

Farmers' Column.

He that by the plough would thrive, Himself must either hold or drive.

On Shoeing Horses that Overreach.

I was bred from my youth a blacksmith and farmer, and with a natural mechanic or not, I was always anxious to know the whys and the wherefores of things, or more properly speaking, the casualties and preventives. I was also fond of trying experiments upon such things as appeared favorable improvements. I was generally in the shop with my father of evenings rainydays, and such other times as I could be spared from the farm or school. By being in the shop so much, I obtained views of the farmers generally, and by that was enabled to make many improvements on the farm. I learned also, that many farmers entertain very erroneous views about blacksmithing, (and I do blacksmiths, too,) still they were bound to dictate according to prejudices; as instance, one says; "This horse overreaches; I want you to put the forward shoes as far forward as possible, and set the hind shoes as far back, or he will tear them off." I would sometimes try to reason the case by saying the way to prevent a horse from overreaching, is to augment the speed of the forward feet, and retard the motion of the hind ones; but in order to accomplish that, I shall have to reverse your direction. Some who had little or no mechanical genius would out short all argument, and say, "Follow my directions, or else not shoe the horse." Of course a mechanic must obey orders, if he breaks owners, so the horses would go out of the shop nicely fettered, with his shoes clicking at every step; while, perhaps the man of inquiry would desire a full explanation. My way is to make the toe corks very low, and standing a little under, and the shoes set as far back as convenient on the forward feet, with high heel-cork, so as to let them roll over as soon as possible. On the hind feet I have the heel-cork low and the toe-cork high, projecting forward, thus keeping back the hind foot while coming up over a high toe-cork, giving time to the forward foot to get out of the way. If thus shod, the horse will travel clean, without a click, and his speed will be increased on a trot fifteen or twenty seconds in a mile. New England Farmer.

Tomatoes.

A correspondent of the Genesee Farmer, gives his mode of growing tomatoes. He forwards his plants in a hot bed or green house and grows them in pots until a foot or a foot and a half high, turning them out about the third week in May. He plants them three feet apart in rows. When planted, he drives down a few stakes, to make a trellis. The ground should be dug deep and made rich with manure, and a spoonful of guano mixed with the soil around each root. We quote: "When they have grown sufficiently long to tie to the trellis, I select two or three of the longest shoots and tie them loosely to the trellis, cutting away all other small laterals which may grow on the main branches. I let these main branches grow until they have come in flower and let the first bunch of fruit; then I pinch out the top, one joint above the fruit leaving the leaf entire. I then allow it to go on again until it has flowered and set another bunch of fruit, when this is pinched out one leaf above the bunch, the same as the first, and so on of all the rest, taking care to cut all the laterals which may grow on the main branches down to the axels of the leaves entire. If any one will take this little extra trouble, he will be amply repaid and absolutely astonished at the immense cluster of fine large tomatoes he will have. If planted in a favorable situation, they will ripen at least as early as those grown in any other way out of doors and frequently three days or a week earlier. When ripe they will hang longer on the vines without decaying. The situation can hardly be too sunny. Deep, light loamy soil suits them best.—Wm. Visitor.

To Cure the Sick Headache.—Two

teaspoonfuls of finely powdered charcoal, drank in a half tumbler of water, will often give relief to the sick headache, when caused, as in most cases it is, by superabundance of acid on the stomach.

To Relieve Choked Cattle.—My

plan is to fire a gun under the animal, when the animal makes such a desperate spring that the wind from the stomach throws out the obstruction in the throat at once.

Treatment of Itch.—Dr. Schubert,

of Germany, treats all cases of itch by washing the patient with plenty of soft soap and salt in water. Eight ounces of soap and four of salt to one quart of water make a pretty sharp bath, but he says it will cure the majority of cases in three or four days.

A Hint.—When you prune a small

branch of a tree, always see that a bud is left opposite the cut; this will help it to heal over quickly.

THE GREATEST MEDICAL DISCOVERY EVER KNOWN TO MAN! LINDSEY'S IMPROVED BLOOD-SEARCHER. MR. LINDSEY has discovered a remedy that will cure all diseases arising from impure blood, which is the foundation of all diseases. I will warrant it to cure all the within-named diseases, such as:—INFLAMMATORY RHEUMATISM, Chronic Scrofula, Humors of the Skin, Tumors, Ulcers on the Head or Body, and all Break-outs on the Face. And it will also cure all Indolent Ulcers of many years standing; Sore Mouth, caused from using mercury, and will eradicate mercury, and the BLOOD-SEARCHER operates on mercury, and drives it from the system, and it purifies the blood, and pure as vegetable medicine can make it; and when the blood is pure, the man woman or child, will take no disease, for the impure blood which is the cause of disease, is gone. It will also cure all Debilitated Diseases, such as drive from a derangement of the liver; it will bring the liver into a healthy action, and will restore the patient to health. MEDICAL ADVERTISEMENTS.

BALTIMORE LOCK HOSPITAL. DOCTOR JOHNSTON. THE founder of this Celebrated Institution, offers the most certain, speedy, and only effectual remedy in the world for Gleet, Strictures, Seminal Weakness, Pain in the Loins, Gout, and Rheumatism. Warranted to Cure the Back and Limbs, Affections of the Kidneys, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Disease of the Head, Throat, Nose or Skin; and all those serious and melancholy disorders arising from the destructive habits of Youth, and destroy both body and mind. These secret and solitary practices are more fatal to their victims than the song of the Sirens to the mariner Ulysses, blighting their most brilliant hopes of anticipations, rendering marriage, &c., impossible.

