ANY medicines offered for sale are accompanied by doubtful certificates (their chief value) and claim to be universal remedies, curing all maldies—a burlesque on common eense. As the discoverer of this Salt solemily protests against having it placed on the category of frauds and impositions, he has resolved that it shall go forth to the world like the pure gold dollar, wit' no other passport than its own true value. If the public find it genuine they will receive it—if spurious they will reject and condomn it. Instead of its being a panancea for all ills it has control over but one ill—has but one aim and accomplishes but one thing, to wit; modutes infammadory discouses—whatever be their form or locality, whether in the head, throat, chest, abdomen, extremetics or skin.

for Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact that the cound not sleep for many nights. The cause of his agitation was the striking fact that the manner of its operation, like that of the virus in vaccination, could not be explained upon any known principle. How, in what way, it so effectually subdues inflammatory diseases and no others, was at first wholly inexplicable; but on further experiment it was proved that by its power over the veins, arteries and glands, it equalizes the fluids of the body, the want of an equilibrium in which is the sole cause of inflammation. It exerts like the vaccine matter, an extraordinary influence over the circulation—resulting in a gradual decline of inflammation as indicated by the pulse which soon reaumes its natural state, as the pain and heat disappear. Such its potency, that like the virus just mentioned, it requires merely what adheres to the point of a quill dipped in a solution of it to afbeet the entire system—but must be instantly used to prevent decomposition, and secure its full virtue. Three quills in acute, and two in chronic disease every 24 hours, till the heat and fever have subsided and a perfect cure is effected.—When it takes the place of leeches, stimulating ointments and blisters in local inflammation, as Brain Fever, Croup, Toothache, Pleurisy, &c., its mode of administration is two-fold. (See directions for dissolving, &c.).

**Boody Three peculiar excellence of this Salt is, that without the useless loss of blood and strength, it effectually cures inflammatory discases (no others) by producing an equilibrium of all the fluids of the body and a consequent uninterrupted circulation. This Salt greatly alleviates the inflammatory pains peculiar to married ladies (before and at the time of confinement) and many Female Complaints; and is very effencious in Fevers, Ague, Wounds, Nervous and Spinal affections, and any other forms of (mark this) inflammatory disease, attended with heat or febrile symptoms.

Persons who have a tendency of blood to the head and heart, and who lead inactive lives, or breathe the impure air of manufactories and the poisonous fumes of metals and minerals, or live in unhealthy climates are exposed to a pe-culiar vitation of the futules of the body, which one dose, without interfering with diet or busi-ness, once in three months, would invariably prevent. Dear Sir: Having become prematurely quite gray, I was induced, some six weeks since, to make a trial of your Restorative. I have used disappared; and although my hair has not yet fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry; and it has ceased to come out as formerly.

Respectfully yours,

I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and I have un doubt, permanently so. SIDEY BRESH.

This disease is the penalty most frequently paid by those who have become the victim of improper indulgencies. Young persons are too apt to commit excesses from not being aware of the dreadful consequence that may ensue.—

Now, who that understands the subject will pretend to deny that the power of Procreation is lost sooner by those falling into improper habit than by the prudent. Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms to mind and body arise. The system becomes deranged, the physical and mental powers weakned, nervous debility, dyspepsia, publitation of the heart, indigestion, a wasting of the frame, cough symptoms of Consumption.
