PENNA LEGISLATURE.

HOUSE. Mr. Gritman, (Luzerne), offered the following:

Resolved, that the Committee in the case of the contested election in the 3d Representative district of Philadelphia, be authorized to proceed to Philadelphia to take the evidence in said case. Adopted.

The Committee on the contested election case of Oliver Evans, reported "that Oliver Evans was entitled to his seat."

On motion the contestant for the seat of Mr. Evans was allowed five dollars per day during the time he has been in Harrisburg.

The Committee decided that the petition was defective, and they had consequently refused to hear any evidence in the case.

The bill entitled an act consolidating the stock of the Girard Bank, was passed.

The supplement to the act incorporating the Tyrone and Lockhaven Railroad Company, allowing them to borrow money, was passed finally.

A Sensible Movement.

A bill was recently read in place in the House, giving Justices of the Peace power, with a jury of six men, to hear and finally determine charges for crimes of a certain character. This is a movement in the right direction, and Mr. Miller deserves credit for his action in the matter.

Under the present system the taxpayers have immense commonwealth bills of costs to pay arising from petty malignant quarrels that never ought to be heard outside of the neighborhood of their occurrence, but which now occupy a large portion of the time and attention of the Court, as was the case in our country in the sessions just closed. The proposed bill will remedy much of this, and for the general good we consider it an important measure. We hope the bill be put through.

The Course of study pursued, the regular attendance by the scholars, the general interest manifested by the citizens, and the furnishing of the schools with maps, and other conveniences for a system of instruction are sufficient to warrant the statement and more.

THE TWO GREAT PARTIES.

To those who are in the habit of regarding the Democratic as the dominant party in the Union by numbers, as it is by appointment, we commend the following table compiled by the "Albany Journal" from the United States Census. The Republican States, with their respective white population, are placed in one column—the Democratic States, with their respective white population, in the other. It will be seen that the white inhabitants of the Republican States out-number those of the Democratic States in the proportion of two to one:

Maine . . . 581,313 Maryland . . . 418,942 N. Hamp. . . 317,456 Virginia . . . 804,800 Vermont . . . 313,402 N. Carolina . . . 533,008 R. Island . . . 148,753 S. Carolina . . . 274,563 Connec. . . 363,799 Georgia . . . 521,572 Mass. . . 985,450 Alabama . . . 326,514 N. York . . . 3,048,335 Mississippi . . . 295,718 N. Jersey . . . 465,059 Louisiana . . . 225,491 Penna . . . 2,258,160 Texas . . . 154,034 Ohio . . . 1,055,000 Arkansas . . . 162,188 Indiana . . . 977,154 Missouri . . . 502,004 Illinois . . . 856,034 Tennessee . . . 756,836 Michigan . . . 376,661 Kentucky . . . 206,000 Wisconsin . . . 304,757 California . . . 200,000 Iowa . . . 191,881 Florida . . . 47,203 Minnesota . . . 290,000 Delaware . . . 71,169

13,430,750 6,422,418

Democrats are fond of applying to their opponents the epithet of "Black Republicans" as if they in some way derived their strength from the African race.—We suggest to them a careful examination of the above figures which show that the Republican is pre-eminently the party of the White Men of the Union, while the Democratic only maintains its power at all by three million blacks held in slavery, which it represents in Congress and not allow them to vote either for Elector or Congressman.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attack, nor is there one which it does not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever its origin is hereditary in its constitution, descending from parents to children to the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings, and on the surface, eruptions or sores. This foul corruption, which renders the blood, deprives the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by diseases, which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in the scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; and these are favored by this taint, by their affection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every day poisoning and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of every scrofulous complaint, but also those other affections which arise from it, such as ERYSIPEL, and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or BRUISES, PIMPLES, PUSTULES, BLOTCHES, HEADACHES, HOLES, TUMORS, TETTER, every kind of Itch, Ringworm, Scald-head, RHEUMATISM, STYRILICITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIALIZED OR IMPURE BLOOD. The popular belief in the efficacy of this medicine is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, and restore to the system the purity and health of its vitality. As a consequence of these properties, the invalid who is bowed down with the distressing and dangerous affections of the health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every age, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Junction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every family in the country should in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. Whenever, therefore, a person is afflicted with any other medicine of its kind it is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, Ayer's has gained favor by every trial, conferred benefits on the afflicted that can never forget, and produced cures too numerous and too remarkable to be forgotten.

THE GREAT PURIFIER!

THE WORLD CHALLENGED! TO PRODUCE ITS EQUAL!

THE BLOOD SEARCHER

GLORIOUSLY TRIUMPHANT! Sworn statement of David McCreary, of Napier Township, Bedford county. In April, 1856, as near as I can remember a small simple made its appearance on my upper lip, which soon became enlarged and sore. I used poisons of sorrel, and a wash of blue Vitrol, with little effect. Finding the sore extending I consulted Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaeffer, of Schellsburg, Somerset county, who also pronounced the disease CANCER, and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading to the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Stetler of St. Clairsville, Bedford county, who also pronounced the disease CANCER, and applied the Salvo said to be the Cancer cure, growing upon it, and had eaten off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured, since Dr. Ely said he could only give relief by cutting out the nose, which in March, 1857, I bought a bottle of "Blood Searcher," but I must confess I had no faith in it, I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up, I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle and I have been healthy since then I have been for the
