RAILROAD ACCIDENT.

A dreadful accident occurred to David Myerley and his two daughters who resided near Cassville, in this county, on Monday the 6th inst.

They had been at this place on business, and when returning home in their two horse wagon, encountered the migrant train of cars at the crossing about two miles below this place. The crossing is so situated that neither party could see any distance, the wagon was just cleverly across the road when the train came in a ghastly and the horses becoming very much frightened, pranced and backed the wagon on the track just as the train came up, the engine struck the wagon with such force as to throw Mr. Myerley and eldest daughter on the ground and the younger daughter was thrown upon the cow catcher, the force of the train by some means disengaged the horses, and the wagon was precipitated into the canal.

Mr. Myerley lingered about twenty-eight or thirty hours, and died. He was at sixty two years of age. The elder daughter is a widow, and although severely injured, will probably recover. The younger daughter is able to be about.

MURDER AT JOHNSTOWN.—On Saturday last, we are informed, a murder was committed by a young man, at the above place. The cause of it is said to have been some dispute about a young lady. An altercation took place, in which one stabbed the other. He was arrested and taken to the Ebensburg jail.

On Monday night, the freight train on the Huntingdon and Broad Top R.R., ran over and killed a steer, about nineteen miles from this place, which in cubing an embankment, slipped, and rolled down against the cars, and got under the passenger car, which was the last in the train and knocked the front truck from under it. The car was dragged some distance with the one end on the track. It was considerably damaged, but fortunately none of the passengers were injured.

On Friday last, a man, name unknown, stepped into the shop of George Thomas, in this place, and asked his son who was the only one in the shop at the time to fetch a pitcher of fresh water, complaining that what was in it was too warm. The boy went, and in his absence the man opened the drawer and took from it five or six dollars and disappeared. He was pursued but not arrested.

On Friday last, in the emigrant train, bringing with him a prisoner from that place, on arriving within a half mile of town, the train stopped to wait for a train coming down. The constable, wishing to go home as soon as possible, concluded to walk to town, and according started with his prisoner; they had walked some distance, and were walking beside a coal train when the prisoner, watching his opportunity, ran under there, and up a hill on the other side, pursued by the constable, who tired at him twice, but did not recapture him.

BOOK TABLE.

- Journal of Maria Medica.—This periodical is now before us. The object of this Journal is to give articles on subjects of importance to the Medical Profession, notices of new preparations, &c. In a word, it will be invaluable to the practitioner of medicine, Apothecary, &c. Published at New Lebanon, N. Y., by Hildes & Co., at 25 cents for 12 numbers. The Western Advertiser.—This is the name of a paper recently started in Pittsburgh, by M. Atkinson, to be published monthly at 24 cents per annum, devoted to advertising and literary selections. Hall's Journal of Health.—We are in receipt of the September number of this valuable periodical, published by W. W. Hall, M. D., 42 Irving Place, New York, at \$1 per annum; 50 cents numbers, 10 cents. The aim of this periodical is to show how Disease may be avoided. The following are the contents of the September number: Action in Emergencies; Swallowing Worms; Getting Wet; Tomatoes and Melons; Early Rising; Cheap Perfumes; Coffee Healthful; Stammering Remedy; Summer Recreations; Dangers of Retur; Healthful Hot Bread; Night Air Precautions; Agues Prevented; Economy of Food; Medical Uses of Atlantic Telegraph. Sargent's School Monthly.—The September number of this excellent periodical is now before us; it should be an inmate of every dwelling. Published in Boston, Mass., by Philips, Sampson & Co., at \$1 per annum. Engravings.—We have received from the publishers, Messrs. Oaksmith and Co., No. 112 and 114 William St., N. Y., a

very fine steel plate engraving of Robert Burns, from the celebrated picture by Alexander Nasmyth, painted in 1787. Also a beautiful trio, called "Præter Tempus O God," This is a life-like picture. Each of the above are 21 by 25 inches. Also, "Sir Walter Scott's Monument" at Edinburgh; 25 by 33 inches. Also, "The Palace of Westminster;" 25 by 38 inches. Also, "The City of the Great King" 25 by 38 inches. These pictures will be a great ornament to any parlor; and it is the purpose of the Messrs. Oaksmith and Co., publishers of Emerson and Putnam's Magazine, to present to every Three dollar subscriber a fine steel plate engraving.

