LOCAL INTELLIGENCE.

WHAT WE SEE AND HEAR.—A number of men have been engaged for some time past in putting in new ties on the Penn'a Railroad, through our borough.—Last week we had several refreshing showers, which were badly needed.—We noticed Chief Justice Lowrie and also Hon. Levi Kline in town last week.—Some boys of the genus "frags," amused themselves on Friday last, in drowning kittens in a barrel of water on Millin street.—The ordinance of the Lord's Supper was administered in the Presbyterian Church of this place, last Sabbath.—Everybody in town should go to the Springs at least once a week. We were there last week, and a "high old time" we had.—Whoever was so unfortunate as to lose a collar last Sabbath evening, can hear of it by calling on us.—The lady who favored us with that bouquet last Monday, will please accept our profoundest acknowledgments.—We challenge the world to produce a better assortment of girls than can be found in our town.—

We have been handed by the following anecdotes of the late Judge Burnside, which he assures us have never before been in print: On one occasion a very fat and a very thin man stood at the entrance of the Court Room, into which the Judge wished to pass. He stopped a moment for them to make way, but perceiving they were not inclined to move, he pushed between them, exclaiming, "Here I go, then, through thick and thin." Lawyer Mc—, on another occasion, was engaged in a cause before the Judge, and tormented a poor German witness so much with questions, that the old man declared he was so exhausted that he must have a drink of water before he could say anything more. Upon this the Judge called out to the teasing lawyer, "I think, sir, you must have done with that witness now, for you have pumped him dry."—Well arranged and beautiful to behold is Miss —'s flower basket.—Some kind soul has sent us a box of it, and with a "Please notice." Having no occasion to test the qualities of the article at present, of course we cannot pronounce upon its virtues. We recommend the manufacturer to send a little of it to our neighbor up town, as he is afflicted with political scratches very grievously. From the appearance of some of our young gents' heads, they too might be benefited.

A letter from Mr. H. Bucher Swoope, Esq., enclosing one from Mr. McDevitt, addressed to the President of the Standing Stone Literary Society of this place, has just been handed us, in reference to the notice made by us of the lecture on the Literature of the Bible, delivered by him in this borough last week, in which he positively denies having ever seen the address referred to, or ever having any knowledge of its existence until shown to him. We are bound, of course, with this assurance, to make the necessary correction, and regret having done him injustice, although the striking resemblance between certain portions of the two lectures must remain to us entirely inexplicable.

Since penning the foregoing, we have received the following card from Mr. McDevitt, and it will perhaps be more satisfactory to all parties than any explanation we can give, or anything else we can publish. It must be remembered our assertion was based upon a casual comparison of the two productions, one of which, it now appears, resembles the other in several particulars only as does one pair of well-resembling another dipped from the same well.

Mr. Editor.—Upon a careful examination of that portion of my address delivered some time since, and which was alleged by you to have been appropriated by Mr. Swoope in his lecture last week, I would say that although there appears to be a singular and almost unaccountable similarity existing between them as to style, order and language, enough perhaps upon a mere casual examination to warrant your assertion, yet this resemblance is purely nothing more than might occur under similar circumstances, and having since been assured by Mr. Swoope of his entire ignorance of the existence of my address, of which I am well satisfied, I can only attempt to account for it on the principle that the minds of great men occasionally flow in the same channel of thought, giving place to the same ideas as well as the same language. Hoping that this explanation may be satisfactory to all parties, I remain Yours truly, R. McDEVITT.

SENIOR'S SALES.—Sheriff Miller advertises the following property to be sold at the Court House in this borough, on Monday, the 11th day of August, proximo, to wit: Ten lots of ground with buildings thereon, in the town of Mt. Union, the property of Samuel Eby.

A two story frame dwelling house, in the township of Tod, the property of Patrick and John Burns.

A lot of ground in the borough of Birmingham, having thereon a two story frame house, known as the Hall of the Sons of Temperance. Sold as the property of the Birmingham Division of the Sons of Temperance of the State of Pennsylvania.

A lot of ground in the village of Newburg, Tod tp., with a one and a half story house thereon. Sold as the property of Amos Clark.

A tract of land in Cass tp., and a lot of ground adjoining the village of Cassville, the property of Geo. W. Spear.

Four tracts of land in Tod tp., the property of Michael J. Martin.

One acre of ground in Graysville, with a frame house and kitchen thereon, the property of Thos. Jacobs.

