STILL ANOTHER OPINION.

Poor old Mr. Cass! What a grand mistake he made in his decision in regard to our naturalized fellow citizens. It appears that the administration at Washington has ingloriously receded from the position it had assumed in the Cass-Le-Clerc letter.

The Delegate Meetings.

It will be noticed by the call of the chairman of the County Committee, that a slight correction is made therein, in this number, in relation to the hours of holding the delegate meetings.

It Wud na' Work.

Chief Justice Taney, the hoary-headed smart old gentleman who says that human beings are "chatties," when covered with a black skin, has decided that a slave, though "subject to the same laws as other property," can yet commit felony, and declines, accordingly, to reverse the sentence against the slave girl Amy, for robbing the United States mail in Virginia.

Beautiful Financiering.

It is stated in the New York papers that a railroad, leading from Hollidaysburg, Pa., to the Sunbury and Erie road, has lately suffered a loss of \$180,000 in its bonds, by falling into bad hands in New York City.

HOME MAGAZINE.

The August number of this excellent periodical is now before us. This book is published in Philadelphia at \$2 a year.

SUBSTITUTE FOR IMPRISONMENT.

A correspondent of The Cincinnati Commercial writes from Jefferson County, Texas; "This is not a county seat, but it is necessary to have some place of confinement for criminals; and as a substitute for a jail, the people have provided a large stone, weighing over three tons, placed in the public square, with a large iron ring and long iron chain fastened to it, and when a poor fellow commits a crime, and the sentence is imprisonment, he is fastened to this chain by the ankle, and there remains until he dies; but if his crime be light, and he had previously borne a good character, the Judge in his mercy often allows him to carry an umbrella to protect him from the rain and storm."

A WORD TO WORKING-MEN.

When, in the history of our country, have we felt a greater depression of business, of the manufacturing interests, especially, than at present and for the past few years? As a natural consequence of this state of business stagnation, manual labor is begging employment, and industrious citizens are reduced to want.

The Wounded at Solferino.

I am afraid to venture upon any conjecture as to the number of the killed and wounded in this battle; but from the nature of the case it must be enormous. I am confident that not less than 10,000 wounded have been brought into this village alone during the day, to say nothing of those that were left on the field or taken to other places.

DIED.

In this place on the 23d inst., Mr. J. A. Hall, in the 44th year of his age. The deceased was born in Adams county, in this State, and had for the last 15 years resided in this county.

The Sunbury American, an Old Democratic paper, has posted the names of Cochran and Keim to its editorial head, as well as those of Wright and Rowe. The editor finds the Buchanan administration indefensible, and takes this method of showing his indifference as to what he thinks of it and its candidates.

Latest News from Europe.

On the 7th inst. the Emperor Napoleon telegraphed to the Empress that an armistice had been agreed upon and on the 8th it was signed at Villa Franca by Gen. Hess and Marshal Vaillant.

The Paris Monitor cautions the public against misunderstanding the armistice, and says that negotiations may recommence, but does not see how the war may be terminated.

The London Times believes in peace. It says that it is well authenticated that the proposals came from France, indicating a good feeling moderation, or else the necessity of the French, but does not believe it was the latter.

The armistice has caused much excitement. Consols advanced 1/2 of 2 per cent, and on the Paris Bourse the advance was 2 1/2. The other Continental Bourses all advanced materially. The Austrian funds at Frankfurt rose 10 per cent.

Prior to the declaration of the armistice, the Sardinians proceeded vigorously in the siege of Peschiera; but this and other movements have now lost their interest.

In the Federal Diet, on the 7th inst., Austria proposed to mobilize the whole Federal Contingent and request the Prince Regent of Prussia to assume the command in chief.

An extraordinary cloudburst took place on Friday, the 23d inst., in New York, on the 4th. Two juveniles, named Isaac Calkins and Mrs. Polly Burgess, each about 80 years of age, stole away at ten o'clock at night and were married by the Rev. Mr. Keeler.

