impossible to save more than five per cent. for the Luigs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the latest stages, Inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually decimates twenty-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's graves.

To the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, it is enabled to afflict the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free transit of air into the vessels, which causes a weakened vitality through the entire system. Thus surely it is more rational to expect greater good from medicines entering the cavities of the lungs than those administered through the stomach; the patient will always find the lung tree and the breathing easy, after the inhalation of this remedy. This Inhalation is a local remedy, nevertheless it acts constitutionally and with more power and certainty than remedies administered by the stomach. To prove the power of the direct effect of air into the vessels, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the same burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is so pernicious in the skin a few minutes after being inhaled, and may be immediately detected in the blood, and convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered to the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced by the last stages, and entirely satisfied me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic observations enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canada, by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to exert the greatest care, and to insure that the cure could be effected without my seeing the patient again.

G. W. GRAHAM, M. D., OFFICE, 131 FIFTH STREET, (Old No. 109.) PHILADELPHIA, PA. August 5, 1857-13.

Of all disease; the great, first cause Springs from neglect of Nature's laws.

SUFFER NOT When a cure is guaranteed in all stages of SECRET DISEASES.

Self-Abuse, Nervous Debility, Strictures, Gleet, Gravel, Diabetes, Diseases of the Kidney and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, Diseases of the Lungs, Throat, Nose and Ears, Ulcers upon the Body of Limbs, Cancer, Dropsy, Epilepsy, &c. Loss of Sight, Wasting, Dyspepsia, Liver Disease, Eruptions upon the Face, Pain in the back and head, Female irregularities, and all improper discharges from both sexes. It matters not from what cause the disease originates, whether by fondling or abstaining from the cure, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all the most powerful remedies. My medicines are pleasant without odor, causing no sickness, and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up by the physicians to die, which prevents me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first to destroy the system, disfigure the countenance, and leave the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-Abuse that a speedy and permanent cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health. The afflicted are cautioned against the use of Patent Medicines, for there are so many of these snarers in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the vile concoctions of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimates, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease it attacks the system for life.

Three-fourths of the patent medicines now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of materia medica, and are equally as destitute of any knowledge of the human system, having only one object in view, and that to make money regardless of consequences.
