

POETRY:

GOD NEVER MADE A SLAVE.

BY L. BLACK.

Columbia's sons, tho' slaves ye be, God, your Creator, made you free; He life to all a'd being gave, But never, never made a slave.

His works are wonderful to see, And all proclaim the Deity; He made the earth and framed the wave, But never, never made a slave.

He made the skies with spangles bright, The moon to shine by silent night, The sun—and made the vast concave, But never, never made a slave.

All men are equal in his sight, The bond, the free, the black, the white; He made them all, them freedom gave, He made the man, man made the slave.

MISCELLANY:

A Thrilling Romance.

CHAPTER I. She stood beside the altar, with a wreath of orange buds upon her head; upon her back the richest kind of duds; her lover stood beside her with white ruds and dicky clean; the last was twenty-one years old, the first was seventeen.

The parson's job was over, every one had kissed the bride, and wished the young folks happiness, and danced, and laughed and cried. The last kiss had been given, and the last word had been said, and the happy pair had shimmered down and sought the bridal bed.

CHAPTER II. She stood beside the wash tub, with her red hands in her suds, and at her slip-hods feet there laid a pile of dirty duds; her husband stood beside her, the cross-stem man alive; the last was twenty-nine years old, the first was twenty-five.

GENERAL WASHINGTON IN A TIGHT PLACE.—There is a fine equestrian statue of Washington in Union Square, New York City. It was placed there by private subscription on the part of the wealthy citizens living in that vicinity.

SICKLES AND HIS SEAT.—The New York correspondent of the 'Ledger' says: A great deal of nonsense is afloat in some of the papers, respecting the relations of Hon. Daniel E. Sickles, M. C. elect from the Third Congressional District, and Mr. Williamson, pre-priator of the 'Sunday Dispatch,' who was his competitor in the race for Congressional honors.

A Scotchman and an Irishman were sleeping at an inn together. The weather being rather warm, the Scotchman in his sleep, put his leg out of bed. A traveler, in passing the room door, saw him in this situation, and having a mind for a frolic, gently fixed a spur on Sawney's heel, who, drawing his leg into bed, so disturbed his companion, that he exclaimed:

'Arrah, honey, have a care of your great toe, for you have forgot to cut your nails, I believe!' The Scotchman being sound asleep, still kept on scratching Pat, till his patience being spent, he succeeded in rousing Sawney, who, not a little surprised on finding the spur on his heel, loudly exclaimed:

'How dumb the dale chiel of an 'ostler, he's ta'en my boots off last night and left on the spur.'

The Hartford Times gives vent to the pent up genius of a scholar of that city who astonished his schoolmates by the following composition:—Once upon a time there was a profit named Elisha, who was walking out one day, when some boys made profane and faceshous remarks on his bawled head, whereupon, he caused 2 she bears to devour the small boys. This was the first time that a man was ever known to bear children. Moral.—Use Barry's try-koferous.

ANTIPHLOGISTIC SALT;

A Perfect Substitute For the Lancel, Leeches and Blisters!!!

When the undersigned, after a long series of laborious and costly experiments, became fully confirmed in his conviction, that the Antiphlogistic Salt which he now has the happiness to present to the American public, was

PERFECT SUBSTITUTE for Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact, that the manner of its operation like that of the virus in vaccination, could not be satisfactorily explained upon any known principle.

How, in what way, it so effectually subdues Inflammatory Diseases and no others, was at first wholly inexplicable—but, on further experiment, it was proved that it equalizes the fluids of the body, the want of an equilibrium in which, is the sole cause of inflammation. Such is its potency, that like the vaccine matter, it requires merely to be applied to the point of a quill dipped into a solution of it, to effect the cure of the system—but must be instantly used to prevent decomposition and secure its full virtue.

Three quills in acute, and two in chronic diseases, every 24 hours, till the pain and fever be removed, and a perfect cure effected. When it takes the place of blisters, ointment and leeches in local affections, as Brain Fever, Croup, Toothache, Pleurisy, &c., its mode of administration is two-fold. (See direction of dissolving, &c.)

