This disease is the penalty most frequently
paid by those who have become the victim of
improper indulgencies. Young persons are too
apt to commit excesses from not being aware of
the dreadiful consequence that may ensue.—
Now, who that understands the subject will pretend to deny that the power of Procreation is
lost sooner by those falling into improper habit
than by the prudent. Besides being deprived
of the pleasure of healthy offspring, the most serrious and destructive symptoms to mind and body arise. The system becomes deranged, the
physical and mental powers weakned, nervous
dobility, dyspepsia, palpitation of the heart, indigestion, a wasting of the frame, congl symptoms of Consumption.

the most necessary requisities to promote connubial happiness. Indeed without these, the journey through life becomes a weary pligrimage,
the prospect hourly darkens to the view; the

Some of the wholesale Druggists who have been in b siness twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.
