

Farmers' Column.

He that by the plough would thrive, Himself must either hold or drive. POTATOES FROM THE SEEDS. I have frequently seen inquiries for directions in raising potatoes from seed of the potato ball.

"By proper culture, potatoes grown from the seed in the first year, gave large, perfectly ripe, and eatable tubers; so that from a Magdeburg acre, about ninety bushels were harvested. The seed, mixed, with dry earth, was thinly sown in the middle of April, in rows a foot apart, in good garden ground.

"The potatoes generated in this way exhibit constantly a great vitality. The vegetation is much more luxuriant, and the produce of the tubers more abundant, and have proved much more hardy and less liable to disease."

New and valuable varieties are originated from the seed, but as far as my observation extends, the produce has been very small in size the first year; perhaps this may have been caused by the plants being left too thick in the bed when sown; with a garden trowel, the plants can be safely transplanted when four or five inches high.

Those intending to sow the seed will perhaps do well to transplant a portion of the plants. If so, I hope they may report the result of their experiment for publication in the Country Gentleman. L. B. If your correspondent "F" has a hot-bed, he can sow his potato seed in it, thinly in drills, about 4 or 5 inches apart, and half an inch deep; about the 1st of April. The plants will be up in a couple of weeks or so, and when two or three inches high, should be transplanted out into good rich, mellow soil, about two feet by three apart, and kept well cultivated. By this method the tubers of some of the sorts will reach a fair size for the table the first year. I have raised them nearly three inches in diameter the first year. But if a hot-bed is not accessible, then the seed may be sown in some warm, sheltered place, about the 1st of May, if the locality is in the Northern States, earlier if further South. Water occasionally in dry weather, till the plants appear. When large enough, transplant as above. In the latter case the tubers will be rather small, but will get their growth at their growth at the end of the season— Correspondent of Country Gentleman.

NOT TOO DEEP. There is generally a disposition, in transplanting trees, to set them too deep. As a rule, they should be planted somewhat shallower than they formerly stood. With particular respect to evergreens, shallow planting should be observed, the root of which, in their natural state, approach very near the surface. An evergreen, and indeed almost any tree, when it shows stuntedness, say after being transplanted two years, should be taken up and re-set, or exchange its location with another tree in the same condition.

Birds—Preparation of Seed Corn. "A plea for the Birds" in your paper causes me to come forward with my plan, which is a plan to receive the benefit of the insect-catching propensity of the birds, and a remedy against their corn pulling operations. It is this: as soon as your corn comes up feed the birds. Grow with not (as far as my experience goes) pull corn if they are properly fed, and the want feeding but a short time. Two quarts sowed over a field of ten acres about twice, while the corn is in danger, will supply all that take the privilege of boarding on me; but even it took a half bushel or a bushel, it would be cheaper than exterminating the birds. I star and plaster my seed at planting (not gaster). I never had any difficulty about my seed coming up.—Country Gentleman.

Lampas in Horses. Dr. T. Webb veterinary surgeon, in a communication to the Ohio Farmer, speaks of lampas as being, in general, not a disease in itself, but the effect of another disease. "Should the bars of the mouth," he says, "present a red and tumid appearance, and appear bulging, and upon a level with the surface of the nippers, this is ascribable to congestion of the blood, and albuminous infiltration into the cellular membrane, which attaches the bars to the hard palate. This may cause some difficulty in mastication, but as a general thing, the cause of loss of appetite will be found elsewhere. Whatever may be the organ, the cause does not lie in the palate, nor is it removed by the barbarous practice of burning out. The best practice is to cool on bran mash for a time, and give cooling drinks, and the horse will soon eat hay and corn with avidity."

THE GREAT PURIFIER! THE WORLD CHALLENGED! TO PRODUCE ITS EQUAL!

THE BLOOD SEARCHER. GLORIOUSLY TRIUMPHANT! Sworn statement of David McCreary, of Napoleon Township, Bedford county. In April, 1857, near I can remember a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending I called on Dr. Ely, of Schellburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davisville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Statter, of Clairsville, Bedford county, who also pronounced the disease to be Cancer, and applied a Salve said to be a never-failing remedy, but it had no effect. In December, of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati where I consulted Dr. R. S. Newton of the Eclectic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment, and gave me internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the care of Dr. Newton, with whom I remained until September, during which time he made every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's ointment, and also medicine that I obtained from Dr. Ely, but the Cancer continued growing until it had eaten off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured. Dr. Ely said he could give me relief; but that a cure was impossible. In March, 1858, I bought a bottle of "Blood Searcher," but I must confess I had no faith in it, as I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle and I have been healthier since than I have been for the last ten years. Although my face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and which has been done through the instrumentality of LINDSEY'S IMPROVED BLOOD SEARCHER. DAVID MCCREARY. Sworn and subscribed, this 21st day of August, A. D. 1858, before me, one of the Justices of the Peace in and for the Borough of Hollidaysburg, Blair county Pa. JOHN GOBLEY. Witness—U. J. Jones.

