The extreme inclemency of the weather—the large amount of stock on hand—the want of classification of the same—the very limited premium offered, and the lack of a discretionary power placed us in rather a peculiar situation, nevertheless, as far as was in our power, in our judgment, differing as individuals would necessarily do according to the nature of things, we hope that we have rendered justice to those most deserving, and also hope that those persons to whom we have not awarded premiums will view the circumstances in their proper light. The committee would strongly and respectfully recommend that at some one of the agricultural meetings, a sufficient time previous to the next annual exhibition, a committee be appointed from different parts of the county consisting of good practical farmers, especially those who take an interest in live stock, and the improvement of the same, to make a list of premiums, and further that the committee appointed to examine the horse stock be hereafter endowed with a discretionary power.
