

LOCAL INTELLIGENCE.

TAIP UP BROAD TOP.—Last week we took a trip over the Huntingdon & Broad Top Railroad, to the town of Hopewell, in company with quite a number of our fellow-citizens and persons from other parts of the country.

The Broad Top Railroad is one of the most substantially built and pleasant roads to travel on, in this or any other State. The bridges are built on the latest and best plans for durability and strength; the trestle work is firm as the mountains which surround it, and the excavations and embankments all right.

This flattering condition of the road is owing to the good management of its officers.—It is unnecessary for us to say a word commendatory of the worthy Superintendent, J. J. Lawrence, Esq. The Company have secured in him one of the ablest, most obliging, and attentive officers, to be met with any where.

After spending an hour very pleasantly, we started on our return, stopping at the handsome little village of Saxton for a crowd of passengers, among whom was a very fair one; and of course we counted ourselves in, enjoying ourself accordingly, in conversation, until we reached home again.

WHAT WE SEE AND HEAR.—In our perambulations through the streets, we see and hear little matters of news, which we shall string together like "snits," and give to our readers to swell on. The music in the Town Hall, the other evening, by the String Band, was incomparable; the performers are well skilled in the soothing art.—Some of the plug uglies of our village indulged in a free fight on Wednesday evening last, near the post office, which resulted in the lodgment of one of the parties in prison.—Our streets are brilliantly lighted at night by gas lamps, and our good citizens appear to be quite pleased with the novelty of the thing, notwithstanding the hard fight they had to get the "town daddies" to adopt the good and sensible measure.—Our townsmen Cremer, is having a beautiful portion put up at his own dwelling. The foundation and steps are marble, and when completed will be very handsome.—We love to see a pretty yard in which flowers are growing, and vines winding up the porch. Why don't all our citizens emulate Miss Prue Jackson, in making their premises beautiful with sweet flowers.—The vaults in course of erection at the Court House in which the records of the county will be placed for safe keeping, will be completed about the latter part of this month.—An individual is town, the other evening when passing where some ladies were sitting, to show his good breeding, mimicked an expression made use of by one of the party. We happened to be passing at the time, and thought, in a stranger, we had never seen a surer token of the polished—puppy.—Last Wednesday was a remarkable cold day for the season; some of our citizens were indulging in the luxury of a rousing fire. To day it feels very much like a young Purgatory, and our collars drop to the withering heat.—We hear some talk of forming a new sager company in town, to be called the Campbell Rifles; we hope that the idea will be carried out. We have the material, all that is lacking is some patriotic spirit to take the lead.—We saw a couple of fancy chairs on Saturday, manufactured by one of our leading attorneys, who spends his leisure moments in exercise in his own carpenter shop. They are as handsome pieces of mechanism as can be manufactured in any place, and are not the only articles he has turned out.

Spring has brought out a new style of dress. Cloaks and furs have given place to something else and something else will give place to some other sort of a thing, probably not so good and beautiful as the former. Ladies head dresses are composed of natural hair, combed to suit the season, generally with a backward wave and tied up with a ribbon at both ends. The bosom is more exposed than in winter, but not more so than is ordinary in well regulated "upper circles." An erect attitude is encouraged, and hoops increased, so as to cast a large shadow in the heat of the day, for the comfort of the children who may accompany the flame de la maison on her promenade. Cameos representing June bugs are much worn.

SEN STROKE.—The individual we noticed in our last issue as having died from the effect of an stroke, was named Crum. He had been working in the field, harvesting, when he was struck down.

ON! DEAR.—When Hamlet expressed the desire that "this too solid flesh would melt," he didn't think of such days as last Thursday. To judge but it was worse.

SPREAD EAGLES.—On the fourth page of today's paper, will be found a splendid song by Prof. Drake. It is a striking contrast between real merit and fourth-of-July spread-eagles. It is fortunate for sophomore orators, stump speakers, Congressional declaimers, etc., of this latter class, that Prosecuting Attorneys are tolerant men, and do not have them indicted for outrageous cruelty to the spread eagles.—This highly respectable bird is compelled to cut up all sorts of pranks, and appear in the most ridiculous places without any regard to the units of time and place. One orator, not to be outdone, has this eagle's feet "on the highest peak of the Rocky Mountains, one wing laved by the Atlantic and the other by the Pacific ocean, his tail dipped in the Gulf of Mexico, and his beak in the open Polar Sea." We think our Fourth of July orators will have to give up spread eagles and take up some less pretentious bird. If they don't, come down like Capt. Scott's coon after that, they are utterly hopeless.

