

The Housewife.

HOW TO COOK EGGS.

Dropped Eggs are probably the most healthful form in which they can be prepared for the table. Break the egg very carefully into a pan of scalding water, and let the water come gradually to a boil, removing the eggs with a skimmer as soon as the white is set. Serve on a platter with a little salt, pepper and butter, or lay eggs on hot buttered toast. For invalids use cream instead of butter.

Boiled Eggs.—Drop them in the shell into boiling water; and boil from two to three minutes, according as you wish the whites lightly or thoroughly done. A fresh laid egg requires a half minute more boiling than an old one.

Poached Eggs. Beat the egg to a froth, add salt, pepper and butter, turn them into a buttered pan and cook slowly over a few coals, or better yet, over boiling water stirring constantly till delicately set, then serve on toast or vegetables, or in a dish by themselves.

Baked Eggs.—Butter an earthen baking dish, break the eggs in carefully, sprinkle a little pepper and salt over, lay on a few crumbs of butter, and bake slowly till the white is set.

Fried Eggs are commonly cooked too much. They should not be turned, but the hot fat should be constantly poured over them with a spoon till the white is set, then they are ready to be served.

Omelette.—Beat six eggs, add a little minced boiled ham or other meat, or if preferred, a little chopped parsley and onion, with salt, pepper and two ounces of butter. Turn it into a greased frying pan over a slow fire, or over boiling water, and stir till it begins to set. When brown on the underside, it is done; then lay a flat plate over the top, and turn pan upside down. It should be cooked slightly and eaten quickly. *Ohio Farmer.*

How to make Whitewash.—As the season of the year when considerable whitewashing is performed, is near at hand, we give the following receipt for making the composition, which is said to be first-rate; Take a clean barrel that will hold water, put into it a half a bushel of quicklime, and slack it by pouring over it boiling water sufficient to cover it four or five inches deep, and stirring it until quite slacked; dissolve in water and add two pounds of sulphate of zinc and one of common salt, which will cause the whitewash to harden on the wood-work, in a few days; add sufficient water to bring it to the consistency of thick cream. To make the color of a pleasant cream color, add above wash one pound of ochre. For fawn color, add 4 pounds of umber, 1 pound India red, and 1 pound of lampblack. For gray or stone color, add 4 pounds of umber and 2 pounds lampblack. The color may be put on with a common whitewash brush, and will be found much more durable than common whitewash.

Cheap Paint.—If any of our readers wish to use a very cheap and substantial paint of a drab color, without lustre, let them mix water lime with skimmed milk to a proper thickness to apply to a brush, and it is ready to use. It will be almost to estimate any one can put it on who can use a paint brush. It will adhere well to wood, whether smooth or rough—to brick, stone or mortar, where oil paint has not been used, in which case it will cleave to some extent, and forms a very hard substance, as durable as the best oil paint. *[James M. Clark, Troopville.]*

Washing Silverware.—It seems that housekeepers who wash their silverware with soap and water, as the common practice is, do not know what they are about. The proprietor of one of the oldest silver establishments in the city of Philadelphia says that housekeepers ruin their silver by washing it in soapwater; it makes it look much like pewder. Never put a particle of soap about your silver and it will retain its original lustre. When it wants polish take a piece of soft leather and whiting, and rub it hard.

Destruction to House Bugs.—The French Academy of Sciences is assured, by Baron Thenard, that boiling soap and water, consisting of two parts of common soap and 100 parts of water by weight, infallibly destroy bugs and their eggs. It is enough to wash walls, woodwork, &c. with the boiling solution to be entirely relieved from this horrid pest.

Camphor a Remedy for Mice.—Any one desirous of keeping seeds from the depredations of mice, can do so by mixing pieces of camphor gum in with the seeds. Camphor placed in drawers or trunks will prevent mice from doing them injury. The little animal objects to the odor, and keeps a good distance from it.

Mixture for Polishing Brass.—Spirit of turpentine, half a pint; rotten-stone, quarter pound; charcoal in powder, quarter pound. Mix well, and add quarter of a pint of sweet oil; finish with dry charcoal dust.

MISCELLANEOUS ADVERTISEMENTS.

ANTIPHLOGISTIC SALT. A PERFECT SUBSTITUTE For the Linctus, Leeches and Blisters! OF ITS INTRINSIC VALUE THE ENLIGHTENED COMMUNITY AND THE DISCOVERER MUST BE THE JUDGE!

