Wednesday Morning, January 19, 1859

The Circulation of the Huntingdon Journal, is greater than the Globe and American combined.

CLUBBING WITH MAGAZINES. The Huntingdon Journal, for one year, and either of the Magazines for the same period will be sent to the address of any subscriber to be paid in advance as follows:

- The Journal and Godey's Lady's Book, for one year, \$3 50

The Journal and Peterson's Magazine, for one year, \$2 75
The Journal and Atlantic Monthly, for one year, \$3 50

THE ADMINISTRATION.

We take the following from the N. Y. Tribune.

The characteristic of our present Federal Administration appears to be imbecility. Except in the matter of collecting taxes, making loans, spending money and running the nation into debt, the Federal Government, in the hands of Cass and Buchanan, has fallen into a state of suspension animation.

RAREY OUTDOGS.

An ingenious individual in North Carolina has discovered a more effectual method of taming a refractory horse than any heretofore known. If our readers desire to make use of it, they may learn the "modus operandi" from the following paragraph from the Raleigh Register:

On going up Fayetteville street, the other day, we saw an apparently fine-spined horse following a man who was tapping a drum. The man did not hold the bridle of the horse, but simply tapped the drum, and the horse would follow him like a dog, and in all manner of serpentine evolutions. Of course there was a vast deal of "oration" expressed by passengers in the street, and fearing that some of them would "bust" if they could not solve the problem of the man's control over the horse, we, with our usual amiability, found out all about it, and told them—the horse was drilled in a Democratic caucus the night before.

CANAL ENLARGEMENT.

It will be seen by the following resolution recently adopted by the Board of Directors of the Pennsylvania Railroad Company, they design to increase the capacity of the canal from Duncan's Island to Columbia, in order to furnish greater facilities for the transportation of freight:

RESOLVED.

That in order to furnish greater facilities for the transportation of freight on the canal, the Pennsylvania Railroad Company will increase the capacity of the canal from the Junction at Duncan's Island to Columbia, so as to give a uniform depth of five feet of water throughout, and that the Resident Engineer be and he is hereby instructed to submit an estimate of the cost of increasing the length of the locks to pass boats of one hundred and twenty feet in length on that portion of the canal.

STOPPED PAYMENT.

A despatch from Washington to the New York Tribune, says that the Government has suspended payment. There is no money in the Treasury. Let Congress pass a proper tariff bill, and there will soon be an abundance of funds not only in our "exhausted Treasury," but also in the pockets of the people.

A HIT AT SUMNER.

In the Massachusetts House of Representatives, on Tuesday, a motion was offered inquiring whether or there does not exist a vacancy in the U. S. Senate for Massachusetts, besides that occasioned by the expiration of Mr. Wilson's term. Will Mr. Sumner take the hint?

News Items.

WHAT'S IN A NAME?—J. Simp on Africa has been appointed a clerk to the Pennsylvania Senate. This might not be remarkable, but it is strange that Mr. Africa should turn out to be better acquainted to the black Republicans—Blair County Whig.

BOTTS FOR PRESIDENT.—A club has been organized at Washington for the purpose of pressing John M. Botts as the Opposition candidate for the Presidency. We apprehend that the great mass of the people will have something to say in that matter when the proper time arrives.

POLYGAMY.—We learn from Washington that a bill for the suppression of polygamy in Utah and all other Territories, will be introduced at an early day in Congress, and be vigorously pressed. So it should be. It is rather unfair that one man in Utah should have thirty wives whilst the President of this great nation has none!

"VENGEANCE AND VITLES."—Under the above caption the Warren Telegraph remarks on the President's discrimination in inviting guests to his dinner table, and suggests the following form of a card of admission:

"Presidential Dinner—Admit the Bearer.—Good for this day out. Not good to any democratic member of Congress re-elected against the President's will. Let company members, rejected by their constituencies, can obtain first-class ticket on application to the State department. No anti-Compton democrat who has not given in, allowed to come in. Little Giants positively excluded. Canes, bludgeons, and other weapons, to be deposited at the door, to guard against accidents. Reserved seats for those who appear in coats of English manufacture. Any excess of self-respect beyond forty grains to each person, will be rated extra. Character at the sole risk of the owner. No tickets genuine without the written signature of

JAMES BUCHANAN.