HARVESTING.—Now is the busy time of our farmers in harvesting their grain. The weather has been very propitious for this important agricultural operation, and much grass and grain were cut the past week, and from the appearance of the weather at the time this paragraph is being written, the present week promises to be everything a farmer could wish for cutting grain. The crop of wheat and in fact all other grain in this county, promises more than an average yield, notwithstanding the supposed irreparable damage inflicted by the hard frosts, the hail, the unusual amount of moist weather, etc., etc. The wheat and rye fields are rapidly "going under," and although it is something unusual, we hear of no complaints of either fly weevil or blight from our country friends. The corn is looking up finely, and in the language of our friend Stewart, bids us hope for a "stupendous" yield.

THE "FOOTSTEPS OF THE CELT."—A poor, forlorn looking Celt, on Saturday last, was so far overcome by the heat of the sun or flaming red-eye whisky, that he was compelled to lie down on the railroad track, on the embankment below town, about the time the passenger train was due. We happened to be in that neighborhood at the time, and observing him endeavor to get him off the track; we got him on his feet, but he proved too much for our physicians, and down he went, thump, thumping, some twenty feet. Not wishing to follow in "the footsteps of the Celt," and seeing that he was safe and uninjured, we passed on and "left him alone in his glory," just as the cars came thundering on.

We notice in the Peoria papers, copious extracts from an oration delivered in that city on the 4th inst., by our former townsmen, Wm. McCallard, Esq., now a resident of the former city. It is spoken of as a masterpiece of eloquence, unsurpassed by any oration, delivered on a similar occasion, in Peoria. Mr. McCallard is a young man of brilliant attainments, and commanding talent; here, where we have had an opportunity of judging, from his long residence, he stands high, as a gentleman and scholar. We are not surprised therefore, to hear the encomiums which are showered upon him, by the press of his adopted home. It is but a just token of the universal respect genius receives everywhere, in this, our happy land.

H. B. SWOOPES, Esq.'s, ADDRESS.—Quite a large meeting assembled in the Court House on Monday evening last, to hear Mr. Swoopes expatiate on the "History, Philosophy and Poetry of the Bible," notwithstanding, the notice was "not published in the Globe," and the drum and file were not pressed into service.—We are free to say that the "historical" part of Mr. Swoopes's subject, was very eloquent, and decidedly the best. We thought we had heard it before, and on examining our files, we find almost verbatim, the same thing in the address delivered by H. McDivitt, Esq., before the Huntingdon county Teachers' Institute, Dec. 22, '53, and published in the Journal, Feb. 1st, 1854. The curious can see it by calling at our office. Mr. Swoopes is guilty of gross plagiarism, and literary theft.

HARVEST HOME.—We have been spoken to by several of our country friends, on the subject of having a general jollification at this place, immediately after harvest, of farmers and all others wishing to participate. The idea is an excellent one, and we trust our agricultural friends who have taken the matter in hand will carry out the project. See to it, friends.

SCAM MAG.—A highly respectable married man of this borough, as we are informed by excellent authority, visited a certain village not a thousand miles from Huntingdon, on the 4th inst., became very intimate with "ye girls"—passing himself off as an unmarried man—and "cutting out" all single fellows. Oh!—think of Betsey and the babies.

SABBATH SCHOOL, PIC NIC.—The Sabbath School connected with the Episcopal Church of this place, held a festival on Saturday last at Beechen Glen. The day was beautiful, and nothing occurred to mar the pleasure of the excursionists.

We observe, almost every evening, many of our blooming lads and lassies taking excursions to the hills, etc. This is right; what matters it how much shoe leather you wear out provided it improves the health and gives us pleasure.

MILITARY ELECTION.—At the election for Major General, held in this place on the 4th inst., the brigade voted unanimously for Gen. John C. Watson. We did not hear of any opposition to Gen. Watson. He has filled that office ably for some time.

PEARL.—We were shown a very pretty little fresh colored pearl, on Saturday, found by Master Willie Dorris, within a mussel. It is about twice the size of the head of a pin, and is valued at two or three dollars.

Several of our young men have been prosecuted for bathing in the canal, within the borough limits, on the Sabbath day. "The way of the transgressor is hard."

Persons wishing to see the editors will generally find them at the printing office. In their absence however, invitations to dine and challenge to fight should be left either with the publisher, or in our table drawer.

MILNWOOD ACADEMY.

