

Queer Bits.

A Right Merrie History. A certain maiden was beloved of a certain youth, but her father did much object to their union. So this youth did always seek to avoid ye old gentelman, and whenever that he came in sight, did run swiftly away, or did hide himself in some obscure place. Now ye principall reason why ye father did so much dislike his daughter's wooer, was that he did wear much beard and an exceeding great mustache upon his face; ye like of which, ye old gentelman did asserite, was only fit for ye faces of those beastes which are hairy by nature. But ye youth yeelped Wax Green, of Tyrone City, shaved no. One day it chanced that ye father entered ye maiden's chamber, and as he came therein, did perceive ye young man to flee therefrom. So ye daughter, to seem innocente, did begin to search about for something, and did say, "My father, have you seen my apron?" And ye old gentelman did answer in this wise:—"Have I seen your apron? Yes, I did see it run just now, and had he not, I had kicked him severely!" And ye maiden, albeit she sorrowed for her lover, did laugh much.

The Jealousy of a Dog. Some time since, a gentleman living on the Hudson had a fine Newfoundland dog, who was a great favorite with the family. While this dog was confined in the yard, a pet lamb was given to one of the children which the former soon discovered to be sharing a great portion of those caresses which he had been in the habit of receiving. This circumstance produced so great an effect on the poor animal that he fretted, and became extremely unwell, and refused to eat. Thinking that exercise might be of use to him, he was let loose. No sooner was this done, than the dog watched his opportunity and seized the lamb in his mouth. He was seen conveying it down a lane, about a quarter of a mile from his master's house, at the bottom of which the Hudson river flowed. On arriving at it, he held the lamb under water till it was drowned, and thus effectually got rid of his rival. On examining the lamb, it did not appear to have been bitten or otherwise injured, and it might also be supposed that the dog had chosen the easiest death in removing the object of his dislike.

Tactics for Church Goers. The following, on "Church Etiquette," is not much of an exaggeration of what happens, after services have begun, to the edification of the curious in the congregation, and for the comfort of the nerves of the pulpit: "Let the lady advance one pace beyond the door of the pew she wishes to enter, half about face, and salute. The pew must then be vacated by such gentlemen as are in it, by flank movement. The squad should rise simultaneously when the lady presents herself, and face by the right flank, and then deploy into the aisle, the head man facing the lady, and the rest passing to his right and rear, the direction of the line being changed by a right counter-march, and form again in the line, up and down the aisle, still faced by the right flank. The lady, when she sees that the coast is clear completes her salute and advances to her position in the pew. The gentlemen break off by angles from the rear, and resume their places.—Great care should be taken, of course, by other parties, not to enter the aisle when this evolution is in progress, until it is completed.

A Capital Legal Anecdote. It is said that Tom Corwin, as he is familiarly called was once trying a case in which he was opposed to the late Mr. Wirt, when the latter tried a somewhat novel mode of discrediting the evidence of Mr. Corwin's chief witness, on whose accuracy and discrimination everything turned by showing that he was a person of astonishing credulity: Wirt—Have you read Robison Crusoe? Witness—Yes. Wirt—Do you believe it all? Witness—Well, yes, squire, I don't know but what I do. The same answer was returned as to Gulliver's Travels, and several other works of fiction Corwin all he while fighting and getting hot. Presently Mr. Wirt, considering the man entirely flattered out, resigned him with a bland smile. Mr. Corwin said he had only one question and put it. Corwin—Have you read Wirt's Life of Patrick Henry? Witness—Yes. Corwin—Do you believe it all? Witness—Why, no, Squire, I can't quite go that.

The Ohio State Journal does not appear to have a very exalted opinion of the character of the Virginians. Of some of the "first families" it says:—"They are too lazy to work and too respectable to steal; and therefore become beggars for office and sycophants at the seat of power. Their chief delight is apple toddy and past recollections, and the great badge of respectability is the ownership of a nigger and an unpaid bill for a Yankee piano."

ANTIPHLOGISTIC SALT. A PERFECT SUBSTITUTE. For the Lances, Leeches and Blisters! OF ITS VIRTUE VALUE THE ENLIGHTENED COMMUNITY NEED NOT THE DISCOVERER MUST BE THE JUDGE!

