly of Chester Co., a Protestant, married a Catholic, who is since dead, leaving one child. The mother married a second time and to a Protestant. The couple resolved to emigrate, when on reaching Allegheny City the child is abducted by two women in black. These women, the mother states had previously offered to "buy" the child.

"The talking man" wishes us to inform the factions that he is still on the fence. Which bids for his services?—Hunt. Globe. Nobody. Who would want the services of a creature who would write the slang editorials of a sheet like the Globe, and pretend to be an American? "Who bids for his services" indeed! Out upon him. You have brought your animal to the wrong market, enmich.

Rats.—It does not come with a very good grace from the publishers of the Globe and America, to talk of "ratting." We could cite innumerable instances where the enmich has went so far as to disgust the advertiser. The American is too deeply run to ratism to merit a notice. The policy of those honorable—God save the mark—men, appears to be work for six and no rest betwix. The enmich will print anything in his apple-butter \$x10 for a drink. His uniform rate is 5 cts. for all advertisements, whether long or short.

DEPARTMENT OF COMMON SCHOOLS OF PENNSYLVANIA. HARRISBURG, May 10, 1856. To School Directors: Decision No. 11, on page 56 of the Pamphlet copy of the "School Law and Decisions," does not correspond with the general practice of the State, and is also found to be erroneous to some extent as a matter of law, inasmuch as it improperly exempts "trades, occupations and professions" from taxation for School purposes. It was so regulated to correspond with the State law on regulations, but the 23rd and 30th sections of the School Law adjust the School tax to the County as well as State tax; and as occupations under two hundred dollars are not exempt from taxation for County purposes, it follows as a necessary consequence that they are liable to taxation for School purposes. The various acts of Assembly, with regard to County tax are exceedingly obscure and unintelligible with regard to the manner of assessing the tax on occupations; but the soundest rule of practice to be gathered from them will be for Directors to assess "occupations" for School purposes at such rate per cent, as the necessities of the District may require, not exceeding thirteen mills on the dollar, except where the rate at the rate fixed would not amount to fifty cents, in which case it should be fixed at that specific sum, according to the proviso to the 30th section of the School Law.

Where the duplicate has already been made out, it is unnecessary to call and examine our stock before purchasing elsewhere. The other tax decisions in the Pamphlet copy of the School Law conform to the acts of Assembly and decisions of the courts, and are to be received as authority by Directors.

Very Respectfully, H. C. HICKOK, Deputy Superintendent.

CONSUMPTION SUCCESSFULLY TREATED BY INSULATION OF MEDICAL VAPORS, BY JOHN STEWART ROSE, M.D., Fellow of the College of Physicians, and former Senior Physician in the London Royal Infirmary for diseases of the LUNGS. IN this age of progress, Medical Science has contributed her full share to the general welfare of the human race, and in no department has she been more successful than in the treatment of Consumption. The success of the Insulation of Medical Vapors in the treatment of Consumption and kindred affections. The treatment hitherto pursued has been faint and woefully inefficient; the stomach being made the receptacle of nauseous and irritating food, and the lungs, being expected to act upon the lungs; the failure to eradicate, or even stop the ravages of the disease, in nearly every case of well-developed Consumption, is surely warning enough to the Countryman to seek a more rational and successful mode of treatment. The disease is not in the stomach but in the Lungs—Common sense will at once teach, that medicine applied in the form of Vapor, directly to the diseased surface of the Lungs, will be far more effectual than medicine taken into the stomach. The success of "Medicated Vapor Inhalation" in treating diseases of the Lungs, excepting any sanguine expectations, and I earnestly appeal to the intelligence of all afflicted, or who may have the germs of sickness within them, to embrace such a mode of treatment. It is the only "Ark of Refuge" for the Consumptive. I order to get it within the reach of all, and can guarantee that the invalid is never required to leave home, while the lungs are in a state of weakness, and so much to aid the physician's efforts. Where there is life there is hope for the most seemingly hopeless cases, as I have cured all the stages of this insidious disease, the wonderful and important effects of the treatment are too apparent. In cases also of BRONCHITIS, ASTHMA, &c., the inhalation of powders and vapors have been eminently successful, and to those suffering under any of the above named complaints, I can guarantee speedy and certain relief. I have pleasure in referring to two hundred and seventy names, residents of New York and neighborhood, who have been restored to vigorous health. About one-third of the above number according to their respective own statements were considered incurable.

The inhaling method is soothing, safe and speedy, and consists in the administration of medicine in such a manner, that they are conveyed into the lungs in the form of a vapor, and produce their effect at the seat of the disease. The practical success is destined to revolutionize the opinions of the medical world, and ESTABLISH THE ENTIRE CUREABILITY OF CONSUMPTION. Applicants will please state if they have ever had the Lung Lovers, if they have, they will have a cough, night sweats and fever tains, what and how much they expirate, what the condition of their stomach and bowels. The necessary Medicines, Apparatus, &c., will be forwarded to any part.

TERMS.—Five dollars, consultation fee—Balance of the fee payable only when the patient reports himself convalescent. RECOMMENDATION BY PHYSICIANS. "We, the undersigned, practitioners in medicine, do hereby certify that we recommend Dr. R's method of treating diseases of the Lungs and Throat, as the best and most effectual ever introduced into the medical practice. Our convictions are based upon having several of our own patients, and a large number of others, restored to vigorous health, after a few months' treatment by Dr. Rose. In the above named diseases, the application of "Medicated Vapor," inhaled directly into the Lungs, may be justly considered a consummation perfectly curable disease. Dr. Rose deserves well of the profession for his unwearied labors in bringing the inhaling method to such a degree of perfection. RALPH STONE, M. D. CYRUS KINGSLEY, M. D. JONAS A. ROTT, M. D. WM. B. AUSTIN, M. D. ORVILLE UPSON, M. D. GAVIN WELMOR, M. D.

DR. ROSE'S TREATISE ON CONSUMPTION.—Price one dollar. Address J. M. CUNNINGHAM & BRO. No. 27 Wood St., PITTSBURG, PA. The new postage law requires that all letters sent by post must be prepaid, and correspondence with our office must be by registered mail, unless otherwise stated. Money Letters must be registered by the Postmaster, such letters only being at our risk. April 9, '56—6m.

HUNTINGDON COMMERCIAL SCHOOLS. This school has been opened in the Hall formerly occupied by the "Sons of Temperance," on Hill Street. The course of instruction comprises English Language, Book Keeping, lectures on commercial science, and also lectures on Commercial Law, Ethics, and political economy, delivered by members of the Bar. The student passes through a course comprising four hundred hours, writing, etc., Journalizing, bookkeeping, and closing four entire sets of books, solving problems, &c., precisely as in real business, and in addition to this he has large practice in oral and blackboard exercises, in opening and closing Single and Double Entry Books, in Partnership, Administration, Joint, and Compound Company settlements, in receiving a partner into copartnership, and settling with a retiring one, all of which, together with various other exercises and calculations cannot be given full satisfaction and profit the learner. Students can enter at any time, a day or evening class, or both if they wish, the time is unlimited, they can leave at any time and return at pleasure without additional charge. For any other particulars, address personally or by letter to T. H. FOLLOU, Principal, a assistance given when convenient in opening and closing books. (April 2, 1856—1y.)