Many medicines offered for sale are accompanied by doubtful certificates (their chief value) and claim to be universal remedies, curing all diseases, both the common and the rare. As the discoverer of this Salt solemnly protests against having it placed on the category of frauds and impositions, he has resolved that it shall go forth to the world like the pure gold dollar, with no other passport than its own true value. If the public find it genuine they will receive it as if it were a panacea for all ills it has control over but one ill has but one aim and accomplishes but one thing, to wit: subdues inflammatory diseases—whatever be their form or locality, whether in the head, throat, chest, abdomen, extremities or skin.

When the discoverer, after a long series of laborious and costly experiments, became fully convinced in his conviction that the Antiphlogistic Salt, which he now has the happiness to present to the American public, was a

PERFECT SUBSTITUTE

For Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact that the manner of its operation, like that of the virus in vaccination, could not be explained upon any known principle. How, in what way, it so effectually subdues inflammatory diseases and no others, was at first wholly inexplicable; but on further experiment it was proved that by its power over the veins, arteries and glands, it equalizes the fluids of the body, the want of an equilibrium in which is the sole cause of inflammation. It exerts like the vaccine matter, an extraordinary influence upon the circulation—resulting in a gradual decline of inflammation as indicated by the pulse which soon resumes its natural state, as the pain and heat disappear. Such is its potency, that like the virus just mentioned, it requires merely what adheres to the point of a quill dipped in a solution of it to affect the entire system—but must be instantly used to prevent decomposition, and secure its full virtue. Three quills in acute, and two in chronic disease every 24 hours, till the heat and fever have subsided and a perfect cure is effected. When it takes the place of leeches, stimulating ointments and blisters in local inflammation, as Brain Fever, Croup, Toothache, Pleurisy, &c., its mode of administration is two-fold. (See directions for dissolving, &c.) The peculiar excellence of this Salt is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases (no others) by producing an equilibrium of all the fluids of the body and a consequent uninterrupted circulation. The following different forms which the unbalanced fluids assume, and which are not here mentioned as more or less fever and pain, are as perfectly subdued by the Antiphlogistic Salt, as fire is extinguished by water.

1.—Cases where the unbalanced fluids affect the Head and Throat—to wit: Brain Fever, Headache, Fiss, inflamed Eyes, Ears and Nose Canker, Neuralgia, Erysipelas, Bronchitis, &c.

2.—Cases where the unbalanced fluids affect the Chest and Abdomen—to wit: Pleurisy, Asthma, Inflamed Lungs and Liver, Colic, Heartburn, Coughs, Dyspepsia, Gravel, Gonorrhea, Venereal, &c.

3.—Cases where the unbalanced fluids affect the Extremities and Skin—to wit: Rheumatism, Neuralgia, Scrofula, Itching and Small Pox, Salt Rheum, and all Itching and other Cutaneous Eruptions.

This Salt greatly alleviates the inflammatory pains peculiar to married ladies (before and at the time of confinement) and many Female Complaints; and is very efficacious in Fevers, Ague, Wounds, Nervous and Spinal affections, and in all other forms of (marked) inflammatory diseases, attended with heat or febrile symptoms.

Persons who have a tendency of blood to the head and heart, and who lead inactive lives, or breathe the impure air of manufactories and the poisonous fumes of metals and minerals, or live in unhealthy climates are exposed to a peculiar irritation of the fluids of the body, which does without interfering with diet or business, once in three months, would invariably prevent. It is believed to afford protection against infectious diseases; and therefore, it is recommended to travellers, sailors and soldiers.

To protect the community from imposition by counterfeiters, the proprietor will employ no Agent, and has made such arrangements that he can send the medicine in any quantity, by mail or express, to any part of the United States or foreign countries. Its prime cost to the discoverer is \$1.50 per drachm—price \$2 per drachm—and is put up in drachm packages for acute disease (with directions, &c.) at \$1.50 per drachm, for chronic case, \$5; or 5 drachms for families, \$8—a net profit of fifty cents on each package.