NEW EVIDENCE. Being afflicted with a grievous Tetter on the arms and face—after trying many remedies which entirely failed to cure—I was persuaded by W. M. Barnes Co. to try Lindsey's Improved Blood Searcher; and now, six weeks after finishing the second bottle, pronounce myself cured. The tetter broke out, something over a year ago, the inside of my right arm extending from the elbow down to the wrist; also on my face, immediately round the mouth and chin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, at times, were almost useless, owing to the great itching and sores on them, liable to bleed at any time with the least exertion to lift or work, and sometimes so itchy that I could scarcely prevent tearing up my flesh. I have now been cured six weeks and feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefited by using his valuable medicine. JANE WILSON.

Sworn and subscribed before me, one of the Aldermen in and for the City of Pittsburg, this 25th day of July, A. D. 1858. J. ANTON MCMASTER, Alderman. Hollidaysburg, Sept. 22, 1858. ly.

DALLEY'S MAGICAL PAIN EXTRACTOR. In all diseases inflammation more or less predominates—now to allay inflammation strikes at the root of all diseases—hence an immediate cure. DALLEY'S MAGICAL PAIN EXTRACTOR and nothing else, will allay inflammation at once, and make a certain cure. Dalley's Magical Pain Extractor will cure the following among a great catalogue of diseases: Burns, Scalds, Cuts, Chafes, sore Nipples, Corns, Bunions, Blisters, Strains, Bites, Poison, Chills, Gout, Swelling, Rheumatism, Sore Head, Salt Rheum, Baldness, Krysids, Ringworm, Barbers Itch, Small Pox, Measle Rash, &c., &c. To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applicable to a particular ailment. DALLEY'S MAGICAL PAIN EXTRACTOR in its effects is magical, because the time is short between diseases and a permanent cure; and it is an extractor, as it draws all diseases out of the affected part, leaving nature as perfect as before the injury. It is necessary to say that no house-work shop, or manufactory should be one moment without it. No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer. For sale by all the Druggists and patent medicine dealers throughout the United States and Canada. Price, 25 Cents. New York, 155 Chambers St. C. F. CHASE. John Read, Agent Huntington Pa. Nov. 17, '58.—ly.

GLIMAX GRAIN FAN. This is a new and improved, and is better, cheaper, smaller, lighter, more simple, requires less power will chaff and clear grain and seeds more rapidly, and with far greater economy than any other Grain Fan in use. Send for a descriptive catalogue to Wm. L. Boyer & Bro., Agricultural Implement Factory, Philadelphia. Sept. 29th, 1858.—Om.

Miscellaneous Advertisements.

PREMIUMS AWARDED THE JOURNAL OFFICE AT THE LATE FAIR, FOR THE BEST BLANK AND FANCY PRINTING.

TAKE NOTICE. Advertising and Job Work. We would remind the Advertising community and all others who wish to bring their business extensively before the public, that the Journal has the largest circulation of any paper in the county—that it is constantly increasing;—and that it goes into the hands of our wealthiest citizens.

We would also state that our facilities for executing all kinds of JOB PRINTING are equal to those of any other office in the county; and all Job Work entrusted to our hands will be done neatly, promptly, and at prices which will be satisfactory.

S. M. POTTENGIILL & CO'S Advertising Agency, 119 Nassau St., New York, & 10 State St., Boston. S. M. Pottengill & Co. are the Agents for the "Journal," and the most influential and largest circulating Newspapers in the United States and the Canadas. They are authorized to contract for us at our lowest rates.

Green Willow Foundry. I WOULD respectfully inform the public that I have commenced business at the above place, and will be ready to accommodate all who may want anything in my line of business. I will have on hand or make to order Threshing Machines, and all other machinery that may be called for. Castings of every description, (Cook and Parlor Stoves, Plows, Hollow-ware, &c.)—All kinds of Turning, either wood or iron, and Blacksmithing will be done in the best manner and on the most reasonable terms. Farmers and others wishing to purchase new machines will find it to their advantage to give me a call. All kinds of Country produce taken in exchange at market prices. PETER TIPPERY. Waterstreet, Oct. 13, 1858.—ly.

