

Farmers' Column.

He that by the plough would thrive, Himself must either hold or drive.

Scare Crows.

I have tried for years in succession all of the nostrums to prevent birds from pulling worms from eating, and steep of various kinds to stimulate its growth, and find that tarring the seed makes it distasteful to birds; they will pull and eat but a little; but as to worms eating it, they seem to relish it equally well. The steps to stimulate growth, rolling in gypsum, &c., amount to but little. You cannot make enough adhere to the seed to make any perceptible difference, and unless the soil and season favor, the corn will not come so well as if planted dry. For instance, if you step the seed, and after planting it is very wet and cold, it will not grow as well, or if it is very dry, it will not come as well; tarring it will retard its germination in any case. For the last five years I have shelled the seed dry, recently hand plucked from the cob.

For scarecrows, the best I know of, is a few crows shot and hung up by the legs, or bait and catch them in steel traps. In my younger days, these scarecrows were ample to keep off birds. Every Yankee farmer should have a good gun and ammunition, and know how to use it. Find all the crows' nests in your immediate neighborhood, break up their nests, seize their young, and then is the time to shoot some of the old ones. I once secured sixteen in two hours. Go over your corn field daily, and if the crows have drawn any, be there the next morning by three o'clock with your artillery, or the crows will be there before you, and salute the first comer with cold lead from your early morning gun and if you do not succeed in tagging him, he and his neighbors will come to the conclusion that they had better leave that man's corn alone. Another way of keeping crows from your corn field is by twining. String a rod twine from stake to stake once in fifteen rows, directly over the row. You can cultivate the first time, and let it remain. Do the twining immediately after planting, and it would be rare to have a crow light on the field while the twine remains.

Crows grow bold by the cry of their young for food, and by man being slack and easy; instinct teaches them whose corn it will do to pull. The fields for which crows have such a taste are generally half-manured, shallow half-ploughed, bordered round by bushes, briars, and weeds, and enclosed by a mere apology for a fence.—Years ago one of your peace men had a field with one of those ugly borders, which always have a great tendency to widen; at hoking, none wanted to hoe the outside row; the altercation between the boys was finally settled by the old man saying, "Let the devil take the outside row," and in a few years he had the whole field.

Should the above mentioned scarecrows fail to keep the crows from pulling the corn stalk other corn in run or whiskey and stachyline, and scatter broadcast on the field. They, like humans, will like the taste, but as certain as they eat of it they die. You will, in most of the liquor or sale, find enough strychnine, without adding more, to do the work for crows. H. W. Lester, Rutland, Vt.—Country Gentleman.

The Elder Bush.

It is not known to many persons that the common elder bush of our country is a great safe guard to plants against the devastation of bugs. If any one will notice it will be found that worms, flies, bugs, or insects never touch the elder. This fact was the initial point for the experiments of an Englishman in 1794, and he communicated the result of his experiments to a London Magazine. Accident exhorted this old work, and a Kentucky correspondent last year communicated to the Dollar Newspaper a copy of the article. The practical results of the experiments are:—That the leaves of the elder, scattered over cabbages, cucumbers, squashes, and other plants subject to the ravages of insects, effectually shields them. The plums and other fruits subject to the ravages of insects, may be saved by placing upon the branches and through the tree, branches of elder leaves. Will not some of our friends try these experiments?

Cure for Mange in Hogs.—"Agricola"

inquires what will cure the mange in swine and I reply, take lard and sulphur in equal parts, melt and mix together; anoint liberally and thoroughly all over; at same time give a dose of two of sulphur in their slop. The application in some cases must be repeated. The remedy is sure and speedy.—Baltimore Sun.

Remedy for Lice on Calves.—

Take some low priced oil, put some Scotch snuff in it, and oil the animal along the backbone from head to tail, and also a streak around the neck an inch or two wide. Two or three applications will expel them.—Country Gentleman.

Salt on wheat is said to make ten acres superior to eleven acres unsalted.

TO INVALIDS. Dr. Hardman, Analytical Physician. Physician for Diseases of the Lungs, Throat and Heart—Formerly Physician to the CINCINNATI MARINE HOSPITAL, also to INVALIDS RETREAT, Author of "Letters to Invalids," IS COMING. See following Card.

MAY Appointments.