The discoverer has withheld it from the public till now, by the advice of a judicious physician and valuable friend who he consulted—a gentleman known and felt in the medical world—and who desired to submit the cure effects to experiment. After witnessing under his own scrutinizing eye, its signal triumph over both acute and chronic inflammatory diseases, in repeated and re-pepeated trials, he offered \$25,000 to any one who could equal or surpass the Recipe for its manufacture, but the proposal was rejected.

The disease of the lancet and blisters, is demanded both by humanity by humanity and science. It is not a mistake to suppose that a kettle of boiling water (the inflamed blood) will cause to boil, by dipping out a part of it—or a cask of bad cider (bad blood) be made good, by drawing a portion of it. It is not a mistake, to suppose that blisters and rubefacients will remove inflammation, when they virtually superadd one inflammation to another? The late Dr. W. Waterhouse, of Harvard University, said "I am sick of learned quackery." One of the most eminent physicians in New England acknowledged just before his death, that he had been doubting for many years, whether blood-letting and blisters did not aggravate rather than remove disease. Some who stand up for the Old and New School, have not only recently exposed his views and have openly confessed, they believe the lancet, setons leeches and blisters injure ten where they benefit one.

They think there is a meaning to Deut. 12, 23 "Thou shalt not eat the blood of the creature which thou eatest." It is not the excess of blood (there never is too much) that causes disease, but the want of a balance between the fluids and solids.

The special excellence of the Antiphlogistic Salt, is that without the useless loss of blood and strength, it effectually subdues inflammatory diseases, (no others) by producing an equilibrium of all the fluids in the body and a consequent anti-inflammation. It exerts, like the vaccine matter, an extraordinary influence over the veins and arteries—resulting in a gradual decline of inflammation as indicated by the pulse, which assumes its natural state as the heat, pain and fever disappear.

Many medical practitioners, for sale, are backed by doubtful certificates, (their chief virtue) and claim to be universal remedies, curing all maladies—a butesque on common sense. As the discoverer of Salt, solemnly protests against its use, it is placed in the category of frauds and impostures. He has resolved that it shall go forth to the world, like the pure gold dollar, with no other passport than its true value. The public who get genuine, they will receive its benefits, they will reject and condemn it. Instead of being a panacea for all ills, it has control over but one ill—has but one aim—accomplishes but one thing, to wit, SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. It is asked, how it does this—simply by restoring the lost balance between the fluids and solids.

The following different forms which the unbalanced fluids assume, and may be quite mentioned that have more or less heat, pain or fever (no others) are as perfectly cured by the Antiphlogistic Salt, as fire is extinguished by water.

1. Cases where the unbalanced fluids affect the Head and Throat, as Headache, Stomach, Fits, Headache, Inflamed Eyes, Ears and Nose, Canker, Neurologia, Erysipelas, Catarrh, Croup, Bronchitis, &c.

2. Cases where the unbalanced fluids effect the Chest and Lungs, as Pleurisy, Coughs, Dyspnoea, Asthma, Dropsy, Heartburn, Gravel Piles, Gonorrhoea, Venereal, &c.

3. Cases where the unbalanced fluids effect the Extremities, as Rheumatism, Gout, Sciatica, Ulcers, Chilblains, Chilblains, Chicksen and Small Pox, Salt Rheum, with itching and other Cutaneous Affections, &c.

This Salt greatly alleviates the inflammatory pains peculiar to married ladies, (Ovarian, &c.) at the time of confinement and many female complaints, and is very efficacious in Fever, Ague, Wounds, Nervous and Spinal Affections and any other forms of (mark this) inflammatory disease attended with heat, pain or febrile symptoms.

Persons who have a tendency of blood to the head or heart, or lead inactive lives, or breath the impure air of manufactories, and the poisonous fumes of mines, or live in unhealthy climates, are exposed to a particular vitiation of the fluids of the body, which one dose without interfering with the diet or business, once in three months, would invariably prevent. It is held to be a most valuable and infectious disease, and therefore travellers, sailors, and soldiers should supply themselves with it.

SUFFERING HUMANITY READ THIS! The undersigned takes this Method of informing the public generally, that there is no medicine now offered to the public that is equal to DU VALL'S GALVANIC OIL in relieving suffering humanity.