While many nostrum makers victimize the good-natured and pill-ridden public by ordering from six to a dozen boxes or bottles to cure any malady, no matter what, the undersigned is happy in being able to state that the severest form of recent inflammatory disease is overcome by one acute package, and the most chronic and long standing cases by one Chronic package. Although thirty days have not elapsed since this new medicinal agent became partially known to the citizens of Boston and few neighboring towns, yet such have been the results of its trial that, during the past week, nearly 400 packages of this Salt have been received by mail and express for 163 Families, 347 Chronic, and 385 Acute packages.

In one instance six persons clubbed together and wrote for six packages of the "Little Giant," as they called it, to be forwarded to one address, thereby saving expense to themselves and the proprietor.

Letters from clubs or individuals with money (if over \$10) should be registered at the post office where mailed, as it costs but five cents and will insure their safe arrival.

*The discoverer now humbly submits his Perfect Substitute for the lancet, leeches and blisters, to the tribunal of an intelligent public, reiterating that it does not subdues inflammatory diseases (no others) whatever be its form or locality by restoring the lost balance between the fluids and solids. Family packages \$8, Chronic \$5, and Acute \$2; to be had (free of expense) only by addressing him through Box 322, Boston, Mass., or at his Office, No. 3 Winter Street.

On the advertisement and his communications in another column for the personal of your neighbors and your own future use.

F. COGGSWELL, M. D., Discoverer and Proprietor. The Antiphlogistic salt, is for sale at the HUNTINGDON JOURNAL OFFICE, Mar. 11/57

MISCELLANEOUS ADVERTISEMENTS.

PROFESSOR WOOD'S HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with the most luxuriant growth remove at once all dandruff and itching, cure all scrofula, and other cutaneous eruptions, such as scald head, etc. It will cure, as if by magic, nervous or periodical headache; make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling; it extreme old age.

The following is from a distinguished member of the medical profession: ST. PAUL, January 1, 1855.

DEAR SIR:—Unsolicted, I send you this certificate. After being nearly bald for a long time and having tried all the hair restoratives extant, and having no faith in any, I was induced on leaving you to give it a trial. I placed myself in the hands of a barber, and had my head rubbed with a good stiff brush, and the restorative applied and well rubbed in, till the scalp was aglow. This I repeated every morning, and in three weeks the young hair began to grow rapidly from August last till the present time, and is, now thick, black and strong—soft and pleasant to the touch; whereas, before, it was harsh and wiry, with little there was of it, and was thinning disappearing very rapidly. I still use your restorative about twice a week, and shall soon have a good and perfect crop of hair. Now, I had read of these things—and who has not? but have not seen hitherto any case where any person's hair was really benefited by any of the hair tonics, etc. of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and already it has a large and general sale throughout the Territory. The people here know its merits, and have confidence in it. The supply you sent us, as wholesale agents for the Territory, is nearly exhausted, and daily inquiries are made for it. You deserve credit for your discovery; and I, for one, return you my thanks for the benefit it has done me, for I certainly had expired long ago of ever affecting such a result.

Yours, hastily, J. W. BOND,

Firm of Bond & Kelley, Druggists, St. Paul.

[From the Editor of the Real Estate Advertiser.]

Boston, 27 School St., March 20, 1855.

DEAR SIR: Having become prematurely quite gray, I was induced, some six weeks since, to make a trial of your Restorative. I have used less than two bottles, and the gray hairs have disappeared; and although my hair has not yet fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry; and it has ceased to come out so formerly.

Respectfully yours, Professor Wood.

CARLYLE, Illinois, June 19, 1855.

I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and I have no doubt, permanently so.

SIDNEY BRESE, Ex-Secretary United States.

O. J. WOOD & CO., Proprietors, 312 Broadway N. Y., & 114 Market St., St. Louis, Missouri. Sold in Huntingdon by JOHN READ, and H. McMANIGILL, and by Druggists everywhere. Mar. 25/57-3m.

ONLY ONE BOTTLE OF DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY

IS REQUIRED TO CURE ANY ONE troubled with Liver Complaint, unless the most desperate of cases, when the second bottle will, with scarce a single failure, restore the patient to vigor and health. We wish to call the attention of all to these facts, that the Invigorator is compounded by a physician who has used it in his practice for the past twenty years with a success most extraordinary, and that it is entirely vegetable, being composed wholly of gums.

Some idea of the strength of these gums may be formed when it is known, that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

One bottle is the surest thing known to carry away the bad effects of mineral poison of any kind.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all yellowness and unnatural color from the skin.

