SOWING WHEAT EARLY IN THE FALL.

(Concluded.)

One fact connected with wheat culture in America is worthy of being noticed, as it shows the remarkable effect of climate on the plant. In no part of North America which I visited can the common varieties of wheat which are sown in autumn be sown in the spring and produce a crop of grain, for they only grow leaves and stems, and do not form ears.

It is further worthy of observation, that it is of much importance in America to have a thick and well tillered plant of wheat in spring. Late tillering produces coarse and vascular stems, which are particularly liable to be attacked by disease.

It is further worthy of observation, that it is of much importance in America to have a thick and well tillered plant of wheat in spring. Late tillering produces coarse and vascular stems, which are particularly liable to be attacked by disease.

The two statements, (1) that wheat is not so exhausting a crop in Canada as in Scotland, and (2) that "farm-yard manure had not so great an effect in increasing the yield of wheat as it had in Scotland," appear somewhat contradictory.

WHEAT CULTURE IN OHIO.

The natural yield of wheat is not so large in Southern Ohio as in Canada West and the Northern States, but the smaller yield is obtained at less expense. I was quite astonished at the easy way that wheat is got in the neighborhood of West Liberty, and I afterwards learned that the same is followed in all those districts in which the Dent corn is cultivated.

NEW MEDITERRANEAN WHEAT.

As there seems to be much complaint in Western New York, as well as many other places, of the midge or field weevil destroying the wheat, I thought it might be well to recommend a trial of the new or red Mediterranean, a variety which has succeeded in our county for two or three years much better than the old Mediterranean, or any other variety.

KING SOLOMON'S BLACKSMITH.

And it came to pass when Solomon, the son of David, had finished the temple of Jerusalem, that he called unto him the chief architects, the head artificers and cuping workers in silver and gold and in wood and in ivory and—yea, all who aided in working on the temple of the Lord, and he said unto them:

"Sit you down at my table; I have prepared a feast for all my chief workers and artificers. Stretch forth your hands therefore, and eat and drink and merry. Is not the skillful artificer deserving of honor? Muzzle not the ox that treadeth out the corn."

And when Solomon and the chief workmen were seated, and the fatteness of the land and the oil thereof were set upon the table, there came one who knocked loudly at the door, and forced himself even into the feasting chamber. Then Solomon, the King, was wroth and said, "What manner of man art thou?"

And the man answered and said, "When men wish to honor me they call me Son of the Forge; but when they desire to mock me, they call me blacksmith; and seeing that toil in fire covers me with sweat and smut, the latter name, O King, is not inapt, and in truth thy servants desire no better."

"But," said Solomon, "why come you thus rudely and unbidden to the feast, where none save the chief workmen of the Temple are invited?"

"Pleas ye, my lord, I came rudely," replied the man, "because thy servant obliged me to force me way; but I came not unbidden. Was it not proclaimed that the chief workmen of the Temple were to dine with the King of Israel?"

Then he who carved the cherubim said, "This fellow is no sculptor."

And he who inlaid the roof with pure gold said, "Neither is he a workman in fine metals."

And he who raised the walls said, "He is not a cutter of stone."

And he who made the roof cried out, "He is not cunning in cedar wood; neither knoweth he the mystery of uniting pieces of strange timber together."

Then said Solomon, "What hast thou to say, Son of the Forge, why I should not order thee to be plucked by the beard with a scourge, and stoned to death with stones?"

When the Son of the Forge heard this he was in no sort dismayed; but, advancing to the table, snatched up and swallowed a cup of wine, and said:

"O King, live forever! The chief men of the workers in wood, and gold and stone have said that I am not of them, and they have said truly. I am their superior: before they lived was I created. I am their master, and they are my servants." And he turned him around and said to the chief of the carvers in stone:

"Who made the tools with which you carve?"

And he said: "The blacksmith."

And he said to the chief of the workers in wood:

"Who made the tools with which you hewed the trees of Lebanon, and formed them into pillars and roofs for the Temple?"

And he said to the artificer in gold and ivory:

"Who makes your instruments by which you work beautiful things for my Lord, the King?"

And he said: "The blacksmith."

"Enough, enough, my good fellow," said Solomon, "thou art proved that I invited thee, and thou art even my father in art. Go wash the smut of the forge from thy face, and come and sit at my right hand.—The chiefs of my workmen are but men—thou art more."

So it happened at the feast of Solomon, and blacksmiths have been honored ever since.—London Magazine.

BEHIND TIME.—An old Carolinian once said: "I was born the last day of the year, the last day of the month, the last day of the week, and very late in the day, and have always been behind hand. I believe it would have been fifty dollars in my pocket; if I had not been born at all."

SUFFERING HUMANITY READ THIS.—The undersigned takes this Method of informing the public generally that there is no medicine now offered to the public that is equal to DU VALL'S GALVANIC OIL in relieving suffering humanity.

I was an observer of its effects in a friend of mine, who suffered almost everything from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful part, and gave some inwardly, and in 30 minutes the patient was asleep, and when awaked was free from pain, and continued so.—This is a positive fact which I am willing to make good at any time. A case of Erysipelas was cured in nearly the same length of time.

MISCELLANEOUS ADVERTISEMENTS

A CARD FROM DR. JAMES M. JARRET, OF THE NEW YORK LUNG INFIRMARY.

My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-Passages.

By Inhalation, the Lungs and curative properties of medicines are directly applied to the diseased organs and the integument. Do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjunct in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment.

The success of my treatment in the above disease, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported, and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who are able to visit the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion, that I can now be consulted, personally or by letter, on all diseases as above said, and that the medicines, the same as used in the Infirmary, prepared at each individual case, Inhalation, Vapors, Medical Inhalation, &c., &c., will be forwarded by express to any part of the United States or the Canadas.

My terms of treatment by letter are as follows, viz: \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhalation Vapors, and an Inhalation Apparatus. Payments as follows: \$5 to be paid to Express Agent on receipt of the box of Medicine, and the balance, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients desiring the Inhalation of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom fails to treat a case over thirty days. Letters of advice promptly answered. For further particulars address

JAMES M. JARRET, M.D., No. 226 Broadway, cor. Twelfth St., N. Y. P.S.—Physically invited to call at the Infirmary, where many interesting cases can be witnessed, and where our improved apparatus for the inhalation of medicated vapor can be seen and inspected.