YOUNG MEN AND LADIES.—An exchange, in noticing the fact that several of our contemporaries are reminding the young men of their towns for standing on the street corners of evenings and staring at the ladies as they pass, says:—"Now we can see no great evil in looking at the ladies as they pass; besides there is no evidence that the ladies dislike to be looked at. We think they rather like it of the two, else why so often on the streets but to see and be seen? We'll venture a dish of strawberries and cream that if the young men were all out of town for a month, there would be very few young ladies' shoes wanting mending during that time." More than likely.

Hall's Journal of Health, which claims to be high authority in medical science, takes a stand against married people sleeping together, and thinks they had better sleep in adjoining rooms. It says that kings and queens do not sleep together, and why should other people? Well, Mr. Hall, if that arrangement suits you, just practice it, and "dry up" your talk. You needn't preach that doctrine in this "neck o' woods," for it won't take. Just think of separating a newly married couple on a winter night, because Hall's paper says so! It's all darned foolishness! and we protest against anything of the kind.

The frost has occasioned no scarcity of office seekers. Any body who wishes to have his name announced for anything in the gift of the people, can send it in, accompanied with the "almighty dollar," and we will warrant it a conspicuous insertion. Don't be bashful—if you think yourself competent and popular pitch in, but if you fall in getting the nomination sought for, don't get angry, but go to work for the ticket.

HARVEST HOME.—We spoke last week of the idea proposed by some of our farmers of a jubilee being held in this place, but as yet have not heard it settled definitely.

Come, ye thankful people, come, Raise the song of Harvest home! All is safely gathered in, Ere the winter storms begin, God our Maker doth provide, Ere we want hath all supplied: Come to God's own temple, come, Raise the song of Harvest home!

MISCHIEF.—We understand that several boys or young men living near this place, have been prosecuted for stowing the ten o'clock passenger train on the Pennsylvania Railroad, on Wednesday last, immediately below town. It is stated that several windows in the engine were broken, and that the engineer was struck on the head.

WARM WEATHER.—We have found it entirely too warm to attempt a weather article. The poet Clare expresses the idea in this fashion: The cricket on the bank is dumb; The very flies forget to hum; And save the wagon racking round, The landscape sleeps without a sound. The breeze is stilled, the lazy bough Hath not a leaf that daunteth now.

A GOOD MOYE.—A majority of the store keepers in town have determined upon closing their stores at 8 o'clock, P. M., from the present time until autumn. The storekeepers in all parts of the county might adopt the plan of early closing at this season of the year, as business is usually very dull at this time.

PROFOUND, VERY.—That "learned" statement in this week's Globe.

"I am Sir Oracle; And when I speak, let no dog open his mouth."

For the Huntingdon Journal.—According to previous arrangements the glorious Fourth was properly celebrated by the citizens of Fairfield and surrounding country. The sun rose clear and bright on that day, at an early hour the people began to flock into town, and at 10 o'clock the Sabbath School formed into procession, and escorted by the Jackson Guards of Ennisville, under command of Lieut. J. McIlroy, an officer of the war of 1812, and their guests, the Union Guards of Petersburg, marched to the Grove about a half mile from town, on the site of the Market House. The procession was nearly a quarter of a mile long, and was truly a grand sight. After arriving at the grove and being arranged in order, a prayer was offered to the Throne of Grace, after which a hymn was sung by the choir. The Declaration of Independence was then read by Master W. Hartman, in excellent style. Prof. Thompson, of Mooreville Institute, addressed the Sabbath Schools in an appropriate and eloquent manner, after which, H. T. White, Esq., of Huntingdon, the orator of the day, was introduced, and in a splendid style and eloquent language entertained the audience for nearly an hour. At the conclusion of the oration the crowd partook of a sumptuous dinner, prepared in a splendid manner by the ladies. After dinner, the military companies were addressed by D. J. Neff, Esq., and never have we listened to a more soul-stirring, patriotic address. At the conclusion the procession was formed, and returned to town, the oration of the different schools, etc., were dismissed. Nothing occurred to mar the festivities of the day, and all were delighted with the proceedings. In the evening, an excellent supper was served up at Troutville's Hotel, of which the young ladies and gentlemen partook.

