NEWS ABOUT HOME.

Riots.—Since the liquor laws have been repealed, our borough—and 'tis with shame we confess it—has represented nothing so well as the ancient Sodom. It is useless to deny that disorder and drunkenness prevail to an alarming extent in the community, because the evidences of the one are to be felt daily, and the evidences of the other to be seen hourly, on the streets and corners. Boys, young, middle aged, and even old gray-headed men, we have seen tottering, and reeling, and staggering, and falling along the streets, all affected with the fearful epidemic. We have seen some of our young lads drunk, and tottering upon the streets engaging in distasteful, and the officers, whose duty it was to arrest them, pass quietly by "on the other side." Two fights occurred on Friday last, through the agency of Capt. Whisky; one of which resulted in the parties being arrested and bound over for appearance at court. In this last affair, a little boy who was standing near the scene of action, was severely wounded in the head by a large stone thrown by one of the rioters.

When men will knowingly indulge in that which destroys them—after repeated and re-peated warnings, they deserve but little sympathy when "tripped up" at last.

For the Journal.

REGRETTED BY THE DEATH OF JOHN P. KERR.

And art thou gone, dear boy, and are those eyes beaming with love and intellectual fire, forever closed in death? And has the Spoil'er's hand

Been laid on that fair brow? 'Tis even so; And o'er thy early grave, affection weeps; But not the bitter tears of those who have no hope.

Thy path of life though short, was luminous With purity and truth; thy Saviour's voice was heard—

"My son give me thy heart." An unseen hand Guided thee safely through life's dangerous way, Into the haven of eternal rest. Sweet be thy sleep,

Until the resurrection morn shall call thee forth From out thy tomb, to meet thy Saviour in the skies.

And be forever with the Lord.

March 23, 1857.

M. We have heard frequent complaints of late of annoyances caused by ill-natured curs, who rush out at passers-by, on our streets. At times they are as furious as famished wolves, and pitch in without regard to the age or sex of those assailed. Actual injury has already resulted from these ferocious beasts, and unless the brutes are killed off, chained, or disposed of in some manner, may be one of these fine nights the *lex talionis* will be applied in a way beneficial to the community and to the great joy of sausage makers.

THE ELECTION.—The election in this place on Friday last, resulted as follows: Judge—Thomas E. States. Assessors—John Simpson, Wm. K. Rahm, Assessor—David Black. School Directors—Griffith Miller, Wm. P. Orison, Alexander Port. Auditor—John W. Mattern. Constable—S. S. Smith.

WE invite attention to a card of the well known "Jackson Hotel," elsewhere. The present proprietor, Sheriff Zeigler, has made and is now making extensive improvements about the hotel, and is now prepared to meet the wants of the whole community. The Sheriff is a prince of good fellows, and a perfect model of a landlord.

WE hope our friend Hall, will excuse the non-appearance of his communication in this week's Journal. It shall have a place in our next issue. We would be pleased to hear from him more frequently, on subjects that have a bearing on the educational interests of our country.

CONVENTION.—The Convention called in the K. N. newspaper, met in this place, on Monday last. But very few delegates attended. David Blair, Esq., was appointed delegate, and instructed to support Isaac Fisher, Esq., of this borough, for the Supreme Bench.

FINISHED.—The new bridge is now completed over the river at this place.—It is a magnificent structure, and confers great credit on its builders.

"Friend 'Lizzie,' your favor shall appear in our next; that's certain. Don't be angry.

MISCELLANEOUS ADVERTISEMENTS.

PROFESSOR WOOD'S HAIR RESTORATIVE. It is no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a most luxuriant growth, remove all dandruff and itching, cure all scrofula, and other eruptions, such as scald head, &c. It will cure, as if by magic, nervous or periodical headache; make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling; t. extreme old age.

The following is from a distinguished member of the medical profession: St. Paul, January 1, 1855.

PROFESSOR O. J. WOOD—Unsollicitous I send you this certificate. After being nearly bald for a long time and having tried all the hair restoratives extant, and having no faith in any, I was induced on hearing of yours to give it a trial. I placed myself at once at the disposal of your medicine, and rubbed with a good stiff brush, and the restorative applied and well rubbed in, till the scalp was aglow. This I repeated every morning, and in three weeks the young hair appeared and grew rapidly from August last till the present time, and is now thick, black and strong—soft and pleasant to the touch; whereas, before, it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your restorative, and I have not yet fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the health and vigor of the hair, which before was harsh and dry; and it has ceased to come out as formerly.