MANY medicines offered for sale are accompanied by doubtful certificates (their chief value) and are the result of various remedies, curing all maladies—a burlesque on common sense. As the discoverer of this Salt solemnly protests against having it placed on the category of frauds and impositions, he has resolved that it shall go forth to the world like the pure gold dollar, with no other passport than its own true value. If the public find it genuine they will receive it as if it were a gem, and will condemn it. Instead of its being a panacea for all ills it has control over but one thing—has but one aim and accomplishes but one thing, to wit: subdues inflammatory diseases—whatever be their form or locality, whether in the head, throat, chest, abdomen, extremities or skin.

When the discoverer, after a long series of laborious and costly experiments, became fully confirmed in his conviction that the Antiphlogistic Salt, which he now has the happiness to present to the American public, was a PERFECT SUBSTITUTE for Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact that the manner of its operation, like that of the virus in vaccination, could not be explained upon any known principle. How, in what way, it so effectually subdues inflammatory diseases and no others, was at first wholly inexplicable; but on further experiment it was proved that by its power over the veins, arteries and glands, it equalizes the fluids of the body, and the want of an equilibrium in which is the sole cause of inflammation. It acts like the vaccine matter, an extraordinary influence over the circulation—resulting in a gradual decline of inflammation as indicated by the pulse which soon resumes its natural state, as the pain and heat disappear. Such is its potency, that like the virus just mentioned, it requires merely what adheres to the point of a quill dipped in a solution of it to affect the entire system—but must be instantly used to prevent decomposition, and secure its full virtue. Three quills in acute, and two in chronic disease every 24 hours, till the heat and fever have subsided and a perfect cure is effected.—When it takes the place of leeches, stimulating ointments and blisters in local inflammation, as Brain Fever, Croup, Toothache, Pleurisy, &c., its mode of administration is too-fidid. (See directions for dissolving, &c.)

The peculiar excellence of this Salt is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases (no others) by producing an equilibrium of all the fluids of the body and a consequent uninterrupted circulation. The following directions are given for its use in the unbalanced fluids of the head and throat—to wit: Brain Fever, Headache, Fits, inflamed Eyes, Ears and Nose Cancer, Neuralgia, Erysipelas, Bronchitis, &c. 2.—Cases where the unbalanced fluids affect the Chest and Abdomen—to wit: Pleurisy, Asthma, Inflamed Lungs and Liver, Colic, Heartburn, Coughs, Dyspepsia, Gravel, Gonorrhoea, Venereal, &c. 3.—Cases where the unbalanced fluids affect the Extremities and Skin—to wit: Rheumatism, Gout, Scrofula, Chicken and Small Pox, Salt Rheum, and all Itching and other Cutaneous Eruptions.

This Salt greatly alleviates the inflammatory pains peculiar to married ladies (before and at the time of confinement) and many Female Complaints; and is very efficacious in Fevers, Aque, Wounds, Nervous and Spinal affections, &c. 2.—Cases where the unbalanced fluids affect the Chest and Abdomen—to wit: Pleurisy, Asthma, Inflamed Lungs and Liver, Colic, Heartburn, Coughs, Dyspepsia, Gravel, Gonorrhoea, Venereal, &c. 3.—Cases where the unbalanced fluids affect the Extremities and Skin—to wit: Rheumatism, Gout, Scrofula, Chicken and Small Pox, Salt Rheum, and all Itching and other Cutaneous Eruptions.

Persons who have a tendency of blood to the head and heart, and who lead inactive lives, or breathe the impure air of manufactories and the poisonous fumes of metals and minerals, or live in unhealthy climates are exposed to a peculiar irritation of the fluids of the body, which, if not removed by timely and judicious means, once in three months, would invariably prevent. It is believed to afford protection against infectious diseases; and therefore, it is recommended to travellers, sailors and soldiers.

To protect the community from imposition by counterfeits, the proprietor will quantify no one dose, without making an arrangement by which he can send the medicine in any quantity, by mail or express, to any part of the United States or foreign countries. Its price cost the discoverer is \$1.50 per drachm—price \$2 per drachm—and is put up in drachm packages for acute disease, with directions, &c. at \$1; three drachms do., for chronic cases, \$5; and for the use of Families, \$8—a net profit of fifty cents on each package.

