WM. BREWSTER, Editor and Proprietor.

Wednesday Morning, December 8, 1858.

The Circulation of the Huntingdon Journal, is greater than the Globe and American combined.

CLUBBING WITH MAGAZINES.

The Huntingdon Journal for one year, and the Journal and Graham's Magazine, for one year, for \$3 50.

THE PROSPECT IN 1860.

By the complete official returns of the late election in Illinois, we see that though a small majority of Douglas men were elected to the Legislature, the Republicans have a clear majority of thousands of the popular vote of the State over the Douglas and Buchanan tickets combined!

Our Book Table.

An Important Feature. The great demand which exists for its graduates, and the high salaries which they command are the best possible guarantees of the practical and business value of those whom the Iron City recommends.

The School Visitor.

FRANK CLARK. We have performed the services which should entitle us to receive the Visitor. We obtain "The Student and Schoolmate," "Little Pilgrim," &c.

Reviews.

Kennedy's Review for December is now before us. This is one of the best and most reliable Detectors now published. It can be had for \$1 a year, and everybody should have it now when so many counterfeit and spurious notes are in circulation.

American Agriculturist.

This is the last number of Vol. 17. The character of this publication has already gained the confidence of the Agricultural public wherever it has circulated, and will soon be in the hands of every farmer.

Peterson's Magazine.

The January number of this sterling Magazine is again before us, greatly improved, and he authorizes us to offer his Magazine with our Journal for \$2.75 per annum. Now is the time to subscribe.

Lady's Book.

The January number of this valuable Magazine is again in view. It is a valuable number and we have no doubt but it will continue so through the year.

Pencil Notes.

A chit-chatting yet tabling notes And faith he'll print it.

Wed.—The weather. Congress met on last Monday. There are forty Post Offices in Huntingdon county.

Whiskey in Huntingdon is almost as plenty as ever it was. Still at large—The two Prisoners who broke jail week before last.

Sin has a great many tools, but a lie is the handle which fits them all. We will give the President's Message in full, in our next weeks issue.

The prominent feature, after all, of the Atlantic cable is its nose—being an aqua-line. Convention for our citizens—the new arrangement in the running of passenger trains.

Delicious—hot buckwheat cakes, good honey and other fixings—these cold mornings. A man in Philadelphia was recently fined sixteen dollars for swearing and five for getting drunk.

Two fine looking Deets came down the Broad Top Railroad, one day last week, en route for Philadelphia. The Gettysburg Railroad is at last completed, and the cars are expected to run regularly in a few days.

Speaking of cheap things—it costs but a trifle to get a wife, but doesn't she sometime prove "a little dear?" The Baptists of England are adopting the institutions of class meetings, and their leaders are in favor of it.

The water will not be let out of the Canal, until the 27th, of this month, unless severe cold weather sets in sooner. Alteration—The Pennsylvania Railroad has changed their time of running, in part. See the Time-table on first page.

We are pleased to learn from the Hollidaysburg papers that Hon. S. S. Blair has entirely recovered from his late illness. A Nuisance—The gathering of some of our young gents at the church door after preaching—there ought to be a stop put to it.

Fancy—The buildings of Messrs. T. H. Cremer and R. Allison Miller. They greatly enhance the appearance of the lower end of our borough. Would be quite an improvement—a new pavement from the corner of Montgomery and Bath streets, up to the Methodist church.

Crowded—The Metropolitan with buyers last evening, and our office with job work all the time—People know where to get their money back. The Real Estate of Robert Speer, dec'd, will be exposed to public sale in Cassville on January 1st, '59. See Advertisement in another column.

Notice—A fine looking girl from the country actually went into a cooper shop in town recently, and innocently asked what was charged for hoopin' frocks! Lit up with Gas—The town Council met on last Saturday night, and passed an ordinance to erect lamp-posts at the corners, for the purpose of lighting up our streets.

