BENEFACTORS OF MANKIND.—It is not he who invented Brussels Carpeting or Gold Brocked, whom the masses have reason to hold in regard, but he who furnishes something useful to everybody. One of our government of licials lately returned from his mission in Brazil tells as an ancoduce that among the first enquiries made of him about his acquaintance with our public men, was whether he knew the American Cherry Perford and Cathartic Pills. As these articles (more particularly the Cherry Percoral) are in general use in the cities of South America, they are the most previent renewentations of American products, as many thomands there well as here, owe to them the receivery of their health from malignant diseases, it is not strange they should hold the irventor in esteem, but it is rather simple in them to suppose that the Doctor is the only man of mark we have among our twenty size miltion people.—Christian Adecocate.

Kert.