THE LATE RAILROAD DISASTER.—W. J. Hawkes, of Charleston, Va., in giving an account of the disaster upon the Michigan Southern Railroad, in which 40 persons were killed, after stating that he was a passenger, and that he was swept forty yards down the stream from where the train was precipitated into it, says: "On reaching the shore I stumbled over a man—turned and found him alive—I asked him his name. He replied 'Walworth.' I could not raise him, but he was taken for assistance, passing ten or twelve dead bodies on the beach. Arriving at the wreck, I found some one had procured a light—returning and found Walworth dead. He was a large, fine looking old gentleman. I afterwards assisted his son in his last moments. The first thing that arrested my attention on entering the car that I had left was that I was standing on a pile of dead bodies. One man I thought alive and gazing into my face. I turned the lamp around, and the glazed eye of death told me that all was over. A lady had her arm clasped around his neck, with a frightful wail in her head, her feet caught and crushed in the wheels of the car. At their feet lay a beautiful boy, with his head severed from his body as close as I could have been done by the guillotine. Some were just in the pangs of death. Others caught and crushed by the falling timbers begged me to kill them and put them out of their misery. There was a lady going to meet her husband with her daughter, six years old, and a baby in her arms. The mother had a little girl we killed. The mother had clasped the babe in such a manner that it was unhurt. The ground was strewn with heads, arms, legs and dead bodies. I saw several with their backs broken and their lower limbs paralyzed, writhing in the sand. Some of them would clutch me as I passed with a grasp from which it was almost impossible to free myself. Several beautiful boys and girls were taken from the water and laid upon the bank. They were drowned, but looked beautiful in death. Others were crushed between the wheels, and their faces as I hands turned up in a supplicating manner. I passed a woman who 'begged me to find her children.' She was crying, 'Oh! find my children! Oh! my children!' Both of her legs were crushed off below the knee. She lived ten or fifteen minutes. I afterwards assisted in taking two of her children from the wreck. Dead. Two more fine boys of hers were found—one with his leg cut off; the other had lost an arm, and both were living when I left."

Epilepsy, or Falling Fits.

We believe we cannot do our readers a more important service, than by again calling their attention to that most remarkable preparation, discovered by Dr. Sels S. Hance, of Baltimore Md., which possesses the power of alleviating and curing that horrid visitation of man—Epilepsy, or Falling Fits. In recommending this preparation to our readers, we do so with a conviction that we are not degrading our profession by putting a common patent medicine, but a remedy before them, which, if judiciously used, would probably do more to alleviate human suffering, than any invention of modern times. Dr. Hance, in asking us to notice his preparation favorably in our editorial department, has sent us for perusal a number of letters from persons who have used his Pills, and have been cured thereby. All of them speak in the most grateful and eulogistic terms.—One great advantage this medicine possesses is the fact, that it can be transported through the mails, thereby affording every one an opportunity of dealing directly with the inventor, and also precluding all possibility of being imposed on by a counterfeit or spurious imitation. Dr. Hance says the postage on all his Pills to any part of the country, and will forward them by return of mail, on the receipt of a remittance. His prices are as follows: One box, \$2; two do., \$5; twelve do., \$24. All orders for the medicine should be addressed to SELS S. HANCE, 108 Baltimore street, Baltimore, Md.

ANTIPHLOGISTIC SALT;

A Perfect Substitute For the Linctus, Leeches and Blisters!!!

When the undersigned, after a long series of laborious and costly experiments, became fully convinced in his conviction, that the Antiphlogistic Salt which he now has the happiness to present to the American public.

PERFECT SUBSTITUTE For blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact, that the manner of its operation like that of the virus in vaccination, could not be satisfactorily explained upon any known principle. How, in what way, its effectually subdued inflammatory disease and no other, was at first wholly inexplicable—but, on further experiment, it was proved, that it equalizes the fluids of the body, the want of an equilibrium in which is the sole cause of inflammation. Such is its potency, that like the vaccine matter, it requires merely to adhere to the point of a quill dipped into a solution of it, to effect the entire completion and secure its full virtue. Three quills in acute, and two in chronic diseases, every 24 hours, till the heat, pain and febrile action have subsided, and a perfect cure effected. When it takes the place of leeches, in Brain Fever, Croup, Toothache, Pleurisy, &c., its mode of administration is two-fold. (See direction of dissolving, &c.)