OCASIONAL of the Philadelphia Press learns that Mr. Buchanan will visit Lancaster during the present month, for the purpose of assisting to re-organize the Democratic phalanx, which has been so badly shattered by Leocomptonism.

THE OLIVE BRANCH.—Its New Management. This old time favorite and excellent weekly came in on Saturday so essentially improved and rejuvenated that we feel bound to direct special attention to it. The Olive Branch has for a long time been the favorite family newspaper, but it now puts forward new and strong claims to public favor. Although some of those whose labors have hitherto made the Olive Branch so popular retire from the establishment, a large and valuable accession has been made to the editorial and publishing management. The Olive Branch will hereafter be published by Messrs. Henry Umpham, who has a long time been the principal editor and publisher, and is widely and favorably known, and George L. Dix, Mr. Dix is, and has been for many years, connected with the leading publishing firm of Phila., Sampson & Co., and in that capacity has facilities and associations that few publishers can boast—besides being brought into intimate association with the principal literary and publishing gentlemen of the country, he is himself an editor and writer of much experience. Messrs. C. C. Hozewell and J. T. Trowbridge will have the principal editorial management of the Olive Branch and it needs nothing further said to merit a public confidence in that department of the newspaper. Many of the most popular authors and authors of the country are engaged as contributors, and particular departments of the paper will be devoted to specific topics, such as agriculture, domestic news, wit and humor, &c. In the line of stories and tales we think beautiful typography is used with a clear and elegant hand and is most tastefully gotten up in the best style of the printer's art. We see nothing to hinder the Olive Branch from being visited with an avalanche of new subscribers, and it deserves all the patronage that may be bestowed upon it.

Douglas on the Washington Union. The Hon. S. A. Douglas recently made a speech at Mattoon Ill., in which he said: "I have never noticed the Washington Union before. I have such a bad opinion of such a contempt—such a disgust for the corruption that hangs around it for the corrupt purposes to which it is applied—for the base agents that rule and control it, that I did not wish to trust myself in expressing my opinion before an audience upon it; but follow its lead, and the corrupt gang that control it and you will read the Democratic party's soul, and not only break down those that it professes to denounce, but disgrace the Administration which it professes to support while it denounces its leading recommendations."

A WONDERFUL PRESIDENT.—In a late number of the Albany Evening Journal Thurlow Wied tells what a wonderful President we have in Mr. BUCHANAN, in the following words: "He entered the White House with a promise of freedom to Kansas on his lips, and a scheme for enslaving it in his pocket. He declared war against circulating notes, and in six weeks was testing them himself. Before the ink was dry with which he pledged "Economy," he had drained the treasury of its last dollar. Before the printers were done stereotyping his inflexible determination never to borrow, he was in wall street soliciting a loan. He congratulated the country upon the final end of slavery agitation, and he has been agitating it ever since. He ordered Paulding to stop the filibusters, and then recalled him for doing it. Walker of Nebraska pronounced an outlaw and tendered him the hospitality of the White House. Walker of Kansas he turned back with written instructions and turned him out for obeying them. He withdrew the troops from Utah, where he proclaimed there was war, in order to keep them in Kansas, where he insisted all was peace. He sells forts at the West for a fifth of their cost in order to buy a few at the East ten times their value—his subordinates in both cases pocketing the difference. He is continually asking for new steam frigates, but will not use those he has either on the coast of Africa or in the Gulf of Mexico. He sends out a steamer ostensibly to catch the Sigsbee, but with private orders in the captain's desk to do nothing of the sort. Claiming to be the most liberal of Presidents, he has spent more than any of his predecessors. Assuming to be above party prejudices, he makes pettishness the basis of his invitations to dinner."

COST OF THE CABLE. This independent of the expense of laying the same of which no estimate has yet been made with any degree of accuracy, is estimated to be as follows: Price deep sea wire per mile, \$200; Price span yarn and iron wire per mile, 265; Price outside tar per mile, 20; Total per mile, \$185; Price 2,500 miles, \$1,212,500; Price 10 miles deep sea cable at \$1,150 per mile, 11,500; For 25 miles shore at 1,450 per mile, 36,250; Total cost, \$1,224,250.