While many nostrum makers victimize the good-natured and pill-ridden public by ordering from six to a dozen boxes or bottles to cure any malady, no matter what, the undersigned is happy in being able to state that the severest forms of recent inflammatory disease are overcome by one or two doses of this salt, and the most obstinate and long standing cases by one Chronic package. Although thirty days have not elapsed since this new medicinal agent became partially known to the citizens of Boston and few neighboring towns, yet such have been the results of its trial that, during the past week, nearly 400 packages were sold in this city, and orders received by mail and express for 189 Family, 347 Chronic, and 385 Acute packages. In one instance six persons clubbed together and wrote for six packages of the "Little Giant," as they called it, to be forwarded to one address, thereby saving expense to themselves and the proprietor.

Letters from clubs or individuals with money (if over \$10) should be registered at the post office where mailed, as it costs but five cents, and will insure their safe arrival. *The discoverer now humbly submits his Perfect Substitute for the lance, leeches and blisters, to the tribunal of an intelligent public, reiterating that it does just what it claims to do—no more, no less, and no other. (The discoverer does not intend to be understood as assuming to restore the lost balance between the fluids and solids. Family packages \$8, Chronic \$5, and Acute \$2; to be had (free of expense) only by addressing him through Box 322, Boston, Mass., or at his Office, No. 3 Water Street.

PROFESSOR WOOD'S HAIR RESTORATIVE. IS, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with the most luxuriant growth, remove at once all dandruff and itching, cure all scrofula, and other cutaneous eruptions, such as scald head, etc. It will cure, as if by magic, nervous or periodical headache; make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling, to extreme old age.

The following is from a distinguished member of the medical profession, Jan. 1, 1855. PROFESSOR O. J. WOOD—DEAR SIR:—Unsolicted, I send you this certificate. After being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced on hearing of yours to give it a trial. I placed myself in the hands of a barber, and had my head rubbed with a good stiff brush, and the restorative applied and well rubbed in, till the scalp was aglow. This I repeated every morning, and in three weeks the young hair began to grow rapidly from August last till the present time, and is now thick, black and strong—soft and pleasant to the touch; whereas, before, it was harsh and wiry, with little there was of it, and that little was disappearing very rapidly. I still use your restorative about twice a week, and shall soon have a good and perfect crop of hair. Now, I had read of these things—and who has not? but had not seen hitherto any case where any person's hair had been benefited by any of the hair tonics, &c. of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and already it has a large and general sale throughout the Territory. The people here know its effects, and have confidence in it. The supply you sent us, as wholesale agents for the Territory, is nearly exhausted, and daily inquiries are made for it. You deserve credit for your discovery, and I, for one, return you my thanks for the benefit it has done me, for I certainly had despaired long ago of ever affecting such a result. Yours, hastily, J. W. BOND, Firm of Bond & Kelley, Druggists, St. Paul.

[From the Editor of the Real Estate Advertiser.] Boston, 27 School St., March 20, 1855. Dear Sir: Having become prematurely quite gray, I was induced, some six weeks since, to make a trial of your Restorative. I have used less than two bottles, and my hair has almost entirely disappeared, and although my hair has not yet fully attained its original color, yet the process of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry; and it has ceased to come out as formerly. Respectfully yours, D. C. M. RUPP, Professor Wood.

CARLYLE, Illinois, June 19, 1855. I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and I have no doubt, permanently so. SIDNEY BRIDGES, Ex-Senator United States.

ONLY ONE BOTTLE OF DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY. IS REQUIRED TO CURE ANY ONE CASE OF Biliousness, Headache, &c. This is the most powerful medicine ever known, and is the only one that will cure any case of Biliousness, Headache, &c. It is the only one that will cure any case of Biliousness, Headache, &c. It is the only one that will cure any case of Biliousness, Headache, &c.

