

Farmers' Column.

He that by the plough would thrive, Himself must either hold or drive.

HUNGARIAN GRASS.—A correspondent, in the Albany Cultivator, in answer to an inquiry for the best substitute for hay, gives preference to the Hungarian Grass over every thing else. He says:

"It grows at the rate of six or seven tons per acre. The seed is of an oily nature, and horses and cattle will eat the seed before corn or oats, and the hay before timothy or clover. Horses, having been fed on grain and good timothy hay, being changed to one half the grain and this hay began to improve immediately in flesh, and their coats more sleek and shiny. Cattle will do very well on this hay after the seed is threshed out. The grass has good roots, grows deep in the ground, and will stand dry seasons much better than any other kind of grass. The dryest seasons will not make the grass wilt in the middle of the day. After the grass is mown it will sprout or sucker very thick, and will make much more pasture than timothy and clover, after being mown, during the summer and fall. In some sections, where timothy hay sells for ten dollars per ton, the hay of the Hungarian Grass brings from twelve to fifteen dollars per ton."

THE CORN GRUB.—The corn crop has several formidable enemies to contend with and among them is the grub, which sometimes literally destroys whole fields, and frequently damages the crop seriously.—One of the best and most judicious remedies—perhaps the very best ever suggested—is the application of salt as soon as the plant makes its appearance above ground prepared, in this way: Take one part common salt and three parts plaster or gypsum and apply about a tablespoonful around each hill, and it will be found to be a sure protection. The mixture should not come in contact with the young plants, as it may destroy them. This method has been tried over and over again by some of the best farmers of Pennsylvania, Delaware and New Jersey, and when properly applied, has never failed to be perfectly successful. We hope our farmers, who have reason to fear the depredations of the grub this season, will try this mixture, leaving a few alternate rows of corn without the salt, and communicate to us the result.—Germantown Telegraph.

TOMATOES.—The Plattsburg Republican gives the following feasible looking plan for growing early tomato plants, which we reprint now, that it may be tried while it is still "about the first of April." To those who do not happen to have needle bulbs, we recommend grass sods, cut two inch squares, laid bottom up in a box.

"About the first of April take a few large turnips and cut out the hearts of them, to form a sort of cup. Fill the cavities with earth, and plant two or three to each seed in each. When the seeds have well sprouted, pull up all but the healthiest plants in each turnip, and let those that remain stand where they will have the benefit of the sun, the plant will grow very thrifty—the decaying turnip furnishing its food. When the weather becomes sufficiently warm, set the turnips in well prepared soil, not less than three feet apart; make lath frames to keep the soil well hilled up around them and you will have a crop that will astonish the natives. The advantage consists in getting the plants started early without setting them back by transplanting.

BETTER PROSPECTS FOR FARMERS.—We would not encourage any false hopes, or say a word to lead farmers or others to relax the strict economy which has been impelled, or compelled by the depressed financial condition of the country, for the past year. Still, we think, so far as we can observe and study "the signs of the times," from an advantageous point of observation, there is much to encourage the hope that a more prosperous state of affairs lies but a little way ahead of us. The use we would now make of this, is, to encourage farmers to a more extended and thorough cultivation of various crops, the present spring. The season bids fair to be a favorable one.—Prices of produce are, in the main, higher than they have been for some time past, and will probably increase still further. Let every one make an effort to plant or sow an acre or two more than they had intended, and to till these crops already planned for, with more care. The extra produce thus secured may be a make-weight to turn the scale in favor of future prosperity.

HINTS TO FARMERS.—Toads are the best protection to cut bags against lice. Sulphur is valuable in preserving grapes &c., from insects. In feeding corn sixty pounds ground go as far as one hundred pounds in the kernel. Corn meal should never be ground very fine, as it injures the richness of it. A shipment of "mess beef" lately arrived at San Francisco, from Australia, has proved upon examination, to be pickled kangaroo!

THE HUNTINGDON JOURNAL.