RAILROAD MEETING.

The citizens of Dublin, Cromwell, Clay and Springfield townships met in Ordinance at the House of James S. Barker, Aug. 26th, for the purpose of taking stock for the making of the Broad Top and Sherman's Valley Railroad, also to consider the propriety of changing the Western end of the Road, and locating it on a new route that has been explored and found practicable, making the distance some 15 to 20 miles less than by the route first explored by Barnet Cabins, Fort Ligon, &c. The meeting was called to order, and Daniel Tengue, Esq., chosen President and Dr. J. A. Shade, Secretary. A detail of the late exploration of the new route was then presented to the meeting, showing that by connecting with the main track as laid down in Leupman's survey, at a point east of the Shade Mountain, passing near Rockhill Furnace and Scottsville, an entirely feasible route can be had to Broad Top, 18 miles nearer than by Barnet Cabins, with but one or two bridges, instead of 18 or 20, as on the Barnet

Cabins route. Several able addresses were delivered, and the most sanguine anticipations with regard to the Road were indulged, inasmuch as the project is not only a single link in a great chain of roads already made connecting the Mississippi Valley with the Atlantic seaboard, by a line of travel some 70 miles less than any Road now in existence, or that is practicable hereafter.

Some eight thousand dollars of stock was subscribed, and a delegate, James E. Glasgow, Esq., appointed to attend a meeting of the Directors of the Broad Top and Sherman's Valley Road, at Waru Springs, Perry county, Sep. 2d, and there present the project of the new route, and also present the wishes of the people in the vicinity it traverses, and their desire to cooperate. Other meetings were appointed and it is expected that if the Board of Directors hold out any inducements, that a vigorous effort will be made at once to run up the amount of stock to a large sum, and also secure releases along the proposed route, many of which were already obtained and presented to the meeting.

When it is considered that a portion of the Eastern end of the Road, is already under contract, and being worked on, and that the route is so much nearer than any other in existence, and also entirely practicable, there can be no reasonable doubt of its ultimate completion and final success. The advantages following in the wake of the Road are too numerous and clear to need specifying.

BY THE OFFICERS.

Bid—In Henderson Township, 15th August, Wm. Allison, aged 21 years 1 month. I thank thee, merciful son, That the bride has not my hand, I thank thee who hast' o'erthrown My foe, and banish'd my wound'd mind, I thank thee whose edifying voice, Bids my food heart in the regions, Praise will I give, my joy, my crown; These will I love, my Lord my God, These will I love, though all may frown, And thorns and floods perplex my road, You when my heart and flesh decay, These shall I love in endless day. Retrag beneath his wings, And in his grave double, This more excites the King of Kings Than all your works beside. J. E. McC.

President Buchanan is said to have been confident, up to the last, says the B & S Journal that the English Locomotive will be endorsed by the people of Kansas. When the news first reached him at Bedford, that seven eighths of the Kansas people had voted against his project, he was completely taken aback, and exclaimed that his only true friends were in the South. We are glad to see the President coming to his senses at last. His remark is true to the letter. Buchanan has no friends in the North—and is despised by all but the slave drivers, and a few office hunting politicians, such as Bigger Jones and Co., who use him in advance their own selfish interest.

Shocking Death of a Young Lady.

HOLLANDSBURG, Sept. 2.—Miss Matilda Cladwell, daughter of Judge Cladwell, met with a shocking death last night. She had been at a wedding at the house of Rev. Lloyd Knight, and was returning home about 11 o'clock in a vehicle driven by a young man named Wertz. The horse took fright at a light in front of Conroy's tavern, in this place, and ran off the road in the effort to stop him and Mr. Wertz then jumped out to try and arrest his progress. The horse wheeled suddenly and ran down the street about a hundred yards. Miss Cladwell leaped out, and fell with violence upon her head. She was taken up insensible and carried to her home, where she expired at two o'clock this morning having never spoken a word from the time the accident occurred. She was a beautiful and amiable girl of about twenty years of age, and her shocking death has caused the greatest grief among her large circle of friends.