Respectfully yours, J. W. BOND, Firm of Bond & Kelley, Druggists, St. Paul.

[From the Editor of the Real Estate Advertiser.] Dear Sir: Having become prematurely quite gray, I was induced, some six weeks since, to make a trial of your Restorative. I have used less than two bottles, but the gray hairs have all disappeared; and although my hair has not yet fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the health and vigor of the hair, which before was harsh and dry; and it has ceased to come out as formerly.

Respectfully yours, D. C. M. RUPP.

CARLYLE, Illinois, June 19, 1855. I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and I have no doubt, permanently so.

ONLY ONE BOTTLE OF DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY.

[S] I TRULY TO CURE ANY ONE troubled with Liver Complaints, unless the most desperate of cases, when the second bottle will, with scarce a single failure, restore the patient to vigor and health. We wish to call the attention of all to these facts, that the Invigorator is composed of why many have used it in his practice for the past twenty years with a success most credulous, and that it is entirely vegetable, being composed wholly of gums.

Some idea of the strength of these gums may be formed at the knowledge of the fact, that the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

One bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all yellowness or unnatural color from the skin.

One dose after eating is sufficient to relieve the stomach and prevent the vicissitudes from rising and souring.

Only one dose taken before retiring prevents nightmare.

One dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two tea-spoonfuls will always relieve Sick Headache.

One bottle taken for female obstruction removes the cause of the disease, and makes a permanent cure, why many women are cured.

Only one dose immediately relieves Cholera, while

One dose often repeated is a sure cure for Cholera Morbus, and a sure preventative of Cholera.

One dose taken often will prevent the recurrence of bilious attacks, while it relieves all painful feelings.

One or two doses taken occasionally is one of the best remedies for a cold ever known.

Thousands of cases of inflammation and weakness of the lungs have been cured by the Invigorator.

One dose taken a short time before eating gives vigor to the appetite and makes food digest well.

One dose often repeated cures Chronic Diarrhea in its worst forms, while summer and bowel complaints yield almost to the first dose.

One or two doses cure attacks caused by worms, while for worms in children, there is no safer, surer and speedier remedy in the world, as it is so safe.

There is no exaggeration in these statements, they are plain and sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor.

We wish all who are sick and debilitated to try this remedy, and test it thoroughly, and any who are not benefited by its use we should like to hear from, as we have yet to hear from the first person who has used a bottle of the Invigorator without receiving benefit, for there are such astonishing medicinal virtues in it, that all, no matter how long they have been affected, if their complaint arises from a deranged liver, will be benefited, not entirely cured.

ANTIPHLOGISTIC SALT. A PERFECT SUBSTITUTE For the Lancet, Leeches and Blisters! OF ITS INTRINSIC VALUE THE ENLIGHTENED COMMUNITY AND NOT THE DISCOVERER MUST BE THE JUDGE!

MANY medicines offered for sale are accompanied by doubtful certificates (their chief value) and claim to be universal remedies, curing all maladies—be it baroque on common sense. As the discoverer of this Salt solemnly protests against having it placed on the category of frauds and impositions, he has resolved that it shall go forth to the world like the pure gold dollar, with no other passport than its own true value. If the public find it genuine they will receive it—If spurious they will reject and condemn it. Instead of its being a panacea for all ills it has control over but one ill—has but one aim and accomplishes but one thing, to wit: subdues inflammatory diseases—whatever be their form or locality, whether in the head, throat, chest, abdomen, extremities or skin.

When the discoverer, after a long series of laborious and costly experiments, became fully convinced of its efficacy in the treatment of the Antiphlogistic Salt, which he now has the happiness to present to the American public, was a