I was an observer of its effects in a friend of mine who suffered almost to paralyze from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful part, and gave some inwardly, and in 20 minutes the patient was asleep, and when awaked was free from pain, and continued so.—This is a positive fact which I am willing to make good at any time. A case of FEVER was cured in nearly the same length of time. J. H. HARR, Centre Hill, Centre county, Aug. 18, 1858—ly.

Green Willow Foundry. I WOULD respectfully inform the public that I have commenced business at the above place, and will be ready to accommodate all who may want anything in my line of business. I will have on hand or make to order Threshing Machines, and all other machinery that may be called for. Castings of every description, Cook, Furnaces, Plovers, Hollow ware, &c.—All kinds of Turning, either wood or iron, and Blacksmithing will be done in the best manner and on the most reasonable terms. Farmers and others wishing to purchase new machines will do well to their advantage to give me a call. All kinds of Country produce taken in exchange at market prices. PETER TIPPERY, Waterstreet, Oct. 13, 1858—ly.

THE Passenger train on the H. & B. T. railroad leaves Huntington as follows: 7 30 A. M. 3 P. M.

HUNTINGDON HOTEL. The subscriber respectfully announces to his friends and the public generally, that he has leased that old and well established TAVERN known as the Huntington House, on the corner of Hill and Charles Street, in the Borough of Huntington.

He has recently put the house through a thorough course of repairs, and is now equal to any in this place. His TABLE will always be stored with the best the season can afford, to suit the tastes and appetites of his guests. The Bar will always be filled with Choice Liquors, and his STABLE always attended by careful and attentive Ostlers. He hopes by strict attention to business and a spirit of accommodation, to merit and receive a liberal share of public patronage. Sept. 15, 1858—ly. P. McATEER.

HUNTINGDON WARM SPRINGS.

The Warm Springs at the base of Warrior-Ridge, five miles north of Huntington, overlooking Standing Stone Creek, and surrounded by romantic hills and woodlands, have been leased by the former proprietor of the Leamer House. The extensive Hotel buildings, bath houses, &c., erected at great expense by General A. P. Wilson, have been completed—and the groves have been beautifully laid out and adorned.—The Hotel parlors and chambers airy and comfortably furnished; and the prospect, from the verandas, cannot be excelled.

For half a century, these Springs have been celebrated for their medicinal qualities, and the great nature of the waters in rheumatic and chronic affections. The temperature of the water being 64 degrees, renders the bathing delightful and invigorating. In the surrounding woods and mountains, game abounds, and the finest fish are caught in Stone Creek. Persons in pursuit of health or pleasure, will find this a most delightful and healthful retreat; and its nearness to the Pennsylvania Railroad, and the cheapness of the rates charged guests, give it a decided advantage over any other watering place in the State.

The Proprietor has had years of experience in the business and no pains or trouble will be spared to make guests comfortable. Hacks run from Huntington to Warm Springs on the arrival of the Railroad trains, fare 25 cents. Families accommodated at moderate rates. JOHN R. HERR, Proprietor. Warm Springs near } Huntington, June 5th }

THE HUNTINGDON M J L.

THE undersigned owners of the Huntington Mill, inform farmers and the public generally, that they now have their new mill in running order, with all the modern improvements in the water wheels and machinery.

They have put in five of the Improved Jovall Turbine Water Wheels, and can grinding all stages of the water, and during the wet weather, any and all kinds of grain. They are prepared to sell, and have on hand for sale at all times, at market rates, all kind of FLOUR, FEED AND STUFFS, and farmers can have their own grain ground, and take it back in a return load, or they can be furnished in exchange at a moment's notice an equal quantity of Flour and Bran or chopped feed.

THE SHUT MACHINE is of an improved manufacture; and they will insure a FULL TURN OUT of superior quality to every bushel of grain left at their mill. FISH & L. McCURRIE, N. B.—The Buckwheat stones are not quite ready. Huntington, December 10, 1858.