One dose after eating is sufficient to relieve the stomach and prevent the victims from rising and souring.

Only one dose taken before retiring prevents nightmare.

One dose taken at night loosens the bowels gently, and cures constiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two tea-spoonfuls will always relieve Stiff Headache.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

One dose immediately relieves Cholera, while.

One dose often repeated is a sure cure for Cholera Morbus, and a sure preventative of Cholera.

One dose taken often will prevent the recurrence of bilious attacks, while it relieves all painful feelings.

One or two doses taken occasionally is one of the best remedies for a cold ever known.

Thousands of cases of inflammation and weakness of the lungs have been cured by the Invigorator.

One dose taken a short time before eating gives vigor to the appetite and makes food digest well.

One dose often repeated cures Chronic Diarrhoea in its worst forms, while summer and bowel complaints yield almost to the first dose.

One or two doses cure attacks caused by worms, while for worms in children, there is no safer, safer and speedier remedy in the world, as it never fails.

There is no exaggeration in these statements; they are plain and sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor.

We wish all who are sick and debilitated to try this remedy, and test it thoroughly, and any who are not benefited by its use we should like to hear from, as we have yet to hear from the first person who has used the Invigorator without receiving benefit, for there are such astonishing medicinal virtues in it, that, all no matter how long they have been affected, if their complaint arises from a deranged liver, will be benefited, if not entirely cured, by its use.

SANFORD & CO., Proprietors, 345 Broadway New York. Sold in Huntingdon by HENRY McMANIGILL, and Druggists everywhere.

MEDICAL ADVERTISEMENTS.

Greatest Medical Discovery of the Age.

Dr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR, from the worst scrofula down to a common pimple.

He has tried it in over 1000 cases, and never failed except in three cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

Two or three bottles will cure the worst kind of Pimples on the face.

Two or three bottles will cure the system of Biles.

Two bottles are warranted to cure the worst case in Erysipelas.

One to two bottles are warranted to cure all humors in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly corruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit it always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I knew the effect of it in every case. So sure was water will extinguish fire, so sure will this cure humor—I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising—Children grow in its pastures in some places quite plentiful and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds of humors.

In order to give some idea of the sudden rise and great popularity of the discovery. I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy it will prove effectual in all cases of that dreadful malady—there are but few who have more of it than I have.

I know of several cases of Dropsy, all of whom were cured by it. For the American diseases of the Liver, Stiff Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years deserv spoonful—Children from five to eight years deserv spoonful—Children under five years deserv spoonful. (No directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.)

Manufactured by DONALD KENNEDY, No. 120, Warren St., Roxbury, Mass. Price \$1.00.

T. W. Dyott, General Agent for Pennsylvania, Wholesale Agents—N. Y. City, C. V. Clicker, 91 Barclay Street—B. H. Ring, 192 Broadway—Rushout and Clark, 275 Broadway—A. D. Sands, 100 Fulton Street.

For sale by G. W. Breham, McVeytown; McVey Marks, Lewistown; T. Read & Son, Huntingdon.

And sold by Agents generally. May 28/56-ly.

HUNTINGDON CARRIAGE & WAGON MANUFACTORY.

OWEN BOAT, thankful for past favors, respectfully informs the public in general that he is prepared to manufacture at his shop on Washington street, on the property lately and for many years occupied by Alex. Carmon, CARRIAGES, BUGGIES, ROCKAWAYS, GROOMING TOWN WAGONS.

and in short every kind of vehicle desired.—Rockaways and Buggies of a superior manufacture and finish always on hand and for sale at fair prices.

Manufacturing of all kinds done at the shortest notice and most reasonable terms. Huntingdon, May 28, 1856-ly.

A SPLENDID ARRIVAL OF FALL AND WINTER CLOTHING.

AT THE HUNTINGDON CLOTHING STORE.

A. WILLOUGHBY, HAS just returned from the east with a large and splendid assortment of

Fall and Winter Clothing, for men and boys, made in the latest fashion, and in the most durable manner. Who ever wants to be dressed better and cheaper than anybody else in town, let him call at WILLOUGHBY'S CLOTHING STORE, one door west of T. Read & Son's drug store, Huntingdon.

Call and see for yourselves. Oct. 18, 18