MALE AND FEMALE INSTITUTE.

Shade Gap, Huntingdon County, Pennsylvania.

W. H. WOODS, A. M. Proprietor and Principal. Mrs. F. T. WOODS, Principal of Female Department. J. ALFRED SHADE, M. D., Professor of Anatomy and Physiology. ALBERT OWEN, Lecturer on Art of Teaching and Phys. Geny. Miss ANNA G. PATTON, Teacher of Music, Drawing Grecian and Italian Painting and Fancy Needle Work.

The next session of this Institution will open the first Wednesday of May. It holds out superior advantages to those seeking an education. The Board of Instruction is large, and composed of those who are thoroughly qualified for their profession. To Parents and Guardians who wish to place their children in a secure and healthy retreat, it holds out peculiar inducements. A NORMAL SCHOOL will be formed the present session, to which Mr. Owen, our worthy County Superintendent, will give lectures on the Art of Teaching and Physical Geography. In the COMMERCIAL DEPARTMENT, young men will be thoroughly qualified for the counting room. TERMS, for session of five months, \$55.00. Light and fuel extra. Lessons in Music, French, Drawing, Painting and Fancy Needle Work, extra.

For further particulars address W. H. WOODS, N. B.—By those desiring places, early application should be made. Apr. 6 '59.

PIKE'S PEAK GOLD

Cannot rival in attraction the superb stock of Spring and Summer Goods now being received and opened by FISHER & MURRAY.

This stock has been selected with great care and the public are cordially invited to call and examine it.

It comprises all the late styles of Ladies' Dress Goods, such as Puffs, Robes, Laces, Organzas, Jacquets, Lawns, Challis, plain and figured Berages, Crapes, Marets, Plain and colored Chintzes, French and English Ginghams, Amaranths, Valentias, Alpaccas, Debagre Prints, &c., &c.

A beautiful assortment of Spring SHAWLS, round and square corners, all colors. A full stock of Ladies' Fine Collars, Gentlemen's Furnishing Goods, such as Co. lars, Cravats, Ties, Stocks, Hosiery, Shirts, Gauze and Silk Underhirts, Drawers, &c.

Come one, come all, and be convinced that the "METROPOLITAN" is the place to secure fashionable and desirable goods, disposed of at the lowest rates. Apr. 14, '59.

READ! READ! READ!!!

ESSENCE'S AROMATIC BALSAW. Is a remedy not to be excelled for the relief and cure of those maladies incident to the summer season, viz:

Diarrhoea, Dysentery, Cholera & Cholera Morbus, Vomiting, Acidity of the Stomach, &c. Its excellent Carminative powers, pleasant taste and soothing influence, renders it a valuable remedy in infantile diseases, peculiar to the Second Summer, viz.—Cholera Infantum, &c. It has a reinvigorating and tonic influence on the system, allaying inflammation where it exists in the stomach and bowels—and on trial will be found indispensable to the well and invalid to adults and children.

Prepared only by A. E. FENWINE, Jr. 25 cents a bottle. Dispensing Chemist. Ninth & Poplar Sts., Philadelphia. Sold by J. Read, Huntingdon, and Druggists and Storekeepers generally. [May 25, '59. 1y.

1859. SPRING & SUMMER CLOTHING. 1859.

The undersigned would respectfully call the attention of our friends and customers, as well as the citizens of the town and country generally, to our new and extensive assortment of READY-MADE CLOTHING consisting of every article of gentlemen's furnishing goods. We deem it unnecessary to make a newspaper flourish, being confident that a call and an examination of our goods, will satisfy all, that our goods are just what we recommend them to be, well made, of good material, and as cheap as the same quality of goods can be bought in the county of Huntingdon, or in any other place, as it is the policy of honest men, to deceive, but this much we will say, that we will guarantee to all who may favor us with their patronage, entire satisfaction as to quality, fit and price. Should gentlemen desire any particular kind of goods, not found in our stock, by leaving their measure, they can be accommodated at short notice. Call or order at the diamond, Long's new house. May 4, 1859. M. GUTMAN & CO.

MANSION HOUSE, HUNTINGDON, PA. CHRISTIAN COUTS, Proprietor.

This stand is well known as the "McConnell House." The location is superior to any other, being in the immediate proximity to business; also to the Bank and most Public Offices. It is the determination of the Proprietor, to keep this House in a style satisfactory to the public, and it is his desire, to make all who patronize him, feel at home, and to make the "Mansion" rank among the best of Huntingdon Hotels. He very respectfully solicits the public patronage. Apr. 13th '59

BOOKS! BOOKS!