STAGE LINE FROM Chambersburg to Mt. Union

The undersigned aware that a suspension of the line of Stages over the road between Chambersburg and Mt. Union, cannot be but disadvantageous to a large section of the country, has, at a considerable expense and trouble made arrangements to run a line of Stages Tri-weekly between the two points. Good Horses and comfortable Stages have been procured on the route, and experienced and trusty drivers will superintend the running of the Coaches. The proprietor of the line is desirous that it be maintained, and he therefore calls upon the public generally to patronize it. It is clear that it will be for their mutual advantage. Every attention necessary will be given, & the running of the Stages will be regular.

Stages leave Mt. Union, every Tu. day, Thrus. and Saturday evenings, arrive at Chambersburg the next day at 2 o'clock. Returning, leave Chambersburg, the so. e next at 10 o'clock, arriving at Mt. Union, every evening in time for the cars. Between Mt. Union and Shade Gap the line will be daily, & Fare through for \$3; to intermediate points in proportion. JOHN JAMISON, Jan. 20th, 1858—ly

12 PREMIUMS. Drawn all the premiums in Pittsburgh for the past three years, also in Eastern and Western Cities, for the best Writing. NOT ENGRAVED WORK. Important Information. Students enter at any time—No Vacation—Time unlimited—Review at pleasure—Graduates assisted in obtaining situations—Tuition for Full Commercial course \$35.00—Average time 8 to 12 week—Board, \$2.50 per week—Stationary, \$6.00—entire cost, \$60.00 to \$70.00.

Ministers' Sons received at half price. Card—Circular—Specimen of Business and Ornamental Writing—inclose two stamps and address F. W. JENKINS, Sept. 29, 1858.—ly. Pittsburgh, Pa.

"JOURNAL" JOB OFFICE. Premiums awarded "JOURNAL" of office at the late County FAIR, for the best CARD, BLANK AND FANCY PRINTING. Having recently received from the Eastern Cities, a FAST POWER PRESS, and a large variety of the most fashionable Printing Material, which makes it one of the most complete Printing Establishments in this section. Persons in want of any kind of PLAIN OR FANCY work, cannot do better than favor us with their patronage. We have facilities for executing in a superior manner any kind of PRINTING IN COLORS on the most reasonable terms. Those who may wish to obtain any style of ORNAMENTAL POSTERS can be accommodated at this establishment at short notice.

NEW EVIDENCE. Being afflicted with a grievous Tetter on the arms and face—after trying many remedies which utterly failed to cure—was persuaded by W. M. HARRIS & Co. to try Lindley's Improved Blood Searcher; and now, six-weeks after finishing the s. o. bottle, pronounce myself cured.

The tetter broke out, something over a year ago, on the inside of my arms, extending from the elbows down to the wrists; also on my face immediately round the mouth and chin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, at times, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so itchy that I could scarcely prevent tearing off my flesh. I have now been cured six weeks and feel it due to Mr. Lindley, and to the public generally, to make it known, in the hope that others like myself may be benefited by using his valuable medicine.

Sworn and subscribed before me, one of the Aldermen in and for the City of Pittsburgh, the 28th day of July, A. D. 1858. AND McMASTER, Alderman. Hollidaysburg, Sept. 22, 58—ly.

THE GREAT PURIFIER!

THE WORLD CHALLENGED! TO PRODUCE ITS EQUAL!

GLORIOUSLY TRIUMPHANT! Sworn statement of David McCreary, of Napoleon Township, Bedford county.

In April, 1855, as near as I can remember a small pipe made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue virol, without effect. Finding the swelling extending I called on Dr. J. Schenck, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davisville, Somerset county, who also pronounced the disease Cancer and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the progress of the disease, but soon increased. I next called upon Dr. Stadler of St. Clairsville, Bedford county, who also pronounced the disease to be Cancer, and applied a Salvo which was of no avail. I then called on Dr. H. S. Newton of the Electric Medical College. He pronounced the disease a "cutaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment, and gave me internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night. Late in May I returned to the Cincinnati, and again called on Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there still three discharging ulcers upon my face. I continued using Dr. Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had eaten off the left side of my nose, the greater portion of my left cheek, and had attacked my left eye. I had given up all hope of ever being cured, since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858, I bought a bottle of "Blood Searcher," but I must confess I had no faith in it. It was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by