Epilepsy, or Falling Fits. We believe we cannot do our readers a more important service, than by again calling their attention to that remarkable preparation, discovered by Dr. Seth S. Hance, of Baltimore Md., which possesses the power of alleviating and curing that horrid violation of nature—Epilepsy, or Falling Fits. In recommending this preparation to our readers, we do so with a conviction that we are not degrading our columns to puff a common patent medicine, but are placing before them a discovery, which, if fully known, would probably do more to alleviate human suffering, than any invention of modern times. Dr. Hance, in making his noble preparation favorably in our editorial department, has sent us for perusal a number of letters from persons who have used his Pills, and have been cured thereby. All of them speak in the most grateful and eulogistic terms.—One great advantage this medicine possesses is, that it does not irritate the bowels, thereby affording every one an opportunity of dealing directly with the inventor, and also precluding all possibility of being imposed upon by a counterfeit or spurious imitation. Dr. Hance pays the postage on all his Pills to any part of the country, and will forward them by return of mail, on receipt of a remittance. His prices are as follows: One box, \$2; two do., \$5; twelve do., \$24. All orders for the medicine should be addressed to SETH S. HANCE, 108 Baltimore street, Baltimore, Md.

1859. SPRING & SUMMER 1859. GETTING. The undersigned would respectfully call the attention of our friends and customers, as well as the citizens of the town and country generally, to our new and extensive assortment of READY-MADE CLOTHING, consisting of every article of gentlemen's furnishing goods. We deem it unnecessary to make a newspaper flourish, being confident that a call and an examination of our goods, will satisfy all, that our goods are just what we recommend them to be, well made, of good material, and as cheap as the same quality of goods can be bought in the county of Huntingdon. It is not our desire, as it is not the policy of honest men, to deceive, but this much we will say, that we will guarantee to all who may favor us with their patronage, entire satisfaction as to quality, fit and price. Should gentlemen desire any particular kind or cut of clothing, not found in our stock, by leaving their measures, they can be accommodated at short notice. Call at corner of the diamond, LONG'S new house. M. GUTMAN & CO. May 4, 1859.

MANSON HOUSE, Corner of Hill & Montgomery Streets, HUNTINGDON, PA. CHRISTIAN COUPEL, Proprietor. This stand is well known as the "McConnell House." The location is superior to any other, being in the immediate proximity to business, also to the Bank and most Public Offices. It is the determination of the Proprietor, to keep this House in a style satisfactory to the public, and it is his desire, to make all who patronize him, feel at home, and to make the "Mansion" rank among the best of Huntingdon Hotels. He very respectfully solicits the public patronage. Apr. 13th '59.

BOOTS AND SHOES. The subscriber respectfully announces to the citizens of Huntingdon and vicinity, that he has opened a shop on St. Clair street, in the east end of the town, where he is prepared to manufacture all articles in his line, on the shortest notice, and on reasonable terms. After a long experience in the Boot and Shoe business, I flatter myself that I can please those who give me their orders. Work done when promised in all cases. Huntingdon April 27 '59. C. WEAVER.

It always leaves you better than it finds you, and one bottle often cures entirely.

Afflicted Thirteen Years and Cured in One Week. Read letter from Rev. James Temple, Philadelphia, June 9th, 1856.

Prof. De Grath: I have been afflicted for thirteen years with Neuralgia and other painful complaints, and I have been unable to sleep soundly or walk any distance for many years past. Last week I got a bottle of your "Electric Oil." The first night I slept soundly and well, and to-day I am like a new man. My wife could not believe her eyes. Your Electric Oil has done in one week what the physicians of Philadelphia failed to do in thirteen years. Gratefully yours, REV. JAMES TEMPLE, 310 South Street.

DEAFNESS CURED. New Haven, May 19th, 1856. Prof. De Grath: My brother has been deaf three years. After trying many things, he used your Oil a few times, and it cured him entirely. There are several relations who are cured on the reputation that my article has acquired. The public must beware. They are worthless. For sale by S. S. Smith, Huntingdon. May 25 1859.

ANTIPHLOGISTIC SALT;

A Perfect Substitute For the Lancel, Leeches and Blisters!!!