Dr. Hardman, Physician for Diseases of the Lungs, (formerly Physician to Cincinnati Marine Hospital) will be in attendance at his rooms as follows: Huntington, Jackson's Hotel, Sunday, June 27th. Dr. H. is compelled to make this month's visit on Sunday or disjoint the sick. The Invalids' Treatise, Consumption, Bronchitis, Asthma, Laryngitis and all diseases of the throat and lungs, by medical Inhalation, lately used in the Brompton Hospital, London. The great point in the treatment of all human maladies is to get at the disease in the direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into the lungs. Medicines are the antidotes to disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to the lung tissue, and takes which the out of reach of every other means of administering medicines. The reason that Consumption, and other diseases of the lungs, have heretofore resisted all treatment has been because they had never been approached in a direct manner. They were intended to act upon the lungs and yet were applied to the stomach.—Their action was intended to be local, and yet, they were so administered that they should not act constitutionally, expending immediate and principal action upon the surrounding stomach, whilst the foul acids within the lungs were un-molested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is simple, that is to be enjoyed by the patient, and it does not interfere in the least degree with the strength, comfort, or business of the patient.

OTHER DISEASES TREATED.—In relation to Lung Diseases, either when complicated with long affections existing alone. I also invite consultation. I usually find them promptly curable. Protrusion and all other forms of Female complaints, Irregularities, and W. S. D. HARDMAN, M. D. June 3, 1858.

NICHOLAS' BANK NOTE REPORTER, ISSUED FROM NO. 70 WALL STREET NEW YORK. The most correct and reliable work of the kind ever published. It is the only Reporter published in Wall street, and contains a list of all the Banks in the United States and Canada.

The Only Reliable Reporter, call attention to this class. REFERENCES.—New York.—Daniel Drew, Banker; Morris Ketchum, Marine Bank, U. S. Life Insurance Company, J. Eldie, Secretary; Howard Fire Insurance Company, F. S. Skidmore, Pres.; Cahoon & Halsey, Pres.; Manhattan Bank, Manhattan Life Insurance Company, C. Y. Wemple, Sec'y; Mechanics' Bank, G. De Anzio, Cashier; Geo. Field, Cashier; Williamsburgh City Bank.

NEW YORK.—We have at our office all money at the prices quoted in the Reporter. We also pay special attention to the purchase and sale of LAND WARRANTS. A. NICHOLAS & CO., Bankers, No. 70 Wall street, New York City Apr. 7, '58.—3m.

TO BE GIVEN AWAY!

All of the Splendid OIL PAINTINGS with rich Oil Frames, now on exhibition at SEENANDOOAH GALLERY, NO. 618 BROADWAY. TO BE GIVEN AWAY.

The proprietors of this beautiful collection of paintings are also owners of a large tract of land lying in the flourishing village of Cedar Creek, Va., 99 miles by railroad from Washington, and in the immediate vicinity of the celebrated Sulphur, Iron and Alum Springs, noted for their efficacy in the cure of Bronchial and Cutaneous Diseases.

This land, upon which have been erected A STONE HOUSE, MILL, SAW MILLS and 15 DWELLINGS, at an expense of from \$500 to \$5,000 each, they now offer for sale in alternate lots.

The Price of Each Lot is \$10, for which a Warranty Deed, free and clear of incumbrances is given. Together with one of the Oil Paintings on Exhibition, which alone is worth a good price, and would adorn any gentleman's parlor, whilst the Lot may contain one of the Buildings above named.

Pamphlets containing a Map, and explaining more fully the motive, and object to be attained by making this apparent sacrifice of a portion of the property, can be seen at the office of this paper.

Parties remitting by mail will receive their deeds by return post, and their Pictures by such conveyances as they may direct. They will be particular in sending their orders to name the County and State in which they reside as it is necessary for us to forward the pictures without delay.

A building loan will be made to those desiring it, equal to one half the cost of the building to be erected.

Bank notes should be enclosed in presence of the Post Master, in order to avoid risk. Address: LUCAS, BOWEN & CO., No. 618 Broadway, New York.

REFERENCES RESPECTING TITLE TO ABOVE REAL ESTATE PROPERTY. Francis H. Upton, Attorney at Law, 68 Wall street, New York City. Phillip Williams, Esq., Attorney at Law, Winchester, Va. E. R. L'Amear, Attorney at Law, 68 Wall street, New York. Apr. 7, '58.—3m.

COUNTRY DEALERS can buy CLOTHING from me in Huntingdon at Wholesale, as cheap as they can in the cities, as I have a Wholesale store in Philadelphia. Apr. 9, '56. H. ROMAN.

CASSVILLE SEMINARY, M. McN. Walsh, Principal. This school for young ladies and gentlemen is probably the cheapest one of the kind in the country. The expenses per year for board, room, furniture, fuel and tuition in common English are only \$88.

Piano Music is only \$5 per quarter. All the languages and the ornaments are proportionally cheap. For other information address John D. Walsh, Cassville, Huntingdon Co., Pa. The next quarter commences Monday, January 18th, 1858. FISHER & McMURTRIN.