HUNTINGDON WARM SPRINGS. The Warm Springs at the base of Warrior's Ridge, five miles north of Huntington, overlooking Standing Stone Creek, and embraced by romantic hills and woodlands, have been leased by the former proprietor, to the Leazer House. The extensive Hotel buildings, bath houses, &c., erected at great expense by General A. P. Wilson, have been completed—and the groves have been beautifully laid out and adorned.—The Hotel parlors and chambers are airy and comfortably furnished, and the prospect, from the verandas for beauty, cannot be excelled. For half a century, these Springs have been celebrated for their medicinal qualities, and the great nature of the water in rheumatic and chronic affections. The temperature of the water being 69½ degrees, renders the bathing delightful and invigorating. In the surrounding woods and mountains, game abounds, and the finest fish are caught in Stone Creek. Persons in pursuit of health or pleasure, will find this a most delightful and healthful retreat; and its nearness to the Pennsylvania Railroad, and the cheapness of the rates charged guests, give it a decided advantage over any other watering place in the State.

The Proprietor has had years of experience in the business and no pains or trouble will be spared to make guests comfortable. Hecks run from Huntington to Warm Springs on the arrival of the different Railroad trains—fare 25 cents. Families accommodated at moderate terms. JOHN R. HERD, Proprietor. Warm Springs near Huntington, June 5th.

HO! THIS WAY. Does anybody want to get into good business, by which they can make from \$75 to \$100 a month without any labor? If so send me 5 cents in stamps or money, for return postage, and by return mail, you will receive circulars of the grandest money-making scheme ever appeared to man. Discovered by Georgia and proved to be invaluable by a million of Southern people. Address, A. C. DENSON, Mobile Ala. Sept. 22, '58.—ly.

SELLING CLOTHING AT PRICES TO SUIT THE TIMES. 1858. FALL AND WINTER GOODS. N. Gutman & Co., 1858. Inform the public generally, that they have just received a large stock of Fall and Winter Goods, consisting of COATS, VESTS, PANTS, &c., &c. Also, BOOTS, SHOES, HATS, CAPS. His stock of Clothing is of the latest fashion, and as they are determined to sell as cheap as the cheapest, the public will do well to give them a call and examine their stock. Don't forget the place—Long's brick building, on the corner, Market square, Huntington. Oct. 13, '58.

LITERARY BUREAU. FALL AND WINTER CLOTHING! A New Assortment Just Opened! And will be sold 30 per cent CHEAPER THAN THE BEST! H. ROMAN, respectfully informs his customers and the public generally, that he has just opened at his store-room in Market Square—Huntingdon, a splendid new stock of Ready-made Clothing for Fall and Winter, which he will sell cheaper than the same quality of Goods can be purchased at retail in Philadelphia or any other establishment in the country. He has also a large stock of Clothing, well to call and examine his stock before it reaches elsewhere. Also, Hats, Caps, which will be sold lower than at any other establishment in the county. Huntington, April 1, 1858.

STAGE LINE FROM Chambersburg to Mt. Union. The undersigned aware that a suspension of the line of Stages over the road between Chambersburg and Mt. Union, cannot be but disadvantageous to a large section of the country, has, at a considerable expense and trouble made arrangements to run a line of Stages Tri-weekly between the two points. Good Horses and comfortable Stages have been placed on the route, and an experienced and trustworthy driver will superintend the running of the Coaches. The proprietor of the line is desirous that it be maintained, and he therefore calls upon the public generally to patronize it, as it is the only one that will be for their mutual advantage. Every attention necessary will be given, and the running of the Stages will be regular. Stages leave Mt. Union, every Tu day, Thursday, and Saturday evenings, arrive at Chambersburg the next day at 2 o'clock. Return, leave Chambersburg, the same night at 10 o'clock, arriving at Mt. Union, next evening in time for the cars. Between Mt. Union and Shade Gap the line will be daily. Fare through \$3; to intermediate points in proportion. J. M. CUNNINGHAM & BRO. Jan. 20th, 1858.—ly.

DR. J. R. HUYETT DENTIST. ALEXANDRIA, HUNT. CO., PA. April 1, 1858.—ly.