DEATH OF THE EMPEROR OF JAPAN.

It is reported that the Emperor of Japan died soon after the American treaty was signed. He died of cholera, which disease was carrying off great numbers.

Hon. Thaddeus Stevens, of Lancaster, Pa., is on a visit to Washington.

Wm. E. Frazer, Esq., the newly elected Canal Commissioner, has been sworn in.

ONE OF THE DOVES.—A lady in Wilkesport Pa has a beautiful dove which was hatched Genoa under the roof where Christopher Columbus was born.

MURDER OF A WHOLE FAMILY.—The Memphis Appeal says, that Mr. Moore, his wife and mother, were brutally murdered on Christmas night, in McNairy county, Tennessee. The old lady was not quite dead when the deed was discovered, but was unable to give any clue to the murderer, only that it was done by negroes. There was great excitement in the neighborhood, and several arrests were made, but the parties were discharged. There were two children of Mr. Moore, an injured, the youngest, an infant, being frozen when discovered.

NEW COUNTY.—The Hanover (York county) papers are discussing the formation of a new county out of Hanover and the adjoining townships. The York Pennsylvania says:

In point of population, Hanover alone surpasses the whole county of Forest—the last county formed—which has only 211 taxables, and there are at least six or eight counties in Pennsylvania less populous than the one proposed would be—nor could one-half of the county in the State present a county seat equal to Hanover.

WE are not in the habit of publishing patient medicines, but when such an article as Dr. VALL'S Galvanic Oil, which sustains fully what it claims, is presented to the public, we feel no hesitancy in speaking the truth free of charge.

The above mentioned medicine has obtained for itself a world-wide name, never to go down with the common articles of the day. It is one of the very best remedies, for all kinds of pain, that can be produced. It often gives relief in five minutes.—Troy Blade

During our visit to Lowell we were shown through the Laboratory of our celebrated countryman, Dr. J. C. Ayer, several remedies we have believed what is seen there without proof beyond disputing.

They consume a barrel of solid Pills, about 50,000 doses and 3 barrels of Cherry Pectoral, 120,000 doses per diem. To what an inconceivable amount of human suffering does this point! 170,000 doses a day! Fifty millions of doses per year! What acres and thousands of acres of sick beds does this spread before the imagination! And what sympathies and woe! True, not all of this is taken by the very sick, but alas, much of it is. This Cherry Pectoral and this sugar Pill are to be the companions of pain and anguish and sinking sorrow—the inheritance of our mother Eve. Here the infant darling has been touched too early by the blight that withers half our race. Its little lungs are affected and only watching and waiting shall tell which way its breath shall turn. This red drop on its table is the talisman on which its life shall hang. There the blossom of its youth, just bursting into womanhood, is stricken also. Affections most assiduous care skills not, she is still fading away. The war messenger comes nearer and nearer every week. This little medicine must go there, their last perhaps their only hope. The strong man has planted his life in this, this same disease. This red drop by his side is helping him wrestle with the inexorable enemy; the wife of his bosom and the cherubs of his heart are waiting in sick sorrow and fear lest the rod on which they lean in this world be broken. O Doctor! Spare no skill nor cost, nor toil, to give the perishing sick the best that human art can give.—Gal. Tex. as News.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Sarsaparilla, combined with other substances of still greater alternative power, to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from chronic complaints, and that one which will accomplish its cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

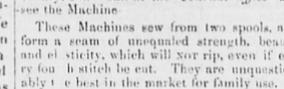

- SCURFVILLA AND SCURFVILLA COMPLAINTS, BRUISES AND ERIPTIVE DISEASES, ULCERS, PIMPLES, BOILS, TUMORS, SALT RHEUM, SCALD HEAD, SYRITIS AND STERILITIS AFFECTIONS, MERCURIAL DERMATITIS, DROPPY, NEURALGIA OF THE DORSALGIA, DYSPEPSIA, DYSPEPSIA AND INDIGESTION, RHEUMATISM, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the cold humors which fester in the blood at that season of the year. By the timely application of this compound, multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcers, or, through which the system will strive to rid itself of eruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Clear out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it if it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, by cleansing the blood. Keep the blood healthy, and all is well; but with this purgation of life's disorder, there can be no health. Sarsaparilla is not a medicine, but a purgative, and the great machinery of life is disordered or overturned.
