REPORT OF THE PENNSYLVANIA RAILROAD.

We received a copy of the Twelfth Annual Report of the Board of Directors of the Pennsylvania Railroad Company which forms a pamphlet of one hundred and fifty pages. We take from Mr. Thompson's report, the following totals of the business of the road:

"The total number of persons who passed upon the road during the year was 1,612,893 first class passengers, and 16,862 emigrants."

"The earnings of the road from passengers for 1858, show a decrease from the previous year of \$75,213 for the first class, and of \$7,073 for emigrants; a total decrease of \$82,286. The falling off in the passenger travel is probably not greater than will be observed on most of the railways of the Union, and is doubtless due to the general prostration of the active business of the country. When it is considered that the number of immigrants that arrived at our ports in 1858 was less than half the number in 1857, the percentage of diminution in this branch of business will be deemed small.

"The freight transported during the year was \$3,530,206 31, of which sum \$3,260,727 49 was freight carried on the cars of the Company, and \$275,478 82 for tolls and motive power in the cars of individuals."

"The freight transported in the cars of the Company was 2,212,210 tons through, and 365,075 tons of local or way freight (including coal) and in the cars of individual transporters 461,622 tons, making an aggregate of 1,046,889 tons of freight moved. If we add 90,500 tons of coal, lumber and other supplies for the use of the Company it gives 1,137,389 tons as the entire freight moved upon the road. This exhibits an increase in the tonnage moved of 43,614 tons (omitting the supplies of the road) and an increase in freight earnings over 1857 of \$159,690 05. The through tonnage in 1857 of 49,317 tons, and the local an increase of 6,710 tons, while the tonnage in cars of individual transporters shows a decrease of 12,233 tons below that of 1857."

"The amount of coal delivered in the city of Pittsburgh during the year 1858 was 99,540 tons, being 1,921 tons more than in the preceding year. The total number of tons of coal transported during the year 1858 was 140,007 in the cars of the Company, and 200,531 in the cars of individual transporters."

"The Canal Department of the company's service has during the past year, been most successfully administered by T. Haskins Du Puy, Esq., as chief engineer. In his report, Mr. Du Puy gives the total receipts and expenditures as follows: Total receipts \$179,100 08 Expenses 124,058 32 Net receipts \$ 55,041 76 The canal was in bad repair at the time of its purchase from the State, but under Mr. Du Puy's skillful direction, has been greatly improved. The depth of water is greater, and fewer interruptions in the navigation have occurred during the last year than for many previous seasons."

Mr. Du Puy having entered upon the duties of acting President of the Pittsburgh Fort Wayne and Chicago Railroad Company, felt compelled to resign his position as Chief Engineer of the Canal Department of the Pennsylvania Road, and has been succeeded by Thomas T. Wierman, Esq., a gentleman eminently fitted for the post. The Pennsylvania is unquestionably, in all its departments, the best managed railroad in the country. We refer to the information and statistics contained in this report, as full evidence of this fact. In connection with the Northwest by the Pittsburgh and Fort Wayne and Chicago ministered with great ability by Mr. Du Puy, and the stockholders, renders the line the longest in the country. It is the great Railroad Backbone of the nation, and benefits both east and west. No competition of rival roads can destroy its value, or impair its usefulness.

STAGE LINE FROM MT. UNION TO CHAMBERSBURG.—The Stages continue to run as usual, leaving Mt. Union immediately after the arrival of the up-train. This is the safest, best, and cheapest line of conveyance from Mt. Union to Chambersburg.

THE SECOND WEEK OF COURT IS IN PROGRESS, the decisions of the first week has not been given—we will publish them in our next issue.

COUNTERFEIT HALF EAGLES. Some enterprising scoundrel has made an innovation upon the art of bogus coin making, and has produced a spurious five dollar gold piece, having an exterior of pure gold, plated upon an alloy of which gold seems to be the base. There are about three dollars worth of gold in the coin, and they are made so as to pass readily without detection. There is a flatness of the edges which differs from the genuine, but it requires skill to detect the difference. The public should look out for the bogus piece, as they have been put in circulation elsewhere, and "shovers" will doubtless try their luck here.—Harrisburg Telegraph.

GOODY FOR MAY.—The Fashion plate is excellent, it is a truthful picture of the May fashions. "Bird's Nesting" is an excellent design, and a first class engraving. A Novelty.—An Alphabet printed in colors, for marking handkerchiefs, very fashionable now. There are fifty-six engravings in this number. Also a well selected variety of choice Literature. See our club list.

"The State Journal" is the title of a large size double sheet Family Newspaper, to be published every Saturday; a copy of which has been received. This paper will be the advocate of the "People's Party" in Pennsylvania. It is a beautiful, large paper. Price \$2 a year. See Advertisement in another column.

"Keelworth."—This is the fourth volume of the weekly issue of the Waverly Novels. Price 25 cents; each volume being complete in itself.