MISCELLANEOUS ADVERTISEMENTS

Prof. Chas. DeGrath's ELECTRIC OIL. This great discovery is now creating a great sensation among the Medical Faculties of Europe and this country. It will cure the following (not everything): Warranted to Cure Fever and Ague in one day. Cure chills in five minutes. Cure Croup in one night.—Cure Deafness in two to four days. Cure Burns and Scalds in ten minutes. Cure Sprains, Wounds and Bruises in from one to three days. Cure Inflammation in one day. Cure Neuralgia, Croup, Tooth Ache, Burns, in 10 minutes. Cure Hemorrhage, Scrofula, Abscess, in ten days. Cure Bruises, Wounds, Tetter, in one to three days. Cure Ear Ache, Stiff Neck, Ague in one day. Cure Felons, Broken Breast, Salt Rheum, in three to six days. Cure Quinzy, Palsy, Pleurisy, in one to two days. Cure Asthma, Palcy, Gout, Erysipelas, in five to 20 days. Cure Frosted Feet, Chills, Chronic Rheumatism, Stiff Joints, Sore Throat, Scarlet Fever, and the lame made to walk, by a few bottles. This Oil (Do Grath's) is mild and pleasant, and is a great Family Medicine for children teething, &c. Ladies should all use it. It always leaves you better than it finds you, and one bottle often cures entirely.

Afflicted Thirteen Years and Cured in One Week. Rev. James Temple, Philadelphia, June 9th, 1856. Prof. De Grath: I have been afflicted for thirteen years with Neuralgia and other painful complaints, and have been unable to sleep soundly or walk any distance for many years. Last week I got a bottle of your "Electric Oil." The first night I slept soundly and well, and to-day I am like a new man. My wife could not believe her eyes. Your Electric Oil has done in one week what the physicians of Philadelphia failed to do in thirteen years. Gratefully yours, REV. JAMES TEMPLE, 319 South street, New Haven, May 19th, 1856.

DEAFNESS CURED. Prof. De Grath: My brother has been deaf three years. After trying many things, he used your Oil a few times, and it cured him entirely. CLIFFORD & SCRANTON.

There are numerous articles on our reputation that my article has acquired. The public must beware. They are worthless. For sale—John Read, Huntingdon. Aug. 5, '57.

THE GREAT MEDICAL DISCOVERY EVER KNOWN TO MAN! LINDSEY'S IMPROVED BLOOD-SEARCHER. MR. LINDSEY has discovered a remedy that will cure all diseases arising from impure blood, which is the foundation of all diseases. I will warrant it to cure all the within-mentioned diseases, such as: RHEUMATISM, GOUT, CALCULI, CHRONIC SCROFULA, HUMORS OF THE SKIN, TUMORS, Ulcers on the Head or Body, and all Breakouts on the Face.

And it will also cure all Indolent Ulcers of many years standing; Sore Mouth, caused from using mercury, and will eradicate mercury from the system. When the IMPROVED BLOOD-SEARCHER operates on mercury, all other impurities of the blood will be swept from the system, and it purifies the blood as pure as vegetable matter can make it; and when the blood is pure, the man woman or child, will take no disease, for the impure blood which is the cause of disease, is gone. It will also cure all Debilitated Diseases, such as: Loss of a derangement of the liver, it will bring the liver into a healthy action, and will restore the patient to health.

ALMONDS, WALNUTS, CREAM NUTS and Filberts in store and for sale by W.M. N. SHUGARD, 323 or 191 North 3d street, Phila. Sept. 9, '57.—1y.

THE HUNTINGDON FLOUR, FEED AND STUFFS. The undersigned owners of the Huntingdon Mill, inform farmers and the public generally, that they now have their new mill in running order, with all the modern improvements in the water wheels and machinery.

They have put in five of the Improved Journal Turbine Water Wheels, and can grind in all stages of water, and during the coldest weather, and all kinds of grain. They are prepared to sell, and have on hand for sale at all times, at market rates, all kind of FLOUR, FEED AND STUFFS, and farmers can have their own grain ground, and take it back in a return load, or they can be furnished in exchange at a moment's notice an equal quantity of Flour and Bran or chopped feed.

THE MUT MACHINE is of an improved manufacture, and they will insure a FULL TURN OUT of superior quality for every bushel of grain left at their mill, by FISHER & McMURTRIN. N. B.—The Buckwheat stones are not quite ready. Huntingdon, December 10, 1855.

IN BLAST AGAIN! Huntingdon Foundry.