We admire the ladies because of their beauty, respect them because of their virtues, adore them because of their intelligence, and love them because we can't help it. Good Advice: Boys, when you court, you should deport yourselves with circumspection; It is a sin to seek to win And trifle with affection.

A fire occurred at Johnstown, on Monday night of last week, which destroyed a large house belonging to the Cambria Iron Company, and occupied by four families. It is not known how the fire originated. Loss about \$2,500. No insurance.

We rather guess that but few printers were in a mood this year to return thanks—having nothing on hand whereof to be thankful, unless it be a pocket-full of unpaid printing bills. That's our case. The Johnstown Echo notices the appearance of a crazy woman in that place, a few days since, whose actions denoted her the same we noticed some time since. She should be looked after by her friends, if she has any.

Protracted Meeting—There has been a protracted meeting going on in the Methodist Episcopal Church of this place, which commenced on last Saturday night, and is still in successful progress—much good has been done and we hope that much more may yet be accomplished. The seat of life—M. Brown Squard, in a recent lecture before the Royal College of Physicians and Surgeons, London, stated that he found a spot in the brain, not larger than the head of a pin, which if merely touched by a foreign body, produced death as instantaneous as if the individual had been struck by lightning.

A wide-awake lady—A lady was detected, a few days since, pocketing a package of gloves in a store in Cincinnati. When charged with the theft, she burst into tears and tendered a \$20 bill in payment. The merchant took but five dollars and gave her \$15 in change. On counting the cash at night, \$20 bill was found to be a counterfeit. "Phancy the phelinks" of that store-keeper.

Well, friend McKee, perhaps the fiery covering of your cranium had something to do with the illumination spoken of, nevertheless, the profile beneath it were such an agreeable expression that we mistook the cause. It will afford us pleasure to sample the "substantials" you promise, at an early day. We are glad to know that you don't "eat yourself," as we could not find in our heart to detract from your dimensions, cannibalistically.

There were less than 100 scattering votes nearly all for a colored man. Saline county in Illinois, at the late election, gave 1,095 Democratic votes, and not one for the Opposition. From the South Pacific. We have dates from Valparaiso to the 15th, and from Callao to the 26th of October.

A revolution was talked of in Valparaiso, and several arrests were made of sergeants of a regiment of the line, and others, but nothing of importance had transpired. There was some trouble at Concepcion, arising out of abuses committed by the local authorities.

The expectation of plentiful crops is being fully confirmed, and the reports from the mining districts of Copapo and Copacumbó continue highly favorable, particularly in the copper mines. We have reports of very rich gold mines being discovered in the Argentine Republic about 70 leagues from Mendoza, at a place called Canafu Honda.

According to the merchant marine of Chili amounted on the 1st of September, 1858, to 58 ships, 92 barques, 52 brig brigantines and schooners, 16 sloops and 7 steamers; in all 200 vessels, measuring 60,410 tons, and carrying 2,555 men.

The difficulties between Peru and Ecuador are still unsettled, and there is every prospect of their leading to a war between the two countries. The Ecuadorian Minister has determined his passport retired from Peru, and the latter Government has issued a decree, ordering the raising of an army of 15,000 men, calling the entire military force into active service and otherwise preparing for an invasion of Ecuador. It is reported that the Echeñique party in Peru, are urging the Ecuadorians to resist to the utmost the claims of the Peruvian Government, as in the event of Warthey intend carrying out the contemplated revolution against the Castilla Government.

On the 12 ult, Congress was installed with the usual pomp, but with a Silence from the populace that promises a tempest hereafter. On the 23d, Castilla was pronounced President, and on the 21th the Representatives met in full session to render homage to "Old Boots."

On the 21st the Congress passed a law authorizing the Executive to raise an army of 15,000 men, to supply funds for war, to organize the National Guards throughout the country, and to declare war against Ecuador.