When the undersigned, after a long series of laborious and costly experiments, became fully convinced in his conviction, that the Antiphlogistic Salt which he now has the happiness to present to the American public, was a PERFECT SUBSTITUTE for Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. This case of his agitation was the striking fact, that the manner of its operation, like that of the virus in vaccination, could not be satisfactorily explained upon any known principle. How, in what way, it so effectually subdued the Inflammatory Disease, and no others, was at first wholly inexplicable—but, further experiment, it was proved that it equalizes the fluids of the body, the want of an equilibrium in which, is the sole cause of inflammation. Such is its potency, that like the vaccine matter, it requires merely to be adhered to the point of application, and it is dissolved in a solution of it, to effect the entire decomposition and secure its full virtue. Three quills in acute, and seven in chronic inflammation, will be sufficient, and a perfect cure effected. When it takes the place of blisters, ointment and leeches in local affections, as Brain Fever, Croup, Pleurisy, Peritonitis, &c., its mode of administration is two-fold. (See direction of dissolving, &c.)

The discoverer has withheld it from the public till now, by the advice of a judicious physician, and a noble friend, who has been consulted by a gentleman known and felt in the medical world, and who desired to submit it to the test of experiment. After witnessing under his own scrutinizing eye, its signal triumph over both acute and chronic inflammatory diseases, he repeated and re-repeated trials, he offered \$25,000 to come in as a special and equal partner in the Recipe for its manufacture, but the proposal was rejected.

It dissolves the lancel and blisters, is demanded both by humanity and economy, and is not a mistake, to suppose that a kettle of boiling water (the inflamed blood) will cease to boil, by dipping out a part of it—(but blood) will be made to boil, by drawing a portion of it! Is it not a mistake, to suppose that blisters and rubefacients will remove inflammation, when they virtually superadd one inflammation to another? The case of Dr. B. Watson, of Harvard University, is said "I am sick of leeches quackery." One of the most eminent physicians in New England acknowledged just before his death, that "he has been doubting for many years, whether looting and bleeding were not more appropriate rather than the "arrest disease." Some who stand high in the Old and New School, have quite recently espoused his views and now openly confess, they believe the lancet, setons leeches and blisters go forth to the world, like the pure gold which they think there is a meaning to Deat. 12, 23—Gen. 9, 4—and Levit. 17, 14—that "THE BLOOD IS THE LIFE." It is not the excess of blood (there never is too much) that causes disease, but the want of a balance between the fluids and solids.

The special excellence of the Antiphlogistic Salt, is that without the useless loss of blood and strength, it effectually subdues inflammation, (and others) by producing an adequate equilibrium of all the fluids in the body and a consequent uninterrupted circulation. It exerts, like the vaccine matter, and extraordinary influence over the veins and arteries—resulting in a gradual decline of inflammation as indicated by the pulse, which assumes its natural state as the local pain and fever disappear.

Many medicines offered for sale, are backed by doubtful certificates, their chief virtue being to the world, like the pure gold dollar, with no other passport than its true value. If this public find it genuine, they will receive it—if spurious they will reject and condemn it. Instead of being a panacea for all ills, it has not cured even one ill—has not cured—accomplishes but one thing, to wit, SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat chest abdomen, extremities or skin. It is safe, and it is simply restoring the lost balance between the fluids and solids.

The following different forms which the unbalanced fluids assume, and may not here mention (as others are perfectly cured by the Antiphlogistic Salt, as fire is extinguished by water. 1. Cases where the unbalanced fluids affect the HEAD and THROAT—to wit; Brain Fever, St. Vitus's Dance, Inflammation of the Eyes, Catarrh of the Larynx, Hoarseness, Erysipelas, Catarrh of the Gout, Bronchitis, &c. 2. Cases where the unbalanced fluids affect the CHEST and ABDOMEN—to wit; Inflammation of the Lungs and Liver, Croup, Pleurisy, Pyloric Catarrh, Dropsy, Heartburn, Gravel, Piles, Gonorrhoea, Venereal, &c. 3. Cases where the unbalanced fluids affect the EXTREMITIES AND SKIN—to wit; Rheumatism, Gout, Sciatica, Chorea, St. Anthony's Fire, Chicken and Small Pox, Salt Rheum, with itching and other Cutaneous Affections, &c.

This Salt greatly alleviates the inflammatory pains peculiar to married ladies, (before and after the time of confinement) and many female complaints, and is very efficacious in Fever, Ague, Wounds, Nervous and Spinal Affections and any other forms of (mark this) inflammatory disease, attended with heat, pain or febrile symptoms.

Persons who have a tendency of blood to the head or heart, or lead inactive lives, or breathe the impure air of manufacturing and the poisonous fumes of metals and minerals, or live in unhealthy climates, are exposed to a particular vitiation of the fluids of the body, which one dose without interfering with the diet or business, once in three months, would invariably prevent. It is believed to afford protection from infectious disease, and therefore travellers, sailors, and soldiers should supply themselves with it.