40,000 Volumes of Books for Sale. \$500.00 in Gifts for every 1000 Sold. In order to reduce my extensive stock I will sell one thousand dollar worth of Books at the regular retail prices or less, and give \$500.00 hundred dollars worth of presents varying in value from 25 cents to \$100.00. Or, those who prefer can purchase at wholesale prices.—My stock consists of every variety and style of binding. School Books of every kind, whole sale and retail. Sales to commence Dec. 24th. W. M. COLEMAN. Dec 22, '59.

DAPER! PAPER!! Note, Post, Commercial, Foolscap and Flatcap—a good assortment for sale by the ream, half ream, quire or sheet, at Lewis' New Book and Stationery Store, Dec. 22, '59. All kinds of blanks for sale at the Journal office.

SAVING FUND.

National SAFETY TRUST Company. Incorporated by the State of Pennsylvania.

1. Money is received every day, and in any amount, large or small.

2. FIVE PER CENT interest is paid for money from the day it is put in.

3. The money is always paid back in GOLD whenever it is called for, and without notice.

4. Money is received from Executors, Administrators, Guardians and others who desire to have it in a place of perfect safety, and where interest can be obtained for it.

5. The money received from depositors is invested in REAL ESTATE, MORTGAGES, GROUND RENTS, and such other first-class securities as the Charter directs.

6. Office Hours—Every day from 9 till 5 o'clock, and on Mondays and Thursdays till 8 o'clock in the evening.

HON. HENRY L. BENNER, President, ROBERT S. RIDGEE, Vice President, WM. J. REED, Secretary.

DIRECTORS: Hon. Henry L. Benner, F. Carroll Brewster, Edward L. Carter, Joseph B. Barry, Robert L. Seidling, Francis Leo, Saml. K. Ashton, Joseph Yerkes, C. Landreth Munns, Henry Dietzendorfer.

OFFICE: WALNUT STREET, SOUTH-WEST CORNER OF THIRD, PHILADELPHIA.

Prof. Chas. DeGrath's Electric Oil.

This great discovery is now creating a great sensation, among the Medical Faculty of Europe and this country. I will cure the following (not everything): Warranted to Cure Fever and Ague in one day, Cure Chills in five minutes. Cure Grip in one night.—Cure Deafness in two to four days, Cure Burns and Scalds in ten minutes. Cure Sprains, Wounds and Bruises in from one to three days. Cure Inflammation in one day. Cure Neuralgia, Cure Tooth Ache, Burns, in 10 minutes. Cure Hemorrhage, Scrofula, Abscess in ten days. Cure Bruises, Wounds, Tetter, in one to three days. Cure Ear Ache, Siff neck, Ague in one day. Cure Felons, Broken Breast, Sore Throat, in six days. Cure Quinsy, Palpitation, Pleurisy, in one to ten days. Cure Asthma, palsy, Gout, Erysipelas, in five to ten days. Cure Frosted Feet, Chiblaina, Chronic Rheumatism, Siff Joints, Sore Throat, Scarlet Fever, and the lame made to walk by a few bottles. This Oil (De Grath's) is mild and pleasant, and is the greatest family Medicine for children and the aged. Ladies should all use it. It always leaves you better than it finds you, and one bottle often cures entirely.

Read letter from Rev. James Temple. Philadelpia, June 9th 1856. Prof. De Grath I have been afflicted for thirteen years with Neuralgia and other painful complaints, and I have been unable to sleep soundly or walk any distance for many years past. Last week I got a bottle of your "Electric Oil." The first night I slept soundly and well, and to-day I am like a new man. My wife and I believe her eyes. Your Electric Oil has done in one week what the physicians of Philadelphia failed to do in thirteen years. Gratefully yours. REV. JAMES TEMPLE. 310 South street New Haven, May 19th, 1856. Prof. De Grath: My brother has been deaf for three years. After trying many things, he used your Oil a few times, and it cured him entirely. CLIFFORD & SCRANTON. There are numerous imitations sprung up on the reputation that my article has acquired. The public must beware. They are worthless. For sale by S. S. Smith, Huntingdon. May 25 1859.

NEW WATCH & JEWELRY STORE.