The Vote of Illinois. The following result. For Treasurer, Miller, (Rep.) received 125,430; Fondley, (Doug. Dem.) 121,609; Dougherty, (Adm. Dem.) 5,071; giving Miller a majority over Fondley of 3,821.

This shows an increase in the total vote of 13,145, and a Republican increase of 28,250. It appears from these figures that after dividing the increased vote of the State among the Republicans and Democrats, allowing about half to each party, and uniting the Douglas and the Administration vote, the Fillmore vote of 1856 was given in the proportion of about two-thirds to one-third to the Republicans and Democrats respectively. In this way the gain of each of these parties is accounted for. It is evident moreover, that the vote of the State is very close, as between the Republicans and United Democratic party.

Gen. William H. Keim, just elected from Old Berks to take the seat in the present Congress vacated by the resignation of Hon. J. Glancy Jones, is a veteran Whig, the head of the Whig family of Keims—the other being Democratic. He was a candidate against Jones in '54 and ran him closer than men of his politics are apt to run in that district. Gen Keim is the first Member ever elected, we believe, from Old Berks in Opposition to whatever was for the time labelled "Democratic!"

The Tariff question appears to have revolutionized the Gibraltar of Sham Democracy. The Buchanan ticket in Chicago was only voted by thirty voters beside the federal appointees; and of these five were themselves on the ticket. The Illinois Democrats have more patriotism and more independence than their brethren here, most of whom will stand by Buchanan as long as an atom of pap remains in his hands for distribution.

REPTURE IN THE CABINET.—There is a positive disagreement in the Cabinet, in consequence of which Secretary Cobb will resign. The disagreement comes of difference of opinion on the tariff. Cobb will go to England. I have the highest authority for this. B. R.

Pencil Notes.

A lady friend of ours says the first time she was kissed she felt like a big tub of roses swimming in honey cologne, nutmegs and cranberries. She also felt as if something was running through her nerves on feet of diamonds, escorted by angels, shaded by honey-suckles; and the whole spread with melted rainbows. Jerusalem! what power there is in a full breasted kiss!

A paper out West has for its motto, "Good will to all who pay promptly. Devoted to news, fun, and making money."

Married.

On Thursday, Nov. 11, by Rev. S. H. Reid, Mr. JOHN WITMER, of Shippensburg, Pa. to Miss ANNIE SNYDER, of this place.

SPECIAL NOTICES.

There is no medicine now offered to the public that meets with so great success in relieving pain and soreness, as DUCAL'S GALVANIC OIL. It relieves all pain in from ten to thirty minutes.

HAIR RESTORATIVE.

We are pleased, to be able to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have tried Professor Wood's Hair Restorative, that were Gray, and now their hair is restored to its original color, and they will willingly add their testimony to its efficiency. This speaks well for the article, and we advise all who do not wish to appear gray headed to use Wood's Restorative.

CAUTION.

Beware of worthless imitations, as several are already in the market called by different names. Use none unless the words (Professor Wood's Hair Restorative, Depot St. Louis, Mo., and New York.) are blown in the bottle. Sold by all Druggists and Patent Medicine Dealers. Also by all Fancy and Toilet goods dealers in the United States and Canada.

Positively the most wonderful thing discovered in the nineteenth century is Professor WOOD'S HAIR RESTORATIVE.

It restores perfectly gray hair to its original color, makes it grow on the bald and will preserve it perfectly to any age, if only used by the young twice a week. Dandruff and disease cannot exist on the scalp where this is used.—See circular and we defy doubt.

AYER'S AMERICAN ALMANAC for 1858

is now ready for delivery gratis at John Reads, who is happy to supply all that call for them. Every family should have and keep this book. It is worth having. Comprising much general information of great value; it gives the best instruction for the cure of prevalent complaints, that we can get anywhere. Its anecdotes alone are worth a bushel of wheat, and its medical advice is sometimes worth to the sick, the price of a gold mine.
