JOY TO THE ADMIRERS OF RICH GLOSSY HAIR.

Talk of beauty, it cannot exist without a fine head of hair, then read the following, and if you ask more, see circular around each bottle, and no one can doubt. PROF. WOOD'S HAIR RESTORATIVE.—We call the attention of all, old and young, to this wonderful preparation which turns back to its original color, gray hair—restores the lustre of the hair, and cures all eruptions—causes a continual flow of the natural oil of the scalp, and is used as a regular dressing for the hair to preserve its color, and keep it from falling to extraneous aid, as all the hair grows, it will fall upon the scalp, the grey, or diseased in scalp, to use it, and surely the young will not, as they value the flowing locks, or the winking curl, ever without it. Its praise is upon the tongue of thousands.

ANTIPHLOGISTIC SALT;

A Perfect Substitute For the Lances, Leeches and Blisters!!! when the undersigned, after a long series of laborious and costly experiments, became fully convinced in his conviction, that the Antiphlogistic Salt, which he now has the happiness to present to the American public, was a PERFECT SUBSTITUTE For Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was like that of the victim in vaccination, could not be satisfactorily explained upon any known principle. How, in what way, it so effectually subdued Inflammatory Disease, and so others, experienced in a similar manner, but, on further reflection, he was satisfied that it equalized the fluids of the body, the want of an equilibrium in which, is the sole cause of inflammation. Such is its potency, that like the vaccine matter, it requires merely a slight application to effect the entire absorption of the virus, to effect the entire decomposition and secure its full virtue. Three quills in acute, and two in chronic diseases, every 24 hours, till the heat, pain and inflammation is subdued, and a perfect cure effected, then it takes the place of blisters, ointment and leeches in local affections, as Brain Fever, Comp. Toothache, Pleurisy, &c., its mode of administration is two-fall. (See circular of distribution.)

GROVER & BAKER'S MACHINES.

These Machines sew from two spools, as purchased from the store, requiring no winding of thread; they Hem, Felt, Gather and Stitch in a superior style, finishing each seam by their own operation, without recourse to the hand-needle, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for one cent an hour, and are, unquestionably, the best Machines in the market for family sewing, on account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment.
