

Huntingdon Journal. NEWS ABOUT HOME.

The fourth of July, the natal day of our nation, was celebrated in the usual patriotic style in our "ancient borough"; i. e. not at all.

At Broad Top City, our excellent friend Morrison had a most magnificent feast prepared for his visitors.

At Coalmont, a celebration worthy the day was held. The "Rifle Rangers" under Capt. Reed, paraded and drilled, and acquitted themselves with great credit.

We understand from the Philadelphia papers of last Thursday, that our old friend John Garner, Esq., of Marklesburg, in this county, who was stopping at the States Union, in that city of "Brotherly Love," whilst taking a stroll along the banks of the Schuylkill, was stopped by two individuals who politely yet firmly demanded whatever of "filthy lucre" he might possess.

The Female Seminary in this place, under charge of Miss S. Bigelow, held an examination on Friday, the 3d inst., which was emphatically one of the most creditable affairs to our borough that has occurred within its limits for a long time.

It always affords us pleasure to notice real worth and direct attention to genius of superior order in our fellow-citizens.

It is a Gothic design, being a representation of figures "Hope and Grief"; a magnificently carved cherub's head surmounting the stone, which is also adorned with exquisite festoons of flowers.

Mean temperature at the Penn'a Hospital at Philadelphia, for June, 1857, 69 1/2. Highest at the same place, (on 26th) 85. Lowest, ditto, (on 6th) 53.

Mean temperature at Huntingdon for June, 68.1. Highest " " (on 26th) 90. Lowest, " " (on 5th) 45.

As a matter of course, we had a few free fights on the Fourth. At a lager beer establishment down street, we saw a regular "set to," which we cannot better describe than by adopting the language of a Western "Poick."

We invite attention to the Agricultural notice in another column. We shall now be able to judge whether the people of Huntingdon borough lack public spirit, or are behind our sister towns.

We hear great complaints from different parts of the county, of the ravages of grasshoppers. They are said to be more numerous than last season, and are increasing rapidly.

NEW YORK ADVERTISEMENTS.

PROFESSOR WOOD'S HAIR RESTORATIVE.

IT HAS WORKED MIRACLES! That all the bald and gray can be restored perfectly to original growth, and color, so far as their locks are concerned, does not admit of a doubt.

Milford, Worcester Co., Mass., Nov. 1855. Prof. O. J. Wood—Dear Sir: I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative.

Charlestown, Mass., Aug. 9, 1855. Gents—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been, would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative.

From Mrs. Ingalls, a well known nurse in Boston, Oct. 19th, 1855. Gents—At your request and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin, and entirely white.

Prof. Wood—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood, and has also restored the hair, which was becoming gray, to its original color.

What is it?—This Wood's Hair Restorative? Is a question asked daily by hundreds. We answer without hesitation or fear of contradiction, that it is the only article known which will restore to its original color, and to its natural growth, all the hair that has become gray, or fallen out, or is falling out.

HERRING'S PATENT CHAMPION FIRE & BURGLAR-PROOF SAFES. WITH PATENT LOCKS.

THE GREAT INTEREST MANIFESTED by the public to procure more certain security from fire for valuable papers, such as Bonds, Mortgages, Deeds, and Books of Accounts, than the ordinary Safes heretofore in use affords, has induced the undersigned to devote a large portion of his time for the last fourteen years, in making discoveries and improvements for this object, the result of which is the unrivalled Herring's Patent World's Fair Premium Fire Proof Safes.

TO INVALIDS. Dr. Hardman, Analytical Physician. Physician for Diseases of the Lungs, Throat and Heart—Formerly Physician to the CINCINNATI MARINE HOSPITAL, also to INVALIDS IN RETIRET.

Dr. Hardman, Physician for diseases of the Lungs, (formerly Physician to Cincinnati Marine Hospital), will be in attendance at his rooms as follows: Huntingdon, Jackson's Hotel Saturday August 1st; Lewistown, National Hotel August 3rd; Millersburg, House, August 4th; Harrisburg, August 5th; Altoona July 30th; Hollidaysburg July 31st; Johnstown July 29th; Indiana July 28th; Greensburg July 27th; Pittsburg July 24, 25 & 26.

Dr. Hardman treats Consumption, Bronchitis, Asthma, Laryngitis and all diseases of the throat and lungs, by medical Inhalation, lately used in the Brompton Hospital, London. The great point in the treatment of all human maladies is to get at the disease in the direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into the lungs. Medicines are the remedies of disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells and tubes which lie out of reach of every other means of administering medicines. The reason that Consumption, and other diseases of the lungs, have heretofore resisted all treatment has been because they had never been approached in a direct manner by medicine. The vapors intended to act upon the lungs and yet were applied to the stomach. Their action was intended to be local, and yet they were so administered that they should not act constitutionally, expending immediate and principal action upon the medullary stomach, whilst the foul acids within the lungs were unmolested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is simple, that it can be employed by the youngest infant or feeblest invalid. It does not damage the stomach, or interfere in the least degree with the strength, comfort, or business of the patient.