Young Men, especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents, and brilliant intellect, who might otherwise have entered listening senates with the thunders of eloquence, or waked to ecstasy the living lyres, may call with all confidence.

Marriage. Married persons, or young men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., should immediately consult Dr. Johnston. He who places himself under the care of Dr. Johnston may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

Organic Weakness. Immediately cured, and full vigor restored. This disease is the penalty most frequently paid by those who have become the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the nature of their disease, and the most serious and destructive symptoms to mind and body arise. The system becomes deranged, the physical and mental powers weakened, nervous debility, dyspepsia, palpitation of the heart, indigestion, a wasting of the frame, cough symptoms, &c., ensue. Office No. 7, South Frederick Street, seven doors from Baltimore street. East side, up the steps. Be particular in observing the name and number, or you will mistake the place. A cure warranted in 10 DAYS. NO MERCURY OR NOBIOUS DRUGS.

Dr. Johnston, Member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris Philadelphia, and elsewhere, has effected some of the most astonishing cures ever known, and who has been troubled with ringing in the head and ears, with great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing attended sometimes with derangement of mind, were cured immediately.

Certain Disease. When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it is too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who from education are ever known, and whose benevolent mind, delaying till the constitution is so far gone, that the disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, and nodes on the skin bones, and arched blotches on the head, face, and neck, progressing with frightful rapidity, till at length the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration, till death puts an end to his dreadful sufferings, by sending him to "that bourne inferior, where no traveller returns." To such, therefore, Dr. Johnston pledges himself to preserve the most inviolable secrecy, and from his extensive practice, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease.

Take Particular Notice. Dr. J. addresses all those who have injured themselves by improper indulgences. These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the head, Dimness of Sight, Loss of Muscular power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangements of the Digestive Functions, General Debility Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded; Loss of memory, Confusion of Ideas, Depression of Spirit, and morbid feelings, Aversion to Society, Self-Denial, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages, can now trace what is the cause of their declining health. Losing their vigor, becoming weak, pale and emaciated, have singular appearance about the eyes, tongue and symptoms of consumption.

Dr. Johnston's Invigorating Remedy for Organic Weakness. By this great and important remedy, weakness of the organs is speedily cured and full vigor restored. Thousands of the most debilitated and nervous, who had lost all hope, have been immediately relieved. All Impediments to Marriage, Physical or Mental Disqualification, Nervous Irritability, Tremblings and Weakness, or exhaustion of the most fearful kind, speedily cured by Doctor Johnston's Digestive.

Young Men, who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school—their minds are so much affected, that they are unable to sleep, and if not cured render marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, and the darling of his parents should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature and indulging in a certain secret habit! Such persons before contemplating

Marriage. should reflect that a sound mind and body are the most necessary requisites for a permanent conjugal happiness. Indeed without these a journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shrouded with despair, and filled with a sufficient guarantee to the afflicted.

N. B. There are so many ignorant and worthless quacks advertising themselves as Physicians, ruining the health of the already afflicted. Dr. Johnston deems it necessary to say to those unacquainted with his reputation that his Diploma is always hanging in his office.

Dr. T. N. MOTT.—All letters must be post paid and contain a postage stamp for the reply or no answer will be sent. June 18 1857, 4f.

IMPORTANT DISCOVERY.

And all Diseases of the Lungs and Throat, ARE POSITIVELY CURABLE BY INHALATION. Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the lung's purities the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable to the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formid disease, and cured in the first stages, and fifty per cent. in the second; but in the third stage it is

impossible to save more than five per cent., for the Lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this fearful scourge which finally destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's graves. Truly the quiver of death may not arrow so fatal as Consumption. In all ages has been the great enemy of life, for it spares neither age nor sex, but sweeps of alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom comes every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally and with more power and certainty than remedies administered by the stomach. To procure a powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours. The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is so powerful in the skin and nostrils, in connection with heat, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air—is not this positive evidence that the remedy is in direct contact with and judiciously administered that the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been cured, and have effected many of the remarkable cures, even after the disease had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. My medicines, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and firmness to the entire system. Medicines with full directions sent to any part of the United States and Canada by patients communicating their symptoms by letter. But the cure would be more certain if the patient would pay me a visit, which would give me an opportunity to examine the lungs, and to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient in person. G. W. GRAHAM, M. D., Office, 1131 Filbert Street, (Old No. 109,) Below Twelfth, PHILADELPHIA, PA. August 5, 1857.—1y.

Of all disease; the great first cause of Springs from neglect of Nature's laws.

When a cure is guaranteed in all stages of SECRET DISEASES. Self-Abuse, Nervous Debility, Strictures, Gleet, Gravel, Diabetes, Diseases of the Kidney and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, Dropsy, Epileptic Fits, St. Vit's Dance, and all diseases arising from a derangement of the Sexual Organs. Send for Free Treatise, to the Proprietor, J. H. Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the Face, Pain in the Back, Headache, Irritability of the Nerves, and all improper discharges from the system. It matters not from what cause the disease originates, however long standing or obstinate the case, recovery is certain, and in a shorter time than you can expect. As a permanent cure is never effected, a majority of the cases falling in to the hands of incompetent persons, who not only fail to cure the disease but ruin the constitution, filling the system with mercury, which, by its disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with debilitated constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions, and other affections of the skin. Eyes, Throat and Lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims in a few years suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer crippled in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snuffers in the columns of the public prints to catch and rob the unwary sufferer of his millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called "Patent Medicines" and find that they contain Corrosive Sublimates, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent medicines now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of materia medica, and are equally as destitute of any knowledge of the human system, having only one object in view, and that to make money regardless of consequences.