J. W. DUTCHER, WATCHMAKER & JEWELLER.

Respectfully informs the citizens of Huntingdon, vicinity, and the surrounding country, that he has commenced business in the room opposite M. Gutman's Store in Market Square, Huntingdon, and solicits the hopes to receive a share of public patronage. WATCHES and CLOCKS repaired in the best workmanlike manner. His stock of WATCHES and JEWELRY is of the best, all of which he will dispose of at reasonable prices. The public generally are requested to give him a call and examine his stock. Mar. 9 '59.

BOOKS! BOOKS!

40,000 Volumes of Books for Sale. \$500.00 in Gifts for every 1000 Sold. In order to reduce my extensive stock I will sell one thousand dollar worth of Books at the regular retail prices or less, and give \$500.00 hundred dollars worth of presents varying in value from 25 cents to \$100.00. COLEMAN. Dec 22, '59.

ANTIPHLOGISTIC SALT; A Perfect Substitute For the Linctus, Leeches and Blisters!!!

When the undersigned, after a long series of laborious and costly experiments, became fully convinced in his conviction, that the Antiphlogistic Salt which he now has the happiness to present to the American public, was a PERFECT SUBSTITUTE for Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact, that the manner of its operation like that of the virus in vaccination, could not be satisfactorily explained upon any known principle. How, in what way, it so effectively subdued Inflammatory Diseases, and how it was at first wholly inexplicable—but, on further experiment, it was proved that it equalizes the fluids of the body, the want of an equilibrium in which, is the sole cause of inflammation. Such is its potency, that like the vaccine matter, it requires merely to be adhered to the point of a quill dipped into a solution of it, to effect the entire system—but must be instantly used to prevent decomposition and secure its full virtues. Three quills acute, and two in chronic diseases, every 24 hours, till the heat, pain and fibrile action have subsided, and a perfect cure effected. When it takes the place of blisters, ointment and leeches in local affections, as Brain Fever, Rheumatism, Pleurisy, &c., its mode of administration is two-fold. (See direction of dissolving, &c.)

The discoverer has withheld it from the public till now, by the advice of a judicious physician and valued friend, who has long been known and felt in the medical world—and who desired to submit it to the test of experiment. After witnessing under his own scrutinizing eye, its signal triumph over both acute and chronic Inflammatory diseases, he responded and related trials, he offered \$250.00 to come in as a special and equal partner in the Recipe for its manufacture, but the proposal was rejected.

The disease of the lancet and blisters, is demanded both by humanity by humanity and science. It is not a mistake, to suppose that a kettle of boiling water (the inflamed blood) will cease to boil, by dipping out a part of it—or a rask of bald cider (bad blood), be made good, by draining a portion of it? It is not a mistake, to suppose that blisters and rubefacients will remove inflammation, when they virtually superadd one inflammation to another? The late Dr. B. Waterhouse, of Harvard University, is a man sick of learned quackery. One of the most eminent physicians in New England acknowledged just before his death, that "he has been doubting for many years, whether blood-letting and blisters did not aggravate rather than arrest disease." Some who stand high in the Old and New School, have quite recently espoused his views and now openly concede, they believe the lancet, setons leeches and blisters injure ten where they benefit one? They think there is a meaning to Dea. Waterhouse's words. "I do not think that 'THE BLOOD IS THE LIFE.' It is not the excess of blood (there never is too much) that causes disease, but the want of a balance between the fluids and solids.

The special excellence of the Antiphlogistic Salt, is that without the useless loss of blood and strength, it effectually subdues inflammatory diseases, (no others) by producing an equilibrium of the fluids in the body and a consequent unimpeded circulation. It exerts, like the vaccine matter, and extraordinary influence over the veins and arteries—resulting in a gradual decline of inflammation as indicated by the pulse, which assumes its natural state as the fever disappears.

Many medicines offered for sale, are backed by doubtful certificates, (their chief virtue) and claim to be universal remedies, curing all diseases—a hurried course on common sense, against having it placed in the category of frauds and impostures, he has resolved that it shall go forth to the world, like the pure gold dollar, with no other passport on common sense. If the public find it genuine, they will receive it—if it is untrue, they will reject and condemn it. Instead of being a rancor for all ailments, it has control over but one ill—has but one aim, and that is to cure the disease, and nothing more. It is a simple, safe, and reliable remedy, and one thing, to wit, that it is INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat chest abdomen, extremities or skin. It is asked, how does it do this—simply by restoring the lost balance between the fluids and solids.