While many nostrum-makers victimize the credulous and ill-riden public, by ordering "from six to a dozen boxes or bottles, to cure a mild malady," no matter what the undersigned is happy in being able to state, that the severest forms of recent inflammatory disease, have ever been cured by one Acute package, and the most obstinate and long standing by one Chronic package. It does just what it claims to do—no more, or less—equalizes the fluids by removing from the system all arterial and venous obstructions.

Plens let your neighbors read this. F. COGGSWELL, M. D., DISCOVERER AND PROPRIETOR. For sale at the Dispensary Store of Samuel S. Smith, & Co., Huntingdon, Pa. Feb. 16th 1859.

CROVER & BAKER'S

MACHINES.

NEW STYLES—PRICES FROM \$50 to \$125 EXTRA CHARGE OF \$30 FOR HEMMERS. 495 Broadway, N. Y. 750 Chestnut St., Phila.

These Machines sew from two spools, as purchased from the store, requiring no re-winding of thread; they Hem, Fell, Gather and Stitch in a superior style, finishing each seam by their own operation, without recourse to the hand-needle, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for one cent an hour, and are, unquestionably, the best Machines in the market for family sewing, on account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment.

As evidence of the unquestionable superiority of their Machines, the GROVER & BAKER SEWING MACHINE COMPANY beg leave to respectfully refer to the following TESTIMONIALS.

"Having had one of Grover & Baker's Machines in my family for nearly a year and a half I take pleasure in recommending it as every where suitable for the purposes for which it is designed—Family Sewing."—Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent.

"I confess myself delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."—Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate.

"After trying several different good machines, I preferred yours, on account of its simplicity, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it to every variety of family sewing."—Mrs. E. B. Spooner, wife of the Editor of Brooklyn Star.

"I have used a Grover & Baker Sewing Machine for two years, and have found it adapted to all kinds of family sewing, from Cambric to the heaviest Garments, and have worn out without the giving way of a stitch. The Machine is easily kept in order, and is easily used."—Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York.

"Your Sewing Machine has been in use in my family for two years, and on the ladies request me to give you their testimonials to its perfect adaptability, as well as labor-saving qualities in the performance of family and household sewing."—Robert Doorman, M. D., & Secretary of the Board of Health, New York.

"For several months we have Grover & Baker's Sewing Machine, and have come to the conclusion that every lady who desires her sewing beautifully and quickly done, would be most fortunate in possessing one of these reliable and indelible 'iron needle-worms,' whose costliness and the great value of their simplicity, are invaluable."—J. W. Morris, daughter of Gen. Geo. P. Morris, Editor of Home Journal.

Extract of a letter from Thos. R. Leavitt, an American gentleman, now resident in Sydney, New South Wales, dated January 12, 1858: "I have had two made in Melbourne, in 1853, in which there were over three thousand yards of sewing done with one of Grover & Baker's Machines, and a single seam of that has stood out all the double seams sewed by sailors with a needle and twine."

"If Homer could be called up from his murky haunts, he would sing the advent of Grover & Baker's as a more benignant, miracle of art than was ever Vulcan's smith. He would denounce midnight iron-making as 'the diabolical spirit of war unnumbered.'"—Prof. North.

DR. M'LANE'S

CELEBRATED VERMIFUGE AND LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to Dr. Chas. M'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.: THE VERMIFUGE, For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS, For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivalled, and never known to fail when administered in accordance with the directions. Their unprecedented popularity has induced the proprietors, FLEMING BROTHERS, PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to FLEMING BROS. Pittsburgh, Pa.

DR. HOOFLAND'S

GERMAN BITTERS, AND DR. HOOFLAND'S BALSAMIC CORDIAL.

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys, and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The Balsamic Cordial has acquired a reputation surpassing that of any similar preparation extant. It will cure, WITHOUT PAIN, the most severe Diarrhoea proceeding from Cold in the Bowels. These medicines are prepared by Dr. C. M. JACKSON & Co., No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. JACKSON will be on the outside wrapper of each bottle.

In the Almanac published annually by the proprietors, called EVERYBODY'S ALMANAC, you will find testimony and commendatory notices from all parts of the country. These Almanacs are given away by all our agents. For sale in Huntingdon by John Reid and S. S. Smith, and dealers generally through the county. [May 11, 1859.-ly.]
