Near Mt. Union, on the 10th inst., Marv, daughter of Peter and Catharine Shaver, in the 10th year of her age.

The balmy air with mystic sound,
Still moves with all its power,
And speaks in low and startling voice
That there is a parting hour.

That life is short and very frail,
Is taught us every day,
The young and old, the weak and strong,
All, all have nature's debt to pay.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate PREPETCH VIELLELIN.

No case of the fever ever having been known to occur in this settlement. It is not like going to the backwoods of the West, among perhaps intolerant people, where there is no society, no charches, or schools, where the price of fand is hindered to be sufficient to emigrant, after being used. The settlement was a subject of the settlement of the settlement of the settlement having three towns, containing churches, schools, hotels, stores, saw-mills, grist-mills, and everything desired. There is a thriving settlement having three towns, containing churches, schools, hotels, stores, saw-mills, grist-mills, and everything desired. There is a rash market at hend. The lumber trade last year amounted to over two hundred millions leet of lumber. In a short time, owing to the Coal; it will become still more valuable as a number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren. Even for those who do not vish to go there, the payments are such that they can easily buy farms to save their exact heavy and the started of their lands. By an outlay scarcely missed, a substantial provision can be made.