THE undersigned owners of the Huntingdon Mill, inform farmers and the public generally, that they now have their new mill in running order, with the most modern improvements in the water wheels and machinery.

They have put in five of the Improved Joint Turbine Water Wheels, and can grinding all stages of the water, and during the wet weather, any and all kinds of grain.

They are prepared to sell, and have on hand for sale at all times, at market rates, all kinds of FLOUR, FEED AND STUFFS, and farmers can have their own grain ground, and take it back in a return load, or they can be furnished in exchange at a moment's notice an equal quantity of Flour and Bran or chopped feed.

THE SMUT MACHINE

is of an improved manufacture, and they will insure a FULL TUN OUT of superior quality to every bushel of grain left at their mill.

IN BLAST AGAIN!

Huntingdon Foundry.

THE SUBSCRIBERS TAKE THIS METHOD of informing their friends and the public generally, that they have rebuilt the Huntingdon Foundry, and are now in a successful running order, and are prepared to furnish castings of all kinds, of the best quality on the shortest notice and most reasonable terms.

Farmers are invited to call and examine our ploughs. We are manufacturing the Hunter Plough, (this plough took the premium at the Huntingdon County Agricultural Fair, in 1855) also Hunter's celebrated Cutter Plough, which can't be beat, together with the Keystone, Hill-side, and Barshear Ploughs. We have on hand and are manufacturing stoves, such as Cook, Parlor and office stoves for coal or wood.

HOLLOW-WARE

consisting of Kettles, Boilers, Skillets, &c., all of which will be sold cheap for cash or in exchange for country produce. Old metal taken for new castings. By a strict attention to business and desire to please, we hope to receive a share of public patronage.

STAGE LINE

FROM Chambersburg to Mt. Union

The undersigned aware that a suspension of the line of Stages over the road between Chambersburg and Mt. Union, cannot be but disadvantageous to a large section of the country, has, at a considerable expense and trouble made arrangements to run a line of Stages Tri-weekly between the two points. Good Horses and comfortable Stages have been placed on the route, and experienced and trusty drivers will superintend the running of the Coaches. The proprietor of the line is desirous that it be maintained, and he therefore calls upon the public generally to patronize it, as it is evident that it will be for their mutual advantage. Every attention necessary will be given, and the running of the Stages will be regular.

Stages leave Mt. Union, every Tuesday, Thursday and Saturday, and leave Chambersburg the next day at 2 o'clock. Returning, leave Chambersburg, the next evening at 10 o'clock, arriving at Mt. Union, next morning at 10 o'clock. Between Mr. Union and Stone Gap the line will be daily.

Fare through \$3; to intermediate points in proportion. JOHN JAMISON Jan. 20th, 1858.—ly

HUNTINGDON WARM SPRINGS.

The Warm Springs at the base of Warrior's Ridge, five miles north of Huntingdon, overlook Stone Creek, and are surrounded by romantic hills and woodlands, have been leased by the former proprietor of the Leamer House.

The extensive Hotel buildings, bath houses, &c., erected at great expense by General A. P. Wilson, have been completed, and the grounds have been beautifully laid out and adorned.—The Hotel parlors and chambers airy and comfortably furnished; and the prospect, from the verandas for beauty, cannot be excelled.

For half a century, these Springs have been celebrated for their medicinal qualities, and the great nature of the waters in rheumatic and chronic affections. The temperature of the water being 69 degrees, renders the bathing delightful and invigorating. In the surrounding woods and mountains, game abounds, and the finest fish are caught in Stone Creek. Persons in pursuit of health or pleasure, will find this a most delightful and healthful retreat, and its nearness to the Pennsylvania Railroad, and the cheapness of the rates charged, guests, give it a decided advantage over any other watering place in the State.

The Proprietor has had years of experience in the business, and no pains or trouble will be spared to make guests comfortable.

Bucks run from Huntingdon to Warm Springs on the arrival of the different Railroad trains—fare 25 cents. Families accommodated at moderate terms. JOHN R. HEED, Proprietor. Warm Springs near } Huntingdon, June 5th }
