## NEW ADVERTISEMENTS.

## NOTICE.

A general meeting of the Stockholders of the Huntingdon and Broad Top Mountain Rail road and Coal Company, will be held on Wednesday September 15th 1858 at 11½ o'clock, a. m., at the Philadelphia Exchange, Phila. to consider the propriety of accepting the provisions of the act of assembly, approved March 17th 1858 Authorising the issue of prefered Stock, and for other business in relation to the interests of the Company.

By order of the Board of directors.
J. P. AERTSEN Sec.

☞All wanting to emigrate to a mild climate good soil and fine market, see advertisements of Hammonton Lands.-Aug. 25.-6t.

## Notice to Coal Purchasers.

THE subscriber is now prepared to furnish **Coal & Coke** at his bank at Lilly's Station, on the Penn'a. Railroad, of as good quality as can be had on the mountain. I will sell coal to Hollidaysburg, or any other point on the Penn'a. Railroad, if application is made personally or by letter.

ALSO—I will agree to deliver *COKE* at any bank, in cars, at *four and a quarter cents per bushel* viz:—Thirty-five pounds to the bushel, or deliver it in my own cars, at any point desired, at the lowest possible rates.

For either of the above articles, address
J. McGONIGLE,
Hemlock, Cambria County, Pa,
where all orders will be promptly attended to.

PREMIUMS AND REGULATIONS
FOR THE
**FOURTH ANNUAL EXHIBITION**
OF THE
**HUNT. CO. AGRICULTURAL SOCIETY.**

*To be held at Huntingdon, on Wednesday, Thursday and Friday, October 6th, 7th and 8th, 1858.*

REGULATIONS

All stock, articles and manufactures offered for exhibition must be entered on the books, and on the Fair ground by 12 M. of Thursday, in order to be admitted to competition and remain until the close of the Fair on Friday evening.

Premiums will be awarded on Friday afternoon.

Awarding Committees have the power of suppling vacancies, and are requested to furnish detailed written reports.

Prices of Tickets for membership, $1. Single admission, 25 cents.

SUGGESTIONS.

The Executive Committee have deemed it expedient the present year to dispense with a discretionary Committee and award no premiums for articles not mentioned in the list. This arrangement is not intended to interfere with or prevent the exhibition of any article whatever.

The funds of the Society are at present low and the premiums awarded correspond with the public spirit and liberal conduct of our fellow citizens to sustain their own society, and by so doing to elevate the industrial arts, and agricultural improvements in our midst.

## NEW ADVERTISEMENTS.

SUFFERING HUMANITY READ THIS.

The undersigned takes this Method of informing the public generally that there is no medicine ever offered to the public that is equal to DUVALL'S GALVANIC OIL in relieving suffering humanity.

I was an observer of its effects in a friend of mine, who suffered almost everything from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful parts, and gave some inwardly, and in 20 minutes the patient was asleep, and when awakened was free from pain, and continued so.—This is a positive fact which I am willing to make good at any time. A case of FELON was cured in nearly the same length of time.

J. D STONEROAD, Lewistown, Pa:

Dear Sir—Mr. Wm. TUDSBAUGH, who has been suffering several years from rheumatism, got so ill that his friends and relatives were summoned to witness his death. I induced his friends to try the virtue of your preparation—they did so, as the latter sent word to their astonishment and joy, he began to improve, got better and better, and now, so far as I know, he is a hale and stout man. This is not the only case where the GALVANIC OIL has surpassed human expectations. In every case where I have recommended the OIL, it has done what it promises to do. Send us another $20's worth.

Yours truly, H. LEHER.

TOWN VS COUNTRY.—We notice as the warm weather grows apace, the denizens of pent up cities seek the unbrageous glades and sylvan scenes of the rural portions of the country; *per contra* the inhabitants of the country and dwellers among the enchanting scenery of nature, having a little leisure time, after gathering in the fruits of the earth, turn their attention city ward, for recreation or business purposes. To all such, perhaps no city in the union possesses so many charms as the City of Penn, with its many objects of beauty and art. Its magnificent water-works, its Academy of Music, Academy of Natural Science, Art Unions, Picture Galleries, Parks, Cemeteries, etc., and last, though not least, that link between the present and glorious past, that revered relic of the times that tried men's souls," Old Independence Hall. All are objects of unusual interest to the intelligent visitor, after viewing which, a few minutes might be profitably spent in the Hair Dressing Saloons of *George Thurgalund*, No. 29 South Sixth St., between Chestnut and Market, in admiring the light and beautiful "Gossamer Wig" and "Toupee" of his make. George has also a "Liquid Hair Dye" which is rapidly superseding all other in the market.

### A CARD
FROM
**DR. JAMES M. JARRET,**
OF THE
NEW YORK LUNG INFIRMARY.

My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivaled opportunities and advantages of pathological research—aided not a little by a peculiar system of *Medical Inhalation*—has unmasked me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the *Throat, Lungs, and Air Passages*. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of *general treatment*; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both *general* and local treatment. Hence, and the high character of the institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, though, whose philanthropic and the above charity has been long and liberally supported, and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethern and the public, I would respectfully announce in conclusion, that *I can now be consulted personally or by letter*, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case, Inhaling Vapors, Medical Inhaling, &c &c., will be forwarded by express to any part of the United States or the Canadas.

TERMS.—My terms of treatment by letter are as followings, viz: $12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payments as follows: $6 to be paid to Express Agent on receipt of the box of Medicine, and the balance at the expiration of the month, if the patient be cured or is satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters of advice promptly answered. For further particulars address

JAMES M. JARRETT, M.D.,
No. 820 Broadway, cor. Twelfth St., N. Y.

P.S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our improved apparatus for the inhalation of medicated vapor can be seen and inspected.

## SCIENTIFIC AMERICAN.
### PROSPECTUS.
### VOLUME FOURTEEN
### BEGINS SEPTEMBER 11 1858.

MECHANICS, INVENTORS,
**Manufacturers and Farmers.**

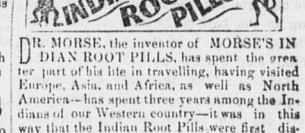
The Scientific American has reached its fourteenth year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States in the Union. It is not, as some might suppose from its title a dry, abstruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanichal and industrial worlds, as to please and instruct every one. If the mechanic or artizan wishes to know the best machine in use, or how to make any substance employed in his business, —if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical labratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers and a thousand other machines and applicances, both of peace and war—all these desiderata can be found in the Scientific American, and not elsewhare. They are here presented in a reliable and interesting form, adapted to the comprehension or minds unlearned in the higher branches of science and art.

TERMS:—One copy, one year, $2; One copy, six months, $1. Five copies six months $4; Ten copies, six months, $8 Ten copies, twelve months, $15; Fifteen copies, twelve months, $22; Twenty copies, twelve months, $28, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage stamps, taken or subscriptions.

☞Letters should be directed to
MUNN & Co, 128 Fulton-st., N. Y.

☞Messrs. Munn & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge in regard to the novelty of their improvements.



DR. MORSE, the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater part of his life in travelling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from Impurity of the Blood—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important, then the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser partic