PERFECT SUBSTITUTE for Bloodletting, Leeches and Blisters, his mind was so saturated that he could allow for many nights. The cause of his agitation was the striking fact that the manner of its operation, like that of the virus in vaccination, could not be explained upon any known principle. How, in what way, it so effectually subdues inflammatory diseases and no others, was wholly inexplicable; but on further examination it was proved that by its power over the veins, arteries and glands, it equalizes the fluids of the body, the want of an equilibrium in which is the sole cause of inflammation. It exerts like the vaccine matter, an extraordinary influence over the circulation—resulting in a gradual decline of inflammation as indicated by the pulse which soon resumes its natural state, as the pain and heat disappear. It is its potency, that like the virus just mentioned, it requires merely what adheres to the point of a quill dipped in a solution of it to affect the entire system—but must be instantly used to prevent decomposition, and secure its full virtue. Three quills in acute, and two in chronic disease every 24 hours, till the heat and fever have subsided and a perfect cure is effected. When it takes the place of leeches, stimulating ointments and blisters in local inflammation, as Brain Fever, Croup, Toothache, Pleurisy, &c., its mode of administration is two-fold. (See directions for dissolving, &c.)

The peculiar excellence of this Salt, that without the useless loss of blood and strength, it effectually cures inflammatory diseases by producing an equilibrium of all the fluids of the body and a consequent uninterrupted circulation. The following different forms which the unbalanced fluids assume and may not here mentioned, that have more or less fever and pain, are as perfectly subdued by the Antiphlogistic Salt, as fire is extinguished by water.

1.—Cases where the unbalanced fluids affect the Head and Throat—to wit: Brain Fever, Headache, Erysipelas, Inflammation of Ears, Nose and Throat, Neuralgia, Erysipelas, Bronchitis, &c. 2.—Cases where the unbalanced fluids affect the Chest and Abdomen—to wit: Pleurisy, Asthma, Inflammation of Lungs and Liver, Colic, Diarrhoea, Cholera, Dyspepsia, Gravel, Gonorrhoea, Venereal.

3.—Cases where the unbalanced fluids affect the Extremities and Skin—to wit: Rheumatism, Gout, Scrofula, Chicken and Small Pox, Salt Rheum, and all Itching and other Cutaneous Eruptions.

This Salt greatly alleviates the inflammatory pains peculiar to married ladies (before and after confinement) and many Female Complaints; and is very efficacious in Pleurisy, Ague, Wounds, Nervous and Spinal affections, and any other forms of (mark this) inflammatory disease, attended with heat or febrile symptoms.

Persons who have a tendency of blood to the head and heart, and who lead inactive lives, or who are engaged in manufactures and the poisonous fumes of metals and minerals, or live in unhealthy climates are exposed to a peculiar cation of the fluids of the body, which one dose, without interfering with diet or business, once in three months, would invariably prevent. It is believed to afford protection against infectious diseases; and therefore, it is recommended to travellers, sailors and soldiers.

To protect the community from imposition by counterfeiters, the proprietor will employ no Agent, and has made such arrangements that he can send the medicine in any quantity, by mail or express, to any part of the United States or foreign countries. Its prime cost to the discoverer is \$1.50 per drachm—price \$2 per drachm—and is put up in drachm packages for acute disease (with directions, &c.) at \$1; three drachms do, for chronic cases, \$5; and 5 drachms do, for families, \$8—a net profit of fifty cents on each package.

While many nostrum makers victimize the gullible and credulous public by ordering from six to a dozen boxes or bottles to cure any malady, no matter what, the undersigned is happy in being able to state that the severest forms of recent inflammatory disease are overcome by one acute package, and the most obstinate and long standing cases by one Chronic package. Although thirty days have not elapsed since this new medicinal agent became partially known to the citizens of Boston and neighboring towns, yet such have been the results of its trial, that during the past week, nearly 400 packages were sold in this city, and orders received by mail and express for 163 Family, 347 Chronic, and 385 Acute packages. In one instance six persons clubbed together and wrote for six packages (of the "Little Giant," as they called it) to be forwarded to one address, thereby saving expense to themselves and the proprietor.

Letters from clubs or individuals with money (if over \$10) should be registered at the post office where mailed, as it costs but five cents and will insure their safe arrival.

The discoverer, now humbly submits his Perfect Substitute for the lancet, leeches and blisters, to the tribunal of an intelligent public, reiterating that it does just what it claims to do—no more, no less: subdues inflammatory disease (no others) whatever be its form or locality by restoring the lost balance between the fluids and solids. Family packages \$8, Chronic \$5, and Acute \$2; to be had (free of expense) only by addressing him through Box 322, Boston, Mass; or at his Office, No. 3 Water Street.

Cut out this advertisement and his communication in another column for the personal use of your neighbors and your own future use.