The discoverer has withheld it from the public till now, by the advice of a judicious physician and valuable friend who consulted—a gentleman known and felt in the medical world—and who desired to submit it to the test of experiment. After witnessing under his own scrutiny, all the local inflammations, in repeated and re-repeated trials, he offered \$25,000 to come in as a special and equal partner in the Recipe for its manufacture, but the proposal was rejected.

The disease of the linctus and blisters, is demanded both by humanity by humanity and science. It is not a mistake, to suppose that a kettle of boiling water (the inflamed blood) will cease to boil, by dipping out a part of it; a cask of oil, when the oil (blood) be made good, by drawing a portion of it? Is it not a mistake, to suppose that blisters, and rubefacients will remove inflammation, when they virtually superadd one inflammation to another? The late Dr. B. Waterhouse, of Harvard University, said "I am sick of leeches quackery." One of the most eminent physicians in New England acknowledged just before his death, that "he has been doubting for many years, whether blood-letting and blisters did any more good than arrest disease." Some who stand high in the Old and New School, have quite recently espoused his views and now openly confess, they believe the linctus, actions leeches and blisters injure, where they benefit others. They think there is a meaning to Deut. 12, 23—Gen. 9, 4—and Levit. 17, 14—that "THE BLOOD IS THE LIFE." It is not the excess of blood (there never is too much) that causes disease, but the want of a balance between the fluids and solids.

The special excellence of the Antiphlogistic Salt, is that without the useless loss of blood and strength, it effectually subdues inflammatory disease, (no others) by producing an equilibrium of all the fluids, and its nature is a consequent uninterrupted circulation. It exerts, like the vaccine matter, and extraordinary influence over the veins and arteries—resulting in a gradual decline of inflammation as indicated by the pulse, which has assumed its natural state as the best man any fever disappear.

Many medicines offered for sale, are backed by doubtful certificates, (their chief virtue) and claim to be universal remedies, curing all manner of diseases, and are sold at a high price, with no other passport than its true value. If the public find it genuine, they will receive it—if spurious, they will reject and condemn it. Instead of being a panacea for all ills, it has controlled ever but one inflammation—accomplishes but one thing, to wit, to cure INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat chest abdomen, extremities or skin. It is asked, how it does this—simply by restoring the lost balance between the fluids and solids.

The following different forms which the unbalanced fluids assume, and many not here mentioned, that have more or less heat, pain or fever, are cured by the Antiphlogistic Salt, in the following manner: 1. Cases where the unbalanced fluids affect the HEAD and THROAT—to wit, Brain Fever, Fits, Headache, Inflamed Eyes, Ears and Nose, Gout, Neuralgia, Erysipelas, Catarrh, Croup, Diphtheria, &c.

2. Cases where the unbalanced fluids affect the CHEST and ARTERIES—to wit; Inflamed Lungs and Liver, Croup, Pleurisy, Cough, Whooping Cough, Asthma, Dropsy, Heartburn, Gravel, Dropsy, Gout, Rheumatism, &c.

3. Cases where the unbalanced fluids affect the EXTREMITIES and SKIN—to wit; Rheumatism, Gout, Scrofula, Ulcers, Chilblains, Chilblains, Chicken and Small Pox, Salt Rheum, with itching and other eruptions, and all the inflammatory pains peculiar to married ladies, (before and after the time of confinement,) and many female complaints, and is very efficacious in Peter, Ague, Wounds, Nervous and Spinal Affections, and another form of (mark this) inflammatory disease, attended with heat, pain or febrile symptoms.

Persons who have a tendency of blood to the head at heart, or lead inactive lives, or breathe the impure air of manufactories and the insubstantial climate of inland cities, which one day is healthy, and the next day is fatal, which one does without interfering with the diet or labor, prevent, it. It is believed to afford protection from infection, and soldiers should supply themselves with it.

While many nostrum-makers victimize the good natured and pill-ridden public, by ordering "from six to ten boxes of bottles, to cure any malady," no matter what the disease, designed is happy in being able to state, that the severest forms of recent inflammatory disease, was over come by one Acute package, and the most chronic, by one Chronic package. It claims to do—and no more, or less—what it does, the fluids by removing from the system all arterial and venous obstructions.

Please let your physician read this. F. COGGINS, DISCOVERER AND PROPRIETOR, S. Smith, & Co., Huntingdon, Pa. Feb. 16th 1859.