A boy named Weaver, living in Harrisburg was bitten by a mad dog some weeks ago, took spasms which have continued at short intervals, until he died.—The spasms were of an exceedingly violent nature, and it was with difficulty that he could be managed.

PAY OF MEMBERS IN THE SENATE. Persons residing in the country have no idea of the modes practiced in the Legislature by some of the members to deceive their constituents. We had a fair illustration of this fact by the scene enacted in the Senate yesterday forenoon. Senator Welsh started the ball by moving to reduce the salaries of members from \$700 to \$500. To this Mr. Schell offered an amendment that the State Treasurer be directed to retain out of the salary of each of the members of the session of 1858, \$200. This motion was adopted, only two voting in the negative. After the same had been enacted, Mr. Keller moved to reduce the salaries of members to \$300 now and hereafter.

Mr. Turney suggested to the gentleman that he also strike out the mileage to members, and remarked that this would be proper, as they all had free passes over the railroads and were termed dead heats.—The amendment of Mr. Keller was not adopted. Mr. Miller offered an amendment that hereafter members of the Legislature shall receive no compensation for their services, but that they shall be entirely honorary, which the Speaker decided out of order.

The motion of Mr. Welsh, together with the amendment of Mr. Schell was then agreed to, and in accordance with the section as now passed, the members will receive \$500, and those who were here last winter will have to refund the \$200 received at that time.

Every candid reader will at once observe that this section was only adopted to blind those who are in favor of a reduction of pay of members. Whilst we candidly believe that the pay of members is not too high as fixed at the present rate of \$700 we deprecate all attempts to deceive those who are favoring such reduction, in the manner proposed by the Senate, and we hope for the credit of the Legislature that they will fix their pay permanently and thus let the matter rest without further agitation.

After the bill had passed second reading in the evening, and as everybody supposed that it would finally pass with the above provision in it, a motion was made by one Senator to go into committee of the whole for the purpose of general amendment, which was agreed to, and when the bill was in that shape before the Senate a motion was made to strike the amendment, which was agreed to without a solitary nay, thus showing conclusively that their professions of economy were all unbecoming and deceit. The bill then passed finally, and the pay will remain \$700 for the session.—Har. Tel.

A VARIETY OF DEMOCRATS. Black spirits and white, Blue spirits and gray.

Our facetious contemporary of the Lebanon Courier, referring to the disorganization in the Locofoco ranks, sums up a list of names to distinguish the various factions of the party. There are BUCHANAN Democrats, PACKER Democrats, DOUGLAS Democrats, Leocompton Democrats, Popular Sovereignty Democrats, Weak-in-the-Knee Democrats, Dough Democrats, Feeble Spine Democrats, and Untried Democrats, Unwashed Democrats, Wheelbarrow Democrats, Soap Democrats, &c.

The participants in the late BUCHANAN Convention at Harrisburg are styled the "Soap Democrats" because they invited a Yankee vender of soap who happened to be in Harrisburg at the time of the Convention, to come before their body and address them, which he did in the peculiar style of such practised orators, dilating extravagantly on the merits of his soap, and hinting that it would be particularly beneficial to the great unwashed. The opposing Democrats seized upon this episode in the Convention's proceedings, and characterized it as the Soap Convention, and the Democrats participating as the "Soap Democrats." Not to be outdone, the Soaps applied to the others the mellifluous adjective, "Wheelbarrow"—to signify, we suppose, that they are a kind of one-horse set of fellows. These names do not seem to be overly dignified or respectful; but as everything must have some name to know it by, and as families certainly have the right to select names for their own members, we suppose that we shall have to use Soap and Wheelbarrow until our Locofoco friends choose to have their respective organizations distinguished in some other way.

The business men in many of the towns in this state, have held meetings and agreed that hereafter, they will not receive or pay out Spanish quarters, shillings and sixpences, except at their value, as fixed by act of Congress, to wit:—Spanish quarters at twenty cents, shillings at ten cents, and sixpences at five cents.

Mrs. Hartung, who was to be hung at Albany, for poisoning her husband is said to have become a raving maniac. She has been chained to prevent self destruction, and will be sent to the Insane Asylum.

From most sections of the country, far and near, the gratifying intelligence reaches us that the growing wheat crop promises an abundant harvest.

THE WORK GOES BRAVELY ON.—The work of disintegration goes on in the ranks of the Democracy. Every where the party is in rebellion against the despotic leaders who have ruled the organization with a rod of iron for their own political advancement and pecuniary profit. The recent demonstration in New Orleans, headed by Mr. Soule, is aimed personally at Mr. Sidel and his humble follower, Mr. Benjamin, both of whom are known to have been benefited materially by Congressional legislation. It was only a few weeks ago when the Post Office appropriation and Ocean Steamer bills had failed, and no provision was made for Teletype, that Mr. Benjamin succeeded in getting an Indian treaty bill saddled with an amendment of a quarter of a million for this route, in which he admits being interested. No regular mail has been carried, and in the face of an empty Treasury this money is shamefully squandered.—Har. Tel.