LETTER OF ACCEPTANCE.—The following is the letter of JOHN M. READ, addressed to Gov. A. H. Reeder, President of the People's State Convention, accepting the nomination for Judge of the Supreme Court.

PHILADELPHIA July 27, 1858. Dear Sir—I received this morning your letter of the 24th inst., informing me of my nomination by the people's Convention assembled at Harrisburg for the office of Judge of the Supreme Court and enclosing a copy of the resolutions passed by that body, which I have read with great care. I cordially approve of the sentiments of general policy expressed in them, and accept with great confidence the nomination thus tendered me. If elected, I can only promise, so far as my ability will permit, an impartial and faithful discharge of the duties of this high judicial office. I am very respectfully and truly yours, JOHN M. READ

STATE CENTRAL COMMITTEE.

The President of the People's State Convention Hon. A. H. Reeder, has announced the following gentlemen to act as State Central Committee for the present campaign: Henry M. Fuller, Philadelphia, Charles A. Close, do, Wm. B. Mann, do, Wm. Millward, do, James J. Brown, We Chester, John S. NEW SETTLEMENT.—A new settlement has been started at Hammon New Jersey, which for access and progress rivals anything we have ever seen in the West. There is a large emigration having objection to the West on account of its distance and association, which embraces this and other places, and is in a general climate, and the soil is said to be amongst the best Jersey soil. Jersey, as will be seen by the agricultural statistics at the Patent Office, is the first agricultural State in the Union for the value of its products. Hammon is within thirty miles of Philadelphia by railroad, and enjoys one of the best markets in the Union. The tide of emigration to this place is immense, as well from the west as from the North.—Many of the best grape growers of Ohio have located, with a view of making wine. To judge of its progress, the population one year ago is numbered at only five hundred, it now numbers over eight hundred souls, has one hundred and twenty five buildings, three stores, two churches, Episcopal and Methodist, steam mill, brick yard, marble yard, public school, newspaper, &c., some twenty-five miles of new roads opened, six square miles being improved, a new railroad station, and all the elements of an old place. We are satisfied that this place must merit from its unparalleled progress.

MARRIED.—On Tuesday evening, August 7th, by Rev. M. Barnett, Mr. James Wallis of N. Jersey, to Miss Catherine Hicks of Hopewell. On the 22nd inst. by Simon Wright Esq., Mr. Philip C. Gaskell to Miss Keziah E. Chichee, of Cass township. On Thursday, the 19th inst. by Rev. S. H. R. M. Mr. Andrew J. Morrison, to Miss Anna M. Shaffer, near Shrewsbury.

VALUABLE REAL ESTATE NEAR HUNTINGDON PA.

ORPHANS COURT SALE.