One bottle is the surest thing known to carry away the bad effects of mineral poison of any kind. Only one bottle is needed to throw out of the system the effects of medicine after a long sickness. One bottle taken for Jaundice removes all yellow and natural color from the skin. One dose after eating is sufficient to relieve the stomach and prevent the vomiting from rising and souring. Only one dose taken before retiring prevents indigestion. One dose taken at night loosens the bowels gently, and cures costiveness. One dose taken after each meal will cure Dyspepsia. One dose of two tea-spoonfuls will always relieve Sick Headache. One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure. Only one dose immediately relieves Cholera, while One dose often repeated is a sure cure for Cholera Morbus, and a sure preventative of Cholera. One dose taken often will prevent the recurrence of bilious attacks, while it relieves all other feelings. One or two doses taken occasionally is one of the best remedies for a cold ever known. Thousands of cases of inflammation and weakness of the lungs have been cured by the Invigorator.

One dose taken a short time before eating gives vigor to the appetite and makes food digest well. One dose often repeated cures Chronic Diarrhoea in its worst forms, while summer and bowel complaints yield almost to the first dose. One or two doses cure cholera caused by worms, safer for worms in children, there is no stuer, safer and speedier remedy in the world, as it never fails. There is no exaggeration in these statements, they are plain and sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor.

We wish all who are sick and debilitated to try this remedy, and test it thoroughly, and any who are not benefited by its use we should like to hear from, as we have yet to hear from the first person who has used a bottle of Invigorator without receiving benefit, for there are such astonishing medicinal virtues in it, that all, no matter how long they have been affected, if their complaint arises from a deranged liver, will be benefited, if not entirely cured, by the use of SANFORD & CO.'S Proprietors, 345 Broadway New York. Sold in Huntingdon by HENRY McMANIGILL, and Druggists every where. Dr. GEO. H. KEYSER, Wholesale Druggist, No. 140, Wood st., Pittsburg, Wholesale Agent. Mar. 25, '57-3m.

MEDICAL ADVERTISEMENTS.

Greatest Medical Discovery of the Age. Dr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst scrofula down to a common pimple. He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston. Two bottles are warranted to cure a nursing sore about the neck. One to three bottles will cure the worst kind of Pimples on the face. Two or three bottles will cure the system of Biles. Two bottles are warranted to cure the worst case of Erysipelas. One to two bottles are warranted to cure all humor in the Eyes. Two bottles are warranted to cure running of the ears and blithes among the hair. Four to six bottles are warranted to cure corrupt and running ulcers. One bottle will cure scaly corruption of the skin. Two to three bottles are warranted to cure the worst case of Ringworms. Two to three bottles are warranted to cure the most desperate case of rheumatism. Three to four bottles are warranted to cure the salt rheum. Five to eight bottles will cure the worst case of scrofula. A benefit it always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I knew the effect of it in every case. So sure as water finds its way to the bottom, so sure will this cure humor.—I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first it grows in our pastures, and is never given to any animal, and yet its value has been known until I discovered it in 1846—second that it should cure all kinds of humor. In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand per day. Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annuals of patent medicines was ever like it. There is a universal praise of it from all quarters. In my own practice I always kept it strictly for humors, but since its introduction as a general family medicine, great and wonderful virtues have been like it. There is a universal praise of it from all quarters. Several cases of epileptic fits—a disease which was always considered incurable, have been cured by this medicine. O, what a mercy it will prove effectual in all cases of that dreadful malady—there are but few who have more of it than I have. I know of several cases of Dropsy, all of whom aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known. No change of diet ever necessary—eat the best you can get and enough of it. DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day. Manufactured by DONALD KENNEDY, No. 120, Warren St., Roxbury, Mass. Price \$1.00. T. W. MEDICAL ADVERTISEMENTS.

BALTIMORE LOCK HOSPITAL. DOCTOR JOHNSTON. THE founder of this Celebrated Institution, offers the most certain, speedy, and only effectual remedy in the world for Glands, Strictures, Seminal Weakness, Pain in the Loins, Constitutional Debility, Impotency, Weakness of the Back and Limbs, Affections of the Kidneys, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Disease of the head, Throat, Nose or Skin; and all those serious and melancholy disorders arising from the destructive habits of Youth, which destroy both body and mind. These secret and solitary practices are more fatal to their victims than the song of the Sirens to the mariner Ulysses, blighting their most brilliant hopes of anticipations, rendering marriage, &c., impossible.

