## FREEDLEY'S LEGAL ADVISER.

By the Author of a "Practical Treatise on Business."

The publishers take pleasure in announcing a book that they feel assured that business men will appreciate. The author, in his introductory chapter, says: "Millions of dollars have been expended by our ancestors in establishing and elucidating certain legal principles of constant application—no less than \$500,000 it has been estimated, have been spent in explaining one section of one Statute—the Statute of Frauds—and it is reasonable to hope and believe that now, with the lamp of others' experience in our hands, we may discern what to do and what to avoid, and thus escape the perils of litigation altogether; or, if collisions must come, be armed for the contest with the law on our side."

One volume, about 400 pp., large 12mo.—Price, muslin, \$1.25; sheep, \$1.50.

## COUNTRY MERCHANTS!

The Apple Harvest of 1857 has arrived.

And if you wish to make money, please your customers and save canvassing agents (who make one, two, three, four, five, six, seven, eight, nine, ten, twelve, fifteen, twenty, thirty, forty, fifty, sixty, seventy, eighty, ninety, one hundred dollars per month) from supplying the goods in your own county which you ought to sell, you can do it by sending ten dollars for a sample copy containing six "Pratt's Apple Slicer" (a new article), and one thousand printed circulars to distribute in your town or county. By so doing you will find no trouble in ordering and selling at a very large profit ten, twenty, thirty, forty, fifty, sixty, seventy, eighty, ninety, one hundred dozen machines during the season.

**PRATT'S APPLE PARER** was patented in 1853. Having a loose head or knife carrier so arranged as to readily adjust itself to the inequalities of the surface of apples, or other fruit, the working qualities of which have proved so excellent and advantageous to the community, that the manufacturers, Messrs. Sargent & Foster, have already been called on to supply more than half a million machines.

**PRATT'S APPLE SLICER**, made to accompany the Parer, was patented in 1855. It is a small neatly constructed machine, and like its companion, the Parer, is of most excellent work, cutting in about five seconds, each apple into twenty-two equal parts, leaving without waste, only a small core to be removed. A child can readily work either Parer or Slicer at a speed of about three bushels per hour.

Retail price of each \$1.50. All orders by mail or otherwise should, to meet prompt attention, be addressed to