In pursuance of Orders of the Orphan's Court of the county of Huntingdon, the Tracts of Land, &c., hereinafter described, situated in said county, and near the borough of Huntingdon, will be exposed to public sale on the premises. On Friday, September 24th, 1858. As the property of JOHN KER, late of said county, dec'd., to wit: 1. All that tract marked (A) in the Diagram annexed to the return of the Inquest, containing 237 acres and 130 perches, it being the Mansion Farm of said dec'd. About one half of this tract is cleared and under cultivation; about 40 acres of which is meadow. Remaining water for cattle, &c., may be readily introduced into almost every field upon this farm. There are upon it a two story frame dwelling house a large brick barn and other buildings. Also, a good orchard. 2. All that tract marked (B) in said Diagram, containing 237 acres and 68 perches, and called the Moore Farm. Somewhat more than half of this tract is cleared and under cultivation, a fair proportion of which is meadow. On account of the nearness of these two tracts to the borough of Huntingdon and a large quantity of meadow upon each tract, they would be well suited for grazing or stock farms. 3. All that tract marked (D) in said Diagram, containing 185 acres and 132 perches; about one half of this tract is cleared and under cultivation, and has thereon erected two tenant houses. 4. All that tract marked (E) in said Diagram, containing 214 acres, 87 perches and 100 acres of this tract are cleared and under cultivation. No buildings thereon. 5. All that tract marked (F) in said Diagram, containing 119 acres; woodland. 6. All that tract marked (K) in said Diagram, containing 87 acres and 147 perches woodland. 7. All that tract marked (L) in said Diagram, containing 148 acres, and 83 perches woodland. 8. All that tract marked (M) in said Diagram, containing 117 acres and 147 perches; woodland. 9. A lot of ground in the village of Smithfield marked (O) in said Diagram, having thereon erected a small log stable. 10. An undivided interest in Millwood Academy in Dublin township, upon the day of sale. 11. All that tract marked (B) in said Diagram, containing 203 acres and 39 perches and called the "Leard or Spring-house Farm." About one half of this tract is cleared and under cultivation, and has thereon a dwelling house and an excellent spring of water. To be sold as the real estate of Joshua W. Kerr, dec'd. under his last will. 12. All that tract marked in the said Diagram with the letter (P) containing 179 acres and 124 perches and called the "Creek Farm." About 80 acres thereof are cleared and a dwelling house thereon erected, the unimproved part of this tract is heavily timbered. To be sold as the real estate of Henry M. Ker, dec'd. under his last will. All these lands except Millwood lie in one body near the borough of Huntingdon and can be sold together or separately so as to suit the purchaser, and the purchase money to be paid on confirmation of the sale, and the residue to be payable with interest, as such times as may be agreed upon on the day of sale. The unpaid purchase money to be secured by bonds and mortgage. Sale to commence at ten o'clock of said day. Attendance to be given by DAVID S. KERR, Trustee &c. Aug. 31st, 1858—2.

PUBLIC NOTICE.

Notice is hereby given, that I warn all persons from purchasing from Edward Cox, a note dated April, 1858, and due on the 17th of December, 1858, given by me, for ten dollars, as I do not intend to pay said note. ELIZABETH SHANK.

Hammon Lands, NEW ENGLAND SETTLEMENT.

RARE OPPORTUNITY.

TO ALL WANTING FARMS.

In a healthy place, twenty-five miles from Philadelphia, on the Camden Atlantic railroad, New Jersey, an old estate has recently been opened for sale, and is first divided into acres divided up into farms of two to 10000 acres. The soil is of the best quality for the production of 1 mts. grains, &c. The price is \$1500 per acre, payable in easy quarterly yearly interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads and some of the best citizens from New England and the Middle States are erecting fine improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men, from the length and breadth of the Union are seeking to purchase. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale.—The water is excellent, and no such thing as a fever is known. The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and is easily worked. It abounds largely in the phosphatic matter, and such is its fertility that from the crops produced upon this land, and the large area adjoining under cultivation, it is found not to be excelled anywhere in the production of crops most adapted to its make. The roads may be well aware that the earliest and the best fruits and vegetables from New Jersey, which are annually exported, are in the amount of millions of dollars. The land, besides being in every way accessible for fertilizers has an abundant supply of the best quality of stock manure. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brick-yards being started on the property. A person can put up a hundred dollars, on account of the expense for one emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best terms. In settling here the emigrant has many advantages. He is within a few hours ride of the great cities in the Middle States and New England, he is near his old friends and associations; he is in a settled country, where every improvement and the comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fever, which make the graves of so many millions of the young and healthy in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia, and to all those who have the railroad company gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been sold long since. The reason is, it was never before in the market; and unless these statements were correct no one would be invited to examine the land before purchasing. It is all as expected to do. They will see the land under cultivation; they will meet persons, who doubt from their own neighborhood they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating and locations are not held on refusal. The Hammon Farmer, a monthly Literary and Agricultural paper, containing full information of Hammon, will be sent to each inquirer, and can be obtained at 25 cents per annum. The county is healthy. Warranted upon given, clear of all incumbrances, and purchase money is paid. Route to the land—leave Vinona westward, Philadelphia, for Hammon by railroad at 7 1/2 A. M., and 5 1/2 P. M.; when there inquire for Mr. Byers. Boarding conveniences will be found. Letters and applications can be addressed to S. B. COUGHLIN, 202 South FIFTH Street below Walnut, Philada. Maps and information cheerfully furnished. Aug. 31, 1858—2.
