TESTIMONIALS.
From an examination of "Mitchell's New National Map" of the United States and adjacent countries, we are fully satisfied that no map of the United States extant is mere deserving of most recent surveys, and shows the one recent changes in States and Territories. It is executed in the neatest style of engraving, or "metallie plate," from the best authorities, and appears in all respects to be reliable. We heartly commend it to the attention of all who wish a cheap accurate and elegant map.
