Published by Request. I Lay My Sins On Jesus

BY THE REV. H. BONAR.

He was wounded for our transgressions. He was bruised for our iniquities.—Isalah Lill. 5

Ilay my sins on Jesus,
The spotless Lamb of God;
He bears them all, and free us
From the accurace load.
I bring my guilt to Jesus,
To wash my crimson stains
White in his blood most precious,
Till not a spot remains.

Till not a spot remains.

All fullness dwells in him;
He heals all my diseases,
He doth my soul redeem.
I lay my griefs on Jesus,
My burdens and my cares;
He from them all releases,
He all my sorrows shares.

I rest my soul on Jesus,
This weary soul of mine;
His right hand me embraces

I on his breast recline.
I love the name of Jesus,
Immanue!, Christ, the Lord;
Like fragrance on the breezes,
His name abroad is poured.

This weary soul of mine;
His right hand me embraces,
I on his breast recline.
I love the name of Jesus,
Immanuel, Christ, the Lord;
Like fragrance on the breezes,
His name abroad is poured.
I long to be like Jesus—
Meek, loving, lovily, mild;
I long to be like Jesus—
Meek, loving, toyle child.
I long to be like Jesus,
The Father's holy child.
I long to be with Jesus,
Amid the beavenly throng,
To sing, with saints, his praises,
To learn the angels' song.

Elopement of a Priest with his Penitent.
One morning last week every newspaper office of Paris was visited by a government messenger, who, in breathless haste, for bade them to print a word of the news which had just arrived from Meaux. The grand vicaire had fled with one of his fair penitents, Mad'lle Vacquerin by name, and one of the most beautiful girls in the place.
What makes the affair so terrible just at this moment is, that this intrigue of the grand vicaire, which forms one of the accusation upon which. Verger based has proofs of the clergy, breaks out just as Verger and his damning proofs were beginning to be forgot. The young lady, who has refused the most brilliant offers of marriage, and who is possessed of a large fortune in her own right, has, by the advice of her paramour, who is supposed to have been her lover ever since she first attended his confessional, five years ago, only waited antil her coming of age and the transfer of her money from the hands of her relations into her own, to take this extraordinary and decided step. The grand vicaire is a tall, handsome man, of good family. The fugitives have landed in England—and rumor declares that the reverend father has written to his bishop, annonneing his intention of throwing his froce aux orties, and threatening, on 'he first sign of persecution or annoyance on the part of the ecclesiastical authorities, to issue a public cooffirmation annoyance on the part of the ecclesiastical authorities, to issue a public cooffirmation annoyance for the part of the ecclesiastical authorities, to issue a p of throwing his froc aux ortics, and threat-ening, on he first sign of persecution or annoyance on the part of the ecclesiastical authorities, to issue a public confirmation of all the "horrible calumnies which were suppressed in Verger's trial.

Another Poser for Chief Justice Taney

The presiding Justice of the Supreme Court of the United States rested his opinten that negroes were not citizens upon the allegation that they have never been recognized as such by the general government, either before or since the adoption ment, either before or since the adoption of the federal constitution. His attention is respectfully invited to the following extract from an act of Congress passed in 1803, which received the approval of Pre-

ment, either before or since the adoption of the federal constitution. His attention is respectfully invited to the following extract from an ect of Congress passed in 1803, which received the approval of President Jefferson and both houses of Congress, and has been recognized as constitutional for more than fifty years. This clause, it will be perceived, specially recognize the existence of colored citizens of the United States:

Art. 1569. No master of any vessel, or other person, shall import, or cause to be imported, any person mulato, or person of color, not a native, a citizen, or registered seaman of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape of Good Hope, into any place of the United States, or a seaman native of some country beyond the Cape o

MANY medicines offered for sale are accompanied by doubtful certificates (their chief value) and claim to be universal remedies, curing all maladies—a burlesque on common sense. As the discoverer of this Salt solemily protests against having it placed on the category of frauds and impositions, he has resolved that it shall go forth to the world like the pure gold dollar, wit no other passport than its own true value. If the public find it genuine they will receive ti—if spurious they will reject and condemn it. Instead of its being a panacea for all ills it has control over but one ill—has but one aim and accomplishes but one thing, to wit; subdues inflammatory diseases—whatever be their form or locality, whether in the head, throat, cheat, abdomen, extremeties or skin.