Young Men, especially, who have become the victims of Solitary and unwholesome and destructive habits, which annually sweeps to an untimely grave thousands of young men of the most exalted talents, and brilliant intellect, who might otherwise have embraced listening senates with the thunders of eloquence, waked to ecstasy the living lyre, may fall with all confidence. Married persons, or young men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., should immediately consult Dr. Johnston. He who places himself under the care of Dr. Johnston may rely upon his honor as a gentleman, and confidently rely upon his skill as a physician. Organic Weakness. Immediately cured, and full vigor restored. This disease is the penalty most frequently paid by those who have become the victims of improper indulgences. Young persons are too apt to commit excesses from being unaware of the dire consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of Procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived of the gratification of marriage, the most serious and destructive symptoms to mind and body arise. The system becomes deranged, the physical and mental powers weakened, nervous debility, dyspepsia, palpitation of the heart, indigestion, a wasting of the frame, cough symptoms of Consumption, &c. Office No. 7, South Frederick Street, seven doors from Baltimore street, East side, up the steps. Be particular in observing the name and number, or you will mistake the place. NO MERCURY OR NAUSEOUS DRUGS. Dr. Johnston, Member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris Philadelphia, and elsewhere, has cured thousands of the most obstinate cases that were ever known, many troubled with ringers in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing attended sometimes with derangement of mind, were cured immediately. Certain Disease. When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-tempered sense of shame, or dread of discovery, deters him from applying to those who from long and successful experience, can alone be entitled to the honor of relieving him from the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the skin bones, and blotches on the face, and at the extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid spectacle to the eyes of his friends, till death puts a period to his dreadful sufferings, by sending him to "that home from whence no traveller returns." To such, therefore, Dr. Johnston pledges himself to preserve the most invisible secrecy, and from his extensive practice in the first Hospitals of Europe, and extensive experience, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease. It is a melancholy fact that thousands fall victims to this horrid disease owing to the unskillfulness of ignorant pretenders who by the use of that deadly poison Mercury, ruin the constitution, and either send the unfortunate sufferer to an untimely grave, or make the residue of his life miserable.

Take Particular Notice. Dr. J. addresses all those who have injured themselves by improper indulgences. These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the back, Dizziness of Sight, Loss of Muscular power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangements of the Digestive Functions, General Debility Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; Loss of memory, Confusion of ideas, Depression of Spirit, Evil Forbodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced. Thousands of persons of all ages, can now judge what is the cause of their declining health. Losing their vigor, becoming weak, pale and emaciated, having singular appearance about the eyes, tough and systems of consumption. Dr. Johnston's Invigorating Remedy for Organic Weakness. By this great and important remedy, the weakness of the organs is speedily cured and full vigor restored. Thousands of the most debilitated and nervous, who had lost all hope, have been immediately relieved. All Impediments to Marriage, Physical or Mental Disqualification, Nervous Irritability, Tremblings and Weakness, or exhaustion of the most fearful kind, speedily cured by Doctor Johnston. Young Men, who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school—the effects of which are highly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately. When a piteous young man, the hope of his country, and the darling of his parents, is snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature and indulging in a certain secret habit such persons before contemplating Marriage, should reflect that a sound mind and body are the most necessary requisites to a happy nuptial happiness. Indeed without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. OFFICE NO. 7, SOUTH FREDERICK ST., BALTIMORE, MD. To Strangers. The many thousands cured at this Institution within the last 15 years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the Reporters of the papers, and many other persons, notices of which have appeared again and again, and the public, is a sufficient guarantee to the afflicted. N. B. There are so many ignorant and worthless quacks advertising themselves as Physicians, ruining the health of the already afflicted, that it is necessary to say to those unacquainted with his reputation that his Diplomas always hang in his office. TAKE NOTICE.—All letters must be post paid, and contain a postage stamp for the reply, or no answer will be sent. June 18, 1856.-1y.

TERMS OF THE JOURNAL.

The "HUNTINGDON JOURNAL" is published at the following rates: If paid in advance \$1.50 If paid within six months after the time of subscribing, \$2.00 If paid before the expiration of the year, 2.00 And two dollars and fifty cents if not paid till after the expiration of the year. No subscription taken for a less period than six months. 1. All subscriptions are continued until otherwise ordered, and no paper will be discontinued, until arrears are paid, except at the option of the publisher. 2.