The following different forms which the unbalanced fluids assume, and many not here mentioned that have more or less heat, pain or fever (no others) are as perfectly cured by the Antiphlogistic Salt, as fire is extinguished by water. Cases where the unbalanced fluids affect the HEAD and THROAT—to wit, Brain Fever, Fits, Headache, Inflamed Eyes, Ears and Nose, Croup, Neurology, Erysipelas, Catarrh, Croup, Bronchitis, &c. Cases where the unbalanced fluids effect the CHEST and ABDOMEN—to wit; Inflamed Lungs and Liver, Colic, Pleurisy, Coughs, Diarrhoea, Asthma, Dropsy, Heartburn, Gravel, Piles, Gonorrhoea, &c. Cases where the unbalanced fluids effect the EXTREMITIES and SKIN—to wit; Rheumatism, Gout, Scrofula, Ulcers, Chiblaina, Chiblaina, Chicken and Small Pox, Sore Throat, with itching and Cutaneous Affections, &c. This Salt greatly alleviates the inflammatory pains peculiar to married ladies, (before and at the time of confinement) and many female complaints, and is very efficacious in Fever, Ague, Rheumatism, and Spinal Affections, and any other forms of (mark this) inflammatory disease, attended with heat, pain or fibrile symptoms.

Persons who have a tendency of blood to the head or heart, or lead inactive lives, or breathe the impure air of manufactories and the poisonous fumes of metals and minerals, or live in unhealthy climates, are exposed to a particular violation of the fluids of the body, which one should be without interfering with the diet or business, once in three months, would invariably prevent. It is believed to afford protection from infectious diseases, and therefore travellers, sailors, and soldiers should supply themselves with it. While many nostrum-makers victimize the good natured and pill-ridden public, by ordering "from six to a dozen boxes of bottles, to cure a cold or headache," no matter what the ailment is, happy in being able to state, that the severest forms of recent inflammatory disease, was over come by one Acute package, and the most obstinate and long standing by one Chronic package. It does just what it claims to do—and no more, or less—equalizes the fluids by removing from the system all arterial and venous obstructions.

Please let your neighbors read this. F. COGGSWELL, M. D., DISCOVERER AND PROPRIETOR. For sale at the Cheap Drug Store of Samuel S. Smith, & Co., Huntingdon, Pa. Feb. 16th 1859.

ANTIPHLOGISTIC SALT; A Perfect Substitute For the Linctus, Leeches and Blisters!!!

When the undersigned, after a long series of laborious and costly experiments, became fully convinced in his conviction, that the Antiphlogistic Salt which he now has the happiness to present to the American public, was a PERFECT SUBSTITUTE for Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. This Salt greatly alleviates the inflammatory pains peculiar to married ladies, (before and at the time of confinement) and many female complaints, and is very efficacious in Fever, Ague, Rheumatism, and Spinal Affections, and any other forms of (mark this) inflammatory disease, attended with heat, pain or fibrile symptoms.

Persons who have a tendency of blood to the head or heart, or lead inactive lives, or breathe the impure air of manufactories and the poisonous fumes of metals and minerals, or live in unhealthy climates, are exposed to a particular violation of the fluids of the body, which one should be without interfering with the diet or business, once in three months, would invariably prevent. It is believed to afford protection from infectious diseases, and therefore travellers, sailors, and soldiers should supply themselves with it. While many nostrum-makers victimize the good natured and pill-ridden public, by ordering "from six to a dozen boxes of bottles, to cure a cold or headache," no matter what the ailment is, happy in being able to state, that the severest forms of recent inflammatory disease, was over come by one Acute package, and the most obstinate and long standing by one Chronic package. It does just what it claims to do—and no more, or less—equalizes the fluids by removing from the system all arterial and venous obstructions.

GROVER & BAKER'S MACHINES.

NEW STYLES—PRICES FROM \$50 to \$125 EXTRA CHARGE OF \$5 FOR REMEDIES.

495 Broadway, N. Y. 730 Chestnut St., Phila.

These Machines sew from two spools, as purchased from the store, requiring no re-winding of thread; they Hem, Fell, Gather and Stitch in a superior style, finishing each seam by their own operation, without recourse to the hand-needle, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for one cent an hour, and are, unquestionably, the best Machines in the market for family sewing on account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment.

As evidence of the unquestioned superiority of their Machines, the GROVER & BAKER SEWING MACHINE COMPANY beg leave to respectfully refer to the following TESTIMONIALS.

"Having had one of Grover & Baker's Machines in my family for nearly a year and a half I take pleasure in commending it as every way reliable for the purpose for which it is designed.—Family S wing.—Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent.

"I confess myself delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment,