When the discoverer, after a long series of laborious and costly experiments, became fully confirmed in his conviction that the Autiphlogistic Salt, which he now has the happiness to present to the American public, was a Is, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a most laxuriant growth reason and dandruff and tching, cure all second head, etc. It will cure, as if by magic, nervous or periodical headache; make the hair soot, glossy, and wary, and preserve the color perfectly, and the hair from falling, to extreme old age.

The following is from a distinguished member of the medical profession:

Sr. PAUL, January I, 1855.

PROFESSOR O. J. WOOD—

DEAR SRE:—Unsolicited, I send you this certificate. After being nearly baild for a long time and having tried all the hair restoratives extant, and having no faith in any, I was induced on hearing of yours to give it a trial. I placed myself in the hands of a barber, and had my head tive appliet and well rubbed in, till the sealy was aglow. This I repeated every morning, and in three weeks the young hair appear ed and grew rapidly from August last till the present time, and is now thick, black and strong—soft and pleasant to the touch; whereas, before, it was harsh and wirry, what little there was of it, and that little was disappearing very rapidly. I still use your restorative about twice a week, and shall soon have a good and perfect crop of hair Now, I had read of these things—and who has not f but have not seen hitherto any case where any person's hair was really benefitted by any of the hair tonic, etc., of the day; and it really perience, I have recommended you preparation to others, and already it has a large and general sale throughout the Territory. The people here know its effects, and have confidence in it. The supply you sent us, as wholesale agents for the Territory, is nearly exhausted, and daily inquiries are made for it. You deserve credit for your discovery; and I, for one, return you my thanks for the benefit it has done me, for I certainly had despaired long ago of ever affecting such a result.

Yours hastilly, Iss. 5.

Bosrow, 27 School St., March 20, 1855.

Dear Sir: Having become prematurely quite gray, I was induced, some six weeks since, to make a trial of your Restorative. I have used less than two bottles, but the gray bairs have used less than two bottles, but the gray bairs have disappeared; and although my hair has not yet fully attained its original color, yet the processor of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moistare and vigor of the hair, which before was harba and dry; and it has cessed to come out as formerly.

Respectfully yours,

Professor Wood.

Professor Wood.

CARLYLE, Illinois, June 19, 1855.

I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, premaurely gray, but by the use of his "Restorative," It has resumed its original cotor, and the permanently so.

Persons who have a tendency of blood to the head and heart, and who lead innetive lives, or breathe the impure air of manufactories and the poisonous fumes of metals and minerals, or live in unhealthy elimates are exposed to a peculiar vilation of the fluids of the body, which one dose, without interiening with diet or business, once in three months, would invariably prevent. It is believed to afford protection a gainst infectious diseases; and therefore, it is recommended to travellers, sailors and soldiers.

I troubled with Liver Complaints, unless the
most desperate of cases, when the ascionn bottle will, with scarce a single failure, restore the
patient to vigor and beautii. We wish to call the
attention of all to these facts, that the Invigorator is compounded by a physician who has used
it in his practice for the past twenty years with
a success most creudous, and that it is entirely
vegetable, being composed wholly of guins.

Some idea of the strength of these guins may
be formedwhen it is known one bottle of the Invigorator contains as much strengths as one hundred doses of Calomel without any of its deleterious effects.

One bottle taken for balance, when see r unnatural color from the skin. One dose after eating is sufficient to relieve e stomach and prevent the victuals from sing and souring.

ness of the lungs have been cured by the lungs rotator.

One dose taken a short time before eating gives vigor to the appetite and makes food digest well. One dose often repeated cures Chronic Diarrhoe in its worst forms, while summer and bowel complaints yield almost to the first dose. One or two doses cure attacks caused by worms, while for worms in children, there is no surer, safer and speedier remedy in the world, as it never fails.

There is no exaggeration in these statements, they are plain and sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor.