THE SUBSCRIBERS TAKE THIS METHOD of informing their friends and the public generally, that they have rebuilt the Huntingdon Foundry, and are now in successful operation, and are prepared to furnish casting of all kinds, of the best quality on the shortest notice and most reasonable terms. Farmers are invited to call and examine our Ploughs. We are manufacturing the Hunter Plough, (this plough took the premium at the Huntingdon county Agricultural Fair, in 1853) also Hunter's celebrated Cutter Plough, which can't be beat, together with the Keystone, Hill-side and Dasher Ploughs. We have on hand and are manufacturing stoves, such as Cook, Parlor and office stoves for coal or wood.

HOLLOW-WARE consisting of Kettles, Boilers, Skillets, &c., all of which will be sold cheap for cash, or on credit for new castings. By a strict attention to business and desire to please, we hope to receive a share of public patronage. J. M. CUNNINGHAM & BRO., April 30, 1856.—4t.

NEW AND CHEAP WHOLESALE AND RETAIL GROCERY STORE. DAVID GROVE informs the citizens of Huntingdon and vicinity, and the public generally, that he has opened a Grocery Store on Hill street, Huntingdon, a few doors west of Wm. Orbin's residence. He will sell at all times prepared to supply customers with all KINDS OF GROCERIES, CHEAPER THAN THE CHEAPEST, at wholesale and retail. Sugars, Coffee, Teas, Molasses, Cheese, Spices, Confectionaries, Hams, Salt, Brooms, Buckets, Segars, Tobacco, &c., &c.; in fact, every article usually kept in a Grocery Store.

As I am determined to sell cheaper than the cheapest, I want everybody to call and examine my stock and prices. DAVID GROVE. Huntingdon, July 29, '57.—1y.

MEN'S UNDERSHIRTS and DRAWERS. Lined Shirt Breasts, Ready-made Shirts, white and fancy shirts, and collars, very cheap at D. P. GWIN'S.

SILK BONNETS of great variety and cheap at D. P. GWIN'S.

THOS. P. CAMPBELL, ATTORNEY AT LAW, Will attend to all business entrusted to him. Office nearly opposite the Court House May 5, '55

IMPORTANT DISCOVERY. And all Diseases of the Lungs and Throat, ARE POSITIVELY CURABLE BY INHALATION.

Which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent. to the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this fearful scourge which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's graves. The quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps of alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I at this moment offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free circulation of air into the cells, which causes a weakened vitality through the entire system. Thus surely it is more rational to expect greater good from medicines entering the cavities of the lungs than those administered through the stomach; the patient will always find the lungs free from the breathing easy, after inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally and with more power and certainty than remedies administered by the stomach. To prove the powerful and beneficial influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few minutes. The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the breath. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air—is not this positive evidence that proper remedies, carefully prepared and judiciously administered, will cure the lungs free from disease the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages of a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of the disease, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to receive the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system. Medicines with full directions sent to any part of the United States and Canada by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe the most accurate and judicious course the cure could be effected without seeing the patient again. G. W. GRAHAM, M. D., OFFICE, 1131 FIFTH STREET, (Old No. 109.) Below Twelfth, PHILADELPHIA, PA. August 5, 1857.—1y.

impossible to save more than five per cent. to the lungs are so cut up by the disease as to bid defiance to medical skill. My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of the disease, &c., enables me to distinguish, readily, the various forms of disease that simulate consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to receive the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system. Medicines with full directions sent to any part of the United States and Canada by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe the most accurate and judicious course the cure could be effected without seeing the patient again. G. W. GRAHAM, M. D., OFFICE, 1131 FIFTH STREET, (Old No. 109.) Below Twelfth, PHILADELPHIA, PA. August 5, 1857.—1y.

Of all disease; the great, first cause Springs from neglect of Nature's laws. SUFFER NOT When a cure is guaranteed in all stages of SECRET DISEASES, Self-Abuse, Nervous Debility, Strictures, Gleet, Gravel, Diarrhea, Diseases of the Kidney and Bladder, Menstrual Irregularities, Scrofula, Pains in the Dones and Ankles, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Head or Limbs, Cancer, Epilepsy, Epileptic Fits, St. Vitus's dance, and all diseases arising from a derangement of the Sexual Organs. Such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the Face, Pain in the back and head, Female irregularities, and all improper discharges from both sexes. It matters not from what cause the disease originated, or how long standing, or obstructed the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are given in a pleasant and palatable form, and are free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up by their physicians to the mercies of fate in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption. Scrofula is a great enemy to health, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling in to the hands of incompetent persons, who not only fail to cure the disease, but by the use of irritating medicines, fill the system with mercury, which with the disease, hastens the sufferer into a rapid Consumption.