GOV. WISE AND THE ADMINISTRATION. There has just been published from Governor Wise a characteristic letter to Hon. DAVID HUBBARD, of Alabama, an extract of which we publish. Mr. Wise says: "The President bids high. To fill matters he offers Cuba and Isthmus and North protection to iron and coarse wooleens,—and the great commercial countries, the power of centralization by obvious uses and abuses of a bankrupt act to apply to State banks. Yesterday Biddle was a monster, and to day a few Wall street bankers can expand and contract upon us more like a vice than he did—and what would they not do if they could force the poor provinces when they please into bankruptcy? I have written this right on, and you may do what you please with it."

FORSYTH DOWN ON BUCHANAN. AGUSTA, GA., April 16. Mr. Forsyth, the late minister to Mexico, has written a letter declining the dinner tendered to him at Columbus. He says that the Government had no policy with regard to Mexico, and while tacitly approving his course, superseded him quietly. He is very severe on the administration. He has left for Mobile, in order to assume the editorial chair of the Register.

GERMAN REPUBLICANS.—A recent meeting of the most influential German citizens of National Administration, has been held, at which it was resolved that they organize themselves into an association, to be styled the "German Republican Association of Philadelphia."

MEXICO had seven Presidents in the month of January. Prodigious Mexico! As she has survived that infliction it may be assumed she is invulnerable. One President has nearly done the United States up in two years.

IMMENSE FIRE IN NEW ORLEANS. NEW ORLEANS, April 6, 1859. The lower Levee Press, with 10,000 bales of cotton contained therein, together with four squares adjoining, embracing 70 houses, have been burning since noon today. The loss is nearly \$1,000,000. The property destroyed is well insured here.

REMOVAL OF THE INDIANS.—The Treasury of the United States has been uniformly plundered in providing means for the removal of the Indians. Thousands and tens of thousands are appropriated where a tenth part of the sum is expended. This is one of the great secrets of the anxiety of certain parties to get the Indians out of their vicinity. We notice that during the last session of Congress, Mr. Johnson, of Arkansas, got \$10,000 appropriated to accomplish what \$800 would have proved an abundance for.—Har. Tel.

EXTRAORDINARY REVELATION. The New Orleans Delta publishes an account of a man who offered another \$150 to put another man out of the world; the money to be paid when the individual had received his quietus. Instead of killing the man however, the pretended assassin told him of the project, and agreed with him that he should lay quiet until the money had been paid over, which he did. A thousand has since been offered as hush money.

The Washington States, a Douglas paper at Washington makes the startling disclosure that the late purchase of the Washington Union establishment of which Gen. Bowman is to have charge, was made "with the funds of the Government."

BOSTON. In the City of Notions people have to get their marriages registered. The records thus made for the last five years show the following curious result:

Table with 2 columns: Year, Number of marriages. 1854: 3,329; 1855: 3,060; 1856: 2,915; 1857: 2,983; 1858: 2,318.

What is the matter with Boston? Is the population decreasing, or have the folks taken a notion not to get married any more?

THE PRINTER for April is now before us, it is an excellent publication for those in the typographic Art. It is published in New York by Henry & Huntington at \$1 a year.

DECEASED.—Assistant Postmaster General King has decided that marking a paper with pen or pencil for the purpose of attracting the eye does not subject it to letter postage. This is an important and satisfactory decision.

DEATH OF A KING.—The news brought from the Old World by the Canada, announces the death of his Majesty the King of Dahomey. He was remarkable as having been a ferocious brute, if an expression so strong may be applied to a personage so exalted, and for having maintained a body guard of female warriors—a troop of Amazonian Ebony. And when he died the Kingdom of Dahomey showed the sincerity of its affliction by sacrificing with the most ungenerally sacrifice, eight hundred niggers to his honored janus.

A JAIL OF SOLID ROCK.—The people of Calhoun county, Alabama, are building a jail the first story of which is to be of solid rock, and no rock allowed therein less than three feet wide, and eighteen inches thick. Every rock in the dungeon is to be dovetailed and the outside all hammer-faced. The lower story is divided into three rooms—one a dungeon, one for debtors, and one for females.

Problem No. 9. The Uxor Division.—A gentleman rented a farm, and contracted to give to his landlord two fifths of the produce; but prior to the time of dividing the corn, the tenant used 45 bushels. When the general division was made, it was proposed to give the landlord 18 bushels from the heap, in lieu of his share of the 45 bushels which the tenant had used, and then to begin to divide the remainder as though none had been used. Would this method have been correct?

The Huntingdon Presbytery met in this place on Tuesday last week, and after a session through with their usual deliberations, they adjourned on the 14th day following.

Intelligence reached Fort Smith Ark., on the 21st ult. of the death of the famous Semole chief, Billy Bowlegs. Suspicions are entertained that he was poisoned.
