MISCELLANEOUS ADVERTISEMENTS.

DOCTOR BRAGG'S VIRGIN PILLS.

TO MOTHERS AND DAUGHTERS. THE essential ingredient of this valuable remedy is not new, but is well known in the medical schools of France and Germany, and has been employed by the females of the principal courts of Europe, and by all of the most distinguished physicians in this specialty for the last twenty years. My motive is not to offer any new discovery, but simply to present to the mothers and daughters of our own land a simple and sure remedy for those diseases to which they are naturally subjected, in such a form as should obviate the necessity of those medical consultations which are justly looked upon as a violation of the most sacred feelings, and to avoid which they often risk the most fearful consequences.

I have therefore prepared this specific in the neat and simple form of a pill, and put it up in small flat boxes, which can be safely sent any distance by mail to a common druggist. Each box is accompanied with full directions and explanations, enabling every woman to understand her own case and the proper treatment and the propriety of it.

The Virgin Pills possess such powerful, penetrating properties, that none of the diseases within the range of their action can withstand or evade them. They cleanse, purify and invigorate every portion of the female organism, correcting its disordered action, and restoring its healthy functions. They effect a certain cure for falling of the womb, whites, painful, suppressed and irregular menstruation, diseases of pregnancy, all nervous complaints caused by disordered functions of the organs, weakness, &c., the symptoms of which are fully explained in the directions.

For any of the diseases of the reproductive organs, they may be taken at all times, excepting during the earlier stages of pregnancy when their effect would be such as to produce miscarriages, which fact is more fully explained in the directions. Their action in the system will be felt immediately and the flush of rosy health, the true index of health, quickly rising in the cheek. It will act at once upon the patient of these effects.

Price \$1 per box, and will be sent post-paid by return mail to any part of the United States upon receipt of the money. The money may be sent by mail, at the risk of the subscriber. DR. J. A. BRAGG, Broadway near Franklin-st., New York, Oct. 7, '57-4t.

American Safety-Paper Manufacturing Company of New York.

Capital, \$500,000.

A. NICHOLS, President, Office, 70 Wall St. A Perfect Security against all manner of Fraud Countersfeiting on Paper. To Prevent Photocopying and Anatomic Counterfeits, Engravings, Transfers or Alterations.

Having purchased the Patent for the exclusive right to manufacture and sell the new Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British Army, it is necessary to say that the Paper is recommended by Mr. Kent, Mayor of the U. S. Mint, Mr. Lyman, of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y.

The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices: Bank Checks—35 cts per lb. Bank Bills—\$18 for 1000 sheets. Bills of Exchange—\$25 for 1000 sheets. Promissory Notes—25 cts per lb. Sight and Time Drafts—\$25 for 1000 sheets. Insurance Policies—40 cts per lb. Railroad Stocks & Bonds—40 cts per lb. Bank and State Stocks—40 cts per lb. Bonds and Mortgages—40 cts per lb. Wills and Deeds—40 cts per lb. For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts per pound.

For Indentures and Agreements, 40 cents a lb. All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as stone. Southern Climates it is excellent, and much superior to any other; as the moistness of the climate does not prevent the properties inserted in the pulp being a preventive of the central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and chemicals inserted in this Paper makes it indestructible by the ravages of time. It is all proof against moths and other vermin, which feast on and destroy all other paper now in use.

The Company have a factory in operation Mills in Morris County, N. J., with 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLS, Agent of the Company No. 70 Wall Street. Wm. Brewster, Resident, Huntingdon, Aug. 5, '57-3m.

40,000 subscribers to start with! Extraordinary offer! The Publishers are happy to announce that in the number of Emerson's Magazine, the best literary and artistic of both publications has been secured, and the most attractive features of each will be retained in the consolidated work.

It will aim to present in its pages the choice of the best of American writers, and the best efforts of American artists, and it will be purely national in its character; in its criticisms it will aim to be just and truthful and will be carefully selected to cultivate that welcome moral and artistic tone so highly cherished by the American public, and so essential to the welfare of the race.

We shall endeavor, by a sagacious use of the extensive resources now at our command, to make a Magazine in the richness of its literary contents, and in the beauty and originality of its pictorial illustrations, such an outlet for our authors and artists as will give it a circulation far beyond that of any other publication of the kind.
